The difficulty with this table is that it does not include all of the building trades and that it does include numbers of men not engaged in building. In some of the groups, particularly carpenters, plumbers and steam and gas fitters, and electricians, men are included who are employed in shops and not in building construction. The item for electricians is particularly misleading as it includes automobile

electricians, a large variety of men engaged in electrical manufacture and apparently some of the line men. The item of laborers is very unsatisfactory as it includes a class entitled "general and not specified," which means that this group has been used as a dumping ground for all laborers, the exact nature of whose work was not indicated on the census returns.

BIDS ASKED TO COMPLETE SACRAMENTO FILTRATION PLANT

Bids will be considered by the Sacramento City Commissioners on September 7 for the completion of the intake pier, bridge and bridge piers, intake conduits and appurtenances of the Sacramento Filtration project, known as Contract No. 25.

More than a year ago this piece of construction was started by the Coast Construction Company of San Francisco, and was a part of its general work for completing the pumping portion of the plant. This particular piece of work, namely, the completion of the intake conduits, was a very difficult portion and dragged along for nearly a year, during which time the Coast Construction Company developed a plan for completing the intake conduits by a pneumatic tunnel scheme. After driving the tunnels for a distance of about 200 feet a dispute arose between the contractors and the city which ended in arbitration proceedings and the cancellation of the contract. This stopped all work on tunnels.

The work proposed consists in constructing approximately 1000 lin. ft. of twin bore concrete conduit, 5 feet in internal diameter and extending from the present pumping station to the intake pier in the Sacramento river, about 100 feet out from the shore line. The tunnels are approximately 33 feet below the present ground surface and at the present time would be 17 or 18 feet below ground water. In addition to constructing and completing the tunnels there remains to be done a small amount of work to complete the intake pier and also the construction of a bridge pier and bridge abutment and the erection of a steel suspension foot bridge. The materials for the foot bridge are on hand and will be furnished to the contractor. Forms and reinforcing steel for completing the intake pier and the bridge piers are also available.

The work for which bids are now desired involves two propositions: (1) completing the intake conduits along the lines originally planned, that is, completing the conduits of concrete under ground and under water; (2) the construction of these intake conduits by the use of steel siphon pipe, encased in concrete and laid in such a manner that only a very small portion of the pipes extend below ground water, the larger portion being laid at an elevation considerably higher than the present ground water plane.

All construction in connection with the Sacramento Filtration Plant is being carried on under the supervision of Geo. J. Calder, resident engineer for the project.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

PACIFIC COAST BUILDING ACTIVITIES

	July, 1922	July, 1921
Fresno	\$ 270,258	\$ 202,406

Construction of a monorail railway between Sierra Madre and Mt. Lowe, through the Big Santa Anita Canyon and across Mt. Wilson, is projected, according to announcement by W. H. Shepherd of Los Angeles, president of the Monorail Transit Co. A single steel rail for the track will be supported on a timber structure, the engine and cars straddling the rail, the load being divided with the center of gravity below the rail. Ford motors will be used for propulsion, and it is claimed will take grades up to 16 per cent. Cost of the road is estimated at about \$3500 a mile.

J. F. Pope, formerly chairman of valuation of the Southern Pacific Company, has been appointed consulting valuation engineer of the company's Pacific System, effective immediately. C. E. B. Welles, Supervisor of land valuation, has been appointed engineer of land valuation with jurisdiction over land valuation work. J. H. Baker, office engineer, valuation department, has been appointed assistant engineer of valuation with jurisdiction over engineering valuation matters. J. Pope, Welles and Baker will continue to make their headquarters in San Francisco.

Moore Shipbuilding and Drydock Co. of Oakland has filed new articles of incorporation and will hereafter be known as the Moore Drydock Co. It is incorporated for \$3,000,000 and its principal place of business will be in Oakland and San Francisco. It will engage in general shipbuilding, repair and salvage work. Among the incorporators are Joseph A. Moore, Ira S. Lillick, L. H. Cromwell, R. S. Shainwald and Theodore Levy.

U. S. Civil Service Commission announces examination will be held Sept. 6 for the positions of technical assistant in sanitary engineering, junior assistant sanitary engineer and assistant sanitary engineer. Position of technical assistant in sanitary engineering pays \$1500 to \$1800; junior assistant sanitary engineer, \$1960, and assistant sanitary engineer, \$2500, \$3000, \$3350 and \$3250 per annum. Apply to offices of commission for Form 1312 stating examination desired.

A. C. Tonnell, Turlock contractor, lost a suit for \$3387.50 in the Superior Court against the Turlock Union High School District. Tonnell was the contractor for laying the foundation for the new school, but before the work was completed it was found that the contract was not in conformity with the law and work was stopped. Tonnell then sued the school board for damages, the suit being started in January, 1920.

Open competitive examinations are announced by the Los Angeles county civil service commission for the following positions in the road department: Senior road construction engineer, salary \$210 to \$225 a month, at 8 a. m., Sept. 15. Bridge construction man (wood and steel), salary \$7 per day, at 8:30 a. m., Sept. 18. Pile driver man, salary \$5.50 to \$6.50 per day, at 8:30 a. m., Sept. 16. Application blanks may be obtained at room 1007 Hall of Records.

W. F. Heffinger and A. A. Tibbe of Oakland, Cal., are conferring with the Nevada City, Cal., Chamber of Commerce regarding the establishment of a plant to extract oil from pine needles. The oil is used in the manufacture of candy, toilet soaps and various medicines, and the needles, after the extraction of oil, are used for filling for mattresses.

To supplement the highway bond issue of 1919, which was insufficient to complete the Fresno county highway system, the Fresno county supervisors have tentatively agreed upon a direct tax levy of near 40 cents to raise \$622,550 for the construction of six roads. The greater portion of these roads will be constructed of 5-inch asphaltic concrete.

"The Exchange Hour" was inaugurated at a recent luncheon of the Sacramento Builders' Exchange. Members have been requested to be in the Exchange headquarters, 1013 Tenth St., daily between 11:30 and 12:30 to keep business engagements. Twenty-eight new members were secured by the Exchange in its recent membership drive.

Sixteen manufacturers of electrical appliances from San Francisco and the Bay District and two large power companies have reserved quarters in the electrical section of the California Industries Exposition, which opens in the San Francisco Municipal Auditorium October 7 to 28.

State Department of Public Works authorized by State Railroad Commission to construct overhead crossing over tracks of the San Francisco and Sacramento Railroad at Denver, So-lano county; estimated cost, \$26,000.

Alameda county supervisors vote appropriation of \$2000 to prepare plans and estimates of cost to construct a tube across Oakland estuary. The plans will be prepared by County Surveyor George A. Posey.

Stockton city council sells \$600,000 city hall bond issue for premium of \$60,556. Proceeds of sale will finance construction of new city hall, plans for which are being completed.

The Associated General Contractors of America estimate that 400,000 new homes will be built this year at an average cost of \$4000.

J. L. Smith, Pioneer Bldg., Seattle, at \$351,298, awarded contract by Seattle Board of Public Works to grade and pave Empire way.

Tracy city trustees will improve West Park street at a cost of \$66,000.

ALONG THE LINE

Stevens & Koon, consulting engineers, Spalding Bldg., Portland, Ore., commissioned by Camas, Wash., city council to prepare reports, plans and specifications and supervise construction of water works improvements. A seven-mile pipe line is included in the project.

Bonds of \$650,000 voted at Napa for municipal water works system. Of the sum voted \$240,000 will purchase works of Napa City Water Co., the balance to finance improvements and extensions and the development of the city's water holdings in Milliken canyon.

Oroville city trustees proposed to purchase the gas and electric systems of the Pacific Gas & Electric Co. The State Railroad Commission will be asked to place a valuation on the properties. A bond issue will finance the purchase.

Nov. 21 is the date set when voters of San Francisco will decide the question of issuing and selling bonds of \$14,000,000—\$12,000,000 for school construction and \$2,000,000 to erect a group of buildings for the Relief Home.

H. S. Gierlich, city engineer of Monrovia, announces a partnership with his brother, O. A. Gierlich, for general engineering practice with offices in the National Bank of Monrovia Bldg., Monrovia.

Charles T. Phillips, consulting engineer, formerly located in Pacific Bldg., has moved to new offices in the Bank of Italy Bldg., 550 Montgomery St., San Francisco.

L. L. Mills, street commissioner of Santa Rosa, recommends the erection of a municipal asphalt plant costing \$50,000. It is probable that bonds will be voted to finance project.

City Manager Charles E. Hewes, Long Beach, recommends to council the installation of a municipal asphalt plant costing \$19,000, to take care of small street jobs.

Architect G. E. Strout has opened an office at 201 Braley Bldg., Pasadena. Mr. Strout comes from Boston, Mass., where he practiced architecture for thirty years.

Since January 1st, the Sacramento City Council has ordered street improvements in excess of \$1,800,000, according to a report of City Engineer Albert Givan.

City trustees of Tracy will call election to vote bonds to construct septic tank, extensions to water mains and purchase fire apparatus.

Edgar Winton has been appointed county surveyor of Merced county to succeed A. E. Cowell, resigned.

Universal Building Code Analyzed

By H. B. PLUMMER, Inspector of Buildings, Portland, Ore.,
In The Constructor

Whether a universal building code for American cities is possible or desirable is rather a broad question. I imagine there are a great many differing opinions on this subject. My own opinion is that it is both possible and desirable, but in so saying, I do not wish to be understood to minimize or overlook the difficulties in the way of such a code. There doubtless are many, I do, however, believe that great benefits will be derived by the preparation of such a code and its enactment into law as far as is possible.

The Manufacturer's Viewpoint

From the standpoint of the manufacturer, a national code is of the utmost importance because if the manufactured product complies with the standard set forth in the code and is approved, this approval should then make it possible to utilize this product anywhere in the country. Under present conditions where different cities have different standards and requirements, the manufacturer is often very much handicapped, and in introducing his material in a city finds that time, money and some times influence are necessary to get the material approved. The mere fact that his material is properly approved in some other city has nothing to do with the case. The preparation of the national code with proper machinery for enforcement for the testing of materials, etc., will remedy this bad condition. Under the present conditions manufacturers sometimes change their product to fit the requirements of different cities. Instead of manufacturing one product for the country as a whole, they are forced to manufacture several. More money is required because of the necessity of keeping on hand stocks of the material manufactured under the differing standards of the various cities and consequently manufacturing is carried on upon a less economic basis. The public suffer because the article costs more money and the increase in cost does not bring any increased benefit to the public.

Other Favorable Reasons

There are many other reasons which can be advanced in favor of a national code. In the preparation of such a code it is possible to have tests of construction and materials made that the single city would be unable to undertake. It is also possible to enlist the services of the best authorities and experts in the country. The setting up of standards for the whole country will be a benefit to the contractors and the building public. It frequently happens that local influence can very easily bring about undesirable changes in the code which was prepared locally. The same arguments that are utilized in getting a change in the code cannot be used with equal effect in connection with the change of a national code. Codes that are purely local in their character frequently get out of date and the administrative officials who are busy with their ordinary duties of administration have little time to investigate and keep thoroughly posted on the latest phases of construction. This can be done on the other hand quite readily if the code is a national code and proper machinery for its preparation and amendment are provided by the National Government.

Objections

Some of the objections that will be raised in connection with such a code will be that no national code can take into consideration all the peculiar local conditions which may exist in a city. Another difficulty that will arise is the fact that the climatic conditions in different parts of the country are very different and a construction that is entirely satisfactory in one part of the country may be, in different climatic conditions, very unsatisfactory. I would, therefore, suggest that the code be divided up into certain climatic districts or zones and that appropriate regulations be suggested for the different districts or zones.

What Code Should Cover

I would say off hand that a universal building code should cover fundamental regulations for buildings. Such a code, as far as the cities go, should only suggest administrative regulations or methods and should cover definitions of building terms and words as used in the code should classify buildings according to construction and should grade buildings according to occupancy. It should set forth minimum regulations for the different classes of construction of buildings; appropriate fire protection regulations; appropriate regulations for the different occupancies of buildings; appropriate safety regulations governing the process of erecting, constructing or tearing down of buildings. The things that a national code could not do would be to establish fire limit districts for the different cities. It should not establish regulations for the use of sidewalks and streets during building operations because of the varying conditions in the different cities. It should not establish the height of buildings unless such height limits were stated as a measure of street width.

Should Have Minimum Requirements

I would not favor at the outset, at least, such a code covering the regulations that are commonly given in housing codes because of the fact that housing codes are such a prolific source of opposition and controversy and I would prefer to see a national code firmly established and working satisfactorily before housing requirements were added to the same. A universal code should be liberal in its general terms and requirements and it should be so enacted that if any community wished to raise the standards set forth in the universal code, they might do so, but it should not be possible for any community to have the requirements more liberal than those set forth in the universal code. It would be a good plan if this code were prepared with liberal minimum requirements and to have an appendix which would contain suggestions for good construction which would be somewhat more severe. Any community then utilizing this universal code would have brought to their attention not only the minimum requirements but a suggested requirement for good sound construction.

Two Methods of Establishing Code

I can say very little about the manner of putting this code into practice because I am not informed as to the possibilities of enactment for such a code. I presume the United States Government could pass a bill establishing such a code and enact the same into law. On the other hand this might not be possible or advisable and it

might be better for the National Government to suggest to the various States that they enact this universal code as a State code which would then in most cases automatically bring it into effect in the different cities of the country. I believe the best thing to do if it is possible, is to enact such a code into a National law giving the various cities a certain period of time in which to combine the National requirements into an amended local code. The country as a whole and the various cities will certainly be benefited by such a code and the sooner it is put into effect the better. The Department of Commerce, which has under-taken the preparation of such a code and has recently sent out a preliminary draft covering dwelling house construction, should be furnished with ample apparatus and equipment and technical force for the investigation of any new matters coming up in building construction, for the making of tests to show the various qualities of materials and for the suggesting from time to time of regulations to cover new construction.

I believe that all modern officials will welcome such a code and such a basis of operation unless such officials are dominated entirely by local selfish interests.

SACRAMENTO ARCHITECTS AND ENGINEERS PERFECT ORGANIZATION

Organization of the Sacramento Architects and Engineers' Club was completed at a recent meeting when a constitution was adopted and permanent officers elected. The club hopes to be settled in its new clubrooms in the Melster Building Sept. 15.

George Adams of the State Architects' office was chosen the club's first president. He has been active in the movement for getting the architects and engineers together and has acted as temporary chairman of the organization. George Calder, engineer in charge of the filtration plant construction, was elected vice-president; J. E. Tempest, assistant city engineer, secretary, and Leonard Starks, treasurer.

The three directors chosen are: R. A. Harold, architect; T. E. Stanton, assistant state highway engineer, and D. E. Godfrey, draftsman in the employ of the state highway commission.

It is announced that 22 men had signed the underwriting agreement for the \$5000 which will be used in fitting up the clubrooms. In return for the money spent the club will get possession of the headquarters for four years without cost. After that time it will have to pay rent. At present the membership roll has been signed by 134 local architects and engineers. A membership of 300 is the aim of the new organization.

Any engineer or architect living within a radius of 50 miles of Sacramento is eligible to membership. As soon as the new headquarters are finished a program of lectures and study classes will be started, along with social activities designed to build up the professions in Sacramento and create a better feeling and higher professional standards among the members. Regular meetings will be held on the first Wednesday of each month.

APARTMENT HOUSES

Contract Awarded.
APARTMENTS. Cost, \$13,000.
OAKLAND, Alameda Co., Cal. E. Harrison Blvd. N. 26th St.
Two-story 16-room apartments.
Owner—Simmonds & Grigsby, 2324 27th Ave., Oakland.
Architect—None.
Contractor—L. C. Walker, 3231 Boston Ave., Oakland.

Contract Awarded.
APARTMENTS. Cost, \$15,500.
OAKLAND, Alameda Co., Cal. W. Kingsley near 37th St.
Two-story 16-room apartments.
Owner—E. W. and F. M. Eckhardt, 263 98th Ave., Oakland.
Architect—None.
Contractor—M. Felix Sommerstrom, 2215 Park Blvd., Oakland.

Contract Awarded.
APARTMENTS. Cost, \$100,000.
SAN FRANCISCO. E. Larkin 87-6 N. Sutter St.
Four-story and basement reinforced concrete (311 apts.).
Owner—Harry W. Warwick, 3191 Washington St., San Francisco.
Architect—None.
Contractor—Harry W. Warwick, 3191 Washington St., San Francisco.

Sub-Figures Being Taken.
APARTMENTS. Cost, \$30,600.
BERKELEY, Alameda Co., Cal. Channing Way.
Two-story frame and plaster (16) apartments, house, 42x120.
Owner—D. E. Bigelow, 2333 Channing Way, Berkeley.

Contract Awarded.
APT. HOUSE. Cost, \$22,495.
SAN FRANCISCO. S. Market W. Noe St.
Three-story frame and plaster apartment house (2 and 3-room apartments and 1 store).
Owner—W. L. Heise.
Architect—Albert W. Burgren, 110 Sutter St., San Francisco.
Contractor—Olsen & Persson, 239 Fell St., San Francisco.
Plumbing to W. E. Trousdale & Co., 1728 Sacramento St., San Francisco, at \$4345.

August 19, 1922
Contract Awarded.
APARTMENTS. Cost, \$42,943.
SAN FRANCISCO. N. Pacific Ave., 137 E. Buchanan.
Three-story and basement frame (3) apartments.
Owner—Mrs. Hugh Johns.
Architect—C. A. Applegarth, Claus Spreckels Bldg., San Francisco.
Contractor—Walters & Grove.

Sub-figures Being Taken.
APARTMENTS. Cost, \$15,000.
SAN JOSE, Santa Clara Co., Cal. 8th and St. James Sts.
Two-story frame and plaster apartments.
Owner—Mrs. Rogers.
Architect—Wolfe & Higgins, Auzeais Bldg., San Jose.

Contractor Taking Sub-figures—To Be Done by Day's Work.
APT. HOUSE. Cost, \$150,000.
SAN FRANCISCO. NE. Green and Baker St.
Six-story and basement Class A stone and concrete apartments.
Owner—Bruce Fair, 1 Drumm St., San Francisco.
Architect—E. E. Young, 251 Kearny St., San Francisco.
Contractor—M. A. Little, 805 Rush St., San Francisco.

Figures to Be Taken in Two Weeks.
TWO APT. HOUSES. Cost, \$100,000.
SAN FRANCISCO. Taylor and Jackson Sts.
Two 2-story frame and plaster apartments (8, 4 and 5-room apartments each).
Owner—Joseph Bauer, Wigwam Theatre, 2555 Mission St., San Francisco.
Architect—H. H. Guterson, 273 Post St., San Francisco.

Plans Being Prepared.
APT. HOUSE. Cost, \$40,000.
SAN FRANCISCO. Near Market St.
26-room frame and plaster apartment house (2 and 3 rooms each).
Owner—Withheld.
Architect—Arthur G. Scholz, Phelan Bldg., San Francisco.

To Be Done by Day's Work.
ALTERATIONS & REMODELING. Cost, \$15,000.
SAN FRANCISCO. S. W. 5th Ave. and Cornwall St.
Alter and remodel six flats into 12 apartments of 2 and 3 rooms each.
Owner—F. F. Entay.
Architect—Arthur G. Scholz, Phelan Bldg., San Francisco.

Contract Awarded.
APARTMENTS. Cost, \$21,000.
OAKLAND. E. 19th St. near Fruitvale Ave.
Three-story frame and plaster apartments (6 apts. 4 rooms each).
Owner—Withheld.
Architect—Clay N. Burrell, 1st Trust Bldg., Oakland.
Contractor—M. S. Sommerstrom, 3145 Champion St., Oakland.

Plans Being Prepared.
APARTMENTS. Cost, \$—
SAN FRANCISCO. Down Town District
Six-story steel frame (2-room) apartments.
Owner—Withheld.
Architect—Frederick W. Quandt, Monadnock Bldg., San Francisco.

Contract Awarded.
APARTMENT. Cost, \$10,980.
ALAMEDA, Alameda Ave.
Two-story 12-room apartment.
Owner—H. C. Bennett, 2267 Alameda Ave., Oakland.
Contractor—M. H. Fish, 1333 Fountain Street.

BANKS

Sub-Contracts Awarded and Work Started.
BANK BLDG.
OAKLAND, Alameda Co., Cal. Broadway near 17th St.
Alterations of 2-story class C stores and 1st building for bank.
Owner—Commercial Trust & Savings Bank.
Architect—Wm. Knowles, Albany Bldg., Oakland.
Concrete Work—Frank B. Moller, 700 Arimo St., Oakland.
Reinforcing Steel—Edw. L. Soule Co., San Francisco.
Structural Steel—Herrick Iron Wks., Oakland.
Ornamental Metal Works—Calif. Art. Metal & Wire Co., San Francisco.
Counters—M. G. West Co., San Francisco.
Vault Doors—Hermann Safe Co., San Francisco.
Plumbing—Charles L. Sturn.
Electrical Work—Spencer Elec. Co., Oakland.

Sub-figures Being Taken.
ALTERATIONS. Cost, \$20,000.
SAN JOSE, Santa Clara Co., Cal. 46 S. 1st St.
Alterations and remodeling interior of bank.

Owner—Security Bank.
Architect—Wolfe & Higgins, Auzeais Bldg., San Jose.

TAFT, Kern Co., Cal.—State Bank of Taft has been incorporated for \$200,000 and proposes to erect modern banking structure at Fifth and North Streets. Directors are Sam Orloff, Joe McDonald, R. H. M. Hawkins, L. N. Fay and Sherman Appel, all of Taft.

BONDS

PASADENA, Cal.—An election will be held Aug. 29 to vote on a \$200,000 bond issue for acquiring land for park and necessary adjuncts in Arroyo Seco.

MENLO PARK, Santa Clara Co., Cal.—Election will be held Sept. 12 by sanitary commissioners to vote bonds to finance extensions to system.

HERMOSA BEACH, Cal.—The \$200,000 sewer bond issue was defeated at a recent election.

BYRON, Contra Costa Co., Cal.—Bonds of \$5,000 voted in Excelsior School District to finance construction of new school.

ANDERSON, Shasta Co., Cal.—Bonds of \$2000 voted in Prairie School District to finance construction of new school.

SAN FRANCISCO—Supervisors set November 21 as date to vote bonds of \$120,000 to finance construction of new schools and additions to standing structures.

SAN FRANCISCO—November 21 is date set by the Supervisors to bond for \$2,000,000 to finance construction of group of fireproof buildings for Relief Home.

MARICOPA, Ariz.—Maricopa Irrigation District will sell \$1,375,000 bonds at its office in Maricopa. Sept. 2. D. H. Smith, Maricopa, is Secretary of the District.

HERMOSA BEACH, Cal.—The \$20,000 bond issue for improving fire apparatus of city carried at recent election. The pier extension, auditorium, sewer system and water system bonds were defeated.

KERMAN, Fresno Co., Cal.—The \$150,000 bond issue of Central Union High School District sold for premium of \$6,208; proceeds of sale to finance construction of new high school. Architect will be selected shortly to prepare necessary plans.

RED BLUFF, Tehama Co., Cal.—Supervisors sell \$50,000 bond issue of Los Molinos School District for premium of \$1,629; proceeds of sale to finance construction of new school.

SANTA CRUZ, Santa Cruz Co., Cal.—Election will be held September 1 in Live Oak School District to vote bonds of \$10,000 to finance construction of a new school. Trustees of the district are: A. M. Foster, C. P. Baird and Mrs. M. V. Keller.

LOS GATOS, Santa Clara Co., Cal.—Sept. 18 is date set by town trustees to decide question of issuing bonds to finance construction of sewer to complete main trunk sewer system.

SACRAMENTO, Cal.—Until Sept. 5, P. M. bids will be received by the Supervisors for the purchase of \$4,000 bond issue of Pacific School District and \$8,000 issue of Riverside School District; proceeds of sales to finance school improvements.

WATSONVILLE, Santa Cruz Co., Cal.—City Board of Aldermen propose to purchase system of Watsonville Water Company, for \$200,000. Funds to be raised through a bond issue. Should satisfactory negotiations be made provision will be made in the bond issue for funds to construct extensions costing in excess of \$50,000. H. E. Kitchen, City Engineer.

MERCED, Merced Co., Cal. Sept. 18 is the date set to vote bonds of \$70,000 to finance extensions to sewer system C. D. Martin, city eng.

MERCED, Merced Co., Cal. Sept. 18 is date set to vote bonds of \$17,500 to improve Bear Creek Park and auto camp sit.

CHURCHES

Figures to Be Taken Shortly.
CHURCH. Cost, \$60,000
LOS ANGELES, Los Angeles Co., Cal. 120 N. Main St.
Two-story and basement church bldg. Owner—Japanese Union Church. Architect—H. M. Patterson, O. T. Johnson Bldg., Los Angeles.

Figures to Be Taken Next Week.
CHURCH BLDGS. Cost, \$ —
OAKLAND, Alameda Co., Cal. Lake shore and Prospect Aves.
1st unit of church buildings, parochial school and convent; three-story and basement reinforced concrete construction.
Owner—Church of Our Lady of Lourdes (Father Keveny, Pastor). Architect—Geo. E. M. McCrea, 323 Pine St., San Francisco.

DUNBA, Tulare Co., Cal.—Until Aug. 28, 5 P. M., bids will be received by H. C. Kinnee, Secretary, Board of Trustees, First Baptist Church, to construct concrete church at the corner of K and Kern streets. Certified check for 10% payable to Clerk of Board of Trustees required. Plans may be had from the Secretary at office of Alta District Lumber Co., Dinuba.

FACTORIES & WAREHOUSES

Contract Awarded.
WAREHOUSE. Cost, \$160,000
ANAHEIM, Orange Co., Cal.
Five-story Class A reinforced concrete warehouse, 44 x 260.
Owner—Arthur Peck, Anaheim Sugar Co.
Architect—None.
Contractor—G. E. Fickett, 638 S. Western Ave., Los Angeles.

General Contract Awarded.
DAIRY PLANT. Cost, \$22,000
BURLINGAME, San Mateo Co., Cal.
San Mateo Dr. and Howard Ave.
One-story reinforced concrete dairy plant.
Owner—Dairy Delivery Co.
Architect—Wm. H. Toepke, 942 Market St., San Francisco.
Contractor—Wm. Martin, 180 Jessie St., San Francisco.

Contractor Taking Sub-figures.
WAREHOUSE. Cost, \$75,000
OAKLAND, Alameda Co., Cal. E. 14th adjoining Durant Motor Co.
Brick and concrete office and warehouse.
Owner—Star Motor Co. of Cal.
Architect—None.
Contractor—P. J. Walker Co., Sharon Bldg., San Francisco.

Contract Awarded.
PAPER MILL. Cost, \$300,000 including equipment.
SALEM, Oregon.
Four-story reinforced concrete, 75x50 paper mill (third unit).
Owner—Oregon Pulp & Paper Co.
Architect—Knight & Howell, U. S. Bank Bldg., Portland, Ore.
Contractor—C. Van Patten & Son, Salem, Ore.

General Contract Awarded.
LAUNDRY. Cost, \$115,352
LOS ANGELES, Cal. Slauson Ave. and Main St.
Two-story brick and frame laundry building.
Owner—Peerless Laundry Co., L. A. Architect—Harry L. Pierce, Wright & Callender Bldg., Los Angeles.
Contractor—Herbert M. Baruch, I. W. Hellman Bldg., Los Angeles.

Bids Opened.
CREAMERY. Cost, \$15,931
Petaluma, Sonoma Co., Cal. Western Ave. and Baker St.
One-story reinforced concrete creamery. Owner—Petala Co-operative Creamery Co.
Architect—Trainer Jones, Petaluma Contractor—Ward & Jones, 180 Jessie St., San Francisco.
Other bidders—J. O. Kuykendall, Santa Rosa, \$17,480; Matthes & Gale, San Francisco, \$18,614; Vorensen Construction Co., Petaluma, \$16,996.

Sub-Figures Being Taken—Contracts Awarded.
ALTERATIONS. Cost, \$12,000
SAN FRANCISCO, O. Howard Street.
Alter and add for a furniture manufacturing and warehouse building.
Owner—Wm. Volker & Co., 180 New Montgomery St., San Francisco.
Architect—Willis C. Lowe, Monadnock Bldg., San Francisco.
Elevators awarded to Spencer Elevator Co.
Plumbing to R. Dalziel.

NEVADA CITY, Nevada Co., Cal.—W. F. Heffinger and A. A. Tibbe of Alameda and Oakland are conferring with the Chamber of Commerce regarding the establishment of a factory to extract oil from pine needles. The oil is used in the manufacture of candy, toilet soaps and medicines, and the needles, after the extraction of oil, is used for filling for mattresses.

NATIONAL CITY, Cal.—Jet Oil Refining Co. has started work on a refinery to handle all grades of oil lubricants. California Gypsum Co. also plans large factory to be located on Ocean Front, National City, near site of proposed \$1,000,000 pier.

Official Proposals

NOTICE TO CONTRACTORS (Grenada Irrigation District)

Sealed bids will be received by the Directors of the Grenada Irrigation District, Siskiyou County, California, at their office in Grenada, California, up to 1:30 o'clock P. M., September 6, 1922, for

1. Re-construction of dam and intake canal on Shasta River, in Northwest quarter of Sec. 6, Twp. 43 N., R. 5 W., S. 1, D. E. & M.
2. Construction of new buildings, re-wiring and installation of priming equipment.
3. Re-construction of irrigation ditches of the district and construction of laterals.
4. Construction and re-construction of irrigation ditch structures in the ditches of the district.

All of the above work being near Grenada, Siskiyou County, California, in Townships 43 and 44, Ranges 6 and 5 W. & M. D. At the time and place named, the bids will be publicly opened and read, and the work will be let to the lowest responsible bidder.

Plans, specifications and form contract can be seen at the office of the District Engineer, Fred H. Tullis, in the Alaska Commercial Bldg., San Francisco.

Full sets may be taken out on the deposit of \$10.00 to insure return. Each bid shall be accompanied by a certified check for not less than 10 per cent of the bid, made payable to the President of the Board of Directors of the Grenada Irrigation District, to be held as security for the execution of the contract by the bidder if the work is awarded to him.

The District reserves the right to award a contract for any or all of the work herein described.

The District reserves the right to reject any and all bids.

By order of the Board of Directors of Grenada Irrigation District.

J. G. HADDOCK,
President.

VICTOR BOVO,
Secretary.

NOTICE TO CONTRACTORS AND BIDDERS

(Manual Training Shop—Biggs Union High School District)

Notice is hereby given that sealed bids will be received by the Board of Trustees of the Biggs Union High School District of Butte Co., California, up to 7:30 o'clock P. M. on the 7th day of September, 1922, at the office of the Clerk of the Board of Trustees, 411 High School Building) of said Biggs Union High School District of Butte County, for the erection and completion of a Manual Training Shop for the above named district, in accordance with plans and specifications made for the same by W. H. Weeks, authorized Architect, employed by the Board. The said bids will be opened by the Board of Trustees at the office of the Clerk of the Board of Trustees of said school district at 7:30 o'clock P. M. on the said 7th day of September, 1922. All bids should be addressed to L. S. Pratt, Clerk of the said Board, whose address is Biggs, California.

Plans and specifications can be seen at the office of the Architect, W. H. Weeks, 369 Pine Street, San Francisco, Calif., or at the Sacramento Valley Bank, Biggs, Calif. A deposit of \$2000 will be required for all plans loaned out, as a guarantee of good faith.

All bids must be made out on blank forms furnished by the Architect, and must be accompanied by a check for not less than 5 per cent of the contract bid, made payable to L. S. Pratt, Clerk of the Board of Trustees of the Biggs Union High School District of Butte County, and be certified to by some responsible banking house. This check is to be forfeited in the event that the successful bidder after having been awarded the contract, fails within ten days to sign the contract and to furnish a good bond as required by Law.

The successful bidder will be required to furnish the Board of Trustees of the said Union High School District a good and sufficient bond in an amount equal to 50 per cent of the amount named in the contract guaranteeing to the said School District the faithful performance of the contract. He shall also be required to execute and deliver at the time another and separate bid in an amount equal to 50 per cent of the amount named in the contract to protect any and all persons performing labor upon or furnishing materials used upon said work. The Board reserves the right to reject any and all bids, and at Biggs this 14th day of August, 1922.

J. R. McDONALD,
CLAY B. HARRIS,
W. W. H. HASELUSCH,
Board of Trustees of the Biggs Union High School District of Butte County, State of California.

Post office, Aberdeen, Wash., in accordance with the specifications, copies of which may be had at this office or at the office of the Custodian, in the direction of the Supervising Architect, JAS. A. WETMORE, Acting Supervising Architect.

BIDS WANTED FOR STATE HIGHWAY IMPROVEMENT

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, California, until 2 o'clock P. M., on September 2, 1922, at which time they will be publicly opened and read for construction in accordance with the specifications therefor to which special reference is made, portions of State Highway as follows:

Modoc County, across Cold Creek at Station 349 (11-Mon-15-A), a bridge forced concrete girder spans on concrete consisting of three thirty-foot reinforced beams.

Modoc County, across Cold Creek at Station 373 (11-Mon-15-A), a bridge consisting of two thirty-foot reinforced concrete girder spans with necessary bent, abutments and wingwalls.

Plans may be seen and forms of proposal, bonds, contracts and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Dunnsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal for full directions as to bidding, quantities of work to be done, etc.

The Department of Public Works, acting by and through the California Highway Commission, reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the State.

NEWELL D. DARLINGTON,
CHARLES A. WHITMORE,
GEO. C. MANSFIELD,
California Highway Commission.

AUSTIN B. FISCHER,
State Highway Engineer.
R. A. MURRAY, Secretary.
Dated August 21, 1922.

NOTICE TO CONTRACTORS

(Theodore Roosevelt High School)

Office of the Secretary of the Board of Education of the City of Oakland. Sealed bids will be received by the Board of Education on or after the 1st of Oakland, City Hall, Oakland, California, until the 11th day of September, 1922, at 4:30 o'clock P. M., at which time said bids will be opened, for the erection and completion of a new building for the THEODORE ROOSEVELT HIGH SCHOOL, of the Oakland School District and Oakland High School District, located on the city block extending from 19th Avenue to 20th Avenue and from East 18th Street to East 20th Street, Oakland, California.

- Superior bids will be received for:
- GENERAL WORK, including Excavation and Grading, Concrete, Brick and Terra Cotta, Carpenter Work, Miscellaneous, Ornamental and Structural Iron Work, Sheet Metal Work, Built-up Roofing Work, Elevator Work, and Interior Equipment Work.
- 2. TILE ROOFING.
- 3. LATHING AND PLASTERING.
- 4. PLASTERING.
- 5. PLUMBING.
- 6. HEATING AND VENTILATING.
- 7. ELECTRICAL WORK.

Plans and specifications for said work are on file at the office of the Architect for the Board of Education, 2149 Broadway, Oakland, California.

On a deposit of Twenty-five (\$25) Dollars, said plans and specifications may be had by any prospective bidder for one of the branches of the work above listed. These plans and specifications may be retained as follows:

1. General Work, fourteen (14) days.
2. Tile Roofing, three (3) days.
3. Lathing and Plastering, seven (7) days.
5. Plumbing, seven (7) days.
6. Heating and Ventilating, seven (7) days.

If the plans and specifications are not returned to the Architect within the time above specified, or are returned in a mutilated or damaged condition, the deposit will be forfeited and will be immediately used for the purchase of a new set of blue prints and specifications.

At least be made on proposals obtained at the office of the Architect, accompanied by a certified check, certified to by some responsible bank or banker, and made payable to J. W. Edgemond, Secretary of the Board of Education, to be retained by the said School Districts as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract, or any bond required by law. The amount of said check shall not exceed Five Thousand (\$5,000) Dollars, but for all bids of less than Fifty Thousand (\$50,000) Dollars, said check shall be for at least ten (10%) per cent of the amount of the bid. Each bid shall be accompanied by an affidavit executed in a form that can be obtained from the Architect. Bids will be opened by the Board of said Districts on the 11th day of September, 1922, at 4:30 o'clock P. M., in the Board Room, 211, second floor of said City Hall, said City of Oakland, California. The Board reserves the right to reject any and all bids or any or all items of such bids.

J. W. EDMOND,
Secretary of the Board of Education
of Oakland, California.

ADVERTISEMENT FOR PROPOSALS

Pumping and Filtration Works, Sacramento, Calif.

CONTRACT NO. 25

FILTRATION DIVISION

For completing the construction of the Intake Pier, Bridge and Bridge Piers, Intake Conduits, and Appurtenances, for the City of Sacramento, California.

Scaled proposals for completing the construction of the intake pier, bridge and bridge piers, intake conduits, and appurtenances, for the City of Sacramento, California, endorsed, "Proposals for Completing the Construction of Intake Pier, Bridge and Bridge Piers, Intake Conduits, and Appurtenances, Filtration Division, City of Sacramento, California, Contract No. 25," addressed to the City Clerk, will be received at the office of the City Clerk, City Hall, Sacramento, California, until 9:00 P. M., Pacific Standard Time, on the seventh day of September, 1922, and will be publicly opened and read in the Chamber, City Hall, Sacramento, on the seventh day of September, 1922, after 9:00 P. M.

The work comprises the furnishing of materials and the completion of the construction of the intake pier, bridge, bridge pier and bridge abutment, the intake conduits from intake pier to pumping station, together with various appurtenances. A certain amount of construction work upon some of these structures has been performed and is intended. Bidders should carefully examine these structures and acquaint themselves with all controlling conditions, including the character and availability of materials at the site of the work, originally intended to be incorporated into the structures.

Each proposal must be accompanied by a certified check payable to the order of the City Controller, in the sum of ten (10) per cent of the largest sum named in the proposal for any single proposition and scheme.

A successful proposal, amounting to from fifteen (15) to twenty-five (25) per cent of the contract price, depending upon the amount of the contract, and a material and labor bond amounting to fifty (50) per cent of the contract price will be required of the successful bidder, in accordance with the provisions of the city charter and ordinances and of state laws.

Prior to the acceptance of the completed work a defective material and workmanship bond amounting to five (5) per cent of the amount of the contract must be furnished.

The complete contract documents may be examined at the office of the City Clerk, or at the office of the Filtration Division, or printed copies thereof, including reduced scale drawing only, will be furnished to intending bidders upon request and upon the payment of a deposit of ten dollars (\$10.00). All deposits for pamphlets will be refunded upon their return, in good condition, or if they are filing a proposal. Bidders desiring full scale blue prints of the contract drawings may obtain them by purchase at the price of twenty-five cents (25c) each.

The city reserves the right to reject any or all proposals and to increase or decrease the amount of any class or portion of the work.
(Signed) H. G. DENTON,
City Clerk

Engineering News Section

BRIDGES, DAMS & HARBOR WORK

LOS ANGELES, Cal.—County Bridge Engineer Armstrong is preparing plans for a concrete bridge across the mouth of San Gabriel river at Alamitos Bay. It will consist of ten 30-ft. spans and one 42-ft. span with concrete piers and abutments. Another bridge project ordered by the Supervisors is a structure of type yet to be determined, across a slough opening into Alamitos Bay, east of the San Gabriel River mouth, on the state highway, not far from the county line. It will be approximately 200 ft. long. Plans will also be started shortly for concrete bridge across the mouth of Topanga canon, on the coast highway. It will consist of four 54-ft. spans, with concrete piers and abutments on piles.

SANTA ROSA, Sonoma Co., Cal.—County Surveyor R. Press Smith has completed specifications for rein. conc. bridge at Station 675 plus 15 on the Highway Bids will be asked shortly.

SAN PEDRO, Cal.—Los Angeles harbor commission is considering plans for conc. bridge and ramp, on Harbor Blvd., bet. 15th and 16th Sts., to cost about \$200,000. The main span over the railroad tracks will be 500 ft., while the ramp, extending to 22nd St., will be 1400 ft. in length, with roadway 32 ft. wide. Foundation will be of driven concrete piles with conc. caps. Ornamental feature will consist of double row of lamps from city hall to end of ramp, at 22nd St.

SAN DIEGO, Cal.—City council proposes to place before voters at earliest possible date a bond proposition for \$600,000 for harbor improvement purposes. It is proposed to build a pier after the plans prepared by Frank G. White, chief engineer of the port of San Francisco. The navy has requested additional space for a pier. The commission has recommended granting space for a pier 130 ft. wide, 1000 ft. long.

EUREKA, Humboldt Co., Cal.—Until Sept. 2, p. m., bids will be received by Fred M. Kay, county clerk, to construct four highway bridges, as follows: Wood truss bridge across Canon creek on Three Cabins road bet. Korbel and Maple creek; wood truss bridge over Cuneo creek on Dyerville-Mattole road; concrete girder bridge over Rohner creek near Fortuna and concrete girder bridge at foot of grade bet. Hydenville and Carrots on Hydenville-Bridgeville Road. A. J. Logan, county surveyor.

LOS ANGELES, Cal.—Until 10 a. m., Sept. 8, bids will be received by harbor commission, 312 Byrne Bldg., cor. Third and Broadway, for corr. galv. iron culverts. Spec. No. 349. Guy W. Wade, secretary.

SACRAMENTO, Cal.—Sacramento county supervisors will provide funds in 1923 budget to finance construction of bridge over Sacramento and San Joaquin rivers at point near Antioch to connect Sacramento county with Contra Costa county.

REDWOOD CITY, San Mateo Co., Cal.—County Surveyor George A. Kanees preparing specifications for levee to be constructed on west side of Bay Shore highway between Union Oil Station and South San Francisco, to prevent storm waters overflowing highway; estimated cost, \$5000.

CALIFORNIA—Until Sept. 18, 2 p. m., bids will be received by State Highway Commission, Forum Bldg., Sacramento, for bridge construction as follows:

Mendocino county: across Cold Creek at Station 349, consisting of three 30-ft. rein. conc. girder spans on concrete bents.

Mendocino county: across Cold Creek at Station 373, consisting of two 30-ft. rein. conc. girder spans with bent, abutments and wingwalls.

See call for bids under official proposal section in this issue.

SAN FRANCISCO—Until Oct. 31, 11 a. m., bids will be received at S. Engineer's office, 401 Customhouse, for dredging in Honolulu Harbor. Specifications will be furnished on request.

SANTA ROSA, Sonoma Co., Cal.—Until Sept. 12 bids will be received by W. W. Felt, Jr., county clerk, to construct reinforced concrete bridge at station 657 plus 15 on Healdsburg-Napa county line highway, involving 27.26 cu. yds. Class A and 94.19 cu. yds. Class B reinforced concrete; 160 cu. yds. excavation for bridge and backfill; 1310 cu. yds. excavation approach and fills. Estimated cost, \$4650. R. Press Smith, county surveyor.

SAN JOSE, Santa Clara Co., Cal.—Herschbach & Sciarino, 560 Park St., San Jose, at \$6999, awarded contract by supervisors to construct reinforced concrete bridge on Stevens creek road in Supervisor District 5. Other bids: John Williams, \$7300; Wm. Martin, \$8334; Frank Bryant, \$8523. Surveyor's estimate, \$9440.

Wm. Martin, at \$1789, awarded contract to construct reinforced concrete bridge in Rincon Ave., Supervisor District 4. Other bids: Herschbach & Sciarino, \$1972; John A. Williams, \$1800; Wm. Martin, \$1789; Frank Bryant, \$1890. Surveyor's estimate, \$1800.

LOS ANGELES, Cal.—W. M. Ledbetter & Co., 759 Pacific Electric Bldg., submitted low bid to supervisors at (1) \$46,420 to const. reinf. conc. bridge on state highway over west arm of Alamitos Bay. Their bid on item No. 2, per lin. ft. of extra piling, was \$4.50. Other bids were: Mercereau Bridge & Constr. Co. (1) \$52,995, (2) \$4,000; Frank H. Greene (1) \$51,800, (2) —; S. M. Kerns (1) \$52,000, (2) \$6.50; Ross Constr. Co. (1) \$57,963, (2) \$5.00. The bridge will consist of 12 30-ft. spans and one 42-ft. span, 20 ft. wide, on piles. Approx. quantities are: 58,880 lbs. steel, 789 cu. yds. class "A" conc., 445 cu. yds. class "F" conc., 1955 lbs. bridge expansion plates, 210 cu. yds. excav.

OAKLAND, Cal.—City council, E. K. Sturges, clerk, appropriates \$25,000 to purchase supplies necessary for operation of pile driver, dredger, wharves and other equipment for Harbor Dept. Ralph Beebe, harbor engineer.

BERKELEY, Alameda Co., Cal.—University Apparatus Co., 2229 McGee Ave., Berkeley, at \$1850, awarded contract by Orland Joint Union High School District to install one University Duplex Gas Plant, 10,000 cu. ft. capacity, with five 12-ft. carburetors, 700 gal. underground tank, 1 1/2-hp. motor and automatic self-boosting air unit. L. A. Abbott, Oakland, bid \$10,250.

RAILROADS

WASHINGTON, D. C.—The Los Angeles and Salt Lake Railroad has applied to Interstate Commerce Commission for permission to build a new line of railroad between Lund and Cedar City, Utah, a distance of thirty-two miles. The line, which will connect with the main system of the Los Angeles Company, will open iron mining territory.

SANTA MONICA, Cal.—Pacific Electric Ry. Co. has submitted to city council proposition calling for a general street car and "bus" system for the city. The idea would include numerous extensions to railroad lines, costing about \$125,000. The principal item would be \$53,500 for extension on Third St. line east on Montana Ave. to 17th St.

FIRE EQUIPMENT

SAN FRANCISCO—Until Oct. 2, 8:30 p. m., bids will be received by Frank T. Kennedy, secretary, fire commission, city hall, for furnishing combined pumping engines and hose wagons and four-wheel tractors.

SAN LUIS OBISPO, Cal.—Until September 5, 7:30 p. m., bids will be received by Callie M. John, city clerk, for furnishing and delivering 1 triple comb. 300 to 350 gal. per min. pump capacity, fire piece of fire apparatus with 2 40-gal. chemical tanks and with body capacity for carrying 1,000 to 1,250-ft. fire hose with tray of capacity of 150-ft. of 1 1/2-in. hose.

SEWERS, STREET WORK, ROADS & WATER SYSTEMS

CARSON CITY, Nevada.—Until Sept. 6, 2 p. m., bids will be received by state highway commission to construct highway in Washoe county bet. West City limits and East city limits of Sparks; grading, const. culverts, Port. cem. or asphaltic conc. surface.

Project involve under Proposal 1: 3100 cu. yds. unclassified excavations, 47,420 yd. sta. overhaul, 1.59 m. prepare subgrade and shoulders, 16,800 sq. yds. cem. conc. pavement, 15 cu. yds. class "B" conc., 74 lin. ft. 15-in. and 110 ft. 12-in. corr. metal siphon, 16 56 lin. ft. 18-in. corr. metal siphon, 16 monuments each. Materials furnished by the State; cement, f. o. b. cars at Sparks. Sand and gravel in stockpile, Sparks.

Under Proposal 2: 3975 cu. yds. unclassified excavation, 47,420 yd. sta. overhaul, 1.59 m. prepare subgrade and shoulders, 3650 tons asphalt. base course, 1830 tons asphalt. conc. top course, 875 cu. yds. selected material sub-base, 15 cu. yds. class "B" conc., 75 lin. ft. 15-in. and 110 lin. ft. 30-in. corr. metal pipe, and 56 lin. ft. 18-in. corr. metal siphon, 16 monuments each. Materials furnished by the State; Portland cement at warehouse, Reno. Sand and gravel, class "B" conc. in stockpile, Sparks.

George W. Borden, state highway engineer.

See call for bids under official proposal section in this issue.

CALIFORNIA—Following bids received August 21 by the State Highway Commission to construct highway in Amador County, between west boundary and Central House, 9.3 miles in length; 9.3 miles to be graded and 7.6 miles to be surfaced with gravel:

Bismark & Yerxa, Stockton	\$102,377.80
Isbell Constr. Co., Fresno	109,664.00
Wilmhurst & Manetas, S. F.	118,927.50
Engineer's estimate	\$108,372.50.

COVINA, Cal.—Until 7:45 p. m., Sept. 4, bids will be received by city trustee to construct drain about 8 mi. long, to carry water from municipal swimming pool to city farm. Bids will be taken for both vit. and cem. pipe, approx. quantities being 14,600 ft. 14-in. or 15-in., 2400 12-in. and 1000 ft. 8-in. pipe, 30 Y branch connections with caps and 31 br. or conc. manholes with cast iron covers. Plans and spec. may be obtained on payment of \$3. F. G. Dessery, consulting engineer, 619 Central Bldg., Los Angeles. Certified check or bond for 10%.

SAN JOSE, Santa Clara Co., Cal.—City council, J. J. Lynch, city clerk, declares intention to improve:

Twenty-fourth St. between Santa Clara and Alameda St.; grading, 3-in. bit. conc. base with 1 1/2-in. Warrenton bit. surface pavement; conc. curbs, gutters and walks; 2 br. catchbasins; 8-in. vit. pipe drains.

Second St. between Delmas and Bird Aves.; grading, paving with 2-in. "Durite" asphalt. conc. wearing surface on 3/4-in. "Durite" asphalt. conc. base; conc. curbs, gutters and walks; 2 br. catchbasins; 8-in. vit. pipe drains.

Second St. between Hensley and S. P. right-of-way; regrading; paving with 1 1/2-in. asphalt. conc. surface. Wm. Popp, city engineer.

SANTA CLARA, Santa Clara Co., Cal.—City trustees planning immediate paving of Washington St. It is proposed to have contract let in September.

WATSONVILLE, Santa Cruz Co., Cal.—Until Sept. 5, 8 p. m., bids will be received by M. M. Swisher, city clerk, to improve Ford St. between Main and Main Sts., by grading, macadamizing and oiling with asphalt. oil; conc. curbs and gutters.

Same date, same date, for similar improvements in Ford St. between Rodriguez and Walker. H. B. Kitchen, city engineer.

HEMET, Cal.—W. E. Hail, Riverside, submits low bid to city trustees at 17,250 cu. ft. to pave portions of Buena Vista St. and other streets. The work involves 408,700 sq. ft. 4-in. cem. conc., 8600 sq. ft. curb, 6600 sq. ft. walk. Bid taken under advisement. F. W. Stetson, city engineer. This contract was previously awarded to J. P. Oswald of Los Angeles, but on the advice of his attorneys that the proceedings were irregular, he refused to sign the contract.

ANAHEIM, Cal.—Bids to constr. joint outfall sewer to be built by Santa Ana and Anaheim will be called for about Sept. 1.

ANDERSON, Shasta Co., Cal.—Petitions being circulated by J. H. Girdner for presentation to state highway commission seeking construction of highway lateral from Anderson to Ono, a distance of 25 miles.

OAKLAND, Cal.—Until Aug. 31, 12 m., bids will be received by E. K. Sturges, city clerk, for following street improvements:

Portions of Hillsborough St., grading; conc. curbs and gutters; oil macadam pavement.

First St., bet. Oak and Fallon, grading; r. w. curbs; conc. gutters; oil macadam pavement; 1 brick catchbasin; 10-in. vit. pipe conduit.

Kanning St., from Mayhew Ave. to pt. 35 ft. NW const. 8-in. vit. sewer; 2 vit. pipe lampholes; vit. wyces.

Seventy-second Ave., bet. E-11th and Orta St., grading; conc. curbs and gutters; cem. walks; oil macadam pavement.

Portions of 39th Ave. and Porter St., grading; conc. curbs and gutters; cem. walks; oil macadam pavement; corr. iron and conc. culverts.

Portions of Harmon Ave., grading; r. w. curbs; conc. gutters; cem. walks; oil macadam pavements. 1911 Act. W. W. Harmon, city engineer.

SANTA MONICA, Cal.—Santa Monica city commission has approved plans for a tunnel under Marine St. hill to connect business section with residential district lying east of the hill. The proposition will be financed by bond issue to be included in general bond election in November.

SANTA ANA, Cal.—Bids will be called for within 10 days for construction of Santa Ana outfall sewer system. Plans and specifications are being prepared under direction of City Engineer W. G. Knox. The \$321,000 bond issue for this work was authorized by Stephen & Co., Los Angeles.

LOS ANGELES, Cal.—County Supervisors order improvement work in County Improvement District No. 1 (Crescent Heights Improvement Dist.) to be placed. Following hearing August 14, bids will be called for soon. The work involves 6920 lin. ft. 5-ft. walks, and 700 sq. ft. curb returns. John E. Rockhold, County Surveyor.

CHICO, Butte Co., Cal.—City Engineer P. S. Robinson completes specifications to improve Woodlawn Ave. Concrete strips 12 ft. wide will be placed from Fourth St. entrance to Blinnell Park to end of strip already in place.

LOS ANGELES, Cal.—Ord. of inten. No. 44,360, adopted by city council, to improve Meridian St. bet. Payette St. and E. 51, and a portion of Ave. 15 (Meridian St. and Ave. 55 Imp. Dist.), by grading an oiling; constructing conc. curbs, 5-ft. walks, 2-ft. gutters; room-man Act.

ANAHEIM, Cal.—J. G. Mills, rancher, is circulating petition for a 50-ft. roadway between Anaheim and Fullerton. The present road, which is state highway, is 13 feet. Proposed improvement includes paving, walks, curbs and ornamental lights.

GLENDALE, Cal.—Ducey & Breitenstein, 151 S. Hill Ave., Pasadena, awarded contr. at \$23,080 to pave W. Broadway, Concord St. and San Fernando Road.

AUBURN, Placer Co., Cal.—Until Sept. 6, 8 p. m., bids will be received by Mary H. Wallace, city clerk, to pave with 5-in. conc. and curb High St. bet. Lewis and Agard Sts. Certified check 10%, payable to city, required. Specifications may be had from clerk.

HOLBROOK, Ariz.—Winsor & Frost, St. Joseph, awarded contr. by Navajo county highway comm. at \$37,291.71, for const. Holbrook-St. John's highway (Federal aid project No. 42), involving 4000 cu. yds. excav., 58,000 cu. yds. borrow, 17,000 cu. yds. surfacing, 220 cu. yds. concr.

COVINA, Cal.—Until 7:45 p. m., Sept. 4, bids will be received by city trustees for (a) glazed vit. sewer pipe; (b) cem. concr. sewer pipe; (c) labor installing pipe and manholes. SAN FRANCISCO BUILDING FOR
AUGUST TOTALS \$6,214,082

Building activities in San Francisco for the month of August totaled \$6,214,082, according to figures compiled by Chief Inspector of Buildings John P. Horgan, of the Department of Public Works. Horgan reports the issuance of 690 permits during August.

The totals for August are the largest recorded in San Francisco since January, 1914, when 398 permits were issued for improvements totaling \$7,349,816. During that month, however, the city Building Bureau included in the report 16 exposition buildings estimated to cost \$6,127,000, leaving a little in excess of \$1,000,000 for private operations.

Operations for the past month are segregated as follows:

Class	No. Permits	Est. Cost.
A	2	700,000
B	1	100,000
C	31	562,860
Frames	218	1,185,058
Alterations	437	3,208,739
Harbor	1	57,425
TOTAL	690	6,211,082

The Diamond Match Co., of Chico, has purchased the Colusa Lumber Co., and the stock of H. H. Hickok & Son, both of Colusa. The purchased will consolidate the two yards. A. H. Pope, of the Colusa Lumber Co., will probably be retained as manager.

The City of Watsonville proposes to purchase the water works system of the Watsonville Water Company for \$200,000, funds to be raised through a bond issue. Should the system be purchased, extensive improvements are contemplated.

Clark & Henry Construction Company of San Francisco, at \$163,830 has been awarded a contract by the City Trustees of Healdsburg, Calif., to improve twenty-five blocks of streets.

NATIONAL BUILDING CODE NOT POSSIBLE, SAYS SEATTLE BUILDING INSPECTOR

"A universal building code for American cities while it may be desirable in many ways, is not possible, for the reason that there are local problems here in the West and in the South which do not apply to the East and there are also local problems on the sea coast which do not apply to the interior or mountainous regions," says James Blackwell, Superintendent of Buildings Seattle.

Continuing he says:
"I think such a code should cover all building practice that is common all over the United States. For instance, the stresses of steel are the same where the sections and areas are the same, as this product is manufactured for general use all over the United States, and there is no reason why the laws pertaining to the construction of steel should not be uniform in every city of the Union. In all probability the laws for concrete and reinforced concrete could be uniform. The stresses for brick, however, and for the various kinds of stone pertain only to the localities where they are used. It would but promote confusion to permit the stresses for brick in this part of the country to be equal to the stresses of brick, say, in Washington, Baltimore or Philadelphia, for they are very different. The same applies to lumber and many other things. The laws pertaining to fire hazards, however, and to methods of egress and safety can be made uniform.

"To put a universal code into effect it seems to me that the committee of the Department of Commerce, working on a national building code, under the chairmanship of Ira H. Woolson, is taking the proper initiative in the matter, and by education and conferences it is probable that the building departments of the various cities can come to some conclusion as to what a common building code applicable to all of the cities should be. The tendency now is to hold conferences between the cities that they may learn from each other."

SOUTHERN PACIFIC PLANS EXTENSIVE IMPROVEMENTS

More than \$29,000,000 will be expended by the Southern Pacific in a construction and development program, according to P. L. Buckhalter, assistant general manager. It is proposed to expend this appropriation as follows:

New rails, ties, ballast, \$11,300,000; new locomotives, \$4,500,000; new rolling stock, \$12,500,000; plant facilities, \$700,000.

Extensive maintenance of way improvements are planned, including the construction of 299 miles of track during the remainder of 1922; this track will be laid with new 90-pound rails.

In addition to this, 2,518,000 ties will be installed and 800,000 cubic yards of crushed rock will be used for roadbed ballast.

The line through the Tehachapi Mountains will be double tracked for a distance of 23 miles this year at a cost of \$1,000,000. Tunnels and cuts all along the lines will be enlarged, reinforced and constructed. It is also planned to add greatly to the equipment of the company and several millions will be spent for rolling stock.

DEMAND FOR ENGINEERS BACK TO NORMAL, A. A. E. REPORTS

A gradual and steady advance in engineering employment in all sections of the country with increased activity in the basic industries is reported by the employment department of the American Association of Engineers. The demand for architectural and structural draftsmen and designers with building, or plant, experience has far exceeded the supply in practically all sections of the country.

Employment conditions for engineers in most territories are normal or very nearly so. The southwest reports a scarcity of mechanical and structural men. California reports that students for summer employment are the only men available. Missouri reports normal conditions with calls for structural engineers predominating. Employers in eastern cities where usually more men are available are experiencing difficulty in finding capable engineers, with the possible exception of the District of Columbia.

The total number of positions being received by the American Association of Engineers is over 400 each month, with about 250 of these filled by the association. This large placement is due to concerted local activity by capable employment representatives. The average monthly salary of all positions filled during June was \$192.

A number of positions above the \$500 mark were filled.

TWENTY-SIX LUMBER FIRMS UNITE

Papers have been filed with the Federal Trade Commission by the Delta Export Lumber Corporation, under the export trade act (Webb - Pomerene law) for the purpose of exporting red gum forest products.

The corporation comprises twenty-six member concerns, thirteen in Tennessee, two in Kentucky, five in Arkansas, two in Ohio and one each in Indiana, Louisiana, Illinois and Mississippi. The main office of the association will be located in Memphis, Tenn., with branch offices in European countries.

The officers are: R. L. Jurden, president; R. J. Hackney, first vice-president; W. R. Satterfield, second vice-president; W. E. Hyde, treasurer; W. B. Chapman, secretary.

The Delta corporation is the sixth lumber export association formed to operate under the export trade act. The five previously organized concerns exported a total of 357,821,224 feet of lumber from the United States during 1921, an increase of 22,555,000 feet over the year 1920.

fun for all.

Built for a Chicago store, a three-wheeled delivery truck is driven by a motor enclosed in the third wheel, which is in front, it being possible to turn the vehicle in its own length.

A New Hampshire man is the inventor of a press for printing names or trade marks on citrus fruits that also can be used on almost any spherical objects of similar size.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

Los Angeles with a total of \$8,064,018 ranked fifth among the cities of the United States in building for the month of July. Cleveland slipped into third place with a total of \$11,177,450 and Philadelphia into fourth place with a total of \$10,531,810. Detroit followed Los Angeles with \$7,389,768, and Washington seventh in the list with a total of \$6,536,757. San Francisco takes fourth place with a total of \$2,024,036, and Portland, Ore., eighteenth with \$2,206,615, and Oakland, Cal., twenty-first with \$1,900,712.

P. G. Lingren, sales manager for the Denny-Renton Clay and Coal Co., Seattle, has resigned to accept a similar position with the California Pottery Co., of San Francisco, manufacturers of a general line of clay products. Lingren has been with the Denny-Renton Co. for 21 years. Before becoming sales manager of the concern, he was assistant auditor and prior to that purchasing agent. He spent six months in Y. M. C. A. war work, having enlisted in overseas service but did not get across.

The lumbermen of Humboldt County have united in a definite policy of reforestation. They have employed Major David T. Mason, forest engineer of Portland, Ore., to direct a policy which will insure the future productivity of the fast increasing cut-over lands of the county. Forests so far untouched will also be treated in a much more economical and scientific manner in the process of logging than has been the case in the past.

George W. Lukens, who was in charge of the Architectural Service Bureau of the Paint Department of E. I. du Pont de Nemours & Co., died July 30, after a short illness, at his home in Philadelphia. Mr. Lukens was formerly connected with the Bridgeport Wood Finishing Co. and had a wide acquaintance among the architectural and building trades.

Chas. C. Hoffman of the Golden Gate Iron Works of San Francisco has been granted a patent on a steel trailer, equipped with an improved steering and coupling device, intended to keep the trailer from whipping or swaying from one side of the road to the other while in transit. Hoffman will manufacture and market the product.

Approximately 25 blocks of street pavement, curbs and gutters are included in Visalia's paving program now under way, according to L. H. Gadsby, city engineer. A contract was recently awarded to the Valley Paving & Constr. Co. to improve NE. 2nd, NW. 2nd and NE. 3rd Aves. on a bid of \$81,295.

J. A. Mohr & Son, of San Francisco, general painting contractors, specializing in compressing air painting and sand blasting, have opened a branch office at 351 Twelfth St., Oakland and 228 West 15th St., Los Angeles.

The Marysville city council has let a contract to J. E. Hutchinson, of Rio Vista, for the Ellis Lake Improvement at approximately \$29,000. The project involves 135,000 cubic yards of earthwork.

The Santa Monica Brick Co. has started the construction of a plant for the manufacture of brick at Twenty-fourth St. and Michigan Ave., Santa Monica. It is expected the plant will be in operation by Nov. 1. The initial capacity will be about 40,000 bricks per day. M. J. Carlton of Santa Monica will be manager of the new concern.

The California State Association of Electrical Contractors has re-elected E. E. Brown of San Francisco, president. The following were elected as an Executive Committee: V. Lemoga, San Francisco; J. Oyler, Berkeley; J. C. Hobbrecht, Sacramento; C. E. Osborne, Turlock; H. H. Conley, Fresno and Walter Cox, Santa Cruz.

Gardner F. Williams, mining engineer and former general manager for the DeBeers-Consolidated Mines, Ltd., of South Africa, diamond producers, died in San Francisco August 22. Williams was a native of Michigan, coming to California in 1939. He was 80 years of age.

Strawberry Canyon has been selected as the site for the new University of California stadium to be constructed at a cost of \$1,100,000. According to preliminary plans made by Architect John Howard, of San Francisco, the stadium will have a seating capacity of 75,000 persons.

The Domestic Trade Department of the San Francisco Chamber of Commerce has a request from a Buffalo, N. Y. manufacturer of electric dumbwaiters, for a live-wire agent in San Francisco to sell architects and building contractors.

Capitalized at \$1,000,000, the Hama Hamr Logging Co., with headquarters at Seattle, Wash., has been formed, with Herbert J. Clough, of Everett, Wash., as president to cut between 400,000 and 600,000,000 feet of timber near the mouth of the Hama Hama river in Mason County.

Additional dry kilns which will increase the plant's drying capacity from 50,000 to 45,000 feet daily will be installed by the Pelican Bay Lumber Co., at Klamath Falls, Ore., at a cost of \$30,000, according to an announcement of D. Mortensen, president of the company.

The Benton saw mill, located about 12 miles southwest of Bray, Siskiyou county, owned and operated by the P. H. Benton estate, suffers \$20,000 fire loss. The mill was insured for \$15,000 and had a daily capacity of 40,000 feet.

The Concrete Lumber Co. of Los Angeles proposes to establish a plant at Hayward, Alameda county. I. C. Woodworth of the company is conferring with contractors in that section regarding a market for concrete lumber products.

The Red River Lumber Co. at Westwood was the heaviest California producer in 1921 with a cut of nearly 66 million feet. Wood Lumber Co. cut 52 millions and the McCloud River Lumber Co. 53 millions.

ALONG THE LINE

Louis Stewart, widely-known in lumber circles, has been appointed manager of the lumber department of Sudden & Christenson. Stewart served for a number of years in various capacities in the Hammond Lumber Co. Later he joined W. L. Conyn & Co., and his last affiliation before going with Sudden & Christenson was with the Ocean Lumber Co.

Wm. B. Gray, formerly connected with the San Francisco office of the Pacific Portland Cement Co., has been appointed San Francisco representative for the Linton-Lath Manufacturing Co. of Vernon, Calif. Gray will have supervision of the sale of the product in Northern California.

E. S. Hogan, formerly connected with the firm of D. Zelinsky & Sons, San Francisco painters, has established a business for himself at 235 Emerson street, Palo Alto. He will carry on a painting, paper hanging and decorating business.

Jan S. Dawson, member of the firm of Olmsted Bros., noted landscape architect, is in San Francisco from the East to inspect the work of his firm in St. Francis Wood. The firm had the laying out of streets and the planting of trees and shrubs.

Ora Enslow, former surveyor of Butte county, died in Tracy, Cal. Aug. 25. Enslow was first elected as surveyor of Butte county in 1884, and was re-elected in 1886, serving two two-year terms during the period from 1884 to 1888.

Thos. J. Mooney, Palace Hotel Fresno, Cal., is in the market for pamphlets and catalogs on theatre equipment and supplies, revolve, stages, asbestos curtains, glazed terra cotta for building fronts, brick fireproofing materials, etc.

Public Works Department, Mare Island Navy Yard, has been authorized to expend \$200,000 in repairing seawall, the work to be performed by yard employees.

Walter A. Hoff, landscape engineer, has withdrawn his interests from MacRorie-McLaren Co., and has opened offices in room 1100 Santa Fe Building, San Francisco.

To construct storm sewers in the Barnhart Tract, it will cost \$20,184, according to estimates compiled by City Engineer L. F. Barzellotti of Lodi.

The Stockton Window Glass Co., of Stockton, Cal., has opened a branch office in the Furniture Exchange Building, San Francisco.

C. E. Morris has opened quarters at Addison Ave. and Cowper St., Palo Alto and will engage in the contracting business.

"PROSPERITY IS HERE," SAYS C. OF C. REPRESENTATIVE

Bank clearings, building construction, real estate sales and postal receipts show "prosperity is here," according to figures for the first seven months of 1922, compiled by Mrs. A. De Witt Cook, director of the research department of the San Francisco Chamber of Commerce.

In building activity San Francisco is establishing a record year. The total expenditure during the first seven months of the current year is \$1,586,971 in excess of the entire year of 1921. Last year's total was \$22,241,672, while the total for the seven month period of the current year is \$26,830,713. July, 1922, shows an increase of \$2,023,796 over July, 1921.

The statisticians find a consistent increase with each succeeding month, with every indication the twelve months of 1922 will prove greater than the two years following the big fire of 1906 and greater than the building mark established during the exposition period. Figures show the month of January, this year, to be the largest since 1914.

Record-smashing activity also is shown in the real estate line. The real estate sales of 1921, amounting to \$80,863,796, were regarded as a banner year in the history of San Francisco. As large as they were, a huge sum, they will be eclipsed by 1922 realty transactions. In the first six months of 1922 real estate operators here consummated deals totaling \$70,531,377. Chamber of Commerce reports are to the effect that the same speed which characterized the first six months of 1922 is continuing and the year's total will be in proportion to the six months' aggregate, thereby setting another new mark.

UNIVERSITY OF CALIFORNIA ORGANIZING CLASS IN REINFORCED CONCRETE

Engineers and other technical men are interested in courses given by the extension division of the University of California in reinforced concrete construction. The classes are conducted by Harry W. Bohn, of the office of H. J. Funnler, prominent San Francisco engineer. An advanced class is now being organized which will take up the actual design of beams, columns, retaining walls and other simple reinforced concrete structures. Members of the class will work out all of the necessary formulas for the design of these members and will then make the preliminary drawings. The class meets in room 237, Pacific building, San Francisco, on Mondays and Fridays at 7 p. m.

An elementary class is scheduled to begin on Sept. 8, in the same place, at 8 p. m. Instruction in this class will include lectures, and discussion of the application of mechanics to concrete structures. Formulas will be derived which are constantly made use of by the architect and structural engineer whenever concrete is employed as a material of construction.

Enrollments for both elementary and advanced reinforced concrete courses are now being received at the office of University Extension, 140 Kearny St., San Francisco.

MANUFACTURING OPPORTUNITY

The Convertible Car Co., at Lynchburg, Va., owner of United States patents for the Handicar, a new idea for pleasure purposes and for wheeling loads, wishes to arrange with a manufacturer in this vicinity to produce and distribute its product in Western states and for Pacific export. The company claims that on a large scale the car can be manufactured and boxed for \$3. The selling price quoted is \$10 f. o. b. factory. A sample Handicar will be shipped on request. Further information may be obtained from the Industrial Department, San Francisco Chamber of Commerce.

SEASONAL DECLINE IN EXPENDITURES FOR BUILDING

A seasonal decline in expenditures for building was reported by Bradstreet's. The report, in commenting on its latest compilations, says:

"Returns of building expenditures for July, as expected, show a slight decline from the peak total of June, but continue to record a heavy gain in aggregates over the corresponding month of last year. Thus, reports to Bradstreet's from 149 cities of the

United States show a total expenditure permitted for of \$188,155,537 for July as against \$224,503,116 at the like date in June and \$135,227,838 in the month of July, 1921. There is here indicated a decrease of 16.2 per cent from June, but a gain of 30 per cent over July a year ago.

"Even with returns for 15 cities out of the 163 regularly reporting to Bradstreet's not received, the total for July exceeds that of any month previous to March this year. Most of the larger cities show declines from the June totals, these including New York, Chicago, Philadelphia, Boston, Los Angeles, Philadelphia, Pittsburgh, Detroit, St. Louis and San Francisco. Exceptions to this, however, are found in the cases of Cleveland, Minneapolis, St. Paul, Baltimore, Memphis and Washington."

OAKLAND BUILDING ACTIVITIES EXCEEDS ALL PAST RECORDS

Nearly \$13,500,000 is being invested in new construction for which permits have been issued in Oakland during the first seven months of 1922. This figure marks the highest record of building activities in the history of the community.

The total of construction cost for building permits issued during like period of 1921 was \$12,566,100. The total of permits for the entire year of 1921 was \$14,888,465, which is but 13 per cent greater than the total investment called for by permits issued during the seven months' period just passed.

The records show a marked increase in building activity of all classification, the greatest being in commercial construction. Permits for new commercial construction during the first seven months of this year call for an investment of 166.8 per cent greater than permits of like classification for a similar period of last year.

The construction of new housing shows a marked increase, permits for new dwellings showing an increase of 50 per cent in investment and for flats and apartments, an increase of 51 per cent in investment over like period of 1921. The entire production of new housing is being promptly absorbed by increased population.

WHEN IN DOUBT, ASK THE ENGINEER

Confronted by the problem of lowering a two hundred ton steel boiler plate tank into position in a new ice plant being constructed by the Pacific Fruit Express Co. in the Southern Pacific yards at Bakersfield, engineers were forced to resort to novel means of setting the huge tank. The tank was resting on a platform over the foundation and the engineer in charge securing blocks of ice from the nearby plant directed the building up of ice piles to the base of the tank. The platform was then cut away and the weight of the tank in the sun's rays gradually lowered the tank to the foundation.

DAILY
PACIFIC BUILDER

The only daily newspaper in the West whose columns are devoted exclusively to Building News. Covers San Francisco and Bay Counties. \$1.25 per month, payable in advance. Send for sample copy.

APARTMENT HOUSES

Plans Being Prepared. Figures to Be Taken in Two Weeks.
ALTERATION Cost, \$10,000
SACRAMENTO, 9th and G Sts.
 Alter two-story for apartments.
 Owner—Fred A. Aukener, San Francisco, Hotel Whitcomb.
 Architect—F. C. Hemmings, Oschner Bldg., Sacramento.

Plans Being Figured.
APARTMENTS Cost, \$100,000
SEATTLE, Wash. Olive Street and Yale Avenue.
 Four and five-story concrete and heavy mill construction (44) apartments; (27 3-room and 17 2-room apts.).
 Owner—Lewis Levy, Broadmore Apts., Seattle, Wash.
 Architect—H. Ryan, Peoples Bk Bldg., Seattle, Wash.

To Be Done By Day's Work.
APARTMENTS Cost, \$70,000
SAN FRANCISCO, NE Taylor St. and Derby Place.
 Six-story and basement concrete (33) apartments.
 Owner—James Welsh, 597 20th Ave., San Francisco.

Plans Being Prepared.
APARTMENTS Cost, \$20,000
BERKELEY, Walnut St.
 Two-story frame and plaster apts.
 Owner—Capt. Rideout.
 Architect—W. J. Wythe, Central Bank Bldg., Oakland.

Plans Being Prepared.
APARTMENTS Cost, \$20,000
OAKLAND, Mather St., near Broadway.
 Two-story frame and plastered apartments and garages.
 Owner—Withheld.
 Architect—W. J. Wythe, Central Bank Bldg., Oakland.

Contract Awarded.
ALTERATIONS Cost, \$10,000
OAKLAND, High St., and Foothill Blvd.
 Alteration and addition to apartments.
 Owner—M. Eggers, Oakland.
 Contractor—A. H. Rose, 525 17th St., Oakland.

To Be Done By Day's Work.
STORE Cost, \$100,000
SAN FRANCISCO, S Geary 137-6, West Hyde St.
 Six-story brick (37) apartments and store.
 Owner—Chas. A. Johnson, 36 Steiner St.

To Be Done By Day Work.
APARTMENTS Cost, \$43,000
SAN FRANCISCO, NW Cole and Parnassus Sts.
 Three-story frame (11) apartments.
 Owner—G. F. Bernard, 110 Gough St.
 Architect—Theo. W. Lenzen, 706 Humboldt Bank Bldg.

Plans Being Prepared.
APARTMENTS Cost, \$65,000
SAN FRANCISCO, Hyde St. near Sutter.
 Six-story reinforced concrete apartment house (24 rooms), 40x76.
 Owner—Louis Blum.
 Architect—C. O. Clausen, Hearst Bldg.

BANKS

Contract Awarded.
BANK BUILDING Cost, \$25,000
OAKLAND, Fruitvale Ave. and Hopkins St.
 One-story reinforced concrete bank building.
 Owner—American National Bank.
 Architect—Edw. T. Foulkes, Crocker Bldg., San Francisco.

Contractor—F. W. Maurice, 1362 E 25th St., Oakland.

Plans Being Revised.
BANK BUILDING Cost, \$250,000
VISALIA, Tulare County.
 Five-story reinforced concrete bank & office building.
 Owner—Bank of Italy, S. F.
 Mr. Cunee in charge of construction
 Architect—R. F. Felchlin & Co., Bank of Italy Bldg., Fresno.

To Be Done By Day's Work.
ALTERATIONS Cost—
NAPA, Napa County.
 Alteration and addition to bank.
 Owner—Bank of Italy, S. F., Mr. Cunee in charge of construction.

BONDS

SAN ANSELMO, Marin Co., Cal.—Election will be held Sept. 16 to vote bonds of \$70,000 to finance construction of six bridges in various sections of the town.

EL SEGUNDO, Cal.—The \$200,000 bond issue for a municipal water system carried at a special election. The existing plant will be purchased and extensions and improvements will be made. Olmsted & Gillelin, Hollingsworth Bldg., Los Angeles, engrs.

SAN JOSE, Santa Clara Co., Cal.—Until Sept. 18, bids will be received by supervisors for purchase of \$197,000 bond issue of Mountain View Union High School District; proceeds of sale to finance construction of new school building.

SAN JOSE, Santa Clara Co., Cal.—Until Sept. 18, bids will be received by supervisors for purchase of \$60,000 bond issue of Gilroy High School District; proceeds of sale to finance school improvements.

SANTA ROSA, Sonoma Co., Cal.—Election will be held Oct. 2 in Day School District to vote bonds of \$200 for school improvements. Trustees of district are: Mrs. S. Williams, Chas. H. Colombo, and W. J. Robertson.

NAPA, Napa Co., Cal.—Bonds of \$45,000 voted in Union School District comprising Salvador, Oak Knoll and Jefferson School Districts; proceeds of sale to finance construction of new school building.

BERKELEY, Alameda Co., Cal.—Funds are being raised by Building Committee of All Saints Episcopal Church, Hon. R. Hunter, chairman, to erect addition to present church in Cedar St., near Spruce, to cost \$15,000.

FACTORIES & WAREHOUSES

Contract to Be Awarded Low Bidder.
HATCHERY Cost, \$—
PETALUMA, Sonoma Co., Cal.
 One and two-story reinforced concrete and hollow tile hatchery; first portion, 90x161; 2nd 30x90 ft. with 40 ft. water tower.
 Owner—Nisson Bros, Petaluma.
 Architect—Emanuel Jones, 110 Washington St., Petaluma.
 Following bids submitted:
 Vogeser Constr. Co., Petaluma \$24,000 80 days
 Ward & Jones, S. F., 24,228 80 days
 Matthies & Gale, S. F., 21,632
 John Morton, S. F., 25,154 90 days

Bids Rejected—To Be Done by Day's Work.
CREAMERY Cost, \$15,000
PETALUMA, Sonoma Co., Cal.
 One-story and mezzanine floor frame, corrugated iron and reinforced concrete creamery, 40x110.
 Owner—Petaluma Co-Operative Creamery Co., Petaluma.
 Architect—Emanuel Jones, 110 Washington St., Petaluma.

Plans Being Revised. Sub-figures to Be Taken Shortly.
WAREHOUSE Cost, \$200,000
SAN FRANCISCO, SW Van Ness Ave & McAllister Sts.
 Fireproof Class A 8-story warehouse.
 Owner—Lyon Fireproof Warehouse, 5136 Broadway.
 Architect—W. B. Knowles, Hearst Bldg., San Francisco.

Plans Being Prepared.
ICE PLANT Cost, \$150,000
NEEDLES, San Bernardino Co., Cal.
 Reinforced concrete ice plant.
 Owner—Santa Fe Railway Co.
 Architect—Engineering Department.

Plans Being Prepared.
ICE PLANT Cost, \$150,000
BAKERSFIELD, Kern Co., Cal.
 Reinforced concrete addition to ice plant
 Owner—Santa Fe Railway Co.
 Architect—Engineering Department.

Figures to Be Taken Shortly.
LOFT BUILDING Cost, \$60,000
SAN FRANCISCO, Fremont, bet. Howard and Folsom St.
 Two-story brick and concrete loft bldg. 37-8x37-6.
 Owner—Bothin Realty Co.
 Architect—Arthur S. Eugbee, 26 Montgomery St., San Francisco.
 Lessee—Callahan & Son.

Sub-figures Being Taken Contract Awarded.

ALTERATIONS
SAN FRANCISCO, Howard St.
 Alterations and addition for a furniture manufacturing and wise. bldg.
 Owner—Wm. Volker & Co., 180 New Montgomery St.
 Architect—Willis A. Lowe, Monadnock Bldg., San Francisco.
 Contractor—Plastering to Jas. P. Smith, 273 Minna St.; \$2600; electric work to C. C. Severin, 55th St., day work.

Contract Awarded.

LAUNDRY Cost, \$150,000
PASADENA, L. A. Co., Broadway and Bellevue Drive.
 Two-story reinforced concrete fireproof laundry bldg., 132x185.
 Owner—Home Laundry & Nuway Ldry. of Los Angeles.
 Architect—Marston & Van Pelt, Pasadena Chamber of Commerce Bldg.
 Contractor—John H. Simpson, 685 S. Euclid Ave., Pasadena.

Plans Being Prepared.

ADD. & WAREHOUSE Cost, \$60,000
LOS ANGELES, 7th and Alameda Sts.
 Second unit to terminal warehouse group, 4-story and basement R. C. Class A 100x560.
 Owner—L. A. Union Terminal Co.
 Architect—John and Donald B. Parkinson, Title Ins. Bldg., L. A.

Plans Being Prepared.

LOFT BUILDING Cost, \$20,000
SAN FRANCISCO, Ritch and Brannan Sts.
 Three-story reinforced concrete loft building, 51x75.
 Owner—Bothin Realty Co., lessee Mono Oil Co.
 Architect—Arthur S. Bugbee, 26 Montgomery St., San Francisco.

To Be Done By Day Work.

WAREHOUSE Cost—
SAN FRANCISCO, Folsom St.
 Two-story warehouse and office building, 75x165.
 Owner—Clinton Constr. Co., 140 Townsend St.

Figures to Be Taken Shortly.

FACTORY BLDG. Cost, \$500,000
SANTA BARBARA, Santa Barbara Co.
 Group of four factory buildings, 125x175 each.
 Owner—Sears-Roebuck Co.
 Architect—Frank Henderson, of Stewart Co.

Engineer—H. Thompson, of Stewart Co.

OAKLAND, Cal.—Until Aug. 31, 12 m., bids will be received by E. L. Sturges, city clerk, for covering roof of municipal warehouse at foot of Jefferson St. Bond of \$250 req. of successful bidder. Specifications on file in office of city clerk.

PARADISE, Butte Co., Cal.—Until Sept. 19, 10 A. M., bids will be received by G. C. Billie, Secretary, Paradise Irrigation District to construct warehouse building. See call for bids under official proposal section in this issue.

FLATS

To Be Done by Day's Work.

STORES & FLATS Cost, \$22,500
STOCKTON, San Joaquin Co., Cal., J. Market Street.
 Stores and flats.
 Owner—Mrs. S. M. Hickenbotham

To Be Done By Day's Work.

FLATS Cost, \$14,000
SAN FRANCISCO, 15th Ave. near California St.
 Two-story 6-room frame and plaster flat.
 Owner—Maria Azaro.
 Architect—C. O. Clausen, Hearst Bldg.

Plans Being Figured.

FLATS Cost, \$10,000
SAN FRANCISCO, Green St. near Van Ness Ave.
 Two-story frame and plaster flats, concrete foundation.
 Owner—Miss Margaret McParland, 1363 Jackson St.
 Architect—Ernest H. Hildebrand, 110 Sutter St.

GARAGES

Contract Awarded.

GARAGE Cost, \$25,000
SAN FRANCISCO, Fulton St. — W Divisadero St.
 One-story reinforced concrete garage.
 Owner—Louis Wood and Dave Shnay.
 Architect—Designer—Mel I. Schwartz, Nevada Bank Bldg., San Francisco.
 Contractor—Trobuck & Cress, 180 Jessie St.

Plans Being Prepared. Figures to Be Taken Shortly.

GARAGE Cost, \$12,000
Marin Co.
 Reinforced concrete garage.
 Owner—Withfield.
 Architect—Designer—Mel I. Schwartz, Nevada Bank Bldg., San Francisco.

Plans Being Prepared.

GARAGE Cost, \$45,000
SAN FRANCISCO, Natoma-Hunter & Sherwood Sts.
 Three-story commercial garage.
 Owner—Bothin Realty Co.
 Architect—Arthur S. Bugbee, 26 Montgomery St., San Francisco.

Contract to Be Awarded.

GARAGE Cost, \$13,500
SAN FRANCISCO, W 9th Ave. between Irving and Judah.
 One-story brick garage 75x120 ft.
 Owner—A. B. Harrison, Mills Bldg., S F
 Architect—O. R. Thayer, 110 Sutter St.
 Contractor—E. K. Nelson, 77 O'Farrell.

GOVERNMENT WORK AND SUPPLIES

LOS ANGELES, Cal.—Until Sept. 28, 11 A. M., bids will be received by the U. S. Engineer Office, 725 Central Bldg., for sale of U. S. dredge San Pedro and equipment. Further information on request.

WASHINGTON, D. C.—Bureau of Yards and Docks, Navy Department, under Specification No. 4601, will shortly issue a call for bids to remodel Barracks Building No. 53, Mare Island, Navy Yard. For further information see notice in the Official Proposal section of this issue.

WASHINGTON, D. C.—Until Sept. 27, bids will be received by Supervising Architect, Treasury Department, to construct officers' and employees' quarters for U. S. Veterans' Hospital at Fort Bayard, N. M. See call for bids under official proposal section in this issue.

WASHINGTON, D. C.—Bureau of Yards and Docks, Navy Department, is completing plans for improvements to be undertaken under the following specification numbers:

Spec. 4601, Mare Island, remodeling barrack building No. 43. Deposit for plans, \$10.

Spec. 4665, San Diego, constructing quarters, mess hall, barracks, administration building, pump house, etc. Deposit for plans, \$100.

Further mention will be made of these projects when bids are desired.

WASHINGTON, D. C.—Until Sept. 13, bids will be received by Bureau of Yards and Docks, Navy Department, to construct guard house and shops at Naval Station, San Diego, Cal. Specifications 4582. Deposit of \$20 req. for plans.

WASHINGTON, D. C.—Stand. Fence Co., 245 Market St., San Francisco, at \$3999 awarded contract by Bureau of Yards and Docks, Navy Dept., under Specification 4696 to const. wire partition at San Diego; time to complete 90 days.

WASHINGTON, D. C.—Following bids received by Bureau of Yards and Docks, Navy Dept. to const. quay walls and piers at Naval Station, Pearl Harbor, T. H.: Hawaiian Engineering Co., 824 Kalaumanna St., Honolulu, H. T.; item 1, complete, \$811,743. 45 days; item 5, deduct for each 30 feet bay;

item 1, add \$18,285, or alternate design No. 1, deduct \$14,604; item 7, add or deduct for each foot of concrete pile in place, add \$4 and deduct \$2; item 8, for each foot of timber pile in place add 50c, deduct 30c; item 10, unit price per yard for dredging, 75c.

J. Lloyd, McKangs Building, Honolulu, item 1, \$1,047,736, 450 days; 2, \$1,209,860, 150 days; 3, \$178,900, or \$18,700, 6, \$5120; 7, \$3; 8, \$1. 9, \$3; 10, \$1.10.

DENVER, Colo.—Until Sept. 8, bids will be received by U. S. Reclamation Service, Denver, for 4 gates, radio gates, hoists and hand rail under specification 286-D, for the Klamath project, Orland project and North Platte project. It is estimated that 35,500 pounds of metal work are required.

WASHINGTON, D. C.—Until September 14, 10:30 a. m., bids will be received by Panama Canal Comm., under Circular 1444, for outfitting of the Colon (Pacific Port): Special bronze, brass screws, brass tubing, steel rivets, sanitary fixtures, twine, bow latches, manila rope, sash cord, hand lines (ships' line), ship felt, flux packing, steel brooms, soap, toilet paper, paint, shellac, lacquer, linseed oil, turpentine, petroleum spirits (turpentine substitute), creosote oil, coal tar, lumber and creosoted pipes.

WASHINGTON, D. C.—Tibbitts-Pacifi-Co., 16 California St., at \$10,960, submits low bid to Bureau of Yards and Docks, Navy Department to const. circulating loop for Central Power plant at Mare Island Navy Yard. Time for completion 100 days. A complete list of bids received will be published shortly.

WASHINGTON, D. C.—Until Sept. 29, 3 p. m., bids will be received by Supervising Architect, Treasury Department, to repair wharf at Columbia River Quarantine Station, Astoria, Ore. See call for bids under official proposal section in this issue.

WASHINGTON, D. C.—Lange and Bergstrom, Timken Bldg., San Diego, at \$482,500 awarded contract by Bureau of Yards and Docks, Navy Dept., under spec. No. 4636 to const. wards and service building at Naval Hospital, San Diego.

J. L. Young, Honolulu, at \$166,140 awarded contract to const. six orphanage buildings, railroad track and water main extensions at the naval operating base, Pearl Harbor, T. H. under Spec. No. 4566.

HALLS AND SOCIETY BUILDINGS

Plans Being Prepared.

CLUB BLDG. Cost, \$120,000
SAN FRANCISCO, S Market W. of Twelfth St.
 Two-story brick Class A store and club building.
 Owner—Loyal Order of Moose, S. F. Lodge No. 26.
 Architect—O'Brien Bros., 240 Montgomery St., San Francisco.

Grading Contracts Awarded.

ADDITION Cost, \$250,000
SAN FRANCISCO, N. Sutter west Mason St.

Six-story and basement Class A addition to club building.

Owner—Burlingame Country Club.
 Architect—Bliss & Faville, Balboa building, San Francisco.
 Engineer in Charge of Constr.—A. A. Brown, 120 Market, San Francisco.
 Motor Drayage Co. (31995) 1st report Dec. 6, 1922; 4th July 24, 1922. 118

Contracts for other parts of the work will be awarded in about two weeks.

Plans Being Prepared.

CLUB HOUSE Cost—
BURLINGAME, S. M Co.
 Alter and add to club house.
 Owner—Burlingame Country Club.
 Architect—Bakewell & Brown, 251 Kearny St., S. F.
 Engineer—C. H. Snyder, 251 Kearny St., San Francisco.

Contract to Be Awarded This Week.
LODGE BUILDING. Cost—
BAKERSFIELD. Kern Co.
 Four-story Class A reinforced concrete
 lodge building.
 Owner—Edks Lodge of Bakersfield.
 Architect—Neyers & Johnson, Bankers
 Investment Bldg., San Francisco.
 Plumbing, Heating and Ventilating to
 Burnham Plumbing Co., 2020 Web-
 ster St., San Francisco.
 Painting to D. Zelinsky & Son, 422 Turk
 St., San Francisco.
 Cuni- & Duglar, of Bakersfield will be
 general contractor.

Bids opened.
LODGE BLDG.
 SAN FRANCISCO, NW Clay and Grant
 Ave.
 Extensive alterations to 4-story brick
 lodge bldg, marble work, plumbing
 and electrical work.
 Owner—Soo Yuen Benevolent Assn.
 Architect—Albert Schreffler, Nevada
 Bank Bldg., San Francisco.
 John J. Leonard, low, 186 Jessie
 Street.....\$51,525
 Vukicevich & Bayne, S. F.....\$3,600
 Bayless & Sheridan, S. F.....\$6,240
 Ward & Jones, S. F.....\$6,823
 S. Scheil, San Francisco.....\$8,000
 F. Muller.....\$9,000
 Bids taken under advisement.

HOSPITALS

Contract Awarded.
ALTERATIONS. Cost—
 SAN FRANCISCO, Presidio.
 Alter and repairs to laundry room at
 \$4375, and refrigerator at \$2550, at
 Marine Hospital.
 Owner—U. S. Government.
 Architect—
 Contractor—John Morton, Balboa Bldg.

HOTELS

Plans Being Prepared.
HOTELS. Cost, \$200,000
 SACRAMENTO, Cal., Stockton Road.
 Group of one-story hollow tile hotel
 and apartments, 50x250.
 Owner—Rodome Corp., E. F. Hilhorn,
 mgr., Travelers Hotel, Sacramento.

 Builders' Exchange,
 Dear Sandy:—We want to do something for the "Builders' Day" and we
 offer two prizes
 24 Hammers (for Ladies' Nail Driving Contest)
 12 Trowels (for Brick Laying Contest)

SEE WHAT Charley Cadman gave.
 SOME FIFTY dollars.
 HE MUST make money.
 ON HIS ready mixed mortar.
 HE MAKES more.
 THAN CLARENCE Sand Pratt, Presi-
 dent.
 OF THE Pratt Building Material Co.
 DOUGLAS 200—"easy to remember."
 WHO SELLS clean, sharp sand.
 READ THE prizes.
 GIVEN BY the Standard Oil Co.
 AND SEE what Hugh Oliphant.
 OF GEO. H. Tay Co. secured.
 FROM BAKER, Hamilton-Pacific Co.

AND THE Builders' Exchange quartette
 WILL MAKE their first appearance.
 BILLY FEARY is Advance Agent.
 FOR THESE great singers.
 THERE HAS been.
 ALMOST NOTHING said.
 ABOUT THE public wedding.
 BUT NEXT to the Bathing Girls' Revue.
 AND THE famous "Builders' Midnight
 Follies."
 THE WEDDING will be very popular.
 BRING PLENTY of California rice.
 AND OLD saccs.
 TO MAKE the bride.
 AND GROOM very happy.
 "I THANK you."

BIDS WANTED FOR STATE HIGHWAY IMPROVEMENT

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of The California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock p. m. on September 25, 1922, at which time they will be publicly opened and read for construction in accordance with the specifications therefor to which special reference is made, portions of State Highway as follows:

Los Angeles and Orange Counties, between Long Beach and Huntington Beach (VII-1A-1022 and VII-1022-61), about seven and eight-tenths (7.8) miles in length, seven and eight-tenths (7.8) miles to be graded and six and five-tenths (5.5) miles to be paved with Portland cement concrete.

Plans may be seen and forms of proposals, bonds, contracts and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineer's offices are located at Willis, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal for full directions as to bidding, quantities of work to be done, etc.

The Department of Public Works, acting by and through the California Highway Commission, reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the State.

NEWELL D. DARLINGTON,

CHARLES A. WHITMORE,

GEO. C. MANFELD,

California Highway Commission

AUSTIN B. FLETCHER,

State Highway Engineer.

B. A. MURRAY, Secretary.

Dated August 28, 1922.

BIDS WANTED FOR HIGHWAY IMPROVEMENT

NOTICE TO CONTRACTORS

Sealed proposals will be received by the undersigned on September 6th, 1922, for constructing portions of the State Highway System as follows:

(1) Bids received until and opened at 1:30 P. M. for grading, construction of culverts and placing a cement concrete surface in Lyon County between South City Limits and East City Limits of Vermont.

(2) Bids received until and opened at 2:30 P. M. for grading, construction of culverts and placing a cement concrete surface in Churchill County between West City Limits and East City Limits of Fallon.

Plans may be examined and form of Proposal, Contract and Specification secured at office of undersigned. May also be examined for Lyon County work at the County Clerk's office or the City Clerk's office in Virginia; for Churchill County work at the County Clerk's office or City Clerk's office in Fallon; may also be examined at the Division Engineer's office in Las Vegas, Reno, or Reno and District office of the Bureau of Public Roads, Mills Building, San Francisco, California. Cash deposit of fifteen dollars (\$15.00) with the undersigned required for copy of plans, which will be re-

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

funded on their return in good condition. Bids must be on proposal form of Highway Department, and must be accompanied by a certified check in the amount of 5% of the bid.

Each bidder must accompany his bid with a certificate from a State Company, duly authorized to do business in this State, stating that such Society Company will provide said bidder with a bond in such sum as is required in and in accordance with the provisions of said specifications, conditions for the faithful performance of the provisions of the contract and specifications.

Right is reserved to reject any or all bids.

GEO. W. BORDEN,
State Highway Engineer,
Carson City, Nevada.

SCHOOL BIDS WANTED

NOTICE TO CONTRACTORS

The Board of Trustees, Selma Union High School District hereby invite sealed bids for the furnishing of labor and materials and the erection and completion of a Masonry Science Hall according to plans and specifications of the District's architect, Norman F. Merrill.

Bids for the several sections of the work will be called for as follows:

General contract
Painting contract
Heating and ventilating contract
Electric contract
Program clock contract
Plumbing contract

Plans and specifications may be obtained from the architect, 211 Broadway Central Building, Los Angeles, California, or from Superintendent of Construction, new Reedley Joint Union High School, Reedley, California.

Bidders will be required to make a deposit of \$50.00 for plans and specifications, which will be refunded on return of plans accompanied with bond-fide bids.

All bids must be accompanied with a certified check or bid bond for five per cent (5%) of amount of bid made payable to Selma Union High School District as guarantee that if awarded the work, bidder will furnish good and sufficient Security Company Bond and enter into contract for execution of work as indicated by above.

All bids must be in the hands of C. W. Christensen, Clerk, at the High School, on or before 8 p. m., Monday, September 25th, 1922, and will be opened in public immediately thereafter.

All bids must be made on uniform bid blanks furnished by the architect. The Board of Trustees of the Selma Union High School District reserve the right to reject any or all bids.

Done by order of the Board of Trustees, Selma Union High School District, This the 21st day of August, 1922.

F. A. DODSON, President.

Attest:
C. W. CHRISTENSEN, Clerk.

BIDS WANTED FOR IRON AND BRONZE WORK FOR STATE BUILDINGS

NOTICE TO CONTRACTORS

SEALED BIDS will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to and including 16 o'clock A. M., Tuesday, October 3, 1922, said bids to be there to be publicly opened and read for furnishing all plant, materials and doing the work required for the complete ORNAMENTAL AND MISCELLANEOUS IRON AND BRONZE WORK, for the SACRAMENTO STATE BUILDINGS, i. e., the Library and Courts Building and the Office Building, Sacramento, California, in accordance with plans and specifications therefor, copies of which may be obtained on application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

Such bids will be received for Ornamental and Miscellaneous Iron and Bronze Work and must be submitted on forms prepared and furnished by said Division of Architecture.

Cash, a bidder's bond made payable to the State of California or a certified check made payable to the "State Engineer, Department of Public Works," in the sum of at least ten per centum (10%) of the amount of the bid must be enclosed with each bid.

A deposit of Twenty-Five (\$25.00) Dollars will be required on plans and specifications, the deposit to be returned immediately on the return of the plans and specifications to the said Division of Architecture, at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works reserves the right to reject any or all bids and to waive any informality in any bid received.

The construction work of said Sacramento State Buildings has been placed on a days labor basis and on said basis the said Ornamental and Miscellaneous Iron and Bronze Work, as a sub-division of said construction, is to be let by contract.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope, "Proposal for Ornamental and Miscellaneous Iron and Bronze Work, Sacramento State Buildings, Sacramento, California." STATE DEPARTMENT OF PUBLIC WORKS, DIVISION OF ARCHITECTURE.

GEO. B. McDOUGALL, State Architect.
A. B. FLETCHER, Director of Public Works.

NOTICE TO CONTRACTORS
(Court House Roofing)

Sealed bids will be received up to 10 A. M., of September 18, 1922, by the Clerk of the Board of Supervisors, County of Kern, Bakersfield, California, for the furnishing of all labor and materials for the erection and completion of a new roof on the Kern County Court House, put on in accordance with the following specifications:

Thoroughly clean roof, cutting off any bumps or ridges of existing roof, hot coat with high melting point asphalt, 2 layers of 10 lb. asphalt. Saturated felt, or equal, over which imbed a layer of Medium Malthoid Roofing, Johns-Manville Three-ply Cap Sheet, or equal, all to be cemented together with hot asphalt as per manufacturer's specification. All necessary flashing to be Johns-Manville "Asbestos" or equal and the whole roof to be complete water-tight job, put on to the satisfaction of the inspector in charge.

Each bid must be accompanied by a maintenance guarantee from the Applicant, backed by the Manufacturers of the material used, for a period of ten years from date of completion. All bids to be accompanied by a certified check in the amount of at least ten (10%) per cent of the amount bid.

The Board of Supervisors reserves the right to reject any or all bids or to waive any informality in any bid received.

By order of the Board of Supervisors, County of Kern, August 21, 1922.

F. E. SMITH,
County Clerk and Ex-Officio Clerk of the Board of Supervisors.

NOTICE TO BIDDERS
(San Anselmo School Addition)

Sealed proposals will be received by the Clerk of the Board of School Trustees of San Anselmo School District up to and including September 11, 1922

at 8 o'clock p. m. when the said bids will be opened, for the Main School, according to the plans and specifications which are now to be seen at the residence of the clerk, Mrs. L. Jones.

All bids must be addressed to the Clerk of said Board at San Anselmo, Marin county, California, and each bid must be accompanied by a certified check on some reliable bank in a sum equal to at least ten (10%) per cent of the bid made payable to undersigned clerk of the said Board, and to be forfeited to the School District in case the party to whom the contract shall be awarded shall fail to execute within ten (10) days after the award of said contract. The check must be approved by the Board of Trustees and enter into a written contract with said Board in accordance with plans and specifications and the bids thereon.

All bids from contractors must be made out on blank forms furnished by J. W. Dolliver, Architect, 833 Monadnock Bldg., San Francisco, Cal. Separate copies of plans and specifications must be secured by bidders upon a deposit of Five (\$5) Dollars to insure the return of same.

The trustees reserve the right to reject any or all bids.
(Signed)

MRS. L. JONES,
Clerk of Board of Trustees,
San Anselmo School District.

NOTICE INVITING SEALED PROPOSALS FOR THE INSTALLATION OF A STEAM HEATING SYSTEM IN THE ADDITION TO THE RAVENSWOOD PUBLIC SCHOOL, SAN MATEO COUNTY, CALIFORNIA

NOTICE IS HEREBY GIVEN by the Board of Trustees of the Ravenswood School District, San Mateo County, California, that bids will be received by said Board for the installation of a Steam Heating System in the Addition to said Ravenswood Public School in said District.

Plans and Specifications may be obtained from the Clerk of the Board, Mr. L. H. Brown at 379 University Ave., Palo Alto, California, or from the Architect, Norman K. Coulter, 15 Kearny Street, San Francisco, California. A deposit of Ten Dollars (\$10.00) will be required for each set of plans.

All bids will be opened by the said Board of Trustees on the 5th day of September, 1922, at 8 o'clock, at the Ravenswood School, and all bids must be delivered to L. H. Brown, Clerk of said Board, before that hour, enclosed in sealed envelope and marked on the outside, "Bid for the Installation of a Steam Heating System in the Addition to the Ravenswood Public School, San Mateo County, California."

All bids must be accompanied by a certified check, cash or a certificate of deposit in the amount of ten per cent of the amount bid; checks or certificates of deposit to be made payable to the Board of Trustees and to be returned to the party to whom the contract is awarded upon a Contract with the said School District and giving such bonds as may be required by law or said Board.

The Board of Trustees reserves the right to reject any and all bids.

L. H. BROWN,
Clerk of the Board of Trustees of the Ravenswood School District, San Mateo County, California.

SCHOOL AUDITORIUM

NOTICE TO BIDDERS

RICHMOND, Contra Costa Co., Cal.—SEALED bids are hereby invited and will be received by the Board of Education of the City of Richmond and of Richmond School District of Contra Costa County, California, at its office in the Lincoln School, 235 Tenth St., Richmond, California, up to and including the hour of 8 o'clock p. m. of Thursday, September 14, 1922, at which time and place said bids will be opened, for the supplying of all materials and the construction of an Auditorium for the Los Altos Junior High School, to be erected on Block 36, City of Richmond, according to plans and specifications prepared by Mr. James T. Napheet, 906 Macdonald Ave.,

Richmond, California, authorized architect.

Separate bids will be received, at the same time and place, for the installation of a heating and ventilating system in said Auditorium according to plans and specifications prepared by Messrs. Leland & Haley, 58 Sutter St., San Francisco, California. Authorized engineers.

Separate bids will also be received, at the same time and place, for certain alterations to several heating plants, according to specifications prepared by Leland & Haley.

Each of said bids must be accompanied by cash equal to ten per cent (10%) of the amount bid, or by a certified check on some solvent bank, made payable to the order of W. T. Helms, Clerk, equal to ten per cent (10%) of the amount bid, which said amounts will be forfeited to said Board of Education should the successful bidders fail to enter into legal contract with said Board of Education within ten (10) days after the award of contract. Plans for the building may be obtained at the Architects' office and plans for the heating systems and for alterations to heating systems may be obtained either at the Architects' office or at the Heating Engineers' office.

The Board reserves the right to reject any or all bids.

J. O. FORD, President,
R. E. Slattery,
Myrtle A. Stiver,
BOARD OF EDUCATION OF RICHMOND SCHOOL DIST.

By W. T. Helms, Clerk,
Richmond, Cal.
August 16, 1922.

BIDS WANTED FOR REMODELING BARRACKS
NOTICE TO CONTRACTORS

Subject—Specification No. 4601, Remodeling Barracks Building No. 55, Navy Yard, (Marine Reservation), Mare Island, Calif.

The Bureau of Yards and Docks invites attention to the fact that it will open proposals in the near future, on the project mentioned above. The building is a two-story brick structure 500 feet by 26 feet with wings 41 feet by 18 feet and a one-story kitchen, about 32 by 71 feet. A 12-foot veranda extends across the front of the building on both floors. The first story height is 13 feet from finished floor to ceiling. The remodeling consists in general of the removal of partitions, and brick walls, removal of certain inlets and sills and installation of new inlets and sills, construction of new partitions, removal of wood floor, installation of new wood and concrete floors, repainting floors, installation of cement-mortar wainscots, new plastering, steel stairs to veranda, wood trim, screens, hardware and plumbing fixtures, with connections to existing sewer and water systems, electric lighting system and other incidental work. The work herein described applies to that part of the building which is south of the north side of the Sally port which includes the lavatory room over the Sally port.

Plans and Specifications No. 4601 may be obtained when available, by application to the Bureau of Yards and Docks, Navy Department, Washington, D. C., or to the Commandant, Navy Yard, Mare Island, Calif., accompanied by a Postal Money Order or check for \$6.00, payable to the chief of the Bureau of Yards and Docks, as security for the safe return of the Specifications.

NOTICE TO CONTRACTORS
CURRENT CREEK ROAD

SEALED PROPOSALS for constructing the above-named National Forest Project located within the Nevada National Forest, New County, state of Nevada, will be received by the District Engineer, Bureau of Public Roads, U. S. Department of Agriculture, at 881 Mills Bldg., San Francisco, California, until 2 o'clock p. m. on the 12th of September, 1922, at which time and place will be publicly opened and read. The right is reserved to reject any and all bids, and none will be considered except those from contractors ascertaining

to be experienced and responsible. The project is located about 10 miles southwest of Ely and the length to be constructed is approximately 14.6 miles. The principal items of work are approximately as follows:

Clearing and grubbing, 771 Stations.
Excavation, rock, 3000 cu. yds.
Excavation, common, 15,000 cu. yds.
Cement Rubble Mc-murry, 256 cu. yds.
Class "B" concrete (Alternate for Cement Rubble Masonry) 260 cu. yds.
Corrugated Metal Pipe, 2500 lin. ft.
Timber Bridge, 1000 ft. in place, incl. 15 weather working days after said notice has been given.

The work embraced in this contract shall be started within 10 days after notice of signing of contract by the Secretary of Agriculture has been given the contractor by the District Engineer, and shall be completed within 15 weather working days after said notice has been given.

The contract form and the maps, plans, specifications and estimate of quantities, and examination of responsible contractors at the following addresses:

881 Mills Building, San Francisco, California.

After August 28, 1922, District Engineer, Bureau of Public Roads, 406 Col. Hudson Building, Ogden, Utah.

After August 28, 1922, at Engineer's Camp, Carrington, N. D. County.

After August 28, 1922, Nevada State Highway Commission, Carson City, Nevada.

After August 28, 1922, Care of Forest Supervisor, Ely, Nevada.

The Bureau of Public Roads will furnish Corrugated Metal Pipe for pipe culverts. The Bureau also has available for loan to contractors on a rental basis, equipment as listed in the specifications. Bidder will state in his bid the amount of equipment and material that he will use during construction and the minimum rental period. The estimated rentals will be deducted from the total of the construction items and award will be made on bid to best advantage to the Government.

Plans and specifications will be furnished contractors who contemplate bidding upon deposit of a certified check for \$10.00 payable to the Secretary of Agriculture of the United States. Check will be held, pending return of plans and specifications.

All proposals must be made in forms furnished by the District Engineer, Bureau of Public Roads, and in accordance with the instructions forming a part of the Specifications above referred to.

August 24, 1922.

C. H. SWEETSER,
District Engineer.

NOTICE TO CONTRACTORS

(Warehouse and Office Building)

Notice is hereby given that sealed proposals for furnishing materials for the construction of an office building and warehouse will be received by the Board of Directors of the Paradise Irrigation District up to 10 o'clock A. M. on Wednesday, the 19th day of September, 1922, at its office at Paradise, Butte County, California.

Plans and specifications may be seen at the office of said Board.

At the time and place above specified the Board will open said bids and award the contract to the lowest responsible bidder.

Said bidder must give a bond with good and sufficient sureties for the faithful performance of contract.

The Board reserves the right to reject any or all bids.

Dated this 23rd day of August, 1922.
JAMES PEARSON,
President of the Board of Directors of the Paradise Irrigation District.

G. C. BILLE, Secretary.

BIDS WANTED FOR OFFICERS' AND EMPLOYEES' QUARTERS

NOTICE TO CONTRACTORS

TREASURY DEPARTMENT, Office of the Supervising Architect, Washington, D. C. August 16, 1922.—SEALED PROPOSALS will be opened in this office at 3 P. M., September 27, 1922, for construction of Officers' and Employees' Quarters for the United States Vet-

erans' Hospital at Fort Bayard, N. M. Drawings and specifications may be obtained at this office in the discretion of the Supervising Architect. Proposals will be considered only from individuals, firms or corporations possessing satisfactory financial and technical ability, equipment and organization to insure speedy completion of the contract, and who have established a record for expedition of contracts of similar character and magnitude. The fact that any concern obtains a set of the plans and specifications from any source whatever, and submits a bid shall not constitute a waiver of the foregoing stipulations. JAS. A. WETMORE, Acting Supervising Architect.

NOTICE TO CONTRACTORS

Sealed bids will be received by the Trustees of the Orestimba Union High School on or before the 16th day of September, 1922, at 2 o'clock p. m. at the High School, Newman, Stanislaus Co., California, for the construction of one-story brick workshop, according to drawings and specifications by Francis W. Reid, Architect, Concord, California.

Right is reserved to reject any or all bids. Certified check to amount of five per cent of amount of bid will be required.

For further information and plans apply to

SETH WADE,
Clerk of Board of Trustees,
Orestimba Union High School,
Newman, California.

NOTICE TO CONTRACTORS

BIDS WANTED FOR CONSTRUCTION OF BRICK DORMITORY

DEPARTMENT OF THE INTERIOR, Office of Indian Affairs, Washington, D. C., August 14, 1922.—Sealed proposals plainly marked on the outside of the sealed envelope "Proposals for a brick dormitory, Chemawa, Oregon," and addressed to the "Commission of Indian Affairs, Washington, D. C." will be received at the Indian Office until 2 o'clock P. M., of September 12, 1922, for furnishing materials and labor for the construction of a brick dormitory, Salem Indian School, in strict accordance with the plans, specifications, and instructions to bidders, which may be examined at the office of the United States Indian Warehouses at San Francisco, Calif., and at the office of the Superintendent of the Salem Indian School, Chemawa, Oregon. For further information apply to the Superintendent of the Salem Indian School. CHAS. I. BURKE, Commissioner.

BIDS WANTED FOR STATE HIGHWAY IMPROVEMENT

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock P. M., on September 18, 1922, at which time they will be opened and read for construction in accordance with the specifications therefor to which special reference is made, portions of State Highway as follows:

Mendocino County, across Cold Creek at Station 349 (I-Men-15-A), a bridge forced concrete girder spans on reinforced concrete of three thirty-foot reinforced bents.

Mendocino County, across Cold Creek at Station 373 (I-Men-15-A), a bridge consisting of two thirty-foot reinforced concrete girder spans with the necessary bent, abutments and wingwalls.

Plans may be seen and forms of proposal bonds, contracts and specifications obtained at the State Highway office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the

division in which the work is situated. The Division Engineers' offices are located at Willits, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" attached to the blank form of proposal for full directions as to bidding, quantities of work to be done, etc.

The Department of Public Works, acting by and through the California Highway Commission, reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the State.

Dated August 21, 1922.

BIDS WANTED FOR GENERAL WORK FOR STATE PRINTERY

NOTICE TO CONTRACTORS

Sealed bids will be received by Geo. E. McDougall, State Architect, Chief Division of Architecture, Form Building, Sacramento, California, up to and including 10 o'clock A. M., Monday, September 11, 1922, said bids then and there to be publicly opened and read for furnishing materials and labor and doing the work required for the complete GENERAL WORK for the STATE PRINTERY, SACRAMENTO, CALIFORNIA, in accordance with plans and specifications heretofore, copies of which may be obtained on application to the Division of Architecture, State Department of Public Works, Form Building, Sacramento, California.

Such bids will be received for the General Work and must be submitted on forms prepared and furnished by said Division of Architecture. Cash, a bid bond made payable to the "State of California," or a certified check made payable to the State Engineer, Department of Public Works, in the sum of at least ten per centum (10%) of the amount of the bid must be enclosed with each bid.

A deposit of Twenty-five (\$25.00) Dollars will be required with plans and specifications, the deposit to be returned immediately on the return of the plans and specifications to the said Division of Architecture, Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

The construction work of said State Printery has been placed on a days labor basis and on said basis the said General Work, as a sub-division of said construction, is to be let by contract.

All bids must be addressed to Geo. E. McDougall, State Architect, Chief Division of Architecture, Form Building, Sacramento, California, and plainly marked on the envelope: "Proposal for General Work, State Printery, Sacramento, California, STATE DEPARTMENT OF PUBLIC WORKS, DIVISION OF ARCHITECTURE."

GEO. E. McDOUGALL,
State Architect.
A. B. FLETCHER,
Director of Public Works

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C. August 16, 1922.—SEALED PROPOSALS will be opened in this office at 3 p. m., Oct. 2, 1922, for the construction of the United States Postoffice and Courthouse at Cordova, Alaska. Drawings and specifications may be obtained after August 21, 1922, from J. W. Roberts, Supervising Superintendent, 403 P. O. Bldg., San Francisco, Calif.; from the Custodian of the site at Cordova, Alaska; or at this office, in the discretion of the Supervising Architect, Jas. A. Wetmore, Acting Supervising Architect.

Engineering News Section

BRIDGES, DAMS & HARBOR WORK

SACRAMENTO, Cal.—Until Oct. 16, 2 p. m., bids will be rec. by Harry W. Hall, county clerk, to const. steel and conc. bridge over Steamboat slough, near Paintersville. Separate bids made date to const. steel and conc. bridge over Sacramento river near Paintersville. Cert. check 10% payable to Chair. Board of Suprs. req. with each bid. Plans may be had from office of Chas. Detarding, county surv.

STOCKTON, San Joaquin Co., Cal.—City Eng. W. B. Hogan preparing spec. for rein. conc. bridge in center street over Mormon channel.

ANAHEIM, Cal.—Until 2 p. m., Sept. 2, bids will be rec. by Anaheim Union Water Co. to const. Pratt Dam No. 2 at canal intake, Santa Ana river. Company will furnish materials. Dam will be L-shaped, one section 216 feet long and the other 136 feet; 6x6-in. wire mesh will be welded on 60-lb. steel rails 30 ft. long used as piles. There will also be lumber and rip-rap work. Maps and plans may be obtained from Alvaro Pratt, 1335 Ogden Dr., Hollywood. Cost about \$15,000.

REDDING, Shasta Co., Cal.—County Supervisor will shortly ask bids to const. four bridges: conc. bridge over Dailen Creek on Cottonwood Gas Point road; conc. bridge over Fall river near Glenburn; wood bridge over Flat creek between Keswick and town of Mathewson; comb. wood and steel bridge over Cow creek at Bell school house. C. R. Wiegell, county surv.

LOS ANGELES, Cal.—Until 10 a. m., Sept. 29, bids will be rec. by Harbor Commission, 312 Byrne Bldg., for superstructure for Bader Ave., double leaf bascule bridge. Spec. No. 402. Bridge designed by Strauss Bascule Bridge Co., Chicago. Work will involve 2270 tons structural steel and 100 tons incidental steel. Guy W. Wade, Sec.

HAYWARD, Alameda Co., Cal.—Until Sept. 6 p. m., bids will be received by M. E. Hempleton, town clerk, to const. rein. conc. culverts in Jackson St. Jesse B. Holly, town eng.

OAKLAND, Cal.—American Dredging Co., 255 California Street, San Francisco, at \$0.1389 awarded cont. by U. S. Engineer Office to dredge in Oakland Harbor; approx. 1,100,000 cu. yds.

MARYSVILLE, Yuba Co., Cal.—Captain J. D. Hutchinson, Rio Vista, at approximately \$29,000 awarded contract by city council to improve Ellis Lake. Involving 135,000 cu. yds. earthwork.

ALBANY, Alameda Co., Cal.—Until Sept. 11, 8 p. m., bids will be received by city trustees to const. 2 conc. culverts, one 200-ft. long, 4x5 ft., 12-in. slides; 8-in. top and 6-in. bottom and another 50 ft. long, rein. conc. 12-in. slides; 8-in. top and 6-in. bottom. Spec. on file in office of clerk.

MODESTO, Stanislaus Co., Cal.—Co. Surveyor J. H. Hoskins completing spec. for bridge near Coppertown, on Redburg Creek, to have 3 20-ft. rein. conc. spans; bridge on Hughson road to have 3 16-ft. rein. conc. spans; also for 13 small rein. conc. bridges to be counted in various sections of the county.

PORTLAND, Ore.—Until Sept. 13, 10:30 a. m., bids will be received by Multnomah county commissioners to reconstruct Morrison bridge draw rest in Willamette river. Work consists of 39,560 lin. ft. dr. piling in place, 272,000 ft. B. M. lumber in place, etc. Plans may be had from Roadmaster's office, Courthouse, Portland, on deposit of \$10.

IRRIGATION PROJECTS

MERCED, Merced Co., Cal.—Following bids received by Merced Irrigation District, R. C. Starr, ch. eng., for improvements:

Const. metal flume on timber substructure with conc. footings: J. A. Bartlett, 357 12th St., Oakland, \$42,150; D. F. Jensen, Merced, \$43,680; G. H. Chick, Napa, \$43,478; P. L. Burr, San Francisco, \$45,800.
Const. tunnel (1) 1300 lin. ft. tunnel excavation; (2) timber lining, in place, per M. B. M., 512 Mission St., San Francisco (1) \$24; (2) \$55. Guy H. Chick, Napa, (1) \$26.85; (2) \$80.
Const. rein. conc. siphons, incl. spillway and check structures: P. L. Burr, 512 Mission St., San Francisco, \$24,700; Carlson Bros., Turlock, \$28,000; C. D. Graham, Merced, \$37,500.

All bids taken under advisement.

OROVILLE, Butte Co., Cal.—Geo. Pollock Co., Forum Bldg., Sacramento, at \$56,437 awarded cont. by Drainage District No. 200, Butte county, to construct drainage system. Other bidders were: Daniel Bayles, Biggs \$64,059
Ross Construction Co., Sac., 62,752
Hans & Doughty, S. F., 61,444
Ajax Dredging Co., S. F., 58,049
Wm. W. Green, Biggs, Cal., eng. for district.

LIGHTING SYSTEMS

DINUBA, Tulare Co., Cal.—As previously reported, bids will be received by C. T. Reagan, city clerk, to const. electrolier system. This project involves 58,000 ft. 1½ Greenfield Duct Conduit; 58,000 ft. No. 8 Duplex lead covered cable; 354 union metal standards electroliers; 394 No. 4 Nexasia tops (form No. 12); 270 40-watt candlepower and 120 250-watt candlepower Mazda lamps; 394 risers in lamp columns; 6 open air conduit adaptors. C. E. Sloan, Santa Fe Bldg., San Francisco, eng.

E. D. BULLARD

268 Market St., San Francisco
Phone Douglas 1118

MONROVIA, Cal.—Petitions have been filed for ornam. lights on White Oak Ave. 1½ mi. and on Orange St. 1¼ mi. H. S. Gierlich, city engr.

SOUTH SAN FRANCISCO, San Mateo Co., Cal.—Until Sept. 8, 7:30 p. m., bids will be received by Daniel McKeown, city clerk, to install electroliers in several streets; 62 standards in all. G. O. Knoese, city eng.

MACHINERY

SAN BERNARDINO, Cal.—Bids for deep well turbine pump were received by City Council as follows: Western Well Works, \$1182.70 and \$1062.70; Johnson, \$1300; Lyne-Bowler, \$1250 and \$1223; Kimball, \$1498; Byron Jackson, pump and motor, \$3327.75; American Pump Co., \$2376. Taken under advisement.

PRESOTT, Ariz.—Fratt-Gilbert Co., Phoenix, awarded contract by the City Council at \$94.17 for cast iron fittings. Contract for cast iron pipe was awarded to Commercial at \$6053.03. Other contracts awarded were as follows: Crane & Co., at \$22.02 for six Kennedy hydrants, at \$208.19 for 13 valves, at \$545.50 for 627 lbs. lead at 100 lbs. jute, and at \$600 for galv. iron pipe and fittings. Mueller Co., at \$678 for brass goods, at \$110 for gas turner for joints.

OAKLAND, Cal.—City Council, E. K. Sturges, clerk, appropriates \$2500 to purchase 100 lengths of 14-in. shore pipe.

RAILROADS

SAN FRANCISCO—City Engineer M. M. O'Shaughnessy recommends bond issue for \$1,500,000 to finance extensions to Municipal Railway system. Proposed to hold election Nov. 21, with question of voting bonds of \$2,000,000 for relief home and \$12,000,000 for school buildings will be submitted.

SAN FRANCISCO.—Announcement is made by F. L. Burchhalter, assistant general manager, Southern Pacific Co., of \$29,000,000 construction and development plan. Funds have been appropriated for following improvements: New rails, ties and ballast, \$11,300,000; locomotives, \$1,500,000; new rolling stock, \$12,500,000; new plant facilities, \$700,000; improvement along Sierra Nevada mountains, \$250,000; across the Tehachapi, \$1,000,000; and \$1,800,000 for enlarging tunnels. During the course of the improvements 200 miles of track will be relaid with 99-pound rails, more than two million and a half new cross ties will be installed and 800,000 cubic yards of crushed rock and slag will be put in for track ballast. A double track will be put in on the Tehachapi Pass, and new electric turntables will be constructed at Siskiyou and San Luis Obispo.

FIRE EQUIPMENT

TUCSON, Ariz.—R. D. Whitacre, city electrician, has completed plans for the \$20,000 fire alarm system to be installed by city. Twenty-four new boxes will be installed. Bids will be received for three new fire trucks, including two pumping engines and a 75-ft. aerial ladder.

Architects—Engineers— City and County Officials

How about bids wanted?

Are you satisfied with the bids you received on that last job?

Did you have competition—and plenty of it?
If not—why not?

Without charge the BUILDING & ENGINEERING NEWS will place your job before the construction interests of the Pacific Coast. That means competition and—competition means the lowest possible bid.

If you want competition send particulars of your job to BUILDING & ENGINEERING NEWS—also a set of plans and specifications.

Reach the *Independent Bidder* through the columns

SANTA MONICA, Cal.—Kneen Paving Co., Dudley Bldg., Santa Monica, submitted low bid to city council at \$33,351.53 for improving Third St., between Santa Monica Blvd. and Montana Ave., involv. 156,860 sq. ft. grading at 1 1/2 in. to const. highway in Washoe county between Reno and Purdy and new bids will be asked. Geo. W. Borden, state highway eng.

Braun, Bryant & Austin, \$42,177.19; Harry V. Gentry, \$44,794.06.

FULLERTON, Cal.—City Trustees adopt resolution declaring willingness of city to join with Santa Ana and Anaheim in constructing joint outfall sewer to ocean and treatment plant. A 12-in. main will be laid by Fullerton to the low treatment plant and the city will pay 50 per cent. of cost of joint works. Cost to Fullerton about \$260,000. Ben E. Dupuy, City Engineer.

LOS ANGELES, Cal.—Until 3 p. m. Sept. 5, bids will be rec. by board of public service, 297 S. Broadway, for approx. 16,000 sq. ft. paving at Harbor Blvd. and Front St., San Pedro; blueprint No. A 316 on file at room 602, 267 S. Broadway. Bids will be taken on 3 types of pavement—2-in. Warrentite on 1-in. bitum. base; Wilbite, and cem. conc. base with 2-in. asphalt surface. Jas. P. Vroman, secy.

SAN BERNARDINO, Cal.—Sherrer & Crowley, Pacific Electric Bldg., Los Angeles, have contr. to const. winter road, 7.8 miles in length, from Bismarck on the desert for Arrowhead Lake Co. Route is on a hogback on northern slope of mountains with maximum 8% grade. Cost about \$25,000.

MONTREY PARK, Cal.—Until 8 p. m. Sept. 11, bids will be received by trustees of Monterey Park for complete installation of water distributing system and appurtenances; also for hauling 112 1/2 tons of pipe from dock at Los Angeles Harbor to ditchside in Monterey Park Olmsted & Gillette, Hollingsworth Bldg., Los Angeles, engineers.

CALIFORNIA—Until Sept. 25, 2 p. m. bids will be received by State Highway Commission, Forum Bldg., Sacramento, for work in Los Angeles and Orange counties, bet. Long Beach and Huntington Beach, 7.8 miles in length, to be graded and 6.5 miles to be paved with Port. cem. conc. A. B. Fletcher, state highway eng. See call for bids under official proposal section in this issue.

LINDSAY, Tulare Co., Cal.—Bids are being rec. by E. V. Bogart, city clerk, to be opened on or about September 26 to pave several streets, involving 6,600 cu. yds. grading; 425,000 sq. ft. 2 1/2 in. asphalt conc. base with 1 1/2-in. Warrentite-Bit. pavement; 41,000 sq. ft. concrete gutters; 5,110 lin. ft. conc. curbs; 943 lin. ft. corr. iron and conc. culverts; 575 sq. ft. conc. walks. H. D. Watts, city engineer.

MARYSVILLE, Yuba Co., Cal.—Warrenville Co., 2779 Poplar St., Oakland, awarded cont. by council to pave street intersections, involv. approx. 266,567 sq. ft. grading in bit. base with 1 1/2 inch Warrentite surface.

LOS ANGELES, Cal.—Geo. R. Curtis, 2340 E. 26th St., submitted low bid to board of public works at \$30,330 to pave Victoria Ave., between Tenth St. and Country Club Dr., and in portions of other streets, involving 71,289 sq. ft. grading to finish subgrade at 4 in. ft.; 61,289 sq. ft. asphalt paving at 2 1/2 in. ft.; 2632 sq. ft. finish grading, oiling and rolling at 7 in. ft.; 98.51 ft. cem. curb at 70 in. ft.; 125.7 sq. ft. cem. walk at 25 in. ft.; 479.8 sq. ft. conc. gutter at 28 in. ft. house sewers at \$1.75 ft.

SANTA CRUZ, Santa Cruz Co., Cal.—City Eng. James K. James preparing spec. to imp. Cleveland Ave., bet. Elgin St. and Van Ness Ave.

LOS ANGELES, Cal.—Belmont Shore Co. submitted low bid to county supervisors, \$116,800, to improve Corona Ave. and other streets near Alamitos Bay, 1,536 lin. ft. (C. D. No. 227), J. G. Beckford bid \$124,500. The work involves 11,516 cu. yds. excav.; 31,556 sq. yds. shaping roadbed; 16,745 ft. conc. curb; 34,558 sq. ft. conc. walk; 116 lin. ft. 42-in. storm drain; 372 ft. 12-in. storm drain; 302 1/2 ft. 12-in. storm drain; 19 catch basins, 3 manholes for storm drains, one junction chamber, 7690 lin. ft. 8-in. sanitary sewer; 345 ft. 10-in. sanitary sewer; 16 manholes for sanitary sewer, 16 junction chambers for sanitary sewer, 3 flush tanks for sanitary sewer, 17 lampholes for sanitary sewer, 31,560 sq. yds. conc. pavement.

CARSON CITY, Nevada—Until September 13, 1:30 p. m., bids will be received by State Highway Commission for high way projects as follows: (1) Grading, const. culverts and placing cement conc. surface in Lyon county between south city limits and east city limits of Yerington.

(2) Grading, const. culverts, placing cement conc. wearing surface on Churchill county between west city limits and east city limits of Fallon.

See call for bids under official proposal section in this issue.

OAKLAND, Cal.—Until Sept. 7, 12 m., bids will be received by E. K. Sturges, city clerk, to improve portion of 64th Ave., involv. 27,626 sq. ft. grading; 1065 lin. ft. conc. curb; 2210 sq. ft. conc. gutter; 14,272 sq. ft. oil macadam; 55525 sq. ft. cem. walks.

Separate bids, same date, to imp. portion of Main St., involv. 20,222 sq. ft. grading; 2930 lin. ft. conc. curb; 8161 sq. ft. cem. gutter; 10,447 sq. ft. oil macadam pavement; 1044 sq. ft. concrete walks; 32 lin. ft. 3x2ft. 6-in. concrete culvert; 2 c. i. inlets; 133 cu. ft. conc. and walls. W. W. Harmon, city eng.

VENICE, Cal.—General improvements totaling over \$1,500,000, including an extensive street improvement program, has been outlined by city trustees. The street work proposed comprises: opening of Trolleyway from Marine St. to Mildred Ave., and extending of Trolleyway to Playa Del Rey; opening of Windward Ave. to connect with Rialto Blvd.; thence directly toward Los Angeles; Venice Blvd. to be paved as another direct route to Los Angeles; improving and opening of Leona Ave.; Westward Ave. to be straightened, and improvement of Second Ave., Electric, Brooks, Mildred Ave., all to be opened and extended. The sands west of the Ocean Front are to be made into a city park, walks, roads, playgrounds, comfort stations, and lighting standards. The installation of a modern fire alarm system will be part of the work.

LOS ANGELES, Cal.—County Supervisors declare intention to improve Wright Rd., bet. Florence Ave. and Patata St., 5490 ft. or 1.04 miles, involv. 1574 cu. yds. excav.; 4818 sq. yds. shaping 4-ft. strip between existing pavement and curb; 10,670 lin. ft. conc. curb; 43,136 sq. ft. conc. walk; 1 catch basin. Materials, f. o. b., job require: 1340 bbls. cem., 563 tons sand, 862 tons gravel, 319 lbs. lamp black, 340 pss. expansion joints, 63x11 in., 360 lbs. expansion joints, 3 1/2-in. dia. 89 lbs. steel, one conc. manhole cover. Est. contr. price, \$14,763.

BERKELEY, Alameda Co., Cal.—City Council withdraws call for bids to construct sewer in Woolsey St., and new proceedings will be started. C. L. Huggins, city eng.

SAN FRANCISCO—Jas. M. Smith, 407 11th St., at \$364 submits low bid to Bd. of Pub. Works to imp. 42nd Ave., bet. Balboa and Cabrillo Sts., involv. 1290 lin. ft. conc. curb and 24,000 sq. ft. asphalt conc. pavement, Frank J. McHugh bid \$7992.

Jas. M. Smith low bidder to imp. Vernon St., bet. Holloway and Garfield Sts., involv. 1455 lin. ft. conc. curb; 7500 sq. ft. conc. pavement A. J. Raichsch bid \$7545.

Jas. M. Smith low bidder to imp. Pomona Ave., bet. Bay View and Thornton Aves., involv. 2529 cu. yds. cut; 1200 lin. ft. conc. curb; 6600 sq. ft. asphalt conc. pavement and 11,400 sq. ft. conc. pavement, A. J. Raichsch bid \$7605.

BERKELEY, Alameda Co., Cal.—City Council appropriates \$16,000 to const. conc. sewer in Woolsey St., across Telegraph Ave., and a pipe sewer in Telegraph Ave., from Woolsey to Stuart St. C. L. Huggins, city eng.

MERCED, Merced Co., Cal.—Valley Paving & Const. Co., Visalia, awarded contracts by city trustees to improve streets and public works. The work involves 3 1/2-in. asphalt conc. base with 1 1/2-in. Warrentite surface.

13th, 14th and 15th sts., 19,712 sq. ft. grading, 8,055; 197,712 sq. ft. paving \$249; 5862 sq. ft. conc. curb, \$80; 1300 ft. special designed curb, \$75; 930 ft. c. i. & conc. main culverts, \$7,96; 120 ft. branch c. i. & conc. culverts, \$4,80. 22nd St., P. & R. Sts., 49,261 sq. ft. grading, \$64; 4,261 sq. ft. pavement, \$219; 1828 lin. ft. conc. curb, \$80; 320 ft. main c. i. & conc. culvert, \$7,36; 48 ft. branch c. i. & conc. culvert, \$4,80. 21st St., P. & R. Sts., same prices as in 22nd St., P. & R. Sts., plus \$4,650 sq. ft. grading, 21,630 sq. ft. paving at 2 1/2 in. c. i. & conc. culvert, 160 ft. main and 24 ft. branch c. i. & conc. culvert.

Alleys in Blocks 84 and 112, involv. 15,732 sq. ft. grading, \$64; 15,732 sq. ft. 2 1/2-in. asphalt conc. pavement with 1 1/2-in. Warrentite surface, \$20; 1600 ft. wood curb, \$20. C. D. Martin, city eng.

MONTREY, Monterey Co., Cal.—Until September 12, 3 p. m., bids will be received by Jas. McIntosh, clerk, Monterey Union High School District to construct bituminous concrete wearing surface and asphalt macadam wearing surface upon macadam roadways in Monterey high school district grounds; approx. 8,000 sq. ft. Plans may be had from clerk.

ARCATA, Humboldt Co., Cal.—Chambers and DeGolyer, Bacon Bldg., Oakland, at \$22,139 awarded contract by city trustees to construct two sewers; one involving 3,000 lin. ft. 6-in. vit. sewer with necessary wye branches; 5 manholes; 3 lampholes and another involving 3,225 lin. ft. 24-in. and 380 lin. ft. 18-in. vit. pipe; 6 manholes; 3 lampholes and 250 yds. ditch extension. 3-in. asphalt roadway Eureka, submitted only other bid at approx. \$25,000.

SAN JOSE, Santa Clara Co., Cal.—Until Sept. 11, 5 p. m., bids will be rec. by J. J. Lynch, city clerk, to imp. 10th St., bet. Santa Clara and Julian Sts., by regading, paving with 1 1/2-in. asphalt conc. surface, 3-in. asphalt conc. roadway on 3-in. asphalt conc. base; 3 br. catchbasins; 8-in. sewer connections. Wm. Popp, city eng.

EL CERRITO, Contra Costa Co., Cal.—Hutchinson Co., 1706 Broadway, Oakland, at \$9,432 submits only bid to city trustees to pave Clayton street, with all macadam.

CLOVERDALE, Sonoma Co., Cal.—Until Sept. 5, bids will be received by R. Y. St. George, city clerk, to improve Parris Ave., bet. Hedges and Belmont Aves., involv. 131,531 sq. ft. grading; 119,823 sq. ft. asphalt pavement; 11,336 sq. ft. conc. gutter; 517 lin. ft. conc. curb; 287 lin. ft. 12-in. and 196 lin. ft. 18-in. culvert; 12 manholes; 22 lin. ft. 1-in. vit. city pipe sewer.

FRESNO, Fresno Co., Cal.—Until Sept. 7, 3:30 p. m., bids will be received by R. Y. St. George, city clerk, to improve Parris Ave., bet. Hedges and Belmont Aves., involv. 131,531 sq. ft. grading; 119,823 sq. ft. asphalt pavement; 11,336 sq. ft. conc. gutter; 517 lin. ft. conc. curb; 287 lin. ft. 12-in. and 196 lin. ft. 18-in. culvert; 12 manholes; 22 lin. ft. 1-in. vit. city pipe sewer.

Separate bids, same date, to improve M and Butler Sts., bet. O and Stanislaus Sts., involv. 322,910 sq. ft. grading; 300,200 sq. ft. asphalt paving; 21,787 sq. ft. conc. gutter; 11,668 lin. ft. conc. curb; 515 lin. ft. 12-in. and 304 lin. ft. 18-in. corr. iron culvert; 12 manholes; 5418 sq. ft. cement walks, Wm. Stranahan, city eng.

FRESNO, Fresno Co., Cal.—City Eng. Wm. Stranahan completes spec. to imp. Mono St. bet. Van Ness and P Sts., involv. 91,759 sq. ft. grading; 55,879 sq. ft. asphalt pavement; 5645 sq. ft. conc. gutter; 3339 lin. ft. conc. curb; 129 lin. ft. 12-in. corr. iron culv.; 2 manholes.

Spec. completed to imp. alley in Blk. 7000, involv. 7000 sq. ft. grading and 7000 sq. ft. conc. pavement.

BAKERSFIELD, Kern Co., Cal.—Bid of Federal Const. Co., Cal. Bldg., San Francisco, at approx. \$40,751 to imp. Oak St., involv. 172,800 sq. ft. grading and 129,600 sq. ft. 4-in. asphalt conc. base with 1½-in. Toketa wearing surface, rejected by city council and new bids will be asked for a 4-in. conc. base with 1½-in. Warrenite surface, W. D. Clark, city eng.

BERKELEY, Alameda Co., Cal.—Until Sept. 12, 10 a. m., bids will be received by E. H. Hann, city clerk, to construct conc. wall 7-ft. high in Arlington Ave., at Santa Barbara road and five conc. steps. Work under 1911 Act. C. L. Huglins, city eng.

HEALDSBURG, Sonoma Co., Cal.—Until Sept. 5, 3:30 p. m., bids will be received by L. W. Hillhouse, city clerk, for fur. and del. 4000 lin. ft. 6-in. sewer pipe. Spec. on file in office of clerk.

CARSON CITY, Nevada.—Following are approx. quantities of materials required in projects for which State

Highway Commission will consider bids Sept. 13:

1.43 miles in Lyon county, from south city limits to east city limits of Yerington; 8330 cu. yds. unclassified excav., 9373 yds. sta. overhaul, 1133 miles prepare subgrade and shoulders, 15,061 sq. yds. cement conc. pavement, 5 cu. yds. Class "B" conc., 32 lin. ft. 18-in. corr. metal pipe, 6 monuments, 1 sign post. State will furnish cement for cars; sand and gravel in stockpiles, all at railroad siding at Yerington station on Nevada Copper Belt Ry.

1.22 miles in Churchill county, from west to east city limits of Fallon; 1850 cu. yds. unclassified excav., 22,788 yds. sta. overhaul, 1.22 miles prepare subgrade and shoulders, 12,850 sq. yds. cement conc. pavement, 10 cu. yds. Class "B" conc., 328 lin. ft. corr. metal pipe siphon, 18 monuments. State will furnish cement for cars at Fallon and sand and gravel in stockpiles at Fallon. Geo. W. Borden, state highway eng.

SACRAMENTO, Cal.—Matthews Construction Co., Forum Bldg., Sacramento, at \$771,957 submits low bid to Sacramento city commissioners to construct rapid sand filtration plant and appurtenances, being the filtration plant portion of the Pumping and Filtration works of the City of Sacramento, comprising the construction, complete, of sedimentation and coagulation basins having an aggregate capacity of approximately 10,500,000 gals.; eight rapid sand filters of concrete, having a nominal capacity of 32,000,000 gals. a day, a superstructure over the operating gallery of the filters, a headhouse for administration purposes in which there is also a 200,000 gal. elevated steel water tank for filter washing purposes; a concrete pump having a capacity of approximately 200,000 gals., a coagulant building and outside piping, excavation and embankment and roadways and paths.

R. McLaren Co., San Francisco, bid \$843,318; Healy-Thibault Const. Co., San Francisco, \$860,000; Shutes and Zinc, Stockton, \$917,000. For items 2-4-7, equipment, Roberts Building Mfg. Co., Darby, Penn., bid \$174,952 and for general fill only, Geo. Pollock Co., of Sacramento, bid \$86,800.

Following are approximate quantities of materials involved in the work; 14,500 cu. yds. concrete; 477 concrete piles; 870 tons of reinforcing material; 17,500 cu. yds. excavation; 6000 cu. yds. rolled fill; 300,000 cu. yds. of general fill or embankment. In addition to the above features a considerable amount of building construction and mechanical equipment, including cast iron pipe and fittings, gate valves, sluice gates, hydraulic and electrical controlling devices, gauges, conveyors, pulverizers, etc., are involved. George J. Calder is resident engineer for the project.

California—Following bids received Aug. 28 by State Highway Commission: Monterey county, between Anderson and Spur River, 13.1 miles long, to be graded.

OFFICIAL PROPOSALS

(Continued from Page 14)

NOTICE TO CONTRACTORS

(Theodore Roosevelt High School)

Office of the Secretary of the Board of Education of the City of Oakland.
Sealed bids will be received by the Board of Education of the City of Oakland, City Hall, Oakland, California, until the 11th day of September, 1922, at 4:30 o'clock P. M., at which time said bids will be opened, for the erection and completion of a new building for the THEODORE ROOSEVELT HIGH SCHOOL of the Oakland School District and Oakland High School District, located on the two block extending from 19th Avenue to 20th Avenue and from East 18th Street to East 20th Street, Oakland, California.

Separate bids will be received for:
1. GENERAL WORK, including Excavation and Grading, Concrete, Brick and Terra Cotta, Carpenter Work, Miscellaneous, Ornamental and Structural Iron Work, Sheet Metal Work, Built-up Roofing Work, Elevator Work, and Interior Equipment Work.
2. TILE ROOFING.
3. LATHING AND PLASTERING.
4. PAINTING.
5. PLUMBING.
6. HEATING AND VENTILATING.
7. ELECTRICAL WORK.

Plans and specifications for said work are on file at the office of the Architect and the Board of Education, 2149 Broadway, Oakland, California.

On a deposit of Twenty-five (\$25) Dollars, said plans and specifications may be had by any prospective bidder for one of the branches of work above listed. These plans and specifications may be retained as follows:

1. General Work, fourteen (14) days.
2. Tile Roofing, three (3) days.
3. Lathing and Plastering, seven (7) days.
5. Plumbing, seven (7) days.
6. Heating and Ventilating, seven (7) days.

If the plans and specifications are not returned to the Architect within the time above specified, or are returned in a mutilated or damaged condition, the deposit will be forfeited and will be immediately used for the purchase of a new set of blue prints and specifications.

Bids must be made on proposals obtained at the office of the Architect, or be signed by the bidder, accompanied by a certified check, certified to by some responsible bank or banker, and made payable to J. W. Edgemond, Secretary of the Board of Education, to be retained by the said School Districts as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract, or to make good the bond required. The amount of said check shall not exceed Five Thousand (\$5,000) Dollars, but for all bids of less than Fifty Thousand (\$50,000) Dollars, said check shall be at least ten (10) per cent of the amount of the bid. Each bid shall be accompanied by an affidavit executed in a form that can be obtained from the Architect. Bids will be opened by the Board of said Districts on the 11th day of September, 1922, at 4:30 o'clock P. M., in the Board Room, 211, second floor of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

J. W. EDMOND,
Secretary of the Board of Education of Oakland, California.

BUY IT FROM THE NAVY

On September 7, 1922.

11 A. M. (Standard Time), 7 Sept., 1922, U. S. NAVY CENTRAL SALES OFFICE, NAVY YARD, WASHINGTON, D. C.

NOTICE TO CONTRACTORS

(Alameda County Hospital Additions)

Office of the Clerk of the Board of Supervisors, Alameda County, California.

Sealed bids will be received by the Clerk of the Board of Supervisors of Alameda County at his office, until Tuesday, September 5th, 1922, at 10 o'clock A. M. (the day when said bids will be opened and the contract awarded) for the erection and completion of Addition and Alterations to the Isolation Ward, etc., together with Covered Connecting Walks, at the County Hospital, near San Leandro, Alameda County, California.

Complete plans and specifications for work on file in the office of the County Clerk in the Hall of Records Building in Oakland, and copies may be obtained by depositing twenty-five dollars. Contracts will be restricted as to the length of time these plans may be retained to ten days. Contractors failing to return said plans and specifications within said time limit will forfeit their deposit.

Each bid must be accompanied by a check for at least ten per cent of the amount of the bid or proposal, certified to by some responsible bank, and made payable to Geo. E. Gross, Clerk of the Board of Supervisors, to the County of Alameda, as agreed and liquidated damages should the party or parties to whom the contract shall be awarded fail to enter into the contract after the award or to give the bond required by the Board for the faithful performance of the contract.

The Board reserves the right to reject any or all bids.
(Seal.) GEO. E. GROSS,
Clerk of the Board of Supervisors of the County of Alameda.
Dated: August 7, 1922.

A "Pittsburg" Automatic Gas Water Heater installed in the home indicates high quality throughout.

Recommended and specified by all of the leading architects, plumbers and builders.

Consider the high merit of the Pittsburg complied with "Pittsburg Perfect Service."

THE CONTRACTORS' ROOM

BUILDING AND ENGINEERING NEWS maintains a Contractors' Room where plans and specifications may be filed by Architects, Engineers and Owners for the convenience of builders in San Francisco and the Bay Counties.

Architects, Engineers and Owners are invited to forward plans of their projects to BUILDING AND ENGINEERING NEWS. No charge for this service. The plans will be returned in good condition when contract for work is let.

HUGH T. ROBERTS OF JUDSON MFG. COMPANY DIES

Hugh T. Roberts, chief auditor and credit manager of the Judson Manufacturing Co., died Sept. 4, in his home at 810 Masonic Avenue, San Francisco, after a brief illness. He was 56 years old. Roberts was born in Wales and came to this country at an early age. He had been in the employ of the Judson Manufacturing Company for the past 27 years. He was one of the organizers of the Cynrodorion Society of California and held the office of first secretary.

Surviving Roberts are his wife and three sons, Roland Roberts, well-known tennis player; Trevor Roberts and Norman Roberts.

COMPETITIVE PLANS FOR HOME OF SEATTLE ELKS

Architects Charles H. Bebb, James Schaack and E. Marcus Pretoria of Seattle have been named to represent the Washington State Chapter of the American Institute of Architects in formulating plans for the proposed B. P. O. E. 11,000-odd building competition among architects.

The Seattle Elks are contemplating the construction of a huge structure on the northwest corner of Fourth avenue and Madison street, and recently suggested a competition among architects. The architect submitting the best drawings for the projected building would receive a substantial prize in addition to being awarded the commission to prepare working drawings.

Experimenters are planning to obtain large quantities of pulp for making paper and of industrial alcohol from the Mexican plant the fibre of which is made into sisal hemp.

Civil Engineers to Discuss Power Development at October Meet in S. F.

(By A. T. Parsons, Associate Member American Society of Civil Engineers)

Hydro-electric development will be the subject of the coming meeting of the American Society of Civil Engineers, which will be held at San Francisco during the first week in October. The meeting will be attended by prominent members of the engineering profession from all parts of the country.

Special interest attaches to this meeting because it marks the abandonment by the American Society of Civil Engineers of its time-honored policy of holding but two general meetings during the year—the annual meeting in January at the New York headquarters, and the annual convention, largely social, at some selected point. Of the fifty-one conventions that have been held, up to the present time, only four were at Pacific Coast cities—two in San Francisco, in 1896 and 1915, and one each at Seattle and Portland, in 1912 and 1920, respectively.

Beginning with the present year, however, the society has adopted a plan similar to that followed by the other great national engineering societies, and is holding four meetings a year at various points throughout the country. That San Francisco should be selected as the place for one of the first meetings under the new plan is significant of the growing country-wide recognition of the importance of the Pacific Coast.

All sessions of the San Francisco convalesce will be held at the Palace Hotel. Preliminary meetings of the board of direction of the society will be

held Monday and Tuesday, October 2 and 3. The general meeting of the entire society will be formally opened Wednesday morning, John A. Britten delivering the address of Welcome. Technical sessions will be held Wednesday morning and evening and Thursday morning. Among the prominent visitors who will deliver addresses are A. P. Davis, director of the United States Reclamation Service and former president of the society, who will discuss the Boulder Canyon Project, and F. E. Matthes, of the United States Geological Survey, who will talk in Surveying and Map Making by Aeroplane. Local engineers on the program include F. H. Fowler, district engineer for the United States Forest Service, and John D. Galloway.

Wednesday and Thursday afternoons will be devoted to excursions to nearby points of interest. Thursday evening there will be a dinner and smoker, at which Professor Charles D. Marx, head of the department of civil engineering at Stanford University, will preside.

The remainder of the week will be devoted to an excursion to Hetch Hetchy, leaving San Francisco Thursday evening at the conclusion of the smoker. The party will arrive in the mountains the following morning and will spend Friday and Saturday in going over the various parts of the Hetch Hetchy project, visiting also the Don Pedro dam, now being built by the Modesto and Turlock irrigation districts. Those who wish to do so will then continue on to the Yosemite Valley, while the others will return to San Francisco, arriving Sunday morning.

MATTHEWS' COMPANY AWARDED SACRAMENTO FILTRATION WORK

The Matthews Construction Co., of Sacramento, at a bid of \$779,951, has been awarded the contract by the Sacramento city commissioners to construct the rapid sand filtration plant and appurtenances, being the filtration plant portion of the Pumping and Filtration works of the City of Sacramento, comprising the construction, complete, of sedimentation and coagulation basins, giving an aggregating capacity of approximately 10,500,000 gallons; eight rapid sand filters of concrete, having a nominal capacity of 32,000,000 gallons a day, a superstructure over the operating gallery of the filters, a headhouse for administration purposes in which there is also a 200,000 gallon elevated steel water tank for filter washing purposes; a concrete pump having a capacity of approximately 200,000 gallons, a coagulant building and outside piping, excavation and embankment and roadways and paths.

Following are approximate quantities of materials involved in the work: 14,500 cu. yds. concrete; 477 concrete piles; 870 tons of reinforcing material; 17,500 cu. yds. excavation; 6000 cu. yds. rolled fill; 300,000 cu. yds. of general fill or embankment. In addition to the above features a considerable amount of building construction and mechanical equipment, including cast iron pipe and fittings, gate valves, sluice gates, hydraulic and electrical controlling devices, gauges, conveyors, pulverizers, etc., are involved. George J. Calder is resident engineer for the project.

PLASTERERS' SCHOOL IN OAKLAND WILL BE ENLARGED

In an effort to supply the constantly increasing demand for plasterers, the industrial relations committee of the Chamber of Commerce is making preparations for doubling the capacity of its plasterers' school.

Carpenters have commenced the construction of an additional number of miniature rooms and a second instructor, Albert Van Halprin, has been employed.

The school has been in operation for seven weeks and has graduated 15 apprentice plasterers who are now employed in this city. In the estimation of the industrial relations committee, there is still a demand for nearly 50 apprentices and it is the intention to operate the school until this demand is cared for when it will be disbanded.

Experience in the school has shown that it requires from a month to six weeks to teach the average student sufficient of the rudiments of plastering to make him an apprentice. He then is placed on the job at a wage of \$2 per day and should qualify as a journeyman plasterer in from nine months to one year. The scale of wage for journeymen plasterers is \$10 per day.

Edw. Woods, who has been instructor at the school since it was first opened, will continue in charge. Woods and Van Halprin will divide the class into two equal parts of about 12 each.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

Establishing a record for a seven months' period, building in Fresno for the calendar year to the close of August totaled more than \$5,600,000, according to figures compiled by the department of public works. During the month just passed permits were issued for \$333,578 in new buildings and \$23,826 for alterations and repairs, a total of \$357,404. This represents a gain of 10 per cent over the same month a year ago and an increase of \$70,000 over a July. The grand total for the year is nearly three and a quarter million ahead of the first seven months of 1921. Upward of 80 per cent of the new construction is for homes, apartments and flats, according to the figures of James Antor, building inspector. The number of buildings covered by the permits was 161, or an average of \$22,550.

Building activities in Sacramento for the month of August totaled \$867,046, according to Building Inspector Ben H. Cowell. During the month 264 permits were issued, and of these 46 were for one-story dwellings costing \$123,842; 9 2-story (12 family) dwellings, \$78,800; 3 2-story buildings, \$22,600; 1 4-flat building, \$14,500; and 3 apartment structures, \$25,000. One business structure costing \$160,800, and a state public building costing \$370,000 are also included in the August activities.

A. E. Cowell recently resigned the office of county surveyor of Merced county to give his entire time to the engineering and architectural firm of Mayo, Cowell & Bissell, of Merced and Stockton. The firm is now occupying new offices in the Bank of Italy Bldg., Merced. Mr. Cowell was for 20 years surveyor of Merced county.

J. Burdette Brown, who for the past several years has been connected with the State Department of Engineering in the capacity of irrigation, has resigned his position with the State Government to join the Extension Department of the University of California. He will be employed in special irrigation work.

The Safety Concrete Incinerator Co., Los Angeles, has been permitted by Commissioner of Corporations, Edwin M. Daugherty, to issue 100 shares to Joseph Feigenbaum in exchange for certain property and to sell 150 shares at par, \$100, for cash, so as to net 80 per cent. The shares issued to Feigenbaum are to be deposited as an escrow.

Raymond I. Richardson, of Reading, Pa., has been appointed Assistant Professor in the Department of Architecture at Carnegie Institute of Technology, Pittsburgh. His duties begin with the fall semester of 1922.

Paul Kingsbury, a New York architect, has opened an office at 1840 1/2 S. New Hampshire Ave., Los Angeles, for the practice of architecture, and desires catalogs and information about building materials.

There are approximately 33,000 saw mills in the United States, employing normally 700,000 men in woods and mill operations, according to a recent report of a joint congressional commission.

Carl J. Warnecke, of the firm of Miller and Warnecke, Oakland architects, has opened an office in Marysville. The firm has several contracts in that vicinity.

Trustees of Crocker School District Contra Costa County, will call election to vote bonds of \$250,000 to finance construction of new school.

Jason R. Meek has been elected county surveyor of Yuba county, defeating L. B. Crook.

Alameda building activities in August totaled \$129,509, according to Eugene Maillot, building inspector.

Palo Alto building permits for August totaled \$109,856 as compared with \$66,007 for August, 1921.

The E. K. Wood Lumber Co. will add 300 ft. on the north to its present wharf facilities at Los Angeles harbor.

Building in Reno, Nevada, for August totaled \$51,500.

Building permits in Taft, Kern county, for August totaled \$35,890.

OPERATION OF "OPEN SHOP" IN OKLAHOMA CITY

(By J. B. Landers, Manager of Open Shop Division of Oklahoma City Chamber of Commerce).

Prior to the open shop activities in Oklahoma City the usual disturbances caused by jurisdictional disputes with restrictions of production were constantly arising.

It is through the efforts of the open shop division that disputes of this nature have been eliminated and the union card is no longer the sole qualification for a man to work at his vocation or trade in Oklahoma City, as the methods upon which the open shop activities are carried on are as follows:

"In Oklahoma City the open shop stands on the platform of non-discrimination, and is essential for the welfare of future generations. American industry must be kept 'open' to craftsmen and apprentices and for the youth of the land, regardless of union or non-union membership.

"There are employers who would exclude all union men. Union leaders demand that all non-union men be excluded. Either method is contrary to the principles of the open shop and regardless of the sensibilities of organized employers or organized labor the American public is justifiably against both as violating the principles of human liberty. The open shop does not deny the right of either to organize, but upholds the right of every man to work without interference by bodily attack or otherwise at any lawful occupation without any other's leave, and when any man is denied the right to work and live by that work, individual liberty and freedom in America is destroyed.

"The open shop opposes any system of conscription and confiscation which seeks the organized exclusion from American industry of all unorganized.

"The open shop upholds the in-

dividual rights of all liberty loving, free American employees and employers and condemns the employer who would masquerade under the open shop for the purpose of crushing and destroying labor, to the same extent as the labor leader who in the name of labor, would confiscate American industry by intimidation, coercion, and violence, and establish a despotism which would reach past human conception. Shall the United States remain open or become a closed shop nation and change its laws to that end?"

S. F. CHAMBER, A. A. E. FLAYS POWER ACT

The San Francisco Chapter, American Association of Engineers, at its meeting September 5 adopted without a dissenting vote, a resolution opposing the passage of the proposed California water power act, after hearing a report of the special committee appointed by the chapter to investigate the hydro-electric situation in California with reference to the provisions of the act.

The report, characterizing the act as being so "drawn as to encourage rather than limit the board in the improper use of its powers," and as being in many ways objectionable, was approved and the thanks of the chapter extended to the committee.

Stating that the purpose of the act "is the domination of the hydroelectric industry by the state," the report sums up the conclusions of the committee by saying that the act is not needed, that it would not result in permanently cheaper rates to the consumer, and that its workability is open to serious question.

President W. H. Phelps, of the chapter, turned the chair over to J. J. Rosedale, construction engineer of the department of safety, California Industrial Accident Commission, who acted as chairman of the special committee. The report was read by Charles H. Lee, consulting engineer and member of the committee, who explained that the engineers comprising the body had commenced their work of research and investigation six months ago with open minds, but that their study of the question, including the Ontario hydroelectric project and similar enterprises, had convinced them that the proposed act is dangerous and autocratic.

Lee, concluding his declaration, is now under existing conditions for such an act, enumerating the economic disadvantages of its provisions and the difficulty of amending the act, the report said further.

"The act involves an unjust principle of taxation, since all the people and property owners of the state pledge their full faith and credit for the payment of interest and principal of bonds which benefit local areas. Default of the part of the consumers under State projects is not a remote possibility, as evidenced by the many partial or complete failures of district irrigation projects to meet their financial obligations, and the well known difficulties of the U. S. reclamation service in collecting assessments from settlers in spite of small installments and long terms."

The report further contends that: "On account of the large number of employees and the great variety of patterns of the administration of the act would offer unique opportunities for political activity."

Serving on the committee which drew up the report were: J. J. Rosedale, department of safety of the Industrial Accident Commission; Donald M. Baker, hydraulic engineer of the State Department of Public Works; E. E. Carpenter, consulting engineer; Charles H. Lee, consulting engineer, and George Mattis, consulting engineer.

An organization of Belgian scientists will award a prize of about \$4000 next year for the best original work in French or English on the scientific advance of electricity and its technical applications.

Builders' Day a Huge Success; Five Thousand Attend Three Day Outing at Capitola

The third annual builders' Day outing held under the auspices of the Builders' Exchange of San Francisco, September 2, 3 and 4 at Capitola-by-the-Sea, was a huge success. More than five thousand members of the building fraternity, together with their wives, sweethearts and children attended the three day festival. Every branch of the construction industry was represented—architects, engineers, contractors and material dealers—from every section of the State.

The program as outlined by the Committee on Arrangements was carried out as scheduled thereby making the outing a three day session of continuous enjoyment. Bathing and games during the day—dancing, games and auto rides in the evening. Not a minute was lost and everyone had a good time. Every body was on the Hospitality Committee.

Prizes were distributed to winners of the various contests in addition to those who attended and did not take part in the many games. The prizes, donated by members of the San Francisco building fraternity, ranged from a carload of sand and rock, one thousand

and brick, electric cooking appliances, etc., down to a paint brush or a nickel plated soup dish. Prize awards of building materials were made with the idea of educating the public as to what the building interests in California have to offer when one answers the call of the San Francisco Forward Movement—"Now is the Time to Buy and Build."

The outing opened Saturday evening with a reunion dinner and dance at Hotel Capitola, following which, the ladies and gents were initiated into the ancient, nerve racking, mystic, alluring and musical lodge of the Black Alley Cats, No. 13. Immediately following, the initiation and roaring midnight the famous "Builders' Midnight Follies" entertained.

Sunday, a fishing trip was enjoyed by many expert anglers while others spent their time in sight-seeing, boating and bathing. Athletic events were witnessed during the balance of the morning following which luncheon was served at Hotel Capitola. Following lunch and a series of table talks and other amusements the crowd retired to the beach where the Bathing Girls' Revue was staged.

Gate prizes were then distributed. The Ladies' Nail Driving Contest and swimming and canoe races followed the afternoon. Then a public wedding followed by the Ladies' Bobbed Hair Revue. The dinner at the Hotel Capitola followed by a bon-fire and community singing on the beach. Commencing at nine P. M. and continuing into the late hours of Monday morning a concert, entertainment and dance were held in the Hotel Capitola ball room.

Monday, September 4th, opened with a sight-seeing trip, bathing and boating, horse-shoe throwing contest, rock throwing contest by the ladies and brick-kicking contest for men and women. A trip to the famous Big Tree Grove near Santa Cruz, the property of Harry Cowell of the Cowell Lumber & Cement Company, closed the outing.

Credit for the success of the outing is due to the committee who devoted considerable time and labor and to the directors of the San Francisco Builders' Exchange who contributed financial aid. And last but not least to the donors of prizes, which prizes exceeded \$2,500 in cost.

"Builders' Day" as Seen by the Observer

"Builders' Day" at Capitola was held under the auspices of the San Francisco Builders' Exchange. It was a big success. If you were not among those who attended kick yourself and wake up to find that you not only associate with men who can figure a set of plans, furnish material, put up the building and then howl for payments, but with men who can entertain, and royally.

Al Durbrow, whose place of business is No. 2 Market St., did the rounds "cementing" regulations with the old timers.

The Community Sing on the Beach brought out the fact that we have many good singers in addition to those featured in the Builders' Exchange Quartette.

Hubert Lynch said: "Who'd think the building interests could put over a stunt like this."

Steve Guerin said the outing was a great success but it should have lasted a week.

Al White says the "moon" in Capitola was better than his almanac reported it would be.

Everybody visited Room 16—yea, and then came back for more.

Jim P. Dunn, while taking in the Bathing Revue, with a sigh, declared: "Beauty is more than skin deep."

Geo. Dixon, of Old Mission Cement fame, was as busy as a doctor in a "flu" epidemic. George did some good work.

"Now is the time to Build and Buy." The boys did not build but all did buy.

Edna Sargent Gosliner, president, Mrs. Lloyd Bowman, vice president of the Santa Cruz Post, American Legion, Unit 64, were surprised at the way the builders responded to the call for the sale of \$50 worth of tickets for the benefit of the Santa Cruz Post. The sale totaled more than \$100. The ladies, through this column, extend their thanks.

R. B. Cleghorn is a busy man when he's in the city. But you should see him going through the work as a member of the committee on arrangements.

Berry Bros. donated 4 quarts of Lux-emberly White Enamel. The fellow who won the prize said: "Anything but the 'varnish' they are selling these days."

N. A. Dickey witnessing the Bathing Revue, exclaimed: "Heaven on Earth!"

T. E. (Pop) McNulty wants to know when and where the next Bathing Girls' Revue is to be put on.

The Midnight Follies consisted of the Builders' Exchange Quartette; Elmer Gallagher and his "dawg"; Louis Ferry of the Atlas Concrete Co.; Francis Watt, of the Watts Electric Co.; and E. J. Cardinal, of Mercury Press.

Dexter, secretary of the Richmond Builders' Exchange, wasted a lot of time waiting for an encore of the Bathing Girls' Revue.

Did you meet all the attorneys at Capitola? Joe McShane, Leon Samuels and Charlie McDonald.

Arthur J. Falvey was there with the Mrs. and daughter.

E. H. Preuer, of Smith-Booth-Usher, was there with the family. Mrs. Preuer took second prize in the Bathing Revue.

Con Roman, whose business is paint, witnessing the Bathing Revue, said "Look at those flappers flap."

A. H. Wincheole, Richmond plasterer, was there and rendered the boys a few songs.

Did Al Durbrow introduce you to "Billie"?

Shepherd, Riley and O'Keefe, representing the Stockton Exchange, were there with the ladies and children.

W. C. Thurman, of Soquel, wants to thank the National Surety Co., of San Francisco, for the \$20 cash prize.

The brick-kicking contest for women was good, that is, the materials they worked with were of the best. After witnessing this contest all agreed that the woman's place is in the home and not requiring the brick work in a steam boiler or underpinning a building in the skyscraper district.

Al Taylor was there and had everything but whitewash.

Jim Fennell, witnessing the Bathing Revue, admitted "fine feathers don't make the fine birds" but declared bathing suits do.

Bill Gowdell, the hub in the wheel of the Cowell Lime and Cement Co., never missed a step. Here, there and everywhere. Bill saw it all and without a "penny."

Many of the boys during the early hours of the morning insisted on singing "How Dry I Am," though there was no reason for it.

Al Fontenella says the boys sure showed some speed in the brick-kicking contest. Stacked 'em faster than Carter could make liver pills.

Everybody knew the party in Room 16. "They was nice people."

Clarence Pratt, who is always gossiping about sand, rock, etc., forgot his usual chatter and worked 24 hours a day to make the outing a success.

C. E. Rhinehart, who handles the Bathing Girls' Revue at the next outing, otherwise he's off the committee.

E. M. Hundley gave the Prize Committee a fishing pole. Fellow who won it said he never caught a fish in his life and never expected to go fishing.

Steve Guerin says committee work is not pleasant work. Steve was doing committee work in another part of the grounds and saw only a portion of the Bathing Girls' Revue.

"Builders' Day" an appropriate name. The sky was the limit.

The Bathing Girls' Revue established the fact that the building fraternity has a large and "chunky" following. Maids of the Golden West of all shapes, weights widths and heights took part in this affair and the judges only after considerable scrutiny (mostly by scrutiny) awarded the liberation. Agreed upon the prize award should this performance be repeated at the next annual outing the writer suggests that the committee have available several hundred pairs of handcuffs and a similar number of ball and chain attachments to be used on those in the audience that have not yet witnessed such an exhibition.

John Downes, master worked fast in the Ladies' Brick-kicking Contest, and while she did not win, all admit she made a good showing.

The Ladies' Nail Driving Contest furnished laughter for an hour or more. Complaints were made by the contestants that nails and hammers should have larger heads; the nails sharper points and hammers should be equipped with handles that will not cause the hands to blister with such little use. This contest proved that women cannot work on finished lumber.

At Courts, of Central Iron Works fame was there with the family.

(Continued on Page 20)

Building News Section

APARTMENT HOUSES

Plans Being Prepared.
APARTMENT HOUSE Cost, \$200,000
SAN FRANCISCO, NW Jackson and Laguna Sts.
 Nine-story reinforced concrete apartment house (9 8-room apartments) and basement and garage.
 Owner—Joseph E. Levin, San Francisco, and S. Levin, New York.
 Architect—C. A. Neussdorffer, Humholdt Bank Bldg., S. F.

Plans Being Prepared—Figures to be Taken Shortly.
APARTMENTS Cost, \$—
SAN FRANCISCO, N Eddy Street near Hyde Street.
 Six-story reinforced concrete apartment house (71 rooms, 34 2-room apts. and 1 3-room apt.)
 Owner—C. Grillo, of the Standard Invest. Co., 948 Market St., San Francisco.
 Architect—Wm. Beasley, 948 Market St., San Francisco.

Plans Being Prepared.
APARTMENTS Cost, \$—
SAN FRANCISCO, NW Eddy and Hyde Streets.
 Three six-story reinforced concrete apartment house buildings (43 rooms, 20 2-room apts. and 1 3-room apt.)
 Owner—C. Grillo, Standard Invest. Co., 948 Market St., San Francisco.
 Architect—Wm. Beasley, 948 Market St., San Francisco.

Plans Being Figured.
APARTMENTS Cost, \$—
SAN FRANCISCO, S O'Farrell St. bet. Hyde and Polk Streets.
 Three six-story reinforced concrete apartment houses (one to contain 71 rooms, 34 2-room and 1 3-room apts. and the other two 13 rooms each).
 Owner—C. Grillo, Standard Invest. Co., 948 Market St., San Francisco.
 Architect—Wm. Beasley, 948 Market St., San Francisco.

Contract Awarded.
APARTMENTS Cost, \$33,000
SAN FRANCISCO, E Powell 49-6 N Sacramento.
 Five-story and basement concrete (9) apartments.
 Owner—J. T. Murphy.
 Architect—Sylvain Schnattacher, 233 Post St., San Francisco.
 Contractor—Barrett & Hilt, 918 Harrison St., San Francisco.

Contract Awarded.
APARTMENTS Cost, \$40,000
CAN PLANT, S. O. E Jones Street 50 N Washington Street.
 Three-story and basement frame (12) apartments.
 Owner—Mayde Arguello, Los Altos, Cal.
 Architect—None.
 Contractor—Harry C. Warwick, 3191 Washington St., San Francisco.

Contract Awarded.
APARTMENTS Cost, \$25,000
SAN FRANCISCO, E Taylor Street 27-6 S Broadway.
 Two-story and basement frame (8) apartments.
 Owner—E. M. A. Santelle, 159 Sutter St., San Francisco.
 Architect—None.
 Contractor—John Kincannon, 159 Sutter St., San Francisco.

Plans Being Prepared.
APARTMENTS Cost, \$40,000
OAKLAND, Alameda Co., Cal. San Pablo Ave. near Cowper St.
 Reinforced concrete store and (40) apartments.
 Owner—Winfield
 Architect—W. E. Schimer, Thayer Bldg Oakland.

Segregated Figures To Be Taken This Week.

APART. HOUSE Cost, \$75,000
SAN FRANCISCO, E Leavenworth S Ellis.
 Five-story reinf. conc. apt. house (30 2-room apartments).
 Architect—A. H. Knoll, Hearst Bldg., San Francisco.
 Segregated figures will be taken on all parts of the work except the electrical work, which was awarded to the Wedel Elec. Co.

Contract Awarded.

NOTE—Following resolution introduced by Supervisor Wm. S. Scott was unanimously adopted at the regular meeting of the Board of Supervisors on September 6, 1922:

WHEREAS, Supervisor Ralph McLeran at the Annual Builders' Day Celebration held at Capitola on Labor Day, did, by reason of his skill, cool nerve, and perseverance, win the first prize in the horse-shoe throwing contest;

WHEREAS, said first prize consists of Five (\$500) Dollars worth of sandwiches which were donated by the Builders' Exchange Lunch Wagon, and

WHEREAS, Supervisor McLeran has very generously invited the Mayor and his colleagues of the Board of Supervisors to join him in consuming the prize he has so valiently won, thus upholding the time honored sporting proclivities of the Board; therefore be it

RESOLVED, That the generous invitation of Supervisor McLeran be accepted, and that the Mayor and every member of the Board join with him at the Builders' Exchange Lunch Wagon, when all will do honor to its leading member, who, in the words of the late Joe Gans, "Brought Home the Bacon."

"BUILDERS' DAY" was a great success.

THE PROGRAM went through.

JUST LIKE clock work.

AND CLARENCE Sand Pratt's committee.

WORKED DAY and night.

TO MAKE the annual outing.

A GREAT success.

THE CHRONICLE sent Eddie Boyden.

GREATEST NEWSPAPER writer.

IN THE world.

TO CAPITOLA-by-the-Sea.

TO REPORT our different events.

EDDIE SURELY threw the ink.

FOR EACH day.

THE CHRONICLE printed two columns.

OF EDDIE'S wonderful comedy.

CLARENCE SAND Pratt, President.

OF THE Pratt Building Material Co.

DOUGLAS 300—"easy to remember."

WRITES STUFF like Eddie's.

THAT IS Clarence.

THES THE same words.

SAME GRAMMAR.

AND SANE commas and periods.

BUT THEY pay Eddie.

FOR HIS stuff.

WHILE CLARENCE Sand Pratt.

HAS TO buy this space.

TO ADVERTISE his sharp, clean sand.

This photo of the Ralph Contractor McLeran banquet at Anthony's and Otto's Builders' Exchange Lunch Wagon shows the guests taking a well earned rest and sleep during the long-winded after dinner speech of Senator-Supervisor William Speed Scott.

Architect—W. E. Schirmer, Thayer Bldg., Oakland.

MODESTO, Stanislaus Co., Cal.—Engineers Elmer E. Reed and Fatten, Merchants National Bank Bldg., San Francisco, are completing plans for the "Garden of Allah" amusement structures to be erected in Modesto for W. G. Shafer, manager of the Green Mill Amusement Co., of Fresno. Plans will provide for a main building, 125 by 225 feet to contain conservatory 100 to 75 feet, a dining room with a seating capacity of 700 persons and a dance hall to accommodate 300 couples. Other structures will include bowling alleys, billiard rooms and a swimming tank capable of accommodating 250 bathers at one time. In addition to these permanent cottages will be constructed. All construction will be of frame and stucco. The estimated cost of the work is placed at \$325,000.

Official Proposals

NOTICE CALLING FOR BIDS

or Furnishing All Materials and Labor in Connection With the Construction and Completion of The "Elder Creek School."

The Board of Trustees of Elder Creek School District of Sacramento County, State of California, will receive sealed bids until 8 o'clock p. m., on the 14th day of September, 1922, for the furnishing of all materials and labor in connection with the construction and completion of a new one-story school building, to be located at S. W. corner of Brighton Ave. and Lemon Hill Ave., and at the expiration of the time named, bids will be opened, examined, and publicly declared in open session of the said Board of Trustees, at the old school building.

All proposals shall be accompanied by a check certified to by a responsible bank, made payable to the order of Clyde M. Davies, Clerk of the said Board of Trustees of Elder Creek School District, in an amount not less than 10 per cent of the aggregate of the bid, which check in the amount therein named shall be forfeited to and be retained by the Board of Trustees of said school district if the successful bidder fails to execute the contract in the required form and furnish the bonds required as set forth after in this notice.

The bidder to whom the contract is awarded will be required to enter into a written contract within five days after written notice of the award thereof, unless otherwise notified in writing by the said Board of Trustees or Architect, and to fully complete the said work within the time limit set forth in this contract.

All of said materials and labor required shall be in accordance with the plans and specifications on file with the Board of Trustees of said School District.

After the award and upon execution of the contract the contractor shall at the same time execute to Elder Creek School District, and deliver to the clerk of said Board of Trustees a bond guaranteeing to the said School District the faithful performance of the contract in an amount equal to 50 per cent of the amount named in the contract.

He shall likewise execute and deliver at the same time another and separate bond to protect any and all persons performing labor upon or furnishing materials used upon the said work in an amount equal to 50 per cent of the amount named in the contract.

The plans, specifications, and drawings for said work may be had at the office of the Architect, E. C. Hemmings, 424 Oechner Bldg., Sacramento, California, upon a deposit of \$10, which said deposit will be returned to the applicant when said plans, specifications and drawings are returned to the aforesaid office in good condition.

When furnished blank forms of proposals upon application at the office of the aforesaid Architect.

The Board of Trustees of Elder Creek School District reserves the right to reject any or all bids and waive any informality in any bid received.

IN WITNESS WHEREOF, we have hereunto set our hands this 25th day of August, 1922.

P. H. SMITH,

CLYDE M. DAVIES,

Trustees of Elder Creek School District of Sacramento County, State of California.

NOTICE TO CONTRACTORS

(School Shop Additions & Alterations)

Sealed bids will be received by the Trustees of Monterey Union High School District up to three (3:00) o'clock p. m. of the 13th day of Sep-

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

tember, 1922, for the furnishing of labor and materials for the construction of certain alterations and additions to the mechanical shop building of the Monterey Union High School district situated within the grounds of said high school. Complete plans and specification for which said work may be obtained at the offices of the Principal of the Monterey Union High School. The Board is reserved to reject any and all bids.

Dated this 23rd day of August, A. D. 1922.

JAS. MCINTOSH
Clerk of the Board of Trustees of the Monterey Union High School.

BIDS WANTED FOR BRICK WORK
(Golden Gate School)

NOTICE TO CONTRACTORS

Office of the Secretary of the Board of Education of the City of Oakland.

Sealed bids will be received by the Board of Education of the City of Oakland, City Hall, Oakland, California, until the 18th day of September, 1922, at 4:30 o'clock p. m. at which time said bids will be opened, for the Brickwork of the Golden Gate School, at the Oakland School District, located on the block bounded by 62nd Street, Herzog Street, 63rd Street and San Pablo Avenue, Oakland, Calif.

Plans and specifications for said work are on file at the office of the Architect for the Board of Education, 2149 Broadway, Oakland, California.

On a deposit of Twenty-five (\$25) Dollars, said plans and specifications may be had by any prospective bidder. These plans and specifications may be retained for 12 days.

If the plans and specifications are not returned to the Architect within the time above specified, or are returned in a mutilated or damaged condition, the deposit will be forfeited and will be immediately used for the purchase of a new set of blue prints and specifications.

Bids must be made on proposals obtained at the office of the Architect, and be signed by the bidder, accompanied by a certified check, certified to by some responsible bank or banker, and made payable to J. W. Edgemond, Secretary of the Board of Education, to be retained by the said School Districts as agreed and liquidated damages should the party or parties to whom

the contract should be awarded fail to enter into the contract after the award, to give bonds required for the faithful performance of the contract, or any bond required by law. The amount of said check shall not exceed Five Thousand (\$5,000) Dollars, but for all bids of less than Fifty Thousand (\$50,000) Dollars said check shall be for at least 10 per cent of the amount of the bid. Each bid shall be accompanied by an affidavit executed on a form that can be obtained from the Architect.

Bids will be opened by the Board of said Districts on the 18th day of September, 1922, at 4:30 o'clock p. m., in the Board Room, 211 Second Floor of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

J. W. EDMOND,
Secretary of the Board of Education of Oakland, California.

NOTICE TO CONTRACTORS

(Reclamation District No. 2056)

Sealed proposals will be received at the office of Reclamation District No. 2056, 2056 Oak Street, Contra Costa County, California, up to but not later than 12 o'clock, noon, September 14th, 1922, for the excavation of four hundred thousand (400,000) cubic yards of earth, in the construction of drainage canals, laterals and sub-laterals in the above named district, and in addition thereto the construction of structures permanent to above canals, laterals and sub-laterals, said structures consisting of bridges, concrete box culverts, concrete pipe culverts, and corrugated iron pipe culverts, all in accordance with the plans and specifications on file. Bids will be received on the work as a whole or in part. The right is reserved to reject any and all bids and to accept a bid on any one or more sections and reject the others.

Plans and specifications may be inspected at the office of the engineer of the District at Live Oak, Cal., or may be obtained upon a deposit with the district of \$50.00.

RECLAMATION DISTRICT NO. 2056.

By R. E. Johnson, President.

R. Heinrich, Secretary.

Clerk of the Board of Trustees of the Grammar School District, Yojo County, Knights Landing, Calif.

NOTICE TO FURNITURE DEALERS

(School Furniture)

Throughout the Board of the Board of Education the Secretary of the Board L. L. Smith 2525 Tuolumne St., Fresno, California is hereby instructed to advertise for and accept sealed bids in the following:

Two hundred and fifty pupils' chairs, etc., automatic cast iron desks, sizes 28 and 34 of individual and sizes 28 and 34 of corresponding sizes, of any desirable proposition which bidder may wish to submit.

The Board reserves the right to reject any and all bids.

Certified check in 10 per cent of the amount of the bid, payable to the order of the Board of Education, must accompany each bid.

Bids will be opened at the office of the Board of Education on Thursday, September 14, at 8 p. m.

Specifications may be obtained from the Secretary of the Board at 2525 Tuolumne Street.

By order of the Board of Education,
L. L. SMITH, Secretary.

CALL FOR BIDS FOR CERTAIN EXCAVATION AND EARTH WORK CONSTRUCTION ON FAIRFIELD CANAL SYSTEM, MERCED IRRIGATION DISTRICT

Public notice is hereby given that sealed proposals for certain excavation and earthwork construction on the Fairfield Canal System of the Merced Irrigation District will be received by the Board of Directors of said District at its office in the Bancroft Building in the City of Detroit, State of California, at any time up to 11 o'clock A. M. on Friday, September 22, 1922, at which time and place all bids so received will be opened in public by said Board. The Board of Directors will let said work to the lowest responsible bidder, and said Board reserves the right to reject any and all bids and to re-advertise for the work and to proceed to construct the work under their own superintendence.

The work to be done of which proposals are hereby invited is the excavation and earthwork construction of 8.6 miles of main canal and 7.4 miles of laterals. The point of beginning of the main canal is at the left bank of the main canal, about 1500 feet south of the northeast corner of Section 23, T. 7 S., R. 14 E., M. D. B. & M., and designated as Station 0.00. The main canal runs thence generally south to and across Owens Creek whose left bank it follows to a point about two miles west of the point of beginning of the lateral. The laterals run generally westerly from the main canal and each of them ends not to exceed two miles from the main canal.

The details of the work are as follows:

Approximately 1500 linear feet of canal 10 feet wide on the bottom with a vertical depth from the level of the top of the banks to the bottom of 5.2 feet.

Approximately 18,900 linear feet of canal 10 feet wide on the bottom, with a vertical depth from the level of the top of the banks to the bottom of 4 feet.

Approximately 3000 linear feet of canal 8 feet wide on the bottom, with a vertical depth from the level of the top of the banks to the bottom of 3.6 feet.

Approximately 22,200 linear feet of canal 8 feet wide on the bottom, with a vertical depth from the level of the top of the banks to the bottom of 2.8 feet.

Approximately 5000 linear feet of canal 8 feet wide on the bottom, with

a vertical depth from the level of the top of the banks to the bottom of 1 feet.

Approximately 7500 linear feet of canal 6 feet wide on the bottom, with a vertical depth from the level of the top of the banks to the bottom of 3.6 feet.

Approximately 22,200 linear feet of canal 8 feet wide on the bottom, with a vertical depth from the level of the top of the banks to the bottom of 3 feet.

Any bank slopes shall be 1:5 horizontal to 1 vertical. The bank crown widths shall be respectively four, six and eight feet as shown on Drawing P 13 of the plans for said work. The excavation is continuous except for short spurs structures at road, railroad and stream crossings. The total length of the sections excepted is approximately 500 feet.

The total estimated earthwork to be done is as follows:

Excavation 67,200 cu. yds.
Borrow 36,700 cu. yds.

Total 104,000 cu. yds.

The work to be done hereunder is more particularly described in the specifications, and the route and profile thereof are delineated upon the plans, which plans and specifications may be seen at the office of said Board. Copies of said plans and specifications may be obtained at the office of said Board upon payment of \$5.00 therefor.

Any bidder to whom a contract for said work may be awarded must furnish bonds as provided by law, to-wit: a bond in the sum of at least one-half of the contract price to secure the amount of claims of materialmen, mechanics and laborers employed upon said work, and a bond in the sum of at least 25 per cent of the contract price conditioned for the faithful performance of the contract.

Each bid must be accompanied with cash or a Cashier's or certified check or a bond for an amount equal to not less than 10 per cent of the total amount of the bid as a guaranty that if the bid is accepted the bidder will, within three days after its acceptance, enter into a contract with the district in the form attached to said specifications and furnish the bonds aforesaid.

For the purpose of determining the amount of said bonds and deposit it will be assumed (without so guaranteeing) that all the excavation and borrow will be in soil as that term is defined in the specifications; that the cost of excavation and borrow will be estimated in the specifications, and that no overhaul will be found necessary.

All proposals must be on forms which will be furnished by the district at the office of said Board, and must be in sealed envelopes addressed to the Board of Directors of Merced Irrigation District.

Dated at Merced, California, August 31, 1922.

By order of said Board of Directors,
W. D. WAGNER, Secretary.

NOTICE TO CONTRACTORS

(The Roofing & Interior Equipment)

Office of the Secretary of the Board of Education of the City of Oakland, California.

Sealed bids will be received by the Board of Education of the City of Oakland, City Hall, Oakland, California, until the 18th day of September, 1922, at 4:30 o'clock p. m., at which time and place all bids so received will be opened in public by said Board and completion of a new building for the Vocational High School, of Oakland High School District, located on the block bounded by Myrtle, Broadway and 17th Streets, Oakland, California.

Separate bids will be received for: Tiling, Roofing.

Interior equipment work. Bids and proposals for said work are to be filed at the office of the Architect for the Board of Education, 2149 Broadway, Oakland, California.

On a deposit of Twenty-five (\$25) Dollars, said plans and specifications may be retained for twelve (12) days.

If the plans and specifications are not returned to the Architect within the time above specified, and are returned in a damaged or mutilated condition, the deposit will be forfeited and will be immediately used for the pur-

chase of a new set of blue prints and specifications.

Bids must be made on proposals obtained at the office of the Architect, and signed by the bidder, accompanied by a certified check, certified to by some responsible bank or banker, and made payable to J. W. Edgemond, Secretary of the Board of Education, to be retained by the said School Districts as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award, or to give the bonds required for the faithful performance of the contract or any bond required by law. The amount of said check shall not exceed Five Thousand (\$5,000) Dollars, and for bids of less than Fifty Thousand (\$50,000) Dollars, said check shall be for at least ten (10%) per cent of the amount of the bid. Each bid shall be accompanied by an affidavit executed on a form which can be obtained from the Architect.

Bids will be opened by the Board of said Districts on the 18th day of September, 1922, at 4:30 o'clock p. m., in said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

J. W. EDMOND,

Secretary of the Board of Education of Oakland, California.

NOTICE TO BIDDERS FOR CERTAIN PLUMBING AT THE GARFIELD GYMNASIUM

The Board of Education of the City of Berkeley and Berkeley School District of Alameda County, State of California, hereby gives notice that it will receive at his office, 2133 Allston Way, Berkeley, California, up to the hour of 4 o'clock P. M., September 19, 1922, sealed proposals for furnishing the necessary materials, tools and labor for the furnishing and installation of certain plumbing fixtures at the Garfield School Gymnasium, Rose and Grant Streets, in the City of Berkeley, in accordance with plans and specifications adopted by said Board of Education on Wednesday, August 30, 1922, and now on file at the office of the Secretary of the Board of Education, 2133 Allston Way, Berkeley, California, from which copies may be obtained.

Bids must be on blank forms furnished and obtained from said Board of Education. Work on the above contract must commence within 48 hours from notification of the Board of Education of the award of said work and be diligently prosecuted until completion thereof, unless otherwise ordered by said Board of Education.

The successful bidder will be required to furnish a surety bond acceptable to the Board of Education in a sum not less than twenty-five per cent (25%) of the contract price, guaranteeing the faithful performance of the contract; also a bond in a sum not less than fifty per cent (50%) of the contract price, guaranteeing the payment of claims for laborers and materials used in the above work, as provided by an Act of the Legislature of the State of California entitled "An Act to Secure the Payment of Claims of Materialmen, Mechanics or Laborers, employed by Contractors upon State, Municipal or other Public Works, Approved March 27, 1897," and to give bonds indemnifying the Board of Education against liability for compensation provided by Workmen's Compensation Insurance and State of California May 26, 1913, satisfactory to the said Board of Education.

All bids must be accompanied by a cash deposit of a certified check on a responsible bank, and payable to the Board of Education for an amount equal to ten per cent (10%) of the amount bid.

The bidder to whom the contract shall for five (5) days after such award fail or neglect to enter into a contract and file the required bonds and faithful performance of the contract and the furnishing of materials and labor, the cash deposit or certified check of said bidder may be declared forfeited to the Board of Education and shall be collected and paid into the General Fund of said Board of Education.

The Board of Education reserves the right to reject any and all bids.

By order of the Board of Education of the City of Berkeley, Alameda County, State of California, August 30, 1922.

CLYDE BLANCHARD,
Secretary, Board of Education

NOTICE TO BIDDERS

(Sewer Sewers)

Notice is hereby given that the Stages Sanitary Board, at their next regular meeting, **Friday, October 6, 1922 at 8 p. m.**, will receive and consider bids for sewer extensions on Clayton and Norwell Streets, in the City of El Cerrito, and described as follows:

465 feet of sewer on Clayton St. bet Central St. and Fairview Ave.

The above named sewers are to be constructed to plans and specifications on file with E. Peters, 183 San Pablo Ave., and are open at that address for inspection by interested parties.

Ten per cent of the bids must accompany each bid.

Twenty-five per cent of the total amounts of accepted bids will be withheld for 30 days after completion of work.

The Sanitary Board reserves the right to reject any or all bids on the aforementioned sewer extensions.

H. L. Van Fleet,

Secretary Stages Sanitary District Board.

R & E

NOTICE TO CONTRACTORS

CURRENT CREEK ROAD

SEALED PROPOSALS for constructing the above-named National Forest Road to local within the Nevada National Forest, New County, State of Nevada, will be received by the District Engineer, Bureau of Public Roads, U. S. Department of Agriculture, at 881 Mills Building, San Francisco, California, until 2 o'clock P. M., on the 12th of September, 1922, at which time and place they will be publicly opened and read. The right is reserved to reject any and all bids, and none will be considered except those from contractors ascertained to be experienced and responsible. The project is located about 10 miles south of Ely and the length to be constructed is approximately 14.6 miles. The principal items of work are approximately as follows:

Clearing and grubbing, 771 Stations
Excavation, rock, 3000 cu. yds.
Excavation, common, 45,000 cu. yds.
Cement Rubble Masonry, 17,000 cu. yds.
Class "B" concrete Alternate for Cement Rubble Masonry, 260 cu. yds.
Corrugated Metal Pipe, 2300 lin. ft.
Trestle Bridge Material in place, incl. Br. Iron, 5.4 M. E. M.
Furrow Ditch, 10,000 lin. ft.

The work embraced in this contract shall be started within ten days after notice of signing of contract by the Secretary of Agriculture has been received by the contractor by the District Engineer, and shall be completed within 75 weather working days after said notice has been given.

The contract form and the maps, plans, specifications and estimate of quantities may be examined by responsible contractors at the following addresses:

581 Mills Building, San Francisco, California.
After August 28, 1922, District Engineer, Bureau of Public Roads, 406 C. H. Hudson Building, Ogden Utah.
After August 28, 1922, at Engineer's Camp, Current, New County, Nevada.
After August 28, 1922, Nevada State Highway Commission, Carson City, Nevada.

After August 28, 1922, Care of Forest Supervisor, Ely, Nevada.

The Bureau of Public Roads will furnish Corrugated Metal Pipe for pipe culverts. The Bureau also has available for loan to contractors on a rental basis, equipment as listed in the accompanying circular. The bidder will state in his bid the amount of Government equipment that he will use during construction and the minimum rental value of the estimated materials will be deducted from the total of the construction items and award will be made on bid to best advantage to the Government.

Plans and specifications will be furnished contractors who contemplate bidding upon deposit of a certified check for \$10.00 payable to the Secretary of Agriculture of the United States. Check will be held, pending return of plans and specifications.

All proposals must be made on forms furnished by the District Engineer, Bureau of Public Roads, and in accordance with the instructions forming a part of the Specifications above referred to.

August 24, 1922.

C. H. SWEETSER,

District Engineer

BIDS WANTED FOR STATE HIGHWAY IMPROVEMENT**STATE OF CALIFORNIA****DEPARTMENT OF PUBLIC WORKS****CALIFORNIA HIGHWAY COMMISSION****NOTICE TO CONTRACTORS**

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock P. M., on September 25, 1922, at which time they will be publicly opened and read for construction in accordance with the specifications therefor to which special reference is made, portions of State Highway as follows:

Los Angeles and Orange Counties, between Long Beach and Huntington Beach (VII-LA-60-E and VII-ORA-60-A), about seven and eight-tenths (7.8) miles in length, seven and eight-tenths (7.8) miles to be graded and six and five-tenths (6.5) miles to be paved with Portland cement concrete.

Plans may be seen and forms of proposal, bonds, contracts and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineer's offices are located at Willits, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the

"Notice to Contractors" annexed to the blank form of proposal for full directions as to bidding, quantities of work to be done, etc.

The Department of Public Works, acting by and through the California Highway Commission, reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the State.

NEWELL D. DARLINGTON,
CHARLES A. WHITMORE,
GEO. C. MANSFIELD,
California Highway Commission.

AUSTIN E. FLETCHER,
State Highway Engineer.
R. A. MURRAY, Secretary.

Dated August 28, 1922.

BIDS WANTED FOR IRON AND BRONZE WORK FOR STATE BUILDINGS**NOTICE TO CONTRACTORS**

SEALED BIDS will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to and including 12 o'clock A. M., Tuesday, October 3, 1922, said bids therefor and they will be publicly opened and read for furnishing all plant, materials and doing the work required for the complete ORNAMENTAL AND MISCELLANEOUS IRON AND BRONZE WORK, for the SACRAMENTO STATE BUILDINGS, I. e., the Library and Courts Building and the Office Building, Sacramento, California, in accordance with plans and specifications and forms of which may be obtained on application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

Such bids will be received for Ornamental and Miscellaneous Iron and Bronze Work and must be submitted on forms prepared and furnished by said Division of Architecture.

Cash, a bidder's bond made payable to the State of California, or a certified check made payable to the State Engineer, Department of Public Works, in the sum of at least ten per centum (10%) of the amount of the bid must be enclosed with each bid.

A deposit of Twenty-Five (\$25.00) Dollars will be required on plans and specifications; the deposit to be returned immediately on the return of the plans and specifications to the said Division of Architecture, at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

The construction work of said Sacramento State Buildings has been placed on a days labor basis and on said basis the said Ornamental and Miscellaneous Iron and Bronze Work, as a sub-division of said construction, is to be let by contract.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope, "Proposal for Ornamental and Miscellaneous Iron and Bronze Work, Sacramento State Buildings, Sacramento, California."

STATE DEPARTMENT OF PUBLIC WORKS, DIVISION OF ARCHITECTURE.

GEO. B. McDOUGALL,
State Architect.
A. B. FLETCHER,
Director of Public Works.

SCHOOL BIDS WANTED**NOTICE TO CONTRACTORS**

The Board of Trustees, Selma Union High School District hereby invite sealed bids for the furnishing of labor and materials and the erection and completion of a Masonry Science Hall according to plans and specifications of the District's architect, Norman F. Marsh.

Bids for the several sections of the work will be called for as follows:

General contract
Electric contract
Heating and ventilating contract
Painting contract
Plumbing contract
Program clock contract

Plans and specifications may be obtained from the architect, 211 Broadway Central Building, Los Angeles, California, or from Superintendent of Construction, 1001 Reddy Joint Union High School, Reedley, California.

Bidders will be required to make a deposit of \$50.00 for plans and specifications, which will be refunded on return of plans accompanied with bona-fide bids.

All bids must be accompanied with a certified check or bid bond for five per cent (5%) of amount of bid made payable to Selma Union High School District as guarantee that if awarded the work, bidder will furnish good and sufficient Security Company Bond and enter into contract for execution of work as indicated by above.

All bids must be in the hands of C. W. Christensen, Clerk, at the High School, on or before 8 p. m., Monday, September 25th, 1922, and will be opened in public immediately thereafter.

All bids must be made on uniform bid blanks furnished by the architect. The Board of Trustees of the Selma Union High School District reserve the right to reject any or all bids.

Done by order of the Board of Trustees, Selma Union High School District, This 21st day of August, 1922.

F. A. DODSON, President.

C. W. CHRISTENSEN, Clerk.

BIDS WANTED FOR REMODELING BATHS**NOTICE TO CONTRACTORS**

Subject—Specification No. 4001, Remodeling Bathrooms, Building No. 53, Navy Yard, (Marine Reservation), Mare Island, Calif.

The Bureau of Yards and Docks invites attention to the fact that it will open proposals, in the near future, on the project mentioned above. The building is a two-story brick structure 50 feet by 26 feet with wings 44 feet by 48 feet and a one-story kitchen, about 33 by 54 feet. A 12-foot veranda extends across the front of the building on both floors. The first story height is 13 feet from finished floor to ceiling. The remodeling consists in general of the removal of partitions, and brick walls, removal of certain lintels and sills, installation of new lintels and sills, construction of new partitions, removal of wood floors, installation of new wood and concrete floors, repainting floors, installation of cement-mortar wainscots, new plastering, steel stairs to veranda, wood trim, screens, hardware and plumbing, work with connections to existing sewer and water systems, electric lighting system, and other incidental work. The work herein described is a part of the building which is south of the north side of the Sally port which includes the lavatory room over the Sally port.

Plans and Specifications No. 4661 may be obtained when available, by application to the Bureau of Yards and Docks, Navy Department, Washington, D. C., or to the Commandant, Navy Yard, Mare Island, Calif., accompanied by a Postal Money Order or check for \$10.00, payable to the Chief of the Bureau of Yards and Docks, as security for the safe return of the Specifications.

BRIDGES, DAMS & HARBOR WORK

LOS ANGELES, Cal.—Until 11 a. m., Sept. 11, bids will be rec. by county supervisors for 10,000 or more untreated piling; 25¢ to be delivered in 15 days after order is placed; remainder to be delivered as follows: 25¢ every 30 days until order is filled. Piling is to range from 22 to 40 ft. in length; 60¢ to be 36 ft. or under in length and the remaining 50¢ to be over 36 ft. in length. Round piles shall have a min. dia. of 12-in. at the butt. Cert. ch. 107.

SALINAS, Monterey Co., Cal.—The failure of the Standard Industrial Engineering Corp., 250 Montgomery St., San Francisco, to furnish a surety on the Hilltown bridge contract awarded at a price of approximately \$19,000, may cause the company to lose the contract and \$13,000 worth of work already completed on the structure. A bond of \$90,000 is required. The company has offered to furnish a personal bond and proposes to make an agreement with the supervisors whereby 75% of the earnings of the company on the contract would be held up each month to meet liabilities. The district attorney, however, advises the supervisors against such an agreement and urges that a "surety" bond be secured.

SACRAMENTO, Cal.—Until Sept. 26, 10 a. m., bids will be rec. by H. W. Hall, county clerk, to const. wood trestle across Carson Creek on Milgate Ranch about 10 miles south of Colusa. Cert. check 10c payable to chairman Board of Supervisors required. Chas. Deterding, county surveyor.

COACHELLA, Cal.—Until 7 p. m., Sept. 12, bids will be rec. by the Coachella Valley Water Control Dist., Coachella, Riverside Co., for excav. of approx. 11,000 cu. yds. of earth in the flood control ditch near Indio, and for the clearing of approx. 23 miles, from a point about 4 miles west of Indio to 3 miles southwest of Mecca. Plans and spec. may be seen at the office of Leeds & Barnard, cons. engs., Central Bldg., Los Angeles. Cert. Chk. or bond, \$500. V. E. Stiles, clk.

SAN JOSE, Santa Clara Co., Cal.—Until Oct. 2, 11 a. m., bids will be rec. by Henry A. Pfister, county clerk, to construct rein. conc. culvert on Redmond road near Norton road, Supervisor Dist. 4, Irving Ryder, county surveyor.

PALMDALE, California.—Until Sept. 10, bids will be rec. by Palmdale Water Co. to const. 3 earth dams near Palmdale. Involves approx. 87,000 yds. embankment, and 140,000 sq. ft. of conc. slope paving. Plans and spec. may be seen at the office of the company, Burt Cole, engr.

NAPA, Napa Co., Cal.—Until Sept. 26, 10 a. m., bids will be rec. by J. A. Daly, county clerk, to const. rein. conc. girder bridge over creek above Napa Soda Springs in Supervisor Dist. 2. Involves 61 cu. yds. conc.; 6,000 lbs. rein. steel; 500 cu. yds. embankment; fill at approaches. E. F. Ball, county engr.

MARIPOSA, Mariposa Co., Cal.—Security Bridge Co., Oceanside, Calif., (a) for timber approach, \$19,988 and (b) for concrete approach, \$27,500, submitted low bid to county supervisors to construct 180 ft. steel bridge at Bagley. Other bids: Union Constr. Co., Balfour Bldg., San Francisco (a) \$22,171; (b) \$23,782. A. W. Kitchen Co., 110 Market St., San Francisco (a) \$23,805; (b) \$28,767. Bids taken under advisement.

SACRAMENTO, Cal. Bids were opened on Sept. 5 by the Calif. Highway Commission for the following highway improvement:

Mendocino County, across East Branch of Russian River, about 6 miles north of Ukiah (1-Men-15-A), a reinforced concrete bridge consisting of 2 44-foot reinforced concrete girder spans with the necessary pier abutments and wing walls.
W. L. Procter, Santa Rosa, \$10,980.50
Recca & Calvert, San Rafael, 11,675.25
C. H. Gilder, S. F., 12,272.00
Engineer's estimate, 15,260.00

SAN FERNANDO, Cal.—The movement in favor of a bridge on the state highway across the Pasadena wash east of Madley Ave. above San Fernando city limit is growing. A committee has been formed to present the matter to the Board of Public Works, Los Angeles, and County Supervisors and to devise ways and means to secure the necessary work done. L. A. City Engineer Department's estimate cost at \$63,000.

SALINAS, Monterey Co., Cal.—The Standard Industrial Engineering Corp. of San Francisco, constructing the Hilltown bridge, has furnished to the County Supervisors a satisfactory bond and will continue with the contract.

IRRIGATION PROJECTS

EAGLE POINT, Ore.—Until Sept. 28, 10 a. m., bids will be rec. by Eagle Point Irrigation District, W. E. Hamand, sec., to const. main supply canal with all equipment, structures, etc. Work involves approx. 180,000 cu. yds. excavation. Deposit of \$10 required for plans.

MERCED, Merced Co., Cal.—Directors of Merced Irrigation District reject bids to const. metal flume on timber sub-structure with conc. footings and work will be done by district under supervision of R. C. Starr, ch. eng.

MERCED, Merced Co., Cal.—P. L. Burr, 512 Mission St., San Francisco, at \$24,700 awarded contract by Merced Irrigation District to const. rein. conc. siphons, incl. spillway and check structure, also to const. 1300 lin. ft. of tunnel driven through cemented rock and hardpan, timber lined, \$24 lin. ft. for tunnel and \$55 per M. B. M. for timber lining. R. C. Starr, ch. eng. for district.

MERCED, Merced Co., Cal.—Until Sept. 22, 11 a. m., bids will be rec. by W. D. Wanger, sec. Merced Irrigation District, for excavation and earthwork

construction on Fairfield canal system of district; 8.6 miles of main canal and 7.1 miles of laterals. Jas. C. Starr, ch. eng. For further details see call for bids under official proposal section in this issue.

LIGHTING SYSTEMS

LOS ANGELES, Cal.—Until 11 a. m., Sept. 11, bids will be rec. by Board of public works to install ornamental lighting system in Miramonte-Ebenezer lighting dist. Plans and spec. on file at office of City Electrician, south city hall annex.

PASADENA, Cal.—Until 10 a. m., September 20, bids will be rec. by City Clerk Bessie Chamberlain to const. ornamental lighting system in Los Robles Ave., bet. 200 ft. N. and 205 ft. S. of Alpine St. S. ornamental iron posts, iron conduits and appurtenances. Chk. for 192.

MACHINERY

NEWPORT BEACH, Cal. Bids received by City Trustees for furnishing and installing two stage centrifugal pumping unit at the city pumping plant, were: Maunick Iron Works, Manassas, Mich., \$1250.10; L. Newport, no installation, ship 40 days; Bryon Jackson Iron Works, L. A., \$1192 installed, \$1736 with extra fittings, deliver 30 days and 45 days, respectively. Worthington Co., L. A., \$1225.30 days; Fairbanks, Morse Co., \$1380.30 days; Ford & Geisrine, San Francisco, \$998.45 days; Shipn-Hollick-Lyon, L. A., \$1781. American Pump Co., L. A., \$941.30 days; Paul E. Kresley, H. W. Hollman Bldg., Construction Engineer.

PASADENA, Cal. City Director will purchase a steam shovel in the immediate future to be used in connection with the construction of roads into the Arroyo Seco in the vicinity of the new stadium.

REEDLEY, Fresno Co., Cal.—Until Sept. 18, 8 p. m., bids will be rec. by Marion Deenen, clerk, Reedley Joint Union High School District, for, and del. one or more motor trucks with bus bodies for carrying 35 pupils; bodies to be equipped with cross seating, center aisle and front entrance only. Trucks equipped with electric starter, lights and horn, rear sight, speedometer, speed regulation, etc. Alternate bids on varieties in equipment incl. tires will be considered. All prices to be f. o. b. Reedley.

LOS ANGELES, Cal.—Until 3 p. m., Sept. 19, bids will be received by public service comm., 207 S. Edwy., for high voltage transformers; spec. No. P-287. Jas. P. Vroman, secy.

RAILROADS

LOS ANGELES, Cal. Work will be started within a month on the first unit of a freight terminal for Southern Pacific Ry., covering a 2-mile strip along the San Fernando road extending north from the N. Grand St. bridge. About 51,000 cu. yds. of grading and 17,000 ft. of track will be involved in the work to be started first. Company contemplates doing the work with its own forces. A 150-ton railway scale will also be installed. The complete project will cover about 700 acres and will comprise in addition to tracks, roundhouse, repair shop, water tanks and other appurtenances.

SAN FRANCISCO.—Following bids received by Board of Public Works for street cars and equipment for Municipal Railway System:

For 20 street car bodies: American Car & F.W. Co. (a) delivered place of manufacture, \$7,550; (b) delivered California, \$8,150.

St. Louis Car Co. (a) \$7,400; (b) \$7,988. Bethlehem Shipbuilding Co. (a) \$7,926, (b) low bidder.

For 20 street car trucks: Stand. Motor Truck Co. (a) delivered place of manufacture, \$1,325; (b) delivered at San Francisco, \$2,051.68.

Engineering Products Co. (a) \$1,526; (b) \$2,129.

St. Louis Car Co. (a) \$1,658; (b) \$2,300.

Baldwin Locomotive Works (a) \$2,250; (b) \$2,445.

For motor equipment: Westinghouse Elec. & Mfg. Co. (a) delivered place of manufacture, \$500; (b) fur. and del. spare parts, \$1,177.31.

For air brake equipment: Westinghouse Traction Brake Co. (a) f. o. b. place of manufacture, \$516.55; (b) fur. and del. spare air compressors, \$677.

Allis Chalmers Mfg. Co. (a) \$521; (b) \$560.

LOS ANGELES, Cal.—Until 10 A. M., September 10, bids will be received by Harbor Commissioners, 312 Byrne Bldg., Third and Broadway, for railroad tracks. Specification 116. Guy W. Wade, Secretary.

SEWERS, STREET WORK, ROADS & WATER SYSTEMS

SACRAMENTO, Cal.—The Mathews Construction Co., Forum Bldg., Sacramento, at \$770,951 awarded contract by City Commission to construct rapid sand filtration plant and appurtenances, being the filtration plant portion of the Pumping and Filtration works of the City of Sacramento, comprising the construction, complete, of sedimentation and coagulation basins having an aggregate capacity of approximately 10,000,000 gallons; eight rapid sand filters of concrete, having a nominal capacity of 32,000,000 gallons a day; a superstructure over the operating gallery of the filters, a headhouse for administration, pump house, which there is a 200,000 cu. ft. elevated steel water tank for filter washing purposes; a concrete pump having a capacity of approximately 200,000 gallons, a coagulant building and outside piping, excavation and embankment and roadways and paths.

Following are approximate quantities of materials involved in the work: 11,500 cu. yds. concrete; 170 concrete reinforcement bars; 100,000 cu. yds. of reinforcing material; 17,000 cu. yds. excavation; 6000 cu. yds. rolled fill; 300,000 cu. yds. of general fill or embankment. In addition to the above features a considerable amount of building construction and mechanical equipment, including cast iron pipe and fittings, gate valves, sluice gates, hydraulic and electrical controlling devices, conveyors, pulverizers, etc., are involved. George J. Calder is resident engineer for the project.

SANTA ROSA, Sonoma Co., Cal.—Until Sept. 11, 12 m., bids will be received by W. J. Adams, county clerk, to construct Two Rock-Fallon road, Sec. A, 1½ miles in length, involve 3900 cu. yds. unclassified excavation; 1180 cu. yds. crushed rock; 14,180 sq. ft. asphalt; 24 in. 12 in. 75 lin. ft. 12 in. 26 lin. ft. 18 in. and 26 lin. ft. 24 in. iron pipe; 10 cu. yds. conc. in headwalls.

Separate bids, same date, to const. Petaluma-Valley Ford highway, secs. 2 and E, 2.17 miles in length, involve 9000 cu. yds. excavation; 1910 cu. yds. crushed rock; 22,916 sq. yds. surfacing; 60 lin. ft. 12 in. 112 lin. ft. 15 in. 104 lin. ft. 18 in. and 84 lin. ft. 24 in. corr. iron pipe; 20 cu. yds. conc. in headwalls. R. Press Smith, county surv.

OAKLAND, Alameda Co., Cal.—Bids will be received until October 2, 1922, by Geo. E. Gross, Clerk of Alameda County, for the construction of concrete roads at the County Infirmary. Estimated cost from \$18,000 to \$20,000.

TUSCON, Ariz.—Borderland Constr. Co., contr. by city council, Imp. 3rd St., involve 23,000 sq. yds. grading at 25c ft., 4730 lin. ft. 16-in. gutter at 55c ft., 475 lin. ft. 32-in. gutter at \$1 ft.; 100 lin. ft. 14-in. curb at 65c; 12 mon. 12 in. 14 in. c. l. water pipe, and installing service pipes complete.

Rosebale St., involve 1052 ft. grading, 31,100 sq. ft. oil surface, 2037 ft. curb, 10,253 sq. ft. walk, 1199 ft. laying (only) 4-in. c. l. water pipe. C. L. Hill city eng.

GLENDALIE, Cal.—Until 7 p. m., Sept. 7, bids will be rec. by City Clerk Van Winkle for improving:

Millford St., involve 980 lin. ft. grading, 3984 sq. ft. cem. gutter, 28,862 sq. ft. 3-in. oil macadam, laying (only) 1008 ft. 4-in. c. l. water pipe, and installing service pipes complete.

Rosebale St., involve 1052 ft. grading, 31,100 sq. ft. oil surface, 2037 ft. curb, 10,253 sq. ft. walk, 1199 ft. laying (only) 4-in. c. l. water pipe. C. L. Hill city eng.

SAN DIEGO, Cal.—California Constr. Co., 528 Granger Bldg., submitted low bid to city council Aug. 28, at 15.8c sq. ft. for paving F St. bet. 16th and 25th Sts., with 1½-in. asph. conc. wearing surface on 2½-in. asph. conc. base; approx. 153,245 sq. ft. Other bids were Geo. R. Daley, 15.5c; Birchchild-Gilmore-Wilton Co., 16.8c. Referred to City Engr F. A. Rhodes.

VENTURA, Cal.—Fairchild-Gilmore-Wilton Co., Los Angeles Ry. Bldg. Los Angeles, at \$164,495.71 awarded contract by city trustees, for paving certain streets in Ventura, involve 166,221 sq. ft. grading at 3.6c ft.; 166,221 sq. ft. 4-in. cem. conc. pavement at 16.3c ft.; 662,306 sq. ft. 2½-in. bitum. base with 1½-in. asph. conc. surface at 11c ft.; 13,213.7 ft. curb at 55c ft.; 26,144 sq. ft. conc. gutter at 28c ft.; and 2144.8 sq. ft. sidewalk at 20c ft. E. M. Lynch, Central Bldg., Los Angeles, consulting eng.

MODESTO, Stanislaus Co., Cal.—Until Sept. 13, 8 p. m., bids will be received by L. A. Love, city clerk, to const. storm sewer No. 1, involve 16,069 cu. yds. excavation; 3701 lin. ft. 8-in., 2604 lin. ft. 10-in., 639 lin. ft. 12-in., and 1691 lin. ft. 14-in. vit. pipe; 2556 lin. ft. 30-in., 2893 lin. ft. 24-in., 871 lin. ft. 30-in., and 2213 lin. ft. 36-in. rein. conc. pipe; 14 ft. 30-in. corr. iron pipe No. 10 gauge; 36 br. manholes; 2 special manholes; 87 cement conc. inlets. Geo. Freitas, city eng.

BAKERSFIELD, Kern Co., Cal.—City Eng. W. D. Clarke completes spec. to improve following streets:

Portions of B. F. G. H. I. 7, 10, 14 and 16th Sts., (St. Dist. Imp. 453) involve 4023 sq. ft. conc. curb; 23,833 sq. ft. conc. walks.

Kern St., bet. Jackson and Lake, involving 813 lin. ft. conc. curb; 2672 sq. ft. gutter; 33,952 sq. ft. conc. base with 1½-in. Warrenite surface.

Oregon St., bet. Baker and Beale, involving 3259 sq. ft. conc. gutter; 48,121 sq. ft. 3½-in. asph. conc. base with 1½-in. Warrenite-Bit. surface.

LOS ANGELES.—W. D. McCray, 416 Amer. Nat. Bank Bldg., awarded contr. by Board of Public Works at \$146,272.25, to pave 18th St., bet. Centre and Patton Sts., San Pedro, involve 49,913 sq. ft. grading to fish subgrade at 25c ft.; 20,500 sq. ft. curb at 65c ft.; 40,322 sq. ft. cem. walk at 22c ft.; 21 sq. ft. gutter at 30c ft. storm drain compl. \$6200; sanitary sewer sewers at \$1.25 ft. pipe culvert compl. \$170.

Geo. R. Curtis, 2440 E 26th St. awarded contr. at \$23,044.70 for paving Victoria Ave., bet. Tenth St. and Country Club Dr., involve 71,289 sq. ft. grading at 40c ft.; 71,289 sq. ft. asph. paving at 24c ft.; 1632 sq. ft. grading and milling at 7c ft.; 98,51 ft. curb at 70c ft.; 125,70 sq. ft. walk at 25c ft.; 4798 sq. ft. gutter at 28c ft.; 489 ft. house sewers at \$1.25 ft.

Wm. Liddington, 420 E 60th St., awarded contr. at \$1275.11 for paving first alley S. of Seventh St., bet. Whittier and Valencia Sts., involve 4055 sq. ft. grading to finish subgrade at 10c ft.; 4055 sq. ft. cem. conc. paving at 21.25c ft.; 11,332 ft. cem. curb at 70c ft. Engr's est. \$1387.19.

STOKANE, Wash.—City Council will improve North side water system at cost of \$200,000, including construction of \$80,000 reservoir in Minnehaha Park.

PORTLAND, Ore.—Teller and Allyn, at \$120,234 submit low bid to Public Dock Commission to const. extension (230x150) to Pier 1 and Municipal Terminal 4. Bids will be asked shortly for substructure for ventilated storage warehouses, 600x120 ft.

YUMA, Ariz.—Until Sept. 11, bids will be received by Thomas Maddock, state highway engr., care of Yuma county highway commission, Yuma, for constructing Yuma-Phoenix highway, federal and project No. 55. The work consists of approx. 50,000 cu. yds. excav., 15,000 cu. yds. borrow, 73,000 cu. yds. surfacing, 2100 cu. yds. rock and other incidental items. The work will be divided into four schedules: bids upon schedule No. 1 will be opened at 1 p. m. bids upon No. 2 at 2 p. m.; bids upon No. 3 at 3 p. m.; and bids upon No. 4 at 1 p. m. Cert. chks. 5%.

GLENDALIE, Cal.—Cornwell & Henderson, 127 S. Glendale Ave., Glendale, awarded contr. by city council at \$26,786.10 for paving Columbia Ave., involve 1475 lin. ft. grading at \$1 ft., 141,298 sq. ft. 3-in. oilf. macad. at 9c ft., 2581 lin. ft. curb at 50c ft., 17,436 sq. ft. walk at 17c ft., 3460 lin. ft. 6-in. c. l. water pipe at \$1.30; 37,751.96; Ducey & Truittstein, \$29,146.40; Peter L. Ferry, \$27,555.78; Napier & Simpson \$28,752.80; E. L. Fleming, \$31,432.22; W. T. Curran, \$31,241.28.

OROVILLE, Butte Co., Cal.—Until Sept. 18, 11 A. M., bids will be received by C. P. Belding, County Clerk, for furnishing and placing 100,000 tons and 1,500 tons screened gravel, along Section C of Oroville-Pentz-Magalia county bond road. Certified check for 10% or cash. H. H. Hume, County Surveyor.

STOCKTON, San Joaquin Co., Cal.—Bids will be asked in about 30 days by the San Joaquin county supervisors for the following road improvements: Louise Ave., in Summer House tract, 4 miles, involve 4500 cu. yds. grading; 8500 tons rock; 7736 bbls. asphaltic oil. Nick Bebek, submitted low bid at \$5400 for sewer work in Manzanita St., bet. Santa Monica Blvd. and South Walk.

EL CERRITO, Contra Costa Co., Cal.—Until Oct. 6, 3 p. m., bids will be rec. by H. L. Van Fleet, sec., Stege Sanitary District for sewer extensions. Plans may be had from J. E. Peters, 188 San Pablo Ave., Richmond. See call for bids under official proposal section in this issue.

STATE WATER COMMISSION

California—Following is a partial list of applications for permits to appropriate water, filed with the State Department of Public Works, Division of Water Rights, during the month of August, 1922.

Applications

Application No. 2966 (Sierra Co.) Roy H. Elliott, 1213 Hobart Bldg., San Francisco, Cal., for 100 cu. ft. per sec. and 30,000 ac. feet storage from Sardine Creek and Salmon Creek, for power purposes. Proposes to develop 113,919 theoretical horsepower. Dam to be 150 feet high, 15 miles of conduits and tunnels. Est. cost, \$1,250,000.

Application No. 2977 (San Bernardino County) San Geronimo Power Co., Care of W. L. Huber, First Natl. Bank Bldg., San Francisco, Cal., for 16 cu. ft. per second from an artificial irrigation channel tributary to San Geronimo River, for generation of electric power in Secs. 2 and 3, T. 28, R. 1E. Purposes to develop 4357 theoretical horsepower to Est. cost, \$298,953.

DAILY PACIFIC BUILDER

The only daily newspaper in the West whose columns are devoted exclusively to Building News. Covers San Francisco and Bay Counties. \$1.25 per month, payable in advance. Send for sample copy.

560 MISSION STREET

SAN FRANCISCO, CAL.

Application No. 2979 (Butte County) Oroville-Wyandotte Irrigation District, Oroville, Cal., for 210 cu. ft. per sec. from Lost Creek, for irrigation of 31,650 ac. now in or to be included in the Oroville-Wyandotte Irrigation District. Proposes 33.8 miles of Main ditch line. Est. cost, \$298,916.

Application No. 2981 (Nevada and Placer Counties) Nevada Irrigation Co., Grass Valley, Cal., for 500 cu. ft. per second from Bear River, for developing of electric power. Proposes to develop 24,000 theoretical horsepower.

Application No. 2982 (Nevada and Placer Counties) Nevada Irrigation Co., Grass Valley, Cal., for 50 cu. ft. per sec. from Bear River, for development of electric power. Proposes to develop 28,900 theoretical horsepower.

Application No. 2992 (San Diego Co.) Ed. Fletcher, Fletcher Bldg., San Diego, Cal., for 44,225 ac. ft. per annum from San Diego River, for municipal purposes in the City of San Diego. Est. cost, \$1,250,000.

Application No. 2992 (San Diego Co.) The City of San Diego, Care of H. N. Savage, 320 McNece Bldg., San Diego, Cal., for 75 cu. ft. per sec. and 1200 ac. ft. per annum from Plum Creek, for municipal purposes in City of San Diego. Proposes Main Canal 11 miles long. Dam to be 175 feet high. Est. cost, \$1,300,000.

Application No. 2993 (San Diego Co.) City of San Diego, Care of H. N. Savage, 320 McNece Bldg., San Diego, Cal., for 75 cu. ft. per sec. and 2000 ac. ft. per annum from Tattlesnake Creek, for municipal purposes in City of San Diego.

Application No. 2994 (San Diego Co.) City of San Diego, Care of H. N. Savage, 320 McNece Bldg., San Diego, Cal., for 75 cu. ft. per sec. and 2000 ac. ft. per annum from Tunnel Two Creek, for municipal purposes in City of San Diego.

Application No. 2995 (San Diego Co.) City of San Diego, Care of H. N. Savage, 320 McNece Bldg., San Diego, Cal., for 75 cu. ft. per sec. and 2000 ac. ft. per annum from Matchin Creek, for municipal purposes in City of San Diego.

Application No. 2996 (Amador Co.) J. W. Preston, Jr., 350 Post St., San Francisco, Cal., for 225 cu. ft. per sec. from North Fork Mokelumne River, for power purposes. Proposes to develop 26,000 T. H. P.

Application No. 2997 (Amador Co.) J. W. Preston, Jr., 350 Post St., San Francisco, Cal., for 225 cu. ft. per sec. from North Fork Mokelumne River, for irrigation of 50,000 acres in Jones and Jackson Valleys and in the vicinity of Galt. Main ditch to be 7 miles long.

Application No. 2998 (Amador Co.) J. W. Preston, Jr., 350 Post St., San Francisco, Cal., for 225 cu. ft. per sec. from Sutter Creek, for power purposes. Proposes to develop 31,000 T. H. P. Main ditch to be 9.5 miles long.

Application No. 3000 (San Diego Co.)

George T. Simpson, Point Loma, Cal., for 175 cu. ft. per sec. and 200 cu. ft. per annum from Santa Maria Creek, for irrigation of 135 acres near point of diversion. Est. cost, \$12,000.

Application No. 3001 (San Diego Co.) George T. Simpson, Point Loma, Cal., for 175 cu. ft. per sec. and 200 cu. ft. per annum from Santa Maria Creek, for power purposes in Sec. 11. Proposes to develop 100 T. H. P. Est. cost, \$12,000.

Application No. 3004 (Placer and Eldorado Counties) Henry Worth, Auburn, Cal., for 2000 cu. ft. per sec. and 2,100,000 ac. ft. per annum from American River, for irrigation of 400,000 acres. Proposes canal 30 miles long terminating in Sec. 1, T. 13 N., R. 3 E.

Application No. 3005 (Placer and Eldorado Counties) Henry Worth, Auburn, Cal., for 1600 cu. ft. per sec. and 2,000,000 ac. ft. per annum from North and Middle Fork American River, for power purposes in Sec. 1, T. 12 N., R. 3 E. Proposes to develop 28,800 T.H.P.

Application No. 3008 (Trinity Co.) W. H. Samson, Corning, Cal., for 2000 cu. ft. per sec. and 1,000,000 ac. ft. per annum from Trinity River, for irrigation of lands in the Sacramento Valley south of Red Bluff. Est. cost, \$5,000,000.

Application No. 3009 (Trinity Co.) W. H. Samson, Corning, Cal., for 2000 cu. ft. per sec. and 1,000,000 ac. ft. per annum from Trinity River, for irrigation of lands in the Sacramento Valley south of Red Bluff. Est. cost, \$5,000,000.

Application No. 3011 (Madura Co.) San Joaquin Light & Power Corp., Fresno, Cal., for 150 cu. ft. per sec. from Whiskey Creek, for power purposes. Proposes to develop 24,205 T.H.P.

Application No. 3013 (Riverside Co.) Prescott T. Stevens, 7353 Sunset Blvd., Los Angeles, Cal., for 10 cu. ft. per sec. from Whitewater River, for power purposes in Sec. 18, T. 3 S., R. 4 E. Proposes to develop 454.5 T. H. P. Est. cost, \$75,000.

Application No. 3014 (Sacramento and El Dorado Counties) A. J. Cleary, 440 Mills Bldg., San Francisco, Cal., for 500 cu. ft. per sec. and 72,000 ac. ft. per annum from South Fork American River, for irrigation purposes.

Permits Issued

Permit No. 1098, App. No. 1446 (San Joaquin County). Issued to Santa Joaquin Irrigation District, Manteca, Cal., for 150 cu. ft. per sec. from Stanislaus River, for irrigation of 28,520 acres within boundaries of South San Joaquin Irrigation District. Main canal 13.5 miles in length. Est. cost, \$75,000.

Permit No. 1099, App. No. 1241 (Kings County). Issued to G. Albert Smith, care of Collins and Collins, Attys., Fresno, Cal., for 98.89 cu. ft. per sec. and 18,729 ac. ft. per annum from Kings

River, for irrigation of 7911.12 acres near point of diversion.

Permit No. 1101, App. No. 1756 (Sutter County). Issued to Sutter Mutual Water Co., Grafton, Cal., for 15.93 cu. ft. per sec. from Sacramento River, for irrigation of 1274.5 acres in Ts. 13 and 14 N., Rs. 1 and 2 E.

Permit No. 1107, App. No. 1762 (Sutter County). Issued to Sutter Mutual Water Co., Grafton, Cal., for 14.00 cu. ft. per sec. from Sacramento River, for irrigation of 1120 acres.

Permit No. 1108, App. No. 1763 (Sutter County). Issued to Sutter Mutual Water Co., Grafton, Cal., for 6.0 cu. ft. per sec. from Sacramento River, for irrigation of 480 acres.

Permit No. 1109, App. No. 567 (San Diego County). Issued to Ed. Fletcher, 920 Eighth St., San Diego, Cal., for 30.00 cu. ft. per sec. from Santa Ysabel Creek and Black Canyon Creek, for power purposes. Proposes to develop 3024 theoretical horsepower. Est. cost, \$350,000.

BUSINESS OPPORTUNITIES

Further information regarding these opportunities may be had from the Domestic Trade Department, San Francisco Chamber of Commerce, Merchants Exchange Bldg., by furnishing index number:

D-212—Chicago, Ill. Construction company desires to make attractive proposition to reliable concern who could distribute their complete line of concrete building mixers and other construction equipment, such as sidewalk curb and gutter forms.

D-216—Portland, Ore. Partner wanted in established radio and electrical supply business. Present partner hopelessly ill.

D-217—San Francisco, Cal. For Sale: One Standard 150-ton Truck (Railroad) Scales, new and in perfect condition; discount 50% from factory price.

D-217A—San Francisco, Cal. For sale: No. 10-A Federal Electric Butt Welder. Complete set of dies goes with this welder. Capacity 1 1/2 inches square steel. Pipe dies also go with this machine. Price, \$900 net.

D-218—Denver, Colo. Electric Washer and Dryer Company desires favorable manufacturing proposition, either on a contract basis or otherwise.

D-219—Denver, Colo. Oil engine company desires to get in touch with financial party or parties to carry on the manufacture of engine developed by them. The inventor offers his services along with the manufacturing enterprise. Descriptive circular on file.

D-221—Minneapolis, Minn. Concern who have perfected orchard tractor, endorsed by the University of Minnesota, desires to submit proposition to interested parties in California for the manufacture of same. They solicit your investigation.

"BUILDERS' DAY"

(Continued from Page 5)

Peter Bradley, whose business is plastering, declared: "We builders can do nothing when we get started."

The P. E. in 1915 was a big success. But how about Builders' Day?

Barbara Odgers, daughter of Joe Odgers, Baby Maillard, daughter of Maillard, the contractor, Claire Smith, daughter of A. Smith, and Josephine Crowe, daughter of J. B. Crowe, of Crowe Glass Co., offered tasty steps and songs following the Midnight Follies.

Gene Clancy, who sells cement, had a long talk with a member of the Bathing Revue. He got an order, but not for cement.

The lady who won the eard of wood donated by the Loop Lumber Co., said her husband wouldn't cut it; hence, she could not see where the prize had any value.

J. B. Crowe acted like the bird that does justice to his name. Up early every a. m. to get the boys started.

Alex Minnie wants to know why the water is so close to the beach at Capitola.

The Builders' Exchange Quartette of San Francisco did some good work. We should call on these boys often in the future.

Eduard Eden, staff correspondent for the San Francisco Chronicle, for his wonderful publicity work, was surprised by the Committee when presented with a tissue paper package elaborately decorated with colored ribbons. The package contained one of the hammers used in the nail driving contest.

Big things are accomplished only through much labor. The "Builders Day" outing was a big affair—bigger than expected. It took time and money to put it over. Credit is due to the Committee on Arrangements composed of Clarence F. Pratt, chairman; Chas. Gompertz, president of the State Association of Builders' Exchanges; C. E. Reinhart; R. B. Cleghorn; Steve Guerin; Wm. Peary; Emil Hogberg; J. B. Crowe; and Geo. Dixon, gentlemen, we thank you.

Miss Mabel Hes, recent arrival from England, visiting her uncle, Robt. H. Smith, San Francisco contractor, was awarded first prize in the Bobbed Hair Revue and was without a doubt worthy of the award.

Ed. G. Oden, whose business is Portland cement, the best made, there was accompanied by his jovial smile.

Tom Aulenchy, who builds joss houses in Chinatown, was on the job exchanging hand shakes with all the Democrats.

Joe Odgers was on the job all the time and showed the boys the openings—and there were many of them.

Crowe Glass Co. donated a sun visor. Fellow who won it says he never owned an auto and never expects to.

Bill Peary proved a hero. He answered the cry of a female: "There's a man in my tent." A mass of fur with two bright eyes, four legs and a long tail, Bill found upon investigation.

J. E. O'Connell declared the shortest hour of the three-day outing was that featuring the Bathing Girls' Revue.

Pat Pickleley did not win the marble

Many of the boys expressed their admiration for the wonderful "moonshine bathing" at Capitola.

John Doolowy showed some speed in the "Hot Point" contest.

Gunn, Carle Co., as a prize donated a "Service Creeper." A waiter, it is said, won the creeper, and is wondering when it'll be to do with it.

Charlie Gompertz says the boys who stayed at the hotel felt right at home because it was run on the "American Plan."

The donors of prizes to the outing and the advertisers in the program are firms who are always doing it. Read that program again, from cover to cover.

The Builders' Midnight Follies was good. There is plenty of good talent among the members of the San Francisco Exchange.

The Bricklaying contest for men was caused for considerable amusement. This proved that many of our brick con-

tractors while away from the trowel for many years can still shake a wicked wrist and throw up a wall in short order. This contest, of course, was run on the American Plan, for as Charlie Gompertz says: "That is why the wall went up so fast and that is why the boys got damp around the hat band."

Tess Reilly, daughter of Pat Reilly, building the Reedley High School, won second place in the Prize Waltz.

Ralph McLeeran, our future mayor, did not take part in the 250-yard dash. George Dixon and Al Drubrow had a feature of their own—the 3 a. m. fire drill.

Elmer Gallagher and his dog "Liquor" had several rounds of applause.

"Mr. Schoolt" was in demand. They say he's a friend of Steve Guerin.

Young Jim Fennell, the "longest" member in the Builders' Exchange, featured some classy stuff in a third story window.

E. J. Cardinal, one of the Follies, was declared the champion one arm man at Capitola.

Stark, the printer, wants to know who in hell that fellow "Mr. Schoolt" is?

Geo. Dixon was very, very busy. Handling affairs in Room 16 and showing his lady companion all there was to be seen in and around Capitola.

"Builders' Day" Outing Prize Awards

GATE PRIZES

First Prize—Beautiful silver vase—Made by Shreve & Co., donated by Henry Cowell Lime & Cement Co.; won by Albert Knowles, S. F., son of Bob Knowles, plasterer.

Second Prize—Carload of crushed rock. Donated by The Granite Rock Co.; won by T. Gorzica, Santa Cruz.

Third Prize—Carload Niles sand. Donated by The Coast Rocks and Gravel Co.; won by E. Bateman, S. F., son of Wm. Bateman, contractor.

BUSINESS OPPORTUNITY FOR MATERIAL DEALERS AND MANUFACTURERS

Max E. Cook, Farmstead Engineer, Delhi State Land Settlement, advises that a Community Fair will be held at Delhi, Cal., on Sept. 15 and 16 and that he intends installing an exhibit of Farmstead photographs and farm building plans, photographic models, etc., and offers material dealers in San Francisco and the Bay Counties an excellent opportunity of exhibiting their products.

"The service I render to settlers as Farmstead Engineer in charge of all building work and the planning of individual farmsteads," says Mr. Cook, "necessitates my carrying a full line of sample building materials together with price, specification, data, etc., particularly those materials most used and most suitable in farm building construction."

Engineer Cook especially desires to have complete information and samples on hand for the following materials: Wall board, roof coverings, stucco finishes, metal lath, brick, hollow tile, shingle stain, paint color samples, interior decoration suggestions, modern plumbing, awnings, fencing, hardware, barn equipment, etc.

Further particulars may be obtained from Mr. Cook, at Delhi, California.

A "Pittsburg" Automatic Gas Water Heater installed in the Home indicates high quality throughout.

Recommended and specified by all of the leading architects, plumbers and builders.

Consider the high merit of the Pittsburg coupled with "Pittsburg Perfect Service."

KOEHRING DANDIE

Light Mixer

- yet it is within the price range for light mixers

THE Dandie is a light, easily portable mixer for concrete footings, culverts, floors, and has also proved suitable for mortar mixing.

It is a Koehring mixer—Koehring designed and constructed—and this means that dependability and long service life are the first considerations, not lowest price. No it is not the lowest priced mixer, but is well within the price range for light mixers, making it the greatest *value* in light mixer field. It sets a new standard of efficiency and value for light mixers. Big production, standardization in every part, and automatic shop equipment keeps the price down!

Send Today for Catalog D 000

Get the details of construction—the liberal drum dimensions—double gear drum drive—the drum roller construction—universal bearings, mixing action—the two side discharge control—trouble-proof power—dust-proof housing. Get these details and you will see why the Dandie offers a remarkable value. Write for catalog D 000 today.

4 and 7 cu. ft. capacities mixed concrete, steam and gasoline. Low charging platform, power charge-trip. Automatic water tank and light duty hoist.

WATER BOARD TO MAKE EIGHT-DAY INSPECTION TRIP

Announcement that the consulting board of water resources investigation which is being made by the State Department of Public Works, would make an eight-day trip through Northern California, beginning Sept. 19, is made by officials of the department. The trip will be made for the purpose of obtaining information which will be included in the report of the committee to the legislature next year.

The trip includes an inspection of reservoir sites in Trinity county, in the Sacramento river canyon and along the Pit and McCloud rivers. While on the trip the party will be entertained by the various chambers of commerce and other civic bodies.

Members of the committee who will make the trip follow:

J. C. Forkner, chairman, Fresno; H. A. Kluegel, state water commissioner, Sacramento; U. S. Webb, attorney general, San Francisco; Col. R. B. Marshall, Patterson; Jonathan S. Dodge, San Francisco; Peter Cook, Rio Vista; B. A. Etcheverry, Berkeley; H. H. Hawgood, Los Angeles; H. D. McGlashan, San Francisco; A. R. Tont, Porterville; Paul Bailey, deputy state engineer, and Geo. C. Kreutzer, assistant to Dr. Elwood Mead.

ENGINEER SELECTED TO IMPROVE YANGTZE RIVER

According to press dispatches from Shanghai the Yangtze River Commission which is directing a project for the improvement of the great waterway, has appointed George G. Strohe, chief survey engineer in connection with the project. Mr. Strohe was in the Philippine government service for 12 years as hydraulic engineer, designing irrigation, river and harbor works. Before he went to the Philippines he was graduated from Chicago University in 1902 and received a degree from the University of Michigan in 1904, subsequently teaching civil engineering at the University of Michigan for a period of years.

San Francisco to be Base for Forty Million Dollar Steel Concern

Coincident with the filing of incorporation papers in Delaware, formal announcement of the formation of a \$40,000,000 steel company with San Francisco as the principal manufacturing center of the Pacific Coast, is made.

The new corporation, completely financed by San Francisco, Los Angeles, Seattle and Salt Lake banking institutions, is to be known as the Pacific Steel Corporation, and will be a combination and enlargement of present steel manufacturing plants on the Pacific Coast.

Complete transition of steel from iron ore to the fabricated product will be the object of the new corporation, and in the carrying out of this plan it is announced that a pig iron plant, costing more than \$7,500,000, is to be erected immediately in Utah. The pig iron plants will be erected on immense iron ore and coal deposits in that state, already acquired by the corporation, and will serve as a source of supply for raw materials for the completed manufacture of fabricated steel here.

At the same time the San Francisco plant of the Pacific Coast Steel Co., already the largest of its kind west of the Rockies, is to be enlarged to practically double its present capacity, and other plants owned by the same company in Seattle and Portland also are to be enlarged materially.

Joining with the Pacific Steel Co. in the new corporation also is the Southern California Iron and Steel Co., of which A. T. Milner, of Salt Lake City, is the head, and which owns vast coal and iron ore properties in that state.

Also said to be allied with the new corporation for the complete production and manufacture of steel on the Pacific Coast is the Milner Corporation of Utah, of which A. T. Milner, of Salt Lake City, is the head, and which owns vast coal and iron ore properties in that state.

The first formal announcement of the new \$40,000,000 corporation was made here yesterday morning in a short statement which told of plans for the incorporation of the new company in Delaware.

T. T. C. Gregory, San Francisco counsel of the new corporation, verifies the earlier announcement and briefly outlined the operating plans of the new corporation.

BUILDING OPERATIONS LEADS IN ACTIVITY

The building and allied industries lead all lines of activity at the present time, according to the seventh bi-monthly review of industrial-economic conditions just issued by the National Industrial Conference Board. Reliable authorities, it is said, state that the country during recent months has been undergoing a building boom without equal in the history of the country.

"It is estimated that \$3,000,000,000 has been awarded in contracts for residential buildings and that housing quarters sufficient for a million families will therefore have been provided by the end of the year," the review adds. "An equivalent amount has been awarded for construction of business buildings and factories."

"July was the fourth successive month in which the previous building records of the country were broken. The great amount of activity has resulted in numerous reports of labor

"The Pacific Steel Corporation will be a combining of plants of the present Pacific Coast Steel Co., San Francisco, Seattle and Portland, and of the Southern California Iron and Steel Company in Los Angeles and other places into one big concern," Gregory said.

"The object of the new corporation will be the complete manufacture of steel from raw material to finished products on the Pacific Coast."

"At the present time there is no pig iron manufactured west of the Rocky Mountains and plants already here are dependent upon the East for their supply of both pig iron and coke."

"The combination of steel companies will also provide for the acquiring of immensely valuable iron ore and coal deposits in Utah, which will be utilized as a source of supply for raw materials."

"The object of the new corporation will be: First, to establish and build up a big iron industry and source of supply in Utah, and with this accomplished, to increase and expand the present steel manufacturing industry on the Pacific Coast."

"Only active, experienced steel manufacturers are in the new concern and it will be an independent corporation, strongly and adequately financed in every respect."

In addition to the companies already participating in the new combination, Gregory also said that it was probable that the Judson Manufacturing Co., of Oakland, the second largest steel plant on the Pacific Coast, also would be one of the concerns to join in the new enterprise.

The announcement of the incorporation is the second big steel manufacturing venture to be launched here within the last six weeks.

On July 1 the formation of the Columbia Steel Co., with a capitalization of \$17,000,000, and which offered a consolidation of several California steel manufacturing plants, was announced here. Like the newly organized Pacific Steel Corporation, the Columbia company also has acquired valuable iron and coal lands in Utah, and plans to produce its own pig iron and coke there for use in Coast plants.

Waglington E. Creed, head of the Pacific Gas and Electric Co., is president of the recently organized Columbia company.

"Shortage of both skilled and unskilled workers in all sections of the country, on account of increased demand prices have been steadily rising. The increase has been felt particularly in brick, cement, sand, flooring, shingles, roofing materials and other standard materials."

OAKLAND STREET WORKERS AVERAGE \$55.2 A DAY

The Oakland street department's pay roll averages \$55.2 a man a day, according to a cost-chart maintained by W. W. Harmon, city engineer, concerning the 282 employees in the department. The lowest paid employees are the laborers of the garbage and burning crews, at \$4.97. The salaries which make up the \$55.2 average are as follows: Office, \$3.72; garage, \$5.62; maintenance, \$4.71; construction, \$6.72; corporation yards, \$5.21; sewer crew, \$5.53; sweeper crew, \$5.10; engineer's office, \$5.29; burning crew, \$4.97.

WHAT HE HEARS AND SEES ON HIS ROUNDS

Frank Nizora has resigned his position as city engineer of Madera.

LOS ANGELES BUILDING FOR AUGUST TOTALS \$11,523,891

Los Angeles building total for August, 1922, was the 2nd largest monthly total on the records of the city building department. A total of 4294 permits with an estimated valuation of \$11,523,891 were issued. The high record in valuation was \$12,959,686 in April, 1922. Compared with the same month in 1921, August shows a gain of nearly 10 per cent. Compared with the preceding month, August shows a gain of about 31 per cent.

August, 1922, was a record month for housing operations. These were represented by a total of 1684 permits for dwellings, flats and apartments with an estimated valuation of \$6,650,542, providing accommodations for 2653 families. Housing operations comprised 39.3 per cent of the total number of permits and 57.7 per cent of the total valuation for the month. There has been a notable increase in the number of larger apartment houses for which permits have been issued during the last two or three months.

Class A, B and C construction for August, 1922, comprised a smaller proportion of the total than for any other month this year except July, amounting to only \$2,450,877. Only one large project was included in the permits for the month, the 12-story steel frame bank and office building at 625 S. Spring St., for the Spring Street Realty Co., estimated to cost \$494,000. Three Class A reinforced concrete buildings aggregated in value \$730,000 and 53 Class C buildings aggregated \$1,211,977. Included in the high record valuation for April was the Biltmore hotel permit for \$4,485,000.

The following table shows the relation of Class A, B, and C construction, comprising chiefly buildings other than those used for residential purposes and housing operations, to the total of each for each of the eight months of 1922:

	Total	C. A, B, C	Housing
Jan. \$	7,975,169	\$1,500,398	\$4,990,632
Feb.	7,579,798	5,149,493	3,416,721
March	10,964,829	2,976,253	5,526,000
April	12,959,686	6,058,900	5,087,701
May	9,227,504	1,190,766	5,447,575
June	10,652,265	4,226,382	5,002,829
July	9,064,018	1,548,711	5,067,455
Aug.	11,523,891	2,450,877	6,650,542

TRAINED YOUNG MEN NEEDED IN HIGHWAY WORK

Methods for the training of young men to supply the demand in the fields of highway engineering and highway transport are to receive consideration at a meeting of prominent educators, highway officials and representatives of the automotive industry to be held in Washington, October 26 to 28, under the auspices of the Highway Educational Board.

In connection with the coming meeting Thomas H. MacDonald, chief of the U. S. Bureau of Public Roads, says: "With the rapidly expanding State and Federal highway programs and the enormous growth of highway transport a large number of properly trained young men will be needed to enter the different branches of the field. Each year the highway construction and highway transport industries call more and more for men from the colleges and this meeting is held for the purpose of devising courses of training which will best fit the student to fill the positions offered. The Bureau is taking an active interest in the work of the Highway Education Board and plans to assist in the formulation of curricula for highway engineering education and to aid in carrying out the plans by furnishing models, motion pictures and lantern slides of road work for use in highway courses."

Lumber Cut of 710 Mills in 1919-1920

The Department of Commerce announces that the lumber cut of 710 saw-mills, according to census reports, showed a decrease of 578,102,000 feet, or 1.2 per cent for 1921, as compared with the cut of these same mills in 1919.

The statement, which was prepared in cooperation with the Department of agriculture, Forest Service, covers most of the large mills reporting a total cut of 5,000,000 feet or more in either 1921 or 1919. The cut of these mills in 1919 represented 40 per cent of the total cut in the United States. These mills are located in 32 states, consequently the comparison reflects conditions as they were in practically all important lumber regions in the principal southern

It is of particular interest to note that mills in the north and west generally show decreases, but since the cut of these mills, considered as a whole, decreased but slightly from 1919 it appears reasonable to forecast that the lumber cut for 1921 will not differ greatly from that reported for 1919.

Comparative Statement of Lumber Cut, 1919-1921

State—	No. Mills Reporting	No. Mills (—Lumber Cut—Feet B. M.—)	
		1919	1921
Alabama	34	456,845,000	571,778,000
Arkansas	37	563,495,000	613,424,000
California	34	1,001,837,000	971,210,000
Florida	25	338,275,000	420,399,000
Georgia	16	152,308,000	195,790,000
Idaho	23	512,983,000	411,032,000
Kentucky	5	98,132,000	79,824,000
Louisiana	110	2,035,118,000	2,259,126,000
Maine	6	54,704,000	62,561,000

*Includes Arizona, Maryland, Massachusetts, Montana, Nevada, New Mexico, Ohio, Oklahoma, Pennsylvania, South Dakota and Wisconsin.

STANDARD SUSPENDED CEILING SPECIFICATIONS

After much research in connection with the common practice in the different localities throughout the United States, the following specifications have been approved by the Associated Metal Lath Manufacturers as being the minimum safe specifications for suspended ceilings:

HANGER—The vertical member which carries the steel framework.

The minimum size for hangers shall be No. 8 galvanized wire 1-3/16 in. flats or 7/32 in. round mild steel rods. The wire is to be attached by twisting three times, flats attached by bolting with 3/8 in. bolts, rods by twisting twice, or by right angle bends and wiring. They shall be spaced not to exceed 4 ft. centers in either direction.

RUNNER CHANNEL—The heaviest horizontal member.

Furring channels are to be not less than 1 1/2 in. channels with a minimum of .442" per lineal foot. They shall be spaced not to exceed 4 ft. on centers.

FURRING CHANNEL—The smallest horizontal member, to which the lath is attached.

Furring channels shall be not less than 3/4 in. channels with a minimum weight of .216" per lineal foot, attached to runner channels by at least three loops of No. 16 galvanized wire at each crossing. They shall be set on various centers, depending upon the lath to be used. A maximum of 1 1/2 in. centers maximum for 3/4" flat lath, 1 3/4 in. centers maximum for 3/4" flat lath, 1 3/4 in. centers maximum for 3/4" flat lath.

METAL LATH—The plastering base and reinforcement.

Metal lath shall weigh not less than 3 1/2 per square yd. Metal lath shall be attached to the furring channels by No. 18 gauge annealed galvanized lather's wire, every 6 in. along the furring channels.

The Observer.

(Continued from Page 4)

New bids will be considered by the Sacramento city commissioners on Sept. 19 to construct the intake portion of the Sacramento filtration project. Under the last call for bids the Mathews Construction Co., of Sacramento, submitted an informal offer but this was rejected.

The U. S. Steel Corporation announces that it has recommended to its subsidiary companies that the price of stand rails be increased commencing October 1 to \$43 per gross ton base, f. o. b. mills for delivery in about equal monthly installments prior to June 30, 1922.

The Riga Asbestos Mining Co. of Los Angeles, represented by J. H. Richardson, has purchased for \$15,000 the One-step, Two-step and Three-step asbestos mining claims of the Triangle Asbestos Ass'n., at Glote, Ariz.

Bids for furnishing from 50,000 to 75,000 barrels of cement for use on the Don Pedro Dam project will be considered by the Directors of the Turlock and Modesto Irrigation Districts on September 29.

The Alameda General Hospital Co. has incorporated in Alameda for the purpose of building a modern hospital in that city. The building will cost \$300,000.

The Palo Alto Sheet Metal Works has moved to new and larger quarters at 121 Ramona St., Palo Alto. C. E. Spangler is manager.

Capitola-by-the-Sea, Calif., September 5th, 1922.

Dear Mr. Pratt: Today Mr. Sparling came to our house and gave each of us \$5.00, he said we were the oldest couple married the longest in Capitola. It surprised us as we just gave in our names for fun not thinking that we were the longest married couple in Capitola.

Mr. Reynolds is 82 the 10th of this month and I will be 77 the 25th of next January. We were married Sept. 23, 1866, both came from Wisconsin. He in 1853 and I in 1861. We met in Stockton in September 1864.

We both thank you for your kind donation and we will always remember your kindness. Hope you will come back to our lovely little town some time again in the future.

Sincerely, Mr. and Mrs. J. A. Reynolds.

Mr. and Mrs. J. A. Reynolds,
Capitola-by-the-Sea, Calif.

San Francisco, September 3, 1922.

Dear folks: I have your letter of the 5th and note that Mr. Reynolds will be 82 years old tomorrow, and on behalf of the Committee on Arrangements, I want to congratulate you and wish you more happy birthdays. We are very happy indeed to receive your letter and I am glad to know that you have lived together for 56 years.

Mrs. Pratt and I have lived together 27 years and we are now preparing to celebrate our Golden Wedding, which is our greatest ambition. We celebrated our Silver Wedding two years ago.

I doubt if any prize, out of the \$2000 worth of prizes that we gave away, went to more appreciative persons than you folks. I showed your letter to the entire Committee as well as many members of the Builders' Exchange of San Francisco, and they were all very happy to know that you were both well and enjoying each other's companionship. We hope to come back next year and I promise you that we will again offer a prize for the couple married the greatest number of years and I also hope that you folks will be the winners of the prize.

Again wishing Mr. Reynolds many happy returns of the day and wishing you both much health, wealth and happiness, I am

Very truly yours, CLARENCE F. PRATT, Chairman,
Committee on Arrangements "Builders' Day" Outing.

THIS LETTER from the Reynolds.

IS WORTH all the effort.

THE COMMITTEES.

PUT INTO the "Builders' Day."

WHAT IS nice.

THAT TO make two people.

WHO ARE 82 and 77.

HAVE SOME more sunshine.

IN THE path of life.

TRAVELING 56 years together.

OVER ROUGH and smooth paths.

IS TO be envied.

BY KING, prince or potentate.

IT SEEMS we live.

IN AN age of divorcees.

AND IT is surely refreshing.

TO FIND a sincere, lovable couple.

LIKE MR. and Mrs. Reynolds.

AND CLARENCE Sand Pratt, President.

OF THE Pratt Building Material Co.

DOUGLAS 300—"easy to remember"

CONSIDERS IT a privilege.

TO SERVE on a committee.

THAT CAN give pleasure.

TO TWO remarkable people.

LIKE THE Reynolds.

AND DO you know.

WHOSE \$10.00 they received.

IT WAS N. A. Dickey's.

OF "DICKY Mastertile" fame.

WHO WITH his good wife.

ATTENDED OUR "Builders' Day."

MR. DICKEY is doing.

MORE THAN this.

HE IS running large display ads.

IN THE metropolitan dailies.

ADVERTISING HIS wonderful tile.

AND THE building industry.

THIS HELPS all of us.

IT HELPS sell.

PRATT'S SHARE, clean sand.

FROM PRATTO, Monterey County.

AND MARYSVILLE and Sacramento.

AND FOR the pleasure.

OF KNOWING.

SO MANY remarkable people.

IN THIS wonderful world.

CLARENCE SAND Pratt says.

"I THANK you."

Let's hope that all of us may enjoy 56 years of happy wedded life like Mr. and Mrs. J. A. Reynolds of Capitola-by-the-Sea.

(the day when said bids will be opened and the contract awarded) for the erection and completion of Additions and Alterations to the Isolation Ward, etc., together with Covered Connecting Walks, at the County Hospital, near San Leandro, Alameda County, California.

Complete plans and specifications for work on file in the office of the County Clerk in the Hall of Records Building in Oakland, where copies may be obtained by depositing twenty-five dollars. Contractors will be restricted as to the length of time these plans may be retained by return said plans and specifications, within said time limit will forfeit their deposit.

Each bid must be accompanied by a certified check for at least ten per cent of the amount of the bid or proposal, certified to by some responsible bank, and made payable to Geo. E. Gross, Clerk of the Board, to be forfeited to

the County of Alameda as agreed and liquidated damages should the party or parties to whom the contract shall be awarded fail to enter into the contract after the award or to give the bond required by the Board for the faithful performance of the contract.

The Board reserves the right to reject any or all bids.
GEO. E. GROSS,
Clerk of the Board of Supervisors of the County of Alameda.
Dated September 11, 1922.

BIDS WANTED FOR HIGHWAY IMPROVEMENT

NOTICE TO CONTRACTORS

Sealed proposals will be received by the undersigned until 1:30 o'clock p. m., Sept. 27, 1922, for constructing a portion of the State Highway System in Butte County, between West Butte County line and Dunlap, work consisting of grading, construction of culverts, and placing gravel surface.

Plans may be examined and form of proposal, contract and specifications secured at office of undersigned; may also be examined at the County Clerk's office in Eureka; may also be examined at the Division Engineer's office in Las Vegas, Elko or Reno, and District Office of the Bureau of Public Roads, Mills Building, San Francisco, California. Cash deposit of Fifteen Dollars (\$15) with the undersigned required for copy of plans which will be refunded on their return in good condition. Bids must be on proposal form of Highway Department, and must be accompanied by a certified check in the amount of 5% of the bid.

Each bidder must accompany his bid with a certificate from a Surety Company, duly authorized to do business in this State, stating that such Surety Company will provide said bidder with a bond in such a sum as is required in and in accordance with the provisions of said Specifications, conditioned for the faithful performance of the provisions of the contract and specifications. Right is reserved to reject any and all bids.

Geo. W. BORDEN,
State Highway Engineer,
Carson City, Nevada.

ADVERTISEMENTS FOR PROPOSALS

Pumping and Filtration Works, Sacramento, Cal.

(Contract No. 25 Filtration Division)

For Completing the Construction of the Intake Pier, Bridge and Bridge Piers, Intake Conduits, and Appurtenances, for the City of Sacramento, California

Sacramento, California, Sept. 13, 1922. Sealed proposals for completing the construction of the intake pier, bridge and bridge piers, intake conduits, and appurtenances, for the City of Sacramento, California, endorsed, "Proposal for Completing Construction of Intake Pier, Bridge and Bridge Piers, Intake Conduits, and Appurtenances, Filtration Division, City of Sacramento, California, Contract No. 25," addressed to the City Clerk, will be received at the office of the City Clerk, City Hall, Sacramento, California, until 8 p. m., Pacific standard Time on the 19th day of September, 1922, and will be publicly opened and read in the Council Chamber, City Hall, Sacramento, on the 19th day of September, 1922, after 3 p. m.

The work comprises the furnishing of certain materials and the completion of the construction of the intake pier, bridge, bridge pier and bridge abutment, the intake from the 180m intake to pumping station, together with various appurtenances. A certain amount of construction work upon some of these structures has been per-

formed and intending bidders should carefully examine these structures and acquaint themselves with all existing conditions, including the character and availability of materials at the site of the work originally intended to be incorporated into the structures.

Each proposal must be accompanied by a certified check made payable to the order of the City Controller, City of Sacramento, California, in the sum of ten (10) per cent of the highest sum named in the proposal for any single proposition or for the entire work.

A faithful performance bond, amounting to from fifteen (15) to twenty-five (25) per cent of the contract price, depending upon the amount of the contract, and a mechanic's labor bond amounting to fifty (50) per cent of the contract price will be required of the successful bidder, in accordance with the provisions of the city charter and ordinances and of state law.

Prior to the acceptance of the completed work a defective material and workmanship bond amounting to five (5) per cent of the amount of the contract must be furnished.

The complete contract documents may be examined at the office of the City Clerk, or at the office of the Irrigation Division, or printed copies thereof, including reduced scale drawings only, will be furnished to intending bidders upon request and upon the payment of a deposit of ten dollars (\$10). All deposits for pamphlets will be refunded upon their return. Good conditions, or if necessary used in filling a proposal. Bidders desiring full scale blue prints of the contract drawings may obtain them by purchase at the price of twenty-five cents (\$0.25) each. The city reserves the right to reject any or all proposals and to increase or decrease the amount of any class or portion of the work.

(Signed) H. G. DENTON,
City Clerk.

NOTICE TO CONTRACTORS

(Electric Work)

Sealed bids will be received until 8 P. M., September 22, 1927, by the Board of Trustees of the Kearn County Union High School, Kearn County, California, for furnishing all materials and labor for the erection and completion of the electric work, complete, in the General Education Building, Kearn County Union High School, Lakeside, California.

Plans for said building may be had at the office of Charles H. Biegner, Architect, 405-6 Bank of Italy Bldg., Oakland, California, and the work will be erected under his supervision.

All bids must be accompanied by a certified check in the amount of at least ten per cent (10%) of the amount bid, such check to be made payable to the Kearn County Union High School District, and said check will be held as evidence of good faith that the successful bidder will enter into a contract for the work proposed that will be satisfactory to the Board of Trustees, and in addition thereto furnish good and sufficient bond to the Board.

The Board reserves the right to reject any or all bids and to waive any informality in any bid received.

By order of the Board of Trustees, Kearn County Union High School, Kearn County, California.

ERWIN W. OWEN, President.
BOYCE R. FITZGERALD, Clerk.

NOTICE FOR BIDS FOR PIPELINE—PARADISE IRRIGATION DIST.

Sealed proposals will be received by the Board of Directors of the Paradise Irrigation Dist at their office at Paradise, Butte County, Cal., until 10 o'clock a. m. on Wednesday, the 27th day of October, 1927, at which time the said bids will be opened, for the following work, or any part or parts thereof, to-wit: Replacing of 13,160 feet of main canal with the line pipe pipeline to have a carrying capacity of approximately 40 cubic feet per second when operating under a head of 15 feet) as follows:

(a) Thirteen thousand one hundred sixty feet open ditch to be modified in part and prepared to receive pipeline.

(b) Hauling and distributing of 13,160 feet of pipeline materials.

(c) Thirteen thousand one hundred sixty feet pipe line laid in place.

(d) Control gates and other necessary appurtenances.

Plans and specifications may be seen at the office of said Board and copies may be obtained from L. M. Edwards, superintendent, at two dollars per set.

The right is reserved to reject any and all bids, or to accept the bid or bids which are deemed to be to the best interests of the district.

Successful bidders shall enter into contract and give bond in accordance with law.

By order of the Board of Directors of the Paradise Irrigation District, dated September 5, 1927.

L. M. EDWARDS,
Superintendent.
G. C. BILLIE,
Secretary.

NOTICE TO CONTRACTORS

Merced Irrigation District Warehouse

Public notice is hereby given that sealed proposals for the construction of a warehouse for Merced Irrigation District will be received by the Board of Directors of said district at its office in the Farmers' Building, in the City of Merced, State of California, at any time up to 11 o'clock A. M., on Tuesday, October 3, 1927, which time and place all bids so received will be opened in public by said Board. Therefore said Board will let said work to the lowest responsible bidder, but said Board reserves the right to reject any or all bids and to reserve the right to proceed to construct the work under its own superintendence.

Said warehouse is to be of steel frame, with corrugated iron sides and roof and wood floor. It will be 60 feet long and 30 feet wide and will be located on the south half of lots 15 and 16 in Block 38, in said City of Merced according to the official map of said Block 38 or file in the office of the County Recorder of Merced County, State of California.

Said work is more particularly described and the location of said structure is more definitely fixed in the plans and specifications therefor, which may be seen at office of said Board.

Any bidder to whom a contract for said work or any portion thereof may be awarded must furnish bonds as provided by law, to-wit: a bond in the sum of at least one-half of the contract price, to secure the payment of claims of materialmen, mechanics and laborers employed upon said work, and a bond in the sum of at least 25 per cent of the contract price, as condition for the faithful performance of the contract.

Each bid must be accompanied with cash or a cashier's, or certified check in a bond in the sum of at least one-half of the total amount of the bid, as a guaranty that if the bid is accepted the bidder will, within ten days after acceptance, enter into a contract with the District in the form attached to said specifications and furnish the bonds aforesaid.

All proposals must be on forms which will be furnished by the District at the office of said Board and must be in sealed envelopes addressed to the Board of Directors of Merced Irrigation District.

Filed at Merced, California, September 5, 1927.

By order of said Board of Directors
W. D. WAGNER,
Secretary.

BIDS WANTED FOR SCHOOL

NOTICE TO CONTRACTORS

One-story Frame and Stucco Six-room and Auditorium School. Estimated Cost, \$49,000.

Notice is hereby given that sealed proposals are invited and will be opened by the Board of Trustees of the Saratoga School District of Santa Clara County, California, at 2:30 P. M., on the 22nd day of September, 1927, at the present school building of said school district, in the county of Santa Clara, California, for the erection and completion of a six-room and auditorium school building for the said school district, in accordance with the plans and specifications made for the same by Wyckoff & White, the authorized architects, employed by the board. Proposals will be received on general contract, including everything shown and specified with the exception of plumbing and steam heating, with alternate propositions. Bids will also be received on separate bids for plumbing and steam heating.

Plans and specifications can be seen at the office of the Architects, Wyckoff & White, Growers Bank Building, San Jose, Cal.

A deposit of Twenty (\$20.00) Dollars, cash will be required on all plans secured out as a guaranty of good faith.

All proposals to be made out on blank forms, furnished by the architects, and must be accompanied by a check for not less than five per centum (5%) of the amount of the bid made payable to S. P. Patterson, Clerk of the Board, and certified to by some responsible banking house. The check is to be forfeited in the event that the successful bidder, after having been awarded the contract, fails within ten (10) days to sign the contract and furnish good and sufficient bonds satisfactory to the Trustees, and as required by law.

Bids will be received up to and including September 20, 1927, at 2:30 P. M. and must be addressed to S. P. Patterson, Clerk of the Board of the School District of Saratoga School District, Saratoga, Cal.

The Board reserves the right to reject any and all bids.

By order of the Board of Trustees, dated Sept. 15, 1927.

BENJAMIN V. BAZATA,
Trustee.

HARRY SMITH, Trustee.

SHELDON P. PATTERSON,
Clerk of the Board of Trustees.

NOTICE TO CONTRACTORS

(Coke School Alterations)

Office of the Secretary of the Board of Education of the City of Oakland. Sealed bids will be received by the Board of Education of the City of Oakland, City Hall, Oakland, California, until the 2nd day of October, 1927, at 12:30 P. M., at which time said bids will be opened, for the remodeling of the Coke School Building of the Oakland School District, located on Union and Eleventh Streets, Oakland, California.

Bids will be received for General Work, including Carpentry, Work, Sheet Metal Work, Roofing, Painting, Plastering, Plumbing and Electrical Work.

Plans and specifications for said work are on file at the office of the Architect for the Board of Education, 2119 Broadway, Oakland, California.

On a deposit of Twenty-five (\$25) Dollars said plans and specifications may be had by any prospective bidder. These plans and specifications may be retained for seven (7) days.

If the plans and specifications are not returned to the Architect within the time above specified, or are returned in a mutilated or damaged condition, the deposit will be forfeited and will be immediately used for the purchase of a new set of blue prints and specifications.

Bids must be made on proposals obtained at the office of the Architect, under the right to be the bidder, accompanied by a certified check, certified to by some responsible bank or banker, and made payable to J. W. Kacany of the Secretary of the Board of Education to be retained by the said School Districts as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award, or to give

bonds required for the faithful performance of the contractor or any bond required by law. The amount of said bonds shall not exceed \$10,000 (ten thousand dollars) for contracts of less than Fifty Thousand Dollars. For contracts of Fifty Thousand Dollars or more, said check shall be at least ten (10) per cent of the contract price. Each bid shall be accompanied by an affidavit executed in a form that can be obtained from the District Engineer, in which the bidder certifies that he is not a resident of the District and that he is not a partner, officer, director, or agent of any contractor who has been employed by the District within the last year.

Bids will be received at the office of said District Engineer, Monday and Tuesday of October, 1922, between the hours of 10 P. M. in the Evening and 12 Second Floor of said City Hall, said office of the District Engineer, and the right to reject any and all bids in any or all items of such bids.

Secretary of the Board of Education of Oakland, California.

NOTICE TO BIDDERS (Cement)

Turlock Irrigation District, and Modesto Irrigation District, Stanislaus and Merced Cos., Cal.

JOINT STORAGE WORKS

Sealed proposals will be received at the office of the District Engineer, Turlock Irrigation District, at Turlock, California, until Friday, Sept. 29, 1922, at ten o'clock a.m. for furnishing and delivering from fifty thousand (50,000) barrels, seventy-five thousand (75,000) barrels, and one hundred thousand (100,000) barrels of Portland cement, to be used for the Pedro dam. The cement must meet the standard specifications for cement adopted by the American Society for Testing Materials and be delivered in a schedule provided by the District. Delivery to be at the rate of about four cars daily during October, November and December, 1922.

The contractor will be let to the lowest bidder and the boards reserve the right to reject any or all bids.

Each proposal must be accompanied by a certified check for five per cent of the amount of the bid payable to the order of the treasurer of the Turlock Irrigation District, for the benefit of said districts as a guaranty that the bidders will, if successful, execute a satisfactory contract and furnish the amount of the sum of not less than twenty-five (25) per cent of the amount of his bid to be subject to the approval of said boards.

The proposals must be marked "Proposals for Joint Storage Works, Don Pedro Storage Project and addressed to Anna Sorensen, Secretary Turlock Irrigation District, Turlock, California.

Bids in pursuance of orders of the Board of Directors of the Turlock Irrigation District and the Modesto Irrigation District, this 8th day of September, 1922.

ANNA SORENSEN,
Sec. Turlock Irrigation Dist.
C. S. ABBOTT
Sec. Modesto Irrigation Dist.

NOTICE TO CONTRACTORS FOR WIRING AND INSTALLATION OF LIGHTING FIXTURES FOR THE BURBANK SCHOOL SHOPS, BER- KELEY, CALIFORNIA.

The Board of Directors of the City of Berkeley and of the Berkeley High School District in the County of Alameda, State of California, invites and the undersigned will receive at his office, 2133 Alston Way, Berkeley, California, up to the hour of 4 o'clock p. m. September 19, 1922, sealed proposals for furnishing the necessary materials, tools and labor for the wiring and installation of lighting fixtures for the Burbank School Shops situated on the city streets between Curtis and Bonar streets, in accordance with plans and specifications on file in the office of the secretary of said Board of Education, 2133 Alston Way, Berkeley, California, from which copies may be obtained.

The successful bidder will be required to furnish a surety bond acceptable to the Board of Education in a sum not less than twenty-five per cent (25%) of the contract price guaranteeing the faithful performance of the contract; also a bond in a sum not less than fifty per cent of the contract price guaranteeing the payment

of all claims for labor employed or materials used in the wiring and installation of lighting fixtures of said Burbank Shops as provided by an Act of the Legislature of the State of California entitled, "An Act to secure the Payment of Claims of Material-men, Mechanics or Laborers Employed by Contractors upon State, Municipal or other Public Work, Approved March 17, 1917, and must carry adequate insurance or give bonds indemnifying the Board of Education against liability for compensation, insurance and safety Act, approved May 14, 1921, satisfactory to said Board of Education.

All bids must be accompanied by a cash deposit or certified check on a responsible bank and payable to the Board of Education for an amount equal to ten per cent (10%) of the amount of the bid.

Bids in which the contract is awarded small for five (5) days after such award fail or neglect to enter into a contract and file the required bonds for the faithful performance of the contract and the furnishing of materials and labor the cash deposit or certified check of said bidder may be declared forfeited to the Board of Education and shall be collected and paid into the General Fund of said Board of Education.

Bids will be opened by said Board of Education on Tuesday, September 19, 1922, at or after the hour of 4:15 o'clock p. m. in the Board of Education rooms, 2133 Alston Way, Berkeley, California.

The Board of Education reserves the right to reject any and all bids or any part of the same.

By order of the Board of Education of the City of Berkeley, County of Alameda, State of California.

CLYDE BLANCHARD,
Secretary of said Board of Education.

MERCED UNION HIGH SCHOOL

NOTICE TO CONTRACTORS (High School Gymnasium)

THE BOARD OF TRUSTEES of the Merced Union High School District, Merced, California, will receive sealed proposals up until eight o'clock p. m. September 19, 1922, at the office of the architect in the High School Building, Merced, California, at which time and place said bids will be opened and read. Each proposal must be accompanied by a cash deposit or certified check on a responsible bank and payable to the order of the Board of Trustees of the proposed new High School Gymnasium in accordance with plans and specifications on file in the office of the architect, W. E. Sedgwick, Engineer, Merced, California, and Wilson J. Wythe, Architect, Oakland, California, as aforesaid.

Each proposal must be accompanied by a cash deposit or certified check or bid-bond for an amount not less than five per cent (5%) of amount of the said proposal, each proposal drawn payable to the order of D. Martin Clark, of the Board, as a guarantee that the bidder will within ten days after being notified of the acceptance of his bid enter into a satisfactory contract and furnish the Board in accordance with plans and specifications on file in the office of the architect, W. E. Sedgwick, Engineer, Merced, California, and Wilson J. Wythe, Architect, Oakland, California, as aforesaid.

All bids must be made in form furnished by the Engineer. Plans and specifications for the above work may be seen at the office of the Engineer, Shafter Building, Merced, California, or at the office of the architect, W. E. Sedgwick, Engineer, Merced, California, and Wilson J. Wythe, Architect, Oakland, California, as aforesaid.

A deposit of Fifteen Dollars (\$15.00) will be required from all contractors submitting plans. Said deposit will be returned to the bidders when plans and specifications are returned in good condition.

The said High School Board reserves the right to reject any bid or bids and to waive any informality in any bid received.

By order of the Board of Trustees Merced Union High School District, Merced, California.

BRIDGES, DAMS & HARBOR WORK

PRESCOTT, Ariz.—H. J. Mann submitted low bid to state highway dept. for constructing (1) the Chino Wash and (2) Willow Creek bridges on the Prescott-Ash Fork Federal aid highway. L. C. Lashmet was low bidder on (3) the Verde bridge. The bids were: H. J. Mann (1) \$10,883, (2) \$7195, (3) \$12,424; Rogers & Stewart (1) \$11,111, (2) \$8798, (3) \$12,883; Winsor, Coleman & King (1) \$11,776, (2) \$7274, (3) \$11,985; A. H. Daniels (1) —, (2) \$10,998, (3) \$14,058; L. C. Lashmet (1) —, (2) \$7667, (3) \$11,643; Golden (1) \$13,086, (2) —, (3) —; S. B. Shumway (1) \$12,773, (2) \$8758, (3) \$13,974.

SANTA ANA, Cal.—Until 5 p. m., Sept. 18, bids will be received by city trustees to const. breakwater to provide north approach of bridge on N Flower St., spanning San Joaquin Creek. E. L. Vegeley, city clerk.

YUBA CITY, Sutter Co., Cal.—E. H. Martin, Syndicate Bldg., Oakland, at approx. \$25,000 awarded contract by supervisors to const. five 40-ft. rein. conc. bridges in various sections of the county.

SAN DIEGO, Cal.—City Council has requested Consulting Engr. J. E. Lipincott, Los Angeles, to provide city with his written opinion regarding the need for enlarging of the spillways of Morena Dam. The work has been recommended by City Hydraulic Engr. H. N. Savage, but his suggestions and recommendations were not accepted by the council which has asked for an outside opinion. It is claimed serious damage will result from high water unless the present dam is enlarged.

CALIFORNIA—W. L. Proctor, Spring St., Santa Rosa, at \$10,980, awarded contract by State Highway Comm., to const. rein. conc. bridge in Mendocino county across East branch of Russian river about 6 miles north of Ukiah.

REDDING, Shasta Co., Cal.—F. H. Neilson, Orland, at \$33656 awarded contract by supervisors to const. rein. concrete bridge over all river near Glenburn; will be 300 ft. long resting on 58 conc. piles, each 40 ft. long and 16 in. square.

Contract for conc. bridge over Dry creek on Cottonwood-Gas Point Road awarded to S. Severntson, Anderson, Cal. at \$4290. Other bids: C. E. McCartney, Red Bluff, \$4274; Thompson, Miller & Thompson, Orland, \$4890; Wm. Stephens Redding, \$5310; C. W. Smith, Cottonwood, \$4800.

Wm. Stephens, Redding, at \$1777 awarded contract to const. conc. bridge over Little Cow creek at Bell School, S. Severntson, \$1885; Chas. Southerland, \$1975.

S. Severntson awarded contract at \$1190 to construct wood bridge, 146 ft. long over Flat creek. Chas. Southerland bid \$1625.

SAN ANDREAS, Calaveras Co., Cal.—Until Oct. 2, 3 p. m., bids will be rec. by A. W. Fox, county clerk, to const. rein. conc. bridge over creek running through H. Rives ranch on road leading from Valley Springs to Bellota and construct cattle runway on Rives place; also for const. reinforced bridge between town of Milton and so-called Piper place. Cert. check 10%, payable to county req. Deposit of \$5 req. for plans. W. S. Coulter, county surv.

EUREKA, Humboldt Co., Cal.—Following bids received by supervisors for bridge construction:

Wood truss bridge on Three Cabins road, Smith Bros., \$1699; D. C. Farnell, \$2080; Sam Ralston, Blue Lake, Cal., \$1635 (awarded contract).

Wood truss bridge over Cuneo creek on Myerville-Mattole Road, Turner and Danielson, Dyer ville, Cal. \$1750 (awarded contract); Smith Bros., \$2540.

Rein. conc. bridge at foot of grade between Hydeseville and Carlotta on Hydeseville-Bridgeville road: Smith Bros., \$1631; G. H. Gildersleeve, \$2040.

Rein. conc. over Roiner creek, near Fortuna, Smith Bros., \$4230; G. H. Gildersleeve, \$4300.

PHOENIX, Ariz.—Until 2:30 p. m., Sept. 30, bids will be received by State Engineer, Phoenix, to construct Patagonia bridge across the Santa river, Santa Cruz County. Work will consist of 800 cu. yds. excav. unclass., 222 cu. yds. A. concr., and 19,900 lbs. rein. steel. Steel superstructure in place, complete.

NAPA, Napa Co., Cal.—Frank Bryant, San Francisco, at \$5386 awarded contract by supervisors to extend two bridges and construct 1 new bridge in Coombsville district. Other bidders: Frank Gaggero, \$5553; G. H. Chick, \$7844; G. L. Lisher, \$5552; Harry Thorsen, \$6516; Simon Lenz and Son, \$5544.

Bryant awarded contract at \$6407 to construct rein. conc. bridges on Silverado Trail. Other bids: Frank Gaggero, \$6573; G. H. Chick, \$7424; Harry Thorsen, \$7552; Simon Lenz & Son, \$6515.

MODESTO, Stanislaus Co., Cal.—Until Oct. 10, bids will be received by supervisors to construct 16 rein. conc. bridges in various sections of the county. One in Rd. Dist. 1; 8 in Dist. 2; 4 in Dist. 3 and 3 in Dist. 4. J. H. Hoskins county surv.

ORLAND, Glenn Co., Cal.—John Berlinger, Orland, at \$2540 awarded contract by supervisors to construct rein. conc. "Mudrock Bridge" over Hambricht creek, 4 miles northwest of Orland. Other bidders: G. H. Chick, Napa, \$8850; Miller & Thompson, \$3540; Gay and Teal, \$2950; last two bidders of Orland.

SANTA ROSA, Sonoma Co., Cal.—W. L. Proctor, 1600 Spring St., Santa Rosa, at \$4500 awarded contract by supervisors to construct rein. conc. bridge on Healdsburg-Napa highway involving 226 cu. yds. Class A and 94.19 cu. yds. Class B rein. conc.; 160 cu. yds. excavation for bridge and backfill; 1310 cu. yds. excavation approach and fills.

With Her Shoulder Against the Wall

HERE is a Cellar Excavation about 20 ft. wide between two buildings.

The Keystone crawled in, with one side-jack lifted, and loaded the material rapidly into trucks, which were spotted as shown.

The $\frac{5}{8}$ -yd. Skimmer Bucket made short work of the yardage.

For close quarters like this, for ditching or digging in narrow streets and alleys, where a whirler would not have room to whirl, remains the Keystone.

Harry V. Kirker of Beaver Falls is the Contractor.

KEYSTONE DRILLER COMPANY, BEAVER FALLS, PA.
170 Broadway, New York Monadnock Block, Chicago Joplin, Mo.

The Keystone is a general-utility steam shovel with all the efficiency of specialized design. Made in two sizes: Model 3—10-Ton, and Model 4—14-Ton. It can be equipped with three different, readily interchangeable buckets, Skimmer, Ditcher and Clamshell. Write for catalog, and illustrated booklet "Keystone Shovel Jobs."

ENGINEERS' LEAVE FOR ADVANCEMENT OF ENGINEERING IDEALS.

Following the receipt of a message from M. Mowat of London, secretary of the British Institution of Mechanical Engineers, Charles F. Rand, chairman of the Engineering Foundation, announced that the leading engineering societies of England had formed the Engineering Joint Council, which will work with the engineers of the United States and Canada and of the other British possessions to bring about concerted action for world peace and the advancement of engineering ideals "for the good of mankind."

Mr. Rand described the organization of these countries with those of America single unit as a big step forward in the movement to form a world union of engineers, which already has gained great headway in France, Italy, and Czechoslovakia, direct contracts having been established by engineering bodies of these countries with those of America.

Formation of the British Engineering Joint Council, according to Mr. Rand, who with Col. Arthur S. Dwight of the A. I. M. E. was recently decorated by the French Government with the Cross of the Legion of Honor, was one of the results of the trip abroad of a mission of thirteen American engineers, headed by Ambrose Swasey of Cleveland, founder of the Engineering Foundation, to confer the John Fritz gold medal upon Sir Robert Hadfield of London and Eugene Schneider of Paris, head of the Cresus Works.

Organizations represented on the British Council, Mr. Rand said comprise the oldest and most famous of British engineering societies, and include the Institution of Civil Engineers, Institution of Mechanical Engineers, Institution of Naval Architects and the Institution of Electrical Engineers. One of the objects of the British engineers, like the object of the American engineers, is "to secure the better utilization of their services in the country's interests."

PLANS FOR UNIVERSAL ARBITRATION NEARING COMPLETION

Plans for universal arbitration instead of litigation to settle commercial disputes both in the United States and abroad, are rapidly nearing completion, according to A. J. Wolfe, chief of the division of commercial laws of the Department of Commerce.

The combined efforts of the Department of Commerce, trade groups, and bar associations are beginning to get results in the form of a plan, world-wide in its scope, providing for the enactment of a national law in this country and for treaty arrangements to make it effective abroad.

"Never, perhaps, in the history of commerce," says Mr. Wolfe, "has the feeling been so strong that arbitration is the true solution of difficulties arising between honorable merchants both at home and abroad." He attributes the recent epidemic of cancellations as the principal factor which has rallied so much support to the plan. He says "the temptation to escape the hazards of contract by repudiating the contract itself or by seeking refuge in technicalities has been undermining the age-long fundamentals of business intercourse." In his opinion, arbitration offers an equitable substitute for protracted, expensive and friendship-destroying litigation which will work to its greatest advantage in foreign trade transactions wherein the contracting parties are so often thousands of miles apart.

An arbitration law now exists in the State of New York.

PERCENTAGE OF MONEY RECEIVED BY BUILDING MECHANICS

What percentage of money is received by the various kinds of building mechanics? According to figures compiled by the Associated General Contractors of America, based on calculations of the Division of Building and Housing of the Bureau of Standards, the distribution of wages in the construction of wooden and brick residences, was made and from these a distribution representing houses of all kinds was devised, as follows:

	Wood houses	Brick houses	All houses
Carpenters	46.9	32.2	37.0
Laborers	6.3	9.2	8.8
Bricklayers	6.2	21.5	17.4
Plasterers	7.9	8.8	8.5
Plumbers	8.7	7.6	7.9
Painters	10.0	6.3	7.3
Electricians	2.6	2.5	2.6
Hod carriers	2.2	6.7	5.5
All others	6.5	4.5	5.0
Total	100.0	100.0	100.0

SEGREGATED FIGURES WANTED ON MILLION DOLLAR HOTEL BUILDING FOR FRESNO

The R. F. Felchlin Co., Bank of Italy Bldg., Fresno, is taking segregated figures on the new million dollar hotel Californian to be erected in that city. Specifications are now available. Bids are desired on the following branches of work:

Millwork; sheet metal work; reinforcing steel, roofing; ornamental iron; glass and glazing; metal windows; tile work; marble work; ventilation; heating; plumbing; wiring; sprinkler system; refrigeration; elevators; structural steel; painting; excavation; tile roofing; lathing and plastering.

TO START WORK ON \$6,000,000 HYDRO-ELECTRIC PLANT

Work on the \$6,000,000 hydro-electric project at the Portland Railway, Light and Power Co., the contract for which has been let to the Harley-Mason Co., of Portland, Ore., will be started immediately, according to George C. Mason, vice president of the company.

The dam will be on the Oak Grove branch of the Clackamas river, 39 miles beyond Cladara, where the Portland Railway Light & Power Company's present dam is located. A road 26 miles long for bringing supplies has been under construction for some time to the site of the dam. When this is completed preliminary work on the dam, pipe line and power house will be started.

The dam will be of concrete and probably of the gravity type. A half mile of tunnel will run from the intake to the beginning of the pipe line. The pipe line will be seven miles long, of steel pipe nine feet in diameter.

The power house will also be of concrete and will be at Three Lakes. It is estimated that the new project will increase the electrical current available in Portland by 32,000 horsepower. The new plant is expected to be in operation by July 1, 1924.

STANDARD ZONING LAW

A standard law for the assistance of those responsible for the framing of state zoning enabling acts has just been issued by the Department of Commerce. Zoning ordinances for the regulation of use, height and area of buildings are being adopted by cities in almost every state in the Union, and a sound zoning law there is no specific authority for zoning these ordinances may be set aside by the courts. An enabling act is advisable in all cases.

The Department of Commerce made for an enabling act under which municipalities can adopt zoning regulations is a twenty page, mimeographed document with foot notes covering questions which might arise in the wording of various sections and provisions. It is not a Federal law, but a suggested form for state zoning enabling acts.

The publication may be obtained free of charge from the Division of Building and Housing, Department of Commerce, Washington, D. C.

OAKLAND PLANS EXTENSIVE HARBOR IMPROVEMENTS

City Harbor Engineer Ralph Beebe, of Oakland, has prepared preliminary plans for a mile long, 1000-ft. wide municipal mole (cutting through the 289 acres which the Key Route is said to propose to sell to the Southern Pacific) out to deep water. The mole will extend from the foot of Fourteenth St. out to the deep water line, paralleling the S. P. mole at Seventh St. Preliminary plans provide for a solid earth and rock fill 1000 ft. wide and 6000 ft. long. Along the north and southern sides, channels will be dredged 35-ft. deep to allow for ocean going ships. Along the center pier will run an avenue 200 feet wide and 6000 feet long having on each side a strip 400 feet wide for railway tracks. Adjoining each of these will be a row of five-story docks and warehouses.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

More than \$350,000,000 now is being spent each month throughout the United States in the erection of apartment houses, dwellings, business buildings and other structures, according to official reports to the department of commerce. This indicates an increase of 65 per cent over a year ago in the rate of new buildings as measured by the value of contracts awarded. New floor area is being created at the rate of more than 52,000,000 sq. ft. a month, an advance of 44 per cent over a year ago. High rentals established during the war period and after the armistice are beginning to disappear for business structures and homes. Steady employment is being provided for nearly 5,000,000 skilled and unskilled workers as a result of the improvement in the building trades. Lower rentals for homes and apartments are making possible an increasing buying power on the part of the general public. Washington officials emphasize: Residential construction comprises approximately 46 per cent of all new building, the official returns show. Construction for business and industrial purposes amounts to 30 per cent. Revival of residential construction began first. Building for industrial and general business purposes lagged for many months. This class of work, however, is now increasing at a faster rate than residential. With the increase in building, prices of materials began to rise. Brick, lumber and cement now cost more than a year ago. The general level of prices, however, is still below the high point of 1920. The railroad strike is beginning to hamper construction work. Some contractors fear it may virtually halt the revival in construction work. It is pointed out, however, that the construction season in many sections of the country will be slowed up within 60 days because of bad weather.

High school education does pay; in fact, it will pay the City of Oakdale approximately \$10,000 during the 1923 year, it having been decided that the school's manual training classes will build fixtures for the new Oakdale Union High School instead of contractors, as originally proposed. The contractors' bids were from \$7000 to \$12,000 more than the city could afford to pay. The school board therefore engaged a journeyman carpenter of long experience to assist the regular instructor, and the city expects the work to be done as satisfactorily as by contractors, with the added satisfaction of being able to pocket the difference.

The Associated General Contractors of America are preparing a bill for a statute, compelling officials doing work by day labor to publish on the completion of the work a true itemized account of the cost, including proper overhead and the time of all officials spent on such work. The enactment and enforcement of such a bill in each State will do much to expose the fallacy of the day labor system. The claim is often made by officials doing work by day labor that work can be done more economically by that system than by contract. The facts are otherwise; but it is difficult, if not impossible, to ascertain the real cost of any given project constructed by day labor from the records as now kept, and their value as a comparison to the cost of the same work by contract is valueless.

On the second bidding for the construction of the Santa Lucia river bridge at Uruguay there were eight bidders, of which the lowest, according to nationality, was American, at \$21,000 Uruguayan gold pesos. Commercial Attache Feeley at Buenos Aires reports to the Department of Commerce. The other bids were: Belgian, 700,000 Uruguayan gold pesos; German, \$50,000, and British, 900,000. The bridge will require 3000 tons of fabricated steel.

The Southern Pine Association has published tabulations of production costs which are extremely interesting in the face of present lumber prices. Actual production costs average lower this year than they did last year, and lead to the conclusion that volume production is the cause of reduction. The cost of production, in June, 1921, was \$21.69 per thousand. The average cost for June this year was \$21.63 per thousand. In January this year the production cost was \$21.10 per thousand.

The second editions of Circular 90, "United States Government Specification for Red Lead, Dry and Paste," and Circular 87, "United States Government Specification for Green Paint, Semi-paste and Ready Mixed," are now available for distribution. These publications may be secured from the Superintendent of Documents, Government Printing Office, Washington, D. C.

The John W. Leonard Corp., publishers, 375 Fulton St., Brooklyn, N. Y., has placed on the market "Who's Who in Engineering." The book contains 1509 pages with the personal and professional records of 10,494 engineers. Price \$10 net.

The California supreme court has decided that the U. S. Fidelity & Guaranty Co., insurance carriers for Graham Bros., rock and gravel contractors of Long Beach, must pay \$5000 damages resulting from the death a year ago of Paul E. Conklin, a driver for the firm. A truck driven by Conklin was struck by a Salt Lake train near Signal Hill, causing the fatality. W. L. Pruitt, owner of the truck, was held jointly responsible for the death of the driver by the industrial accident commission. The supreme court held that the owner of the truck could not be held responsible when he received his pay and took orders from the contractors.

The Brick and Clay Record, published in Chicago, is starting a campaign for improving plant conditions in the clay products industry. It comes out with the outspoken policy of advising clay products manufacturers to forego paying 1922 dividends and to use the money which would be so paid in building plants for better and bigger business.

The Western Planing Mill & Woodworking Congress will meet at the Palace Hotel, San Francisco, Nov. 23, 24 and 25.

(Continued on Page 7)

ALONG THE LINE

Following a \$400,000 deal in which Thomas P. Hogan purchased from his partner, Hugh Hogan, all the properties of the Hogan Lumber Company, a newly formed corporation, the Hogan Lumber and Mill Company, has leased from T. P. Hogan all the properties involved, which include wharf property at the foot of Alice street, mill property at Second and Alice streets, Oakland, the Bruce Lumber Company of Berkeley and the Elmhurst Lumber Company of Elmhurst. The lease will run for five years.

The Steel Tank & Pipe Co. of Berkeley, organized for the purpose of dealing in iron, steel, building steel tanks, etc., has been authorized by the State Corporation Department to sell 1450 shares of its capital stock at par, \$100, for each.

Mayor J. W. Shattuck of Lodi urges bond issue to purchase plant of the Sacramento Gas Company to be operated as a municipal system.

City Council of Richmond, Cal., will call election in November to vote bonds of \$150,000 for parks and playgrounds; \$100,000 for municipal hospital; \$50,000 for municipal bathhouse and \$50,000 for a memorial building.

R. B. Bennett, an engineer from Otayshire, Australia, is in California looking over street and road pavements. He was accompanied by J. A. Blood, representing the Standard Oil Co., while in Bakersfield.

Percy Jones, chief engineer for the Modesto Irrigation District, has completed specifications and bids will be asked shortly by directors of the district to construct the transmission line from the Don Pedro dam to the property of the district in Woodland Avenue, Modesto.

A company with which is associated F. A. Kormann, well-known eastern refiner, is being organized for the purpose of erecting an independent oil refinery at Benicia. The company, capitalized at \$500,000, has already acquired a site of more than 100 acres on the Benicia waterfront and taken options on an additional plot of ground.

The \$100,000 plant of the U. S. Tool Co., in Cherry Boulevard, Long Beach, will be completed within two weeks, according to officials of the company. Approximately \$80,000 worth of new machinery has been installed in the machine shop.

The Kroyer Manufacturing Co., formerly located at Stockton, is seeking a site in Long Beach on which it is proposed to erect a five story tractor plant costing \$1,000,000. Temporary quarters are now maintained in a Los Angeles shipyard.

The plant of the Hammond Lumber Co., at Astoria, Ore., was completely destroyed by fire recently. The loss is estimated at not less than \$1,000,000.

**PORTLAND PUBLISHER ADDRESSES
FRESNO BUILDERS**

Apprenticeship is the keynote to the labor question, George M. Cornwall, publisher of the *Timberman*, Portland, Ore., told members of the Fresno Builders' Exchange, at a meeting Sept. 18. This was the first meeting of the Exchange in its new quarters at 2133 Kern St. and more than 50 members were present.

The speaker strongly emphasized training of the boy as a solution in solving the shortage in trained labor.

"The country is just feeling the lack of apprentices," said Cornwall. "Labor organizations, however, are beginning to lift the bars to let the boy enter the industrial life."

"When the boy enters into the industrial situation, it will lead up to co-operation in training. The Smith-Hughes act will provide for the training of apprentices and various foremen of the nation."

"The act will provide for a vocational training system among foremen and employees in every state. The government will appropriate funds to each state, and the state will appropriate a like amount, which will be used to promote the work. Directors will be chosen to direct the work. The passage of the act was the outgrowth of the war when it was found that too much foreign born element controlled large industries of the nation."

The speaker touched on the cooperation between the employers and employees, declaring that the solution to solve labor disputes is to hold conferences and discuss difficulties.

F. Feichin, one of the Exchange's directors, outlined the purpose of the organization, its accomplishments and its future of development.

R. W. Chrouch, manager of the Exchange, outlined workings of the organization. I. C. Martink, president, presided.

**NEW COMPANY TO MANUFACTURE
SAWS**

Directors of the Haughty-Red Bluff Saw and Machine Works, which has taken over the Bessolo Wrench Factory at Red Bluff, have perfected a permanent organization. J. W. Harrington is president of the new concern; J. V. Moore, vice president; George Champin, secretary; James Haughty, manager; and A. L. Conrad, R. Deer and T. Humphrey, other members of the directorate. The company will manufacture saws and operate a machine shop. The company recently completed negotiations with W. L. Bessolo, acquiring the property. The factory and site had been tied up in litigation for a period of a year and a half.

INCREASE IN ROOFING SLATE

Roofing slate is coming back into its own. The demand and shipments of roofing slate in July, 1922, were the greatest in several years, according to producers reporting to the National Slate Association. The shipment of slate for roofing purposes, according to the reports from over 50 per cent of the producers, exceeded the July production by nearly 60 per cent.

ELECTRICAL MEN HOSTS TO ARCHITECTS AND BUILDERS

The Architects', Builders' and Realtors' Day luncheon held in the Hotel Oakland, Sept. 18 under the auspices of the Electric Club of Oakland in an effort to further the California Electrical Cooperative Campaign, was a success, according to Wm. Sage, president of the Oakland Club. More than three hundred architects, contractors, materialmen and electrical dealers attended the luncheon.

Dwindling Forests Force Decreased Use of Lumber

If the food consumed by each man, woman and child were reduced by one-third, the pinch of hunger would soon be felt and the cry of famine undoubtedly raised.

Yet substitute the word "wood" for "food" and you have exactly what has happened in the use of lumber. The per capita consumption has dropped from 500 board feet in 1906 to 316 board feet in 1920, says the Forest Service, United States Department of Agriculture.

This decreasing use of a fundamental commodity, according to forest experts, is not a result of decreasing needs but a result of forest exhaustion. It is not being accomplished without economic hardship or without curtailment of industrial expansion. It is not a temporary condition that will automatically adjust itself, for even at this reduced rate of consumption we are still cutting our forests more than four times as fast as they grow. The situation proclaims, according to the Forest Service, that if we are to remain a nation of timber users, we must become a nation of timber growers.

In 1906, when American lumber production reached its highest point, the average per capita consumption of lumber in the United States was approximately 500 board feet. Since that time the per capita consumption has rapidly and consistently decreased until in 1920 the average citizen used approximately 316 board feet. This is a reduction of 37 per cent in 13 years, or nearly 3 per cent a year. Should this decrease continue at its present rate, by 1940 the downward sweep of consumption would approach zero. This, of course, will not happen. The average consumption will ultimately reach a fairly stable level, which will depend mainly upon the extent to which our devastated forests are made again productive.

The consumption of lumber is not evenly distributed. Previous studies indicated that the states of the Pacific Northwest, now the last great stronghold of big lumbering operations, had a much higher per capita consumption than those of other regions, but the present figures are the first to give information for all states upon the same basis. Naturally, the greatest per capita consumption occurs where wood is plentiful and the population is relatively small. In Washington and Ore-

gon the consumption appears to be between 500 and 1000 board feet annually per person.

Next come California, Montana, Idaho and Wyoming, where the rate of consumption is from 500 to 800 feet per person annually. In these states timber is relatively plentiful as compared with the density of the population, and a very considerable expansion has been taking place in the development of farms and other natural resources.

The group next lower in per capita consumption includes the Lake States, and sweeps southwesterly across the prairie states through Colorado, New Mexico, and Arizona. In this group the annual consumption is between 300 and 500 feet board measure.

Practically all the remaining states fall into a class in which the annual consumption is 200 to 300 feet. This group extends in a broad belt from Texas along the southern and eastern Atlantic Coast to Cape Cod, Mass. It also includes North Dakota, Iowa, Utah, and Nevada.

The lowest consumption of all is in Rhode Island, the District of Columbia, South Carolina and Georgia, in which the average consumption is rated between 100 and 200 feet per year. In the District of Columbia there is an extreme situation in density of population. No lumber is produced, there is little farming or manufacturing, and the entire population consists of urban dwellers in the city of Washington who live mainly in houses of brick and stone and require relatively little lumber. All the lumber used in the District of Columbia is imported from other states, just as it is in some of the non-timbered prairie states.

In general, the older and more densely settled states show the lowest average consumption. The states characterized by heavy agricultural operations come next, and the greatest use per individual is indicated in those states where there is still considerable timber and where the extension of home building is proceeding at a rapid rate, using the abundant material provided by the forests. The states are going through an evolutionary process, building first of lumber and later of more costly materials as the forests recede before fire and axe.

Garnet Young was the principal speaker and had as his topic "Household Efficiency." Mr. Young spoke on the tremendous sale of electrical appliances on the Pacific Coast and urged that the members get behind the publicity movement with a view to obtaining greater sales. He urged the architects and contractors to work with the electrical interests in an effort to provide buildings with better wiring facilities and provide for the installation of more modern electrical appliance the demand for which is becoming greater each day.

Fred Reed, Oakland realtor, spoke on "Better Homes" and outlined his views as to quick sales of homes that were properly wired and had facilities for installing the latest electrical appliances.

W. C. Whalin, president of the Oakland Builders' Exchange, was another speaker. Whalin assured the electrical men that the building interests would cooperate with them in an effort to secure better electrical specifications in future.

"The Convenience Outlet," a two-act play written by Frank N. Smith, of

California Electrical Co-Operative Campaign, and staged under the direction of Howard I. Millholland, was cause for considerable amusement and at the same time furnished those present with an idea as to the many sad happenings that can take place in a home that is not properly wired.

ELECTRICAL OUTPUT DURING JULY

According to the United States Geological Survey electrical output for July was 3,842,745,000 kilowatt hours against 3,832,845,000 hours for June. Daily production averaged about 124,000,000 kilowatt hours, a decrease of 3 per cent from the record production in June.

Of the total output, 2,308,195,000 hours were produced by fuel and 1,534,550,000 by water power. Fuel consumed consisted of 2,566,655 short tons of coal, 932,618 barrels of oil and 2,589,681,000 cubic feet of natural gas.

These quantities are based on reports from about 3500 power plants producing a minimum of 10,000 kilowatt hours a month.

Will Taxation Hamper Construction?

(By Willford I. King in the "American Contractor")

That the American people are now bearing tax burdens which would have appalled earlier generations is an obvious fact. Public expenses are growing all along the line. The present cost of operating the government of a moderate sized city is greater than the cost of financing the entire nation when Jefferson was President.

In some cities a considerable fraction of the total money expended doubtlessly represents waste and graft, but as these have prevailed ever since cities have existed, there must be more legitimate reasons for the enormous increase in the cost of municipal government which the last century has brought forth. The fact is that municipalities are doing more and more of the things that the individual formerly either did for himself or went without.

It is hard for us to realize today that the leading American cities of 1822 had few paved streets and only the beginnings of sewer systems. Some of the busiest streets were lighted by oil lamps; along others the wayfarers carried lanterns. Private watchmen and volunteer fire departments guarded the safety of the citizens. Municipal water works were the exception. Public school systems were just beginning. It is not surprising, therefore, that the cost of municipal government in those days was slight, for the city did almost nothing for its people.

What Could We Do Without These Things?

Today the city is an intricate mechanism which performs a multitude of services for its inhabitants—and, of course, these services cost money. When the water supply is brought long distances and carefully purified, when the main sewers are almost underground rivers, when the city streets are smoothly paved, are as light as day, and are guarded by well drilled armies of police and firemen, when free education is furnished to all children, when great libraries and museums are open to everyone; when hospitals and clinics offer free service to the poor, when vast parks, bathing beaches and playgrounds are maintained, is it any wonder that tax burdens have increased by leaps and bounds?

If You Taxi, You Must Pay the Fare

In many respects, the story of what has happened in the case of municipalities finds its counterpart in the growth of other branches of government. The states today build expensive highways, stock the streams with fish, protect the farmers' herds against disease, pension the unfortunate or furnish asylums for them, conduct scientific research, and provide great universities to educate the sons and daughters of the citizens.

The Federal government builds highways and irrigation canals, improves the rivers and harbors, transports the mail, carries on scientific research on a great scale, protects the public against disease, looks after child welfare, furnishes elaborate statistics of all kinds, and pays out vast sums as rewards for the patriotism of the soldiers who have defended it in the past. The performance of these functions is expensive. When, in addition, the Federal government is called upon to pay the interest and principal of a tremendous war debt, it is easy to see that it must levy enormous taxes.

Will Heavy Taxes Crush Business Enterprises?

Despite the rapid growth in the activities of government, the people con-

stantly demand further expansion rather than curtailment. Nevertheless, almost everyone objects to paying the taxes which inevitably follow. One may suspect that it is the burden upon the individual pocketbook which is the real source of annoyance, but the unwilling taxpayer usually voices his protest by expressing grave concern lest the enormous taxes crush industry and prevent prosperity. Is this attitude wholly camouflaged or is there real ground for alarm on this score?

In so far as high taxes mean merely that individuals are buying cooperatively through government the services which they would otherwise buy individually, there is no reason to believe that the new mode of purchase either increases or diminishes industrial prosperity. True, private production may be decreased, but public production will increase by a like amount. There are, however, certain types of taxes which are peculiar in their nature and which are worthy of particular attention, especially as regards their effect upon the construction industry.

You Will Build the Same Money's Worth

Just now we are installing again a system of high protective duties on imports. While these duties incidentally contribute to the Federal revenues, one of their chief functions is to take money from the pockets of the many in order to fill the coffers of the few. Many of us may object to this transfer, but there is little evidence that it hampers industry greatly. The poor will build fewer homes but the rich will construct finer ones. The desire of the protected corporations to find an outlet for their increasing monetary surpluses may even speed up the building of factories, railways, and the like. Most economists agree, however, that the tariff by preventing the production of goods at the places where it can be done most easily, lessens the income of all nations affected. The United States is not immune and will be penalized with the rest. If the nation produces less income, it will, as a rule, build fewer structures. Since, however, our foreign trade is not of overwhelming importance, we can scarcely expect that its restriction by a tariff will impose more than a mild degree of restraint upon building activity.

Just at present it appears that the soldiers of the recent war are to receive an enormous sum as a bonus, and that it will be paid for either out of the receipts of loans or from taxes borne mainly by the well-to-do. In either case, the buying power of "the masses" will be lessened and that of "the masses" will be increased. How will such a procedure affect the building business?

Ex-Soldiers Will Build Homes

It is well to keep in mind the fact that the ex-soldiers are no longer the mere striplings who went to war in 1917. With added years have come new responsibilities. Five years ago most of them would spend the bonus money in a great celebration. Today, many a man will use it to help in building up a home or in increasing the size of his business establishment. It is hardly probable, however, that building of this type will be sufficient to affect entirely the loss in construction due to the decrease in the revenues of corporations and wealthy citizens brought about by their contributions to the bonus fund. There is no reason to suppose, however, that the net effect on

the construction industry will be at all startling.

The war debt, however, remains the biggest fiscal problem of all. Certain writers are still asserting that it constitutes a terrible damper upon American industry. To attempt to pay it off will, they contend, prevent the return of prosperity. The only thing to do is to postpone the evil day and let the next generation bear its share of the burden.

You Cannot Dodge the War Debt

The fallacious nature of the belief that our war burden can, by any feasible device, be shifted to the next generation has been demonstrated so thoroughly and often that one cannot help being somewhat surprised that knowledge of this fact has as yet failed to penetrate the craniums of many of our publicists and politicians. However, the ability of certain materials to resist the penetrating powers of ideas is not a new discovery.

Take Dollar from One, Give It to Another

As a matter of fact, the payment of either interest or principal of the war debt imposes no burden upon the nation, even though it may greatly inconvenience the Treasury Department. Every dollar taken from one pocket is quickly transferred to another. At present, with Federal taxes heaviest upon the wealthy and the Liberty bonds likewise largely concentrated in the hands of the rich, the payment seems to represent little transfer of wealth even from one class of persons to another. The rich pay and the rich receive.

In one way it is possible that industrial activity might be stimulated by paying off the war debt promptly. The very high tax rates upon large incomes have driven some men to invest most of their fortunes in tax exempt bonds. Were this fiscal policy changed, these men might again engage in active business. Such an assumption is, however, open to question. In general, it appears that the war debt and the taxation necessary to pay it have but little influence upon the volume of building activity in the United States.

As a matter of fact, it is probable that the total effect of all present Federal taxes upon the building industry is negligible. The forces really controlling the volume of construction apparently are:

1. The rate at which the nation's population grows. It is the new families that require new homes, new industrial and commercial equipment, and new transportation facilities.

2. The proportion of its total buying power which the public prefers to devote to housing. Whenever the majority desire new automobiles more than new homes, fewer of the latter will be erected. When the people prefer better houses to anything else purchasable with the same money, the building industry will flourish.

3. The relative pessimism or optimism of business men concerning opportunities for profit making. When pessimism prevails business men do not care to make new ventures and they will do little new construction work. Optimism, on the contrary, is almost certain to demand expansion of the plant.

The building contractor may, then, look with relative complacency upon those forms of taxes not levied upon the construction industry itself, but he must be prepared to meet the effects of certain other tax-consequences which, for his business, constitute menaces of

the first magnitude. These contingencies are:

1. The slackening of population growth.
 2. The satiation of the demand for housing.
 3. The collapse of optimism concerning the outlook for business profits.
- Of these three, the last, which is the father of business depressions, is by far the most dangerous. The contractor who does not prepare himself for its arrival is likely sooner or later to meet serious reverses if not disaster.

UNIVERSAL EXHIBITS ESTABLISHED IN MONADNOCK BUILDING

(Contributed)

An enterprise of unusual merit, and we might say a necessity for this city, and one that should have the unqualified cooperation and support of all manufacturers and dealers who are in any way connected with the building industry or kindred lines, is now being established under the firm name of the Universal Exhibits. The primary plans and proposals of this organization call for a comprehensive collection of architect's samples of building materials, engineering equipment and household utilities, artistically displayed or exhibited in a convenient centralized location. This will afford the manufacturers and dealers an opportunity to place their products directly before the architect or builder, as well as the general public. It will also provide such manufacturers and dealers who are widely separated, a place where they may take their clients to view their finished product or transact any business. This exhibit will mean the saving of much valuable time to the architect, contractor or builder by providing a place where they may view, compare and make selections of all materials, etc., needed in their profession, thereby eliminating the necessity of visiting a number of firms.

This exhibit is located in the basement of the Monadnock Bldg., 681 Market Street. There are two entrances from Market, one by elevator and the other by stairway leading from the Arcade of the building. A third entrance is made from 20 Annie Street, opposite the Palace Hotel. The Builders Exchange with a large membership is located in the same block. Most of the architects and engineers of this city have offices within a radius of 6 blocks of the Universal Exhibits. In order to serve the greatest number of people efficiently the location of this enterprise just that heavy loss occurring under the election was made with that thought in mind.

Among the many service features to be inaugurated a catalog library will be maintained. This particular feature will enable the architect and engineer to secure the latest information or specifications on any materials, without the slightest delay. In this connection it would be advisable for manufacturers and dealers to see that the Universal Exhibits is kept fully supplied with their latest advertising literature. Samples of materials will also be handled in this manner, thereby eliminating that heavy loss occurring under the present system of distribution.

The exhibit will be in charge of H. and C. A. Cady.

SAN FRANCISCO ARCHITECT WILL PREPARE BOOKLET FOR BETTER HOMES

Better home designs, which has been the ideal of the architectural profession for many years, will receive a great impetus from a series of short articles to be prepared by Irving S. Morrow, San Francisco and Oakland architect,

for the California Complete Homes Exposition to be held in Lakeshore Highlands, Oakland, for three weeks beginning Sept. 23.

These articles are to be published in ten booklets, each descriptive of one of the ten new homes which will comprise this unique exposition. Each booklet will carry a floor plan and picture of the house in plan and a complete list of all materials and furnishings used in building and completely furnishing it.

Morrow is a writer as well as an architect and his explanations of the distinctive features of each home will be of great interest to all home owners and prospective builders. The ten houses are all designed by well known architects and each one represents a separate and distinct type of architecture. Not only are these houses well planned, but during the exposition they will be shown completely furnished in every respect. Thus the visitor will have the very unusual opportunity of inspecting ten skillfully designed and artistically furnished complete homes.

EXPANSION OF ARCHITECTURAL COMPETITION

The published plans for the architectural competition fostered by the Chicago Tribune have been altered to some extent. The competition which centered about the plans for the new administrative building for the Tribune, to be built at Austin avenue and St. Clair street, Chicago, was originally an open competition seeking voluntary entrants to the contest.

This phase of the competition has been enlarged upon. While no restrictions will be placed upon voluntary submission of sketches, Howard L. Cheney, 7 South Dearborn street, Chicago, Ill., architectural adviser, who is in charge of the preliminary work of the contest, announces that the following architects have been specially invited to submit sketches:

- Elmer & Paville, San Francisco, Cal.
- Bertam & Goodhue, New York City
- James Gamble Rogers, New York City
- Benjamin Mistr Norris, New York City
- John Mead Howells, New York City
- Holabird & Roche, Chicago, Ill.
- Jarvis Hunt, Chicago, Ill.
- D. H. Burnham Co., Chicago, Ill.
- Schmidt, Jordan & Martin, Chicago, Ill.
- Andrew Behori, Chicago, Ill.

This plan was decided upon so as to insure the keenest competition for the \$100,000 prize offered. The competition closes November 1, 1922.

LUMBER REQUIREMENTS FOR FRANCE ARE ESTIMATED

It is estimated by the French Minister of Liberated Regions, says Economist Council Weicott in a report to the Department of Commerce, that the lumber requirements of France during 1922 will be 10,000,000 cubic meters (4,237,735,320 board feet) for nominal consumption and 6,000,000 cubic feet (2,542,617,840 board feet) for reconstruction in the devastated areas, making a total of 16,000,000 cubic feet (6,780,335,160 board feet) of commercial lumber.

France will be compelled to import from the colonies and foreign countries during 1922 the 6,000,000 cubic meters required for reconstruction. It is probable that Germany, under reparation clauses of the Versailles treaty, will furnish only a comparatively proportion of such requirements. About 10 per cent will be obtained from colonial sources. The greatest lumber producing colony of France is the Ivory Coast of West Africa, but 90 per cent of its

output is mahogany used exclusively for cabinet work and veneering, and therefore is not available for use in reconstruction work in the devastated areas.

The Observer.

(Continued from Page 4)

Two suits have been filed in Fresno against the California Construction Co., asking sums aggregating more than \$20,000 for damages sustained by M. Mooradian, when an automobile owned by the company hit a touring car in which they were riding. The accident occurred January 14. Beddig was driving the car which was struck and Mooradian was his passenger. The former asks \$18,620 and the latter \$19,993.50.

Suit for \$1,000,000 damages, alleging malicious and defamatory libel, has been filed against officials and the governing board of the American Plan Association of Cleveland, Ohio, by Fred L. Baumgartner, secretary of the International Moulders' Union of North America. The suit is based on a letter said to have been sent by the American Plan Association to its members and to other employers of labor, July 19, soliciting financial support for its campaign for "an open shop."

Students in the college of mining at the University of California will entertain the delegates to the American Institute of Mining and Metallurgical Engineers, meeting in San Francisco Sept. 25 to 27 for one day on the campus. Sept. 27 has been designated as University of California Day, when the engineers will be taken on a tour of the campus. A short program will be given in the Greek Theatre and luncheon will be served in the Faculty Club. Following the luncheon an automobile trip in the east bay district will be enjoyed by the guests.

Election held in Colusa to vote bonds of \$250,000 for new high school failed to carry; 527 for issue and 419 against.

The sixth annual convention of the National Retail Lumber Dealers' Association will meet at the Hotel Winton, Cleveland, O., Oct. 25, 26 and 27.

A modern single band sawmill with a daily capacity of 60,000 feet will be built at once by the Sandpoint Lumber and Log Co., at Troy, Montana, as part of a \$200,000 timber development undertaken some months ago, according to H. C. Culver, of Spokane, Wn., president of the company. A lath mill is also to be installed.

The Washoe County Builders' Exchange, Reno, Nevada, has followed the plan of other Nevada organizations in making a policy of "strict neutrality" on the Southern Pacific-Central Pacific merger order when it adopted a resolution declaring that it was deemed improper at this time to attempt to influence the action of the United States supreme court, the interstate commerce commission or the Nevada public service commission prior to a hearing.

The San Mateo County Electrical Contractors' Assn. has filed protests with the San Mateo city trustees against the appointment of W. T. Young as building inspector, declaring he is not qualified for electrical inspection work. The board in reply to the protests declares it is impossible to hire an inspector for the different crafts and will stand by the appointment for the present, at least.

Labor Shortage Greatly Hampers Construction Industry Throughout the United States

(The American Contractor)

A new tendency is showing itself in the wage changes taking place in the building trades. For four months now wages have been going up. During this period most of these raises were in classes of craftsmen with considerable skill, who were receiving wages below the rate of a dollar an hour. Analysis of the latest figures covering the entire building trades of the country for the month of August, show that a great percentage of the raises now are occurring in crafts that were already receiving wages of a dollar an hour and over.

In other words, the first dangerous signs of a runaway labor market are here. Previous to this time the wage raises were not so alarming. The fact that a workman who has been receiving wages below the average for his skill receives a raise that places him on the level of the majority of his craft is not to be accepted philosophically. Standardization of wage rates in this manner is a benefit to the industry at large.

The new tendency to raise the highest paid men is a different matter. This is a condition that is brought about by factors of supply and demand. Shortage of mechanics in various localities allows these ruinous run away labor markets to develop.

The open shop or closed shop principle seems to have very little to do with the runaway market. Of the twelve cities listed as suffering undue raises six are open shop and six are closed shop. The shortage of mechanics is the cause. The remedy is the training of more mechanics.

Placing all the raises for August in one column we find that there were 52 raises. To offset these raises there were seven cuts. This leaves 45 raises, predominating. Of these 45 raises, 23 occurred among the classes of craftsmen receiving over a dollar an hour in wages. Seven raises were received by classes of craftsmen already getting 90 cents an hour and over.

While these figures are alarming, yet the construction industry can congratulate itself on being lucky. The runaway market did not develop this year until the busiest season was well on its way over the peak. It may as easily have started much sooner. But look out for next year!

Reiteration of the advice to contractors to see that new apprentices are trained rapidly grows tiresome. But the contractor and the entire industry must heed this advice and develop action in this matter or an uneconomic condition will develop in the industry that will be far more disastrous to construction and so to the whole economic life of the country, than the after the war slump.

Comparison with the wage raises left over after the cuts have been cancelled out of the columns, month by month, reveals no startling change for August. This danger exists because the classes of men who are receiving the raises are already receiving peak wages. This table shows the comparative ratio of wage changes:

Month	Raises	Cuts	Raises Predominating
May	54	23	21
June	50	27	23
July	60	15	45
August	52	7	45

Akron, Ohio, reports an acute shortage of plasterers and reports that other crafts are devoid of surplus workers.

Shortage is felt slightly among many of them.

Boston, Mass., signed up an agreement with most of the building trades in July. Substantial increases were given most trades at that time. Lathers are still striking for \$1.12½ an hour. The bricklayers are expected to demand \$1.25 an hour soon as an acute shortage exists. The same is true of the masons while the steam fitters' helpers are negotiating for a raise to 70 cents, although on the job for 60 cents an hour.

Cincinnati, Ohio, reports that all trades not having received increases are demanding more wages. The matter is now being negotiated.

Cleveland, Ohio, announces a shortage in lathers and plasterers and a tendency to increase wages.

Columbus, Ohio, has no shortage, strikes or demands for wage revision in any trades excepting the bricklayers' craft. The scale of bricklayers is \$1.12½ an hour but owing to the shortage of these workers, as much as \$1.25 and \$1.35 has been paid.

Des Moines, Iowa, has had no change in wages or conditions. The situation in regard to the shortage of bricklayers is still acute, but contractors have settled on the low side and are willing to slow up their work rather than make another advance. Other crafts are about normally employed. The situation is expected to ease up slightly from now on.

Indianapolis, Ind., the plumbers have asked for a revision of their wage scale. So far, no new wage has been agreed upon. A shortage of bricklayers and plasterers exists.

Lebanon, Pa., the plumbers have asked for a revision of their wage scale. So far, no new wage has been agreed upon. A shortage of bricklayers and plasterers exists.

Loisville, Ky., has had an acute shortage of bricklayers.

Omaha, Neb., has a shortage of plasterers, and the bricklayers are asking an increase of a dollar a day above the present scale of \$5.

Philadelphia, Pa., reports a surplus of carpenters, laborers, painters, plumbers and sheet metal workers. A shortage exists among the plasterers and bonus wages are being paid generally. The shortage of bricklayers is estimated at about 10 per cent, while masons and stone cutters are also hard to get. The latter craft has struck for a wage advance regardless of the standing agreement.

Pittsburgh, Pa., has no surplus of labor in any of the building trades. Plasterers, lathers, bricklayers, and slate roofers are very scarce. After a fifteen months' strike the electricians came to an agreement early in August. The open shop in the laboring and hod carrying departments has been discontinued. The Building Construction Employers' Association has made an agreement with the Hol Carriers, Building and Laborers' Union, which will become effective September 1, 1932, after having run open shop since June 1, 1931. The agreement expires March 1, 1933.

A number of trades have received an increase in wages on account of the scarcity of men. The hope that this would attract men from other cities has been proven groundless. Plasterers are now so scarce that some employers have offered increased wages with the hope of securing men from other contractors. The result is that practically every plasterer is working over time at the double time rate. Many are working a ten-hour day which pays \$15 a day.

St. Joseph, Mo., has all building labor employed. A shortage of bricklayers and masons has developed. No wage increases are expected.

St. Louis, Mo., is facing a runaway plasterers market. The scale is fixed at \$1.37½ an hour and the associated members of the exchange are prohibited from paying more. The unofficial wage ranges around \$1.62½ an hour.

San Francisco, Cal., remains on the American plan. The plasterers are on strike and a temporary bonus is being offered by the Industrial Association to

the amount of \$4 a day above the \$10 scale.

Sharon, Pa., reports plenty of labor in all lines. All members of the Builders Exchange are employing open shop labor only, following the refusal of the unions to accept a reduction averaging 16 per cent on April 1, 1931.

Sioux City, Iowa, reports that bonus wages are commencing to be paid above the scale to carpenters and plasterers.

Tucson, Ariz., has a shortage of first class carpenters and states that there is some talk of adjusting wages to a dollar an hour. A shortage of plasterers is being caused by the high wage being paid on the coast and raises are expected locally soon. In some other lines there is a limited demand for a few more mechanics which could be filled if more permanent work were in sight.

The universal shortage of plasterers and bricklayers shown above should stimulate immediate action to start training schools in these two trades so that efficient workmen could be turned out next year to relieve the shortage that is sure to develop again.

A specific problem faces the construction industry. In 1910 there were 47,682 plasterers in the United States. In 1920 there were only 38,255, a loss of 9,427 men. There are 38,138 fewer brick and stone masons now than in 1910. These are the two crafts that are keeping back the industry today and will be keeping it back next year. We must train this winter at least 10,000 plasterers and 10,000 bricklayers to even think of facing next year. This is the very minimum. Every avenue of training and development must be brought into use to supply this need.

The reasons why the industry has been able to move at all during this shortage are technical ones. Plaster board has been used in many sections of the country to replace the plaster's product. Concrete has given us a substitute for masonry that has gained in popularity. Without these alternatives we would need to train double the numbers for these two trades or stand still.

Are you prepared to do your part in turning out these thousands of men right away? If so, get busy and start schools—now!

SACRAMENTO BUILDERS HEAR WATER AND POWER DEBATE

Arguments pro and con on the proposed State Water and Power Act were heard Sept. 15 by members of the Sacramento Builders' Exchange in a debate between City Attorney Robert L. Shinn and Charles L. Gilmore. The debate was a feature of a meeting of the Exchange held in the Land Hotel.

Shinn, speaking for City Manager Clyde L. Seavey, who was unable to attend the meeting, argued in favor of the passage of the Act, stating that a city the size of Sacramento would in ten years under the proposed measure be enabled to pay for a plant of sufficient size to supply the electrical needs of the city. It was also pointed out by Shinn that passage of the Act will mean the development of the great power resources of the state on a scale that would assure the people of power at cost for all time.

Gilmore, in opposing passage of the Act, declared the proposed Act was dangerous. Bonding the State for \$500,000,000, he said would be equal to about 40 per cent of the bonded indebtedness of all the rest of the States combined.

Building News Section

APARTMENT HOUSES

ALTERATIONS Cost, \$7500
SAN FRANCISCO, 1083 Lombard St.
Segregated Sub-figures Being Taken.
Alterations to apartment house (plaster front, etc.).
Owner—Perry Small.
Architect—A. H. Knoll, Hearst Bldg.

Segregated Figures Being Taken.
APART. HOUSE Cost, \$85,000
SAN FRANCISCO, E Leavenworth S Ellis.
Five-story reinf. conc. apt. house (30 2-room apartments).
Owner—Fred Larsen, 290 28th Ave.
Architect—A. H. Knoll, Hearst Bldg., San Francisco.
Segregated figures will be taken on all parts of the work except the electrical parts, which was awarded to the Wedel Elec. Co.

Contract to be Awarded Shortly.
APARTMENTS, ETC. Cost, \$40,000
SACRAMENTO Sacramento Co. Cal 17th and J Streets.
Brick store and apartment building.
Owner—John Kost, 1630 J St., Sacramento.
Architect—Not Given.

Contract Awarded. Cost, \$12,000
SAN FRANCISCO, N 18th St. 100 E Dolores.
Two-story & basement frame (4) apts.
Owner—Mrs. Hannah Bell, 3678 18th St.
Architect—Dodge A. Reidy, 850 Pacific Bldg., S. F.
Contractor—W. Irvine, 1387 Hayes St.

Owner Taking Sub-figures.
APARTMENTS Cost, \$65,000
SAN FRANCISCO, Hyde St. near Sutter.
Six-story reinforced concrete apartment house (24 rooms), 40x76.
Owner—Louis Blum.
Architect—C. O. Clausen, Hearst Bldg.

Contract Awarded. Cost, \$16,000

State Capitol, Sacramento, 9/19/22.
Editor of Daily Pacific Builder,
304 Mission Street,
San Francisco.
Dear Editor:

I AM in Sacramento.

AT THE two-ring circus.

SOMETIMES CALLED the State Convention.

OF THE Republican.

AND THE Democratic Parties.

I AM writing this report.

AT THE desk.

OF SENATOR Sharp sand.

FROM PRATT'S Monterey Co.

THERE ARE also delegates.

FROM MARYSVILLE and Sacramento.
BECAUSE CLARENCE Sand Pratt,
President.

OF THE Pratt Building Material Co.

DOUGLAS, 100—"easy to remember."

HAS SAND producing plants.

AT ALL these thriving cities.

THE DEMOCRATS through Mr. Woolwine.

OF LOS Angeles.

CAME OUT for a wet platform.

BUT THE Republicans.

MORE IN numbers.

AND QUICKER at building.

A POPULAR platform.

ADOPTED PRATT'S clean, sharp sand.

ON WHICH to stand.

AND GREAT cheers went up.

WHEN CLARENCE Sand Pratt.

ANNOUNCED THAT the entire fund.

FOR THE present campaign.

WOULD COME.

FROM THE (sand) banks.

OF THE Pratt Building Material Co.

AT PRATT'S Monterey County.

IT SEEMS, dear editor.

THAT THE Examiner.

SENT ED, Hamilton.

TO REPORT the convention.

AND HAMILTON has spent.

THE ENTIRE day.

AND SOME cash.

TO SECURE enough facts.

TO WRITE a story.

BUT CLARENCE Sand Pratt.

SOLD AMERICAN River sand.

ALL DAY long.

AND AFTER dinner.

DROPPED INTO the Convention Hall

AND SECURED all the above facts.

FOR THIS wonderful newspaper story

"I THANK you."

AJO, Ariz.—Wisconsin Bridge & Iron Works, Milwaukee, was awarded contract for constructing steel frame concentration plant for New Cornelia Mining Co. at Ajo. Plant will have ore crushers, concentrating equipment, etc. Est. cost of project, \$400,000. Kenyon Hurch, Junior Orpheum Bldg., Los Angeles, const. engineer.

EARLE R. CLEMENS,
Secretary

BIDS WANTED FOR STATE HIGHWAY IMPROVEMENT

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of The California Highway Commission, 515 Fort Building, Sacramento, Cal., until 2 o'clock P. M., on October 10, 1922, at which time they will be publicly opened and read for construction in accordance with the specifications therefor to which special reference is made, portions of State Highway as follows:

San Mateo County, between Sneath Road and Half Moon Bay Road (IV-SM-55-A and B), about thirteen and five-tenths (13.5) miles in length, to be graded and surfaced with gravel.

Plans may be seen and forms of proposal, bonds, contracts and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineer's offices are located at Willits, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal for full directions as to bidding, quantities of work to be done, etc.

The Department of Public Works, acting by and through the California Highway Commission, reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the State.

NEWELL D. DARLINGTON,
CHARLES A. WHITMORE,
GEO. C. MANSFIELD,
California Highway Commission
AUSTIN B. LUTCHER,
State Highway Engineer.
R. A. MURRAY, Secretary.

Dated September 15, 1922.

BIDS WANTED FOR HIGHWAY IMPROVEMENT

NOTICE TO CONTRACTORS

Sealed proposals will be received by the undersigned on September 22, 1922, for constructing portions of the State Highway System as follows:

(1) Bids received until, and opened at 2:30 p. m., for grading and placing asphalt macadam in Washoe county from Reno to Purdy.

(2) Bids received until, and opened at 3:30 p. m., for grading, construction of culverts and placing cement concrete surface in Churchill County, between the west and east city limits of Fallon.

Plans may be examined and form of proposal, contract and specifications secured at the office of the undersigned; may also be examined at the County Clerk's office in Fallon for Churchill County work; and in Reno for Washoe County work; may also be examined at the Division Engineer's office in Las Vegas, Elko or Reno, and Dist. Office in the Bureau of Public Roads, Mills Building, San Francisco, California. Cash deposit of Fifteen Dollars (\$15) with the undersigned required for copy of plans which will be refunded on their return in good condition. Bids must be on proposal form of Highway Department, and must be accompanied by a certified check in the amount of 5% of the bid.

Each bidder must accompany his bid with a certificate from a Surety Company, duly authorized to do business in this State, stating that such Surety Company will provide said bidder with a bond in such sum as is required in and in accordance with the provisions of said specifications, conditioned for the faithful performance of the provisions of the contract and specifications. Right is reserved to reject any or all bids.

GEO. W. BORDEN,
State Highway Engineer,
Carson City, Nevada.

NOTICE INVITING SEALED PROPOSALS FOR THE CONSTRUCTION OF A HIGH SCHOOL BUILDING AT MONTEREY

Notice is hereby given by the Board of Trustees of the Monterey Union High School District, at Monterey, California, that sealed bids will be received by said Board for the erection and construction of a new High School Building at Monterey, in said District, in accordance with the plans and specification adopted by said Board of Trustees on the 13th day of September, 1922 and now on file in the office of the Clerk of said Board of Trustees.

Plans and specifications may be obtained from the Clerk of the Board or from the Architects, Norman B. Coulter at 46 Kearny Street, San Francisco, Cal. or Marshall A. Deane, 162 Pacific Avenue, San Francisco, Cal. A deposit of Ten Dollars (\$10) will be required for each set of plans.

All bids will be opened by the said Board of Trustees on the 7th day of October, 1922, at 1:30 o'clock p. m., at the Monterey Union High School building, Monterey, California, and all bids must be delivered to Mr. James McIntosh, Clerk of said Board, before that hour, enclosed in sealed envelope, and marked on the outside for the construction of High School Building at Monterey.

All bids must be accompanied by a certified check, cash or a certificate of deposit equal to Ten (10) per cent of the amount bid; checks or certificates of deposit to be made payable to the Board of Trustees and to be returned to the parties tendering whose bid or bids are not accepted, and to the party whose bid is accepted, upon his entering into a Contract with the said School District and giving such bonds as may be required by Law or by said Board.

The Board of Trustees reserves the right to reject any and all bids.

JAMES MCINTOSH
Clerk of the Board of Trustees of the Monterey Union High School District, Monterey, California.

NOTICE TO CONTRACTORS

(Burlingame School Addition)

Notice is hereby given that the undersigned trustees of the Burlingame Grammar School District, San Mateo County, California, will receive bids at the Howard Avenue School, Burlingame for the addition of two class rooms to the Roosevelt School Building, located in said district, until to the hour of eight (8) o'clock p. m., on Monday, the 27th day of October, 1922, at which time and place said bids will be publicly opened.

All bids must be addressed to Mrs. J. M. Sorenson, Clerk of the Board, and must be accompanied by a certified check made payable to the order of aforesaid clerk in amount equal to at least ten (10) per cent of the largest bid so submitted, and no proposal will be considered by said Board unless accompanied by such check.

The said check to be forfeited to said Burlingame Grammar School District as aforesaid, and in case of damages in case the successful bidder fails or refuses to enter into a contract to perform the work, and give the bonds required, within ten days after the date of the award.

The plans and specifications for said works may be obtained from E. L. Norberg, architect, 407 Occidental Avenue, Burlingame.

The said Board of Trustees expressly reserves the right to reject any and all bids.

Done by the order of the Board of Trustees of the Burlingame Grammar School District, County of San Mateo, State of California.

F. H. THRALL, Chairman,
RUFUS H. KIMBALL, Trustee,
MRS. M. M. NICKERSON,
Clerk of Board of Trustees.

NOTICE TO CONTRACTORS

(Gas Steam Radiator)

The Bids will be received by the Board of Trustees of the Midway School District until Oct. 3, at 7:30 p. m., for turning and installing complete unit systems, gas, steam radiators, in what

is known as kindergarten and old building as per specifications on file with clerk of the board. All bids must be accompanied by certified check for 10 per cent of bid payable to the Midway School District. The board reserves the right to reject any or all bids.

E. L. WILLIAMS,
B. E. WILLIAMS,
Trustees.

NOTICE TO BIDDERS (Cement)

Turlock Irrigation District, and Modesto Irrigation District, Stanislaus and Merced Cos., Cal.

JOINT STORAGE WORKS

Sealed proposals will be received at the office of the Turlock Irrigation District, at Turlock, California, until Friday, Sept. 29, 1922 at ten o'clock a.m. for furnishing and delivering from fifty thousand (50,000) barrels to seventy-five thousand (75,000) barrels of Portland cement, f. o. b. cars Don Pedro Dam. The cement must meet the standard specifications for cement adopted by the American Society for testing materials and must be delivered on a schedule provided by the districts. Delivery to be at the rate of about four cars daily during October, November and December, 1922.

The contract will be let to the lowest bidder, but the boards reserve the right to reject any or all bids.

Each proposal must be accompanied by a certified check for five (5) per cent of the amount of the bid, payable to the order of the treasurer of the Turlock Irrigation District, for the benefit of said districts as a guaranty that the bidders, so if successful, will execute a satisfactory contract and furnish a bond in the sum of not less than twenty-five (25) per cent of the amount of his bid to be subject to the approval of the boards.

The proposals must be marked "Proposals for Cement for Don Pedro Storage Project" and addressed "Anna Sorensen, Secretary Turlock Irrigation District, Turlock, California."

Done in pursuance of orders of the Boards of Directors of the Turlock Irrigation District and the Modesto Irrigation District, this 5th day of September, 1922.

ANNA SORESEN,
Sec. Turlock Irrigation Dist.
C. S. ABBOTT,
Sec. Modesto Irrigation Dist.

NOTICE FOR BIDS FOR PIPELINE—PARADISE IRRIGATION DIST.

Sealed proposals will be received by the Board of Directors of the Paradise Irrigation Dist at their office at Paradise, Butte County, Cal., until 10 o'clock a. m., on Tuesday, the 3rd day of October, 1922, at which time the said bids will be opened, for the following work, or any part or parts thereof, to wit: Replacing of 13,160 feet of main canal with pipeline (said pipeline to have a carrying capacity of approximately 40 cubic feet per second when operating under a head of 45 feet) as follows:

(a) Thirteen thousand one hundred sixty feet open ditch to be modified in part and prepared to receive pipeline.

(b) Hauling and distributing of 13,160 feet of pipeline materials.

(c) Thirteen thousand one hundred sixty feet pipe line laid in place.

(d) Control gates and other necessary appurtenances.

Plans and specifications may be seen at the office of said Board and copies may be obtained from L. M. Edwards, superintendent, at two dollars per set.

The right is reserved to reject any and all bids, or to accept the bid or bids which are deemed to be to the best interests of the district.

Successful bidders shall enter into contract and give bond in accordance with law.

By order of the Board of Directors of the Paradise Irrigation District, dated September 5, 1922.

L. M. EDWARDS,
Superintendent.
G. C. BILLIE,
Secretary.

Engineering News Section

BRIDGES, DAMS & HARBOR WORK

OAKDALE, Stanislaus Co., Cal.—Plans for the Melones dam and reservoir prepared by Engineer A. J. Wiley have been approved by Engineers R. E. Hartley, of the Oakdale Irrigation District, and C. W. Wood, of the South San Joaquin District. The two districts will jointly build the dam, which, it is estimated, will cost approximately \$1,750,000. The reservoir will have a capacity of 109,920 acre feet. All the preliminary borings have been completed, indicating that the foundations will rest on solid rock.

STOCKTON, San Joaquin Co., Cal.—Until Sept. 23, 10:30 a. m., bids will be received by A. L. Banks, city clerk, to const. rein. conc. bridge in Center St. over Mormon Channel. Cert. check payable to city clerk required. Plans may be had from City Eng. W. B. Hogan.

OAKLAND, Cal.—City Harbor Eng. Ralph Beebe has prepared preliminary data for a mile long, 1000 ft wide municipal mole (cutting through the 289 acres which the Key Route proposes to sell to the Southern Pacific) out to deep water. The mole will extend from the foot of 14th St., out to the deep water line, paralleling the S. P. Mole at 7th St. Preliminary plans provide for a solid earth and rock fill 1000 ft. wide and 6000 ft. long. Along the northern and southern sides, channels will be dredged 35 feet deep to allow for ocean going ships. Along the center pier will run an avenue 200 ft. wide and 600 ft. long, having on each side a strip 400 ft. wide for railway tracks. Adjoining each of these will be a row of five-story docks and warehouses, containing car elevators to be used for commercial and industrial purposes.

ANAHEIM, Cal.—Prendergast Co. Co., 1321 Washington Bldg., Los Angeles, awarded contract at \$18,550 for structing Pratt Dam No. 2 at canal intake, Santa Ana River, for Anaheim Union Water Co. Company will furnish materials. Dam will be L-shaped, one section 216 ft. long and the other 136 ft. 6x6 in. wire mesh will be used in 60-lb. steel rails 30 ft. long used for piles. There will also be lumber and rip-rap work. Other bids were: Robinson-Roberts Co., \$19,470; R. H. Travers \$18,980.

AUBURN, Placer Co., Cal.—Supervisors reject bids to construct bridge over Coon Creek. New bids will probably be asked.

NEWPORT BEACH, Cal.—The \$60,000 bond issue for purchase and improvement of old wharf at Newport carried at \$100,000 by the Newport Beach Improvement District No. 2.

PRESTON, Sonoma Co., Cal.—John Phillips, Sacramento, at 98c cu. ft., awards contract by State Engineering Department to raise dam at Preston Industrial School; also to dig ditch at \$1.25 cu. yd. for excavation and 10c sq. ft. conc. lining.

SANTA ROSA, Sonoma Co., Cal.—Until Oct. 11, 12 m., bids will be rec. by W. W. Felt, Jr., county clerk, to const. bridge on Valley Ford-Freestone highway, involv. 60 cu. yds. class B conc.; 6700 ft. B. M. timber.

Separate bids, same date, to const. 2 rein. conc. culverts on 2-Rock Fallon road, involv. 60 cu. yds. class A and B conc. R. Press Smith, county surveyor.

MERCED, Merced Co., Cal.—Until October 3, 10 a. m., bids will be received by P. J. Thornton, county clerk, to construct 5 rein. conc. bridges, as follows:

Bridge No. 26, over Canal on Merced-Chowchilla Road, about 14 miles south of Merced.

Bridge No. 27, over Canal on Merced-Chowchilla Road about 14 1/2 miles south of Merced.

Bridge No. 102, over Slough on the Hills Ferry and Murray Bridge Road, north side of Merced River and about one mile northeast of Hills Ferry bridge.

Bridge No. 106, over Dancer Slough, on Merced-Swilling and Merced Falls Road on the line between Sections 23 and 21, T. 5 S., R. 13 E., M. D. M.

Bridge No. 107, over South Slough, on the Merced and Dugan Ranch Rd. near the quarter corner between Sections 31 and 32, Twp. 7 S., R. 13 E., M. D. M.

Plans may be had from County Surv. G. E. Winton on deposit of \$10.

SACRAMENTO, Cal.—The California Highway Commission received bids on September 18 for the construction of two bridges as follows:

Mendocino County, across Cold Creek at Station 349 (I-Men-15-A), a bridge consisting of three thirty-foot reinforced concrete girder spans on concrete bents.

C. H. Gildersleeve, S. E., \$5,415

Engineers estimate \$5700.

Mendocino County, across Cold Creek at Station 373 (I-Men-15-A), a bridge consisting of two thirty-foot reinforced concrete girder spans with the necessary bent, abutments and wingwalls.

C. H. Gildersleeve, S. E., \$6,210

Engineer's estimate \$6750.

PORTLAND, Ore.—Until Oct. 5, bids will be received by State Highway Co. Multnomah County Courthouse, Portland, for following bridge projects:

Tillamook County—Three Rivers Section, McMinnville-Tillamook Highway. Two bridges near Dolph, requiring approximately 80 lin. feet piling, 4MFEM lumber and 800 lin. ft. wood trestle.

Umatilla County—Bridge over the U. S. R. 8 near Echo, Columbia River Highway, requiring approx. 115 cu. yds. conc., 13,000 lbs. metal reinforcement, 500 lin. ft. piling.

Wasco County—Dufur-Maupin Section, The Palouse-California Highway. Bridge over the White River near Tygh requiring approx. 205 cu. yds. concrete, 30,000 lbs. metal reinforcement, 105,000 lbs. structural steel.

Wasco County—County Road. Bridge over Deschutes River at Shearer, requiring approx. 70 cu. yds. concrete, 25,000 lbs. structural steel, 11 MFEM lumber.

SAN JOSE, Santa Clara Co., Cal.—Wm. Martin, 456 Delmas St., San Jose, at \$2511 awarded contract by supervisors to const. rein. revetment on Bodfish Mill road, in Supervisor Dist. 1. Other bids: W. L. Lomax, \$3822; Jno. Williams, \$3200; surv. est. \$2710.

SAN FRANCISCO.—Approx. \$2,000,000 will be spent by the Government in widening and deepening the main channel across the bar to San Francisco harbor and in dredging the Oakland Harbor, according to Col. Herbert Hodgson, army engineer for the First San Francisco District, who has received the complete text of the rivers and harbors bill passed by Congress Sept. 12.

The bill provides that the channel across the bar to San Francisco harbor be made safer and deeper by dredging to 40 ft. deep at low tide and allowing an additional 1 ft. for an over-depth for the accumulation of silt. The channel is to be made 2000 ft. in width. At present, the channel is only 36 ft. deep. The estimated cost of the improvement to the bar channel is \$550,000, and the estimated cost of maintenance is \$100,000 annually. The bill provides for dredging the Oakland channel from its present depth of 26 1/2 ft. through the shoal southeast of Goat Island to a depth of 20 ft. and to a width of 800 ft. This passage through the low water will narrow down to 600 ft. at the end of the Oakland jetties. The estimated cost of the Oakland improvement is \$1,311,500. It is figured that the cost of maintenance will be \$60,000 annually.

RED BLUFF, Tehama Co., Cal.—Supervisors contemplate the const. of a bridge across Sacramento river at Bend or new 4-mile road out of Bend colony, via Paynes creek to connect with the Susanville-Red Bluff highway. It the bridge is decided upon the structure will have 3 spans 123 ft. each and 2 spans 95 ft. each, a total of 589 ft. of steel construction. In addition to this there would be 280 ft. of conc. trestle approach to each side. The four-mile road would cost approx. \$70,000. W. F. Lammert, county surv.

REDWOOD CITY, San Mateo Co., Cal.—Until Oct. 9, 10 a. m., bids will be rec. by Elmer M. Nash, county clerk, to construct rein. conc. box culvert and filling on crossing of Alameda Rd. at crossing of Madera creek. A. Kneese, county surv.

CALIFORNIA—Following bridge contracts awarded by State Highway Commission:

Rocca and Caletti, San Rafael, \$25,225 rein. conc. bridge in Lassen County over Susan river near Fredonia. Materials fur. by state, \$2091.

C. H. Gildersleeve, San Francisco, \$5415 rein. conc. bridge in Mendocino county, over Cold creek at Sta. 349. State fur. materials, \$5224.

I. C. Gildersleeve, \$6210 bridge over cold creek, at Sta. 373, Mendocino Co. State fur. material \$2562.

LOS ANGELES, Cal.—Until Oct. 21, 11 a. m., bids will be received by U. S. Engineer Office, 725 Central Bldg., for dredging in San Diego harbor.

IRRIGATION PROJECTS

TERRA BELLA, Tulare Co., Cal.—Until Oct. 3, 10:30 a. m., bids will be rec. by Earle R. Clemens, secretary, Deer Creek Ditch Co., for excavation of approximately 35,000 cu. yds. material from Deer Creek ditch. See call for bids under official proposal section in this issue.

OROVILLE, Butte Co., Cal.—Drainage District No. 1, comprising 6000 acres east and southeast of Gridley, proposes to clean out drains and improve works.

SAN DIEGO, Cal.—A syndicate of San Francisco and Sacramento men has purchased 1000 acres of farming land near Del Mar in the San Diego valley. The corporation to be known as the So. Cal. Farm Products Co. with capital of \$500,000 will develop the land. A drainage system consisting of 10-in. conc. pipe every 500 ft., with canals, etc., will be installed at once. The system will extend from Del Mar to the Santa Fe ranch pumping plant. C. M. Jackson, pres. of California Insurance Co., is head of the syndicate.

LIGHTING SYSTEMS

LOS ANGELES, Cal.—Paulson Constr. Co. submitted low bid to county super. at \$2924 for installing ornamental lighting system in Miramonte-Florence lighting dist. Other bids were: So. Cal. Elec. Co., \$3666; H. H. Walker, \$3800; C. W. Sparks, \$4433.50.

SAN BERNARDINO, Cal.—Res. of inten. adopted by city council for constr. ornamental lighting systems on the following streets: E St. bet. Rialto Ave. and 5th St., and E St., bet. Mill and Third Sts.

MERCED, Merced Co., Cal.—Until Oct. 3, 10 a. m. bids will be received by P. J. Thornton, county clerk, to install and maintain 25 100-candle power nitrogen lamps in Manana Lighting District.

LOS ANGELES, Cal.—Ord. of inten. adopted by city council to construct lighting system including posts and appliances in 14th St., bet. Beason St. and Pacific Ave., San Pedro St. Ord. No. 44573; 1911 Act; also for Palos Verdes St., bet. 6th and 13th St., San Pedro, Ord. No. 44571; 1911 Act; also Pacific Ave., bet. 14th St. and Hamilton Ave., San Pedro; Ord. No. 44580; 1911 Act.

PACIFIC GROVE, Monterey Co., Cal.—Until Oct. 9, 8 p. m. bids will be rec. by E. S. Johnston, city clerk, to install electrolier system in Forest Ave., bet. Pine and Lighthouse Aves., and Lighthouse Ave., bet. Fountain and 19th Sts. Plans may be had from clerk, H. D. Severance, city eng.

LOS ANGELES, Cal.—Until 11 a. m. Oct. 2, bids will be received by county supervisors to install an ornamental street lighting system in the National street lighting district, in accordance with plans and spec. on file at the office of the board. Cert. chkr. or bond, 10%. A. M. McPherson, deputy county clerk.

HAYWARD, Alameda Co., Cal.—City Eng. J. B. Holly preparing spec. for install. fifty to sixty electroliers in main business district. First units of system will cost \$5000. Other units will be ordered when first section is completed.

LOS ANGELES, Cal.—City Council adopted Ord. No. 44582, Sept. 15, ordering lighting posts, and appliances on Sunset Blvd., bet. Vista St. and Stanley. 1911 Act. Plans and spec. on file with city electrician, south city hall annex.

SAN BERNARDINO, Cal.—Colton and San Bernardino may cooperate to secure continuous lighting system on So. Mt. Vernon Ave., bet. the two cities.

SANTA ANA, Cal.—Property owners will ask city council for ornamental lights on W 4th St., bet. Ross and Artesia Sts. Seventy-five per cent of the owners have signed petition.

LOS ANGELES, Cal.—Ord. of inten. No. 44580 adopted by City Council Sept. 12, for constructing orn. lighting posts and appliances in Pacific Ave., bet. 14th St. and Hamilton Ave., San Pedro, 1911 Act.

LOMPOC, Cal.—City has an option to purchase the light and power system now supplying the town. The purchase

will be acted upon at once. The price asked is \$30,000 and a bond issue will be necessary.

SAN PEDRO, Cal.—Board of Public Works has under consideration plans and spec. for ornamental lights on Pacific Ave. bet. Fourteenth and Oliver St. R & E

MACHINERY

LERKELEY, Alameda Co., Cal.—City Council, E. M. Hann, clerk, adopts ordinance authorizing lease of a Model 1, 70-H 2-ton Garford motor truck and equipment with option to purchase same from W. C. Morse, 4270 Broadway, Oakland and the lease of a Model F 3½-ton Day-Elder truck with option to purchase from Weaver Wells Co., 3321 Broadway, Oakland.

CALISTOGA, Napa Co., Cal.—Until Oct. 2, 8 p. m. bids will be rec. by J. G. Finch, town clerk, to sink one or more wells to commence with 16-in. casing on Honolulu ranch near Calistoga reservoir. Cert. chkr. 10% payable to town recq. with each bid.

STOCKTON, San Joaquin Co., Cal.—J. E. Funk awarded 5-year contract by Rindge Land and Navigation Co., of Stockton to clean 150-miles of ditches on upper and lower Jones tracts and Palm tract, the latter being in Contra Costa county. Ditches are to be deepened to 4-ft. and kept clean to that depth.

ALHAMBRA, Cal.—Until 5 P. M. Oct. 2, bids will be rec. by city commission for cast iron bell and spigot class B pipe, in 12 ft. lengths, with C. I. class B bell fittings, as follows: 2100 ft. 18-in. 600 ft. 16-in., 111 ft. 14-in., 5700 ft. 12-in., and 1200 ft. 8-in. pipe. First alternative: delivery f. o. b. docks, San Pedro; second alternative, delivery along-side trenches, Alhambra. Cert. chkr. or bond, 25%. Grant M. Lorraine, city mgr.

NORTH FORK, Madera Co., Cal.—Until Sept. 30, 10 a. m. bids will be rec. by Elmer Gates, clerk. Residual School District for fur. one auto school bus for transportation of pupils.

TRACY, San Joaquin Co., Cal.—The Associated Pipe Line Co. will shortly commence the construction of a 31,500-gallon crude oil reservoir for reserve purposes.

LOS ANGELES, Cal.—Until 3 p. m. Sept. 23, bids will be rec. by Public Service Commission, 207 S. Bas St., for 26,723 tons 16-in. class B cast iron pipe, Spec. 622-B. Jas. P. Vroman, secretary.

RICHMOND, Contra Costa Co., Cal.—Until Oct. 4, 3 p. m. bids will be received by W. T. Helms, clerk Board of Education, 235 Tenth St., for fur. one school bus with seating capacity 40 pupils. Spec. may be had from clerk.

SACRAMENTO, Cal.—Until Oct. 2, 5 p. m. bids will be received by Chas. C. Hughes, sec. Board of Education, 301 City Hall, for fur. and del. approx. 3000 obls. more or less, to be used for school buildings, to be delivered in quantities as ordered for school year ending July 1, 1933; prices to be f. o. b. schools as ordered.

MODESTO, Stanislaus Co., Cal.—Ch. Eng. Percy Jones, of Modesto Irrigation District, contemplates spec. for transmission line from Don Pedro dam to district property in Woodland Ave., Modesto. Bids will be asked shortly.

RED BLUFF, Tehama Co., Cal.—City trustees are in market for motor truck for use of municipal water department. R & E

PASADENA, Cal.—Amer. Cast Iron Pipe Co. submitted low bid to city directors at \$26,923.65 for pipe as follows: 3000 ft. 4-in., 6000 ft. 6-in., 1350 ft. 8-in., 600 ft. 8-in., 3-ton 4-in. fittings, and 20 tons 6-in. fittings. Also at \$11-133.60 for 4800 ft. 8-in. and 2400 ft. 12-in. pipe. Other bids were: U. S. Cast

Iron Pipe & Fdy. Co.; \$27,427.27 and \$11,903.50 for 12 ft. lengths; \$27,336.90 and \$11,162.95 for 5 metre lengths; Pac. Pipe & Supply Co., \$27,072.44 and \$11,199.80; McVane Cast Iron Pipe Co., \$22.00 (4 and 6-in. only).

RAILROADS

POMONA, Cal.—Pac. Ry. Co. will extend line bet. San Dimas and Glendora. This 5-mile extension will cost about \$370,000. D. W. Pontius gen. mgr., Los Angeles; D. E. Foote, in charge of Pomona-Glendora dist.

PHOENIX, Arizona—Santa Fe Railway Co. is taking bids for erecting a new union depot at Phoenix, Ariz. for Santa Fe and Arizona Eastern Ry. Co's. The waiting room section will be two stories 10 to 60 ft. the remainder will be one story. It will contain offices, freight and express departments, lavatories, ticket offices, etc.; reinf. conc. construction, 475x125 ft., plain ex-st. steel tr. trusses. Meridian tile, pine trim, quarry tile and cem. fls., vitreous tile fls. in lavatories, steam heat. There will be a Mission style arcade, 250 ft. long. Bids are to be opened Oct. 19.

SEWERS, STREET WORK, RAILROADS & WATER SYSTEMS

YUBA CITY, Sutter Co., Cal.—Until Oct. 3, 10 a. m. bids will be received by Albert B. Brown, county clerk, to construct extension of Meridian-Kirkville road, from end of present conc. pavement in First St., Town of Meridian 766 ft. south of E St., and continuing south along county road for distance of 0.44 of a mile to be paved with rein. conc. 5-in. thick, 15-ft. wide, involving 8000 cu. yds. grading; 535 cu. yds. rein. conc. pavement. Contractor to furnish all materials. Oscar W. Lanzendorf, county road eng.

SANTA ROSA, Sonoma Co., Cal.—Until Oct. 10, 12 a. m. bids will be rec. by W. W. Felt, Jr., county clerk, for highway imp. as follows: Geversville-Jimtown road, Sec. A, 0.58 mile, involv. 1400 cu. yds. excav.; 510 cu. yds. crushed rock; 6110 cu. yds. asphalt surfacing; 50 ft. 12-in. soil, 5 ft. 15-in. and 50 ft. 18-in. corr. pipe. Sec. B, 0.58 mile, involv. 1400 cu. yds. excav.; 510 cu. yds. crushed rock; 6110 cu. yds. asphalt surfacing; 50 ft. 12-in. soil, 5 ft. 15-in. and 50 ft. 18-in. corr. pipe. R. Press Smith, county sur.

SAN JOSE, Santa Clara Co., Cal.—City Council, J. J. Lynch, clerk, declares intention to improve: Twelfth St., bet. Mission and Taylor; conc. curbs, gutters and walks.

Eighth St., bet. Virginia and Keyes; grading; paving with 3-in. bit. conc. base with 1½-in. Warrenite-Bit. surface. Also curbs, gutters and walks, 2 br. catchbasins; 8-in. vit. pipe drains. Wm. Popp, city eng.

FRESNO, Fresno Co., Cal.—Due to objections to the type of paving proposed (oil macadam) the county supervisors have empowered the paving of the county highway from Elm Ave., to Caruthers. The work will be undertaken next year. Chris P. Jensen, Cory Bldg., county sur.

HOLLISTER, San Benito Co., Cal.—Until Oct. 2, 2 p. m. bids will be rec. by Elmer Dowdy, county clerk, to imp. portion of Hollister and Cilroy (Bolsa) road. W. A. Winn, county sur.

BENICIA, Solano Co., Cal.—Until Sept. 26, 8 p. m. bids will be received by J. C. McAvray, city clerk, to repave 1st St., bet. J. and S. P. right-of-way, 46 ft. wide, by loosening present surface by means of a grader to depth of 3 in., removing 900 cu. yds. material; reshaping and relevel surface and cover with crushed rock; then coat with hot asphalt road oil with covering of rock screenings in quantity of 10 cu. yds. per 100 ft. surface. F. A. Steiger, city eng.

SANTA ROSA, Sonoma Co., Cal.—
 1918 Oct. 11, 12 m. blds will be rec.
 W. W. Felt, Jr., county clerk, to con-
 Petaluma-Sonoma highway, Sec. R,
 volving 9000 cu. yds. unclass. exca-
 2600 cu. yds. crushed rock; 32,166
 yds. asphaltic surfacing; 50 lin. ft.
 in., 50 lin. ft. 15-in. and 50 lin. ft. 18-
 corr. metal pipe. R. Press Smith, cot-
 ty surv.

OAKLAND, Cal.—City Council, E. K. Sturgis, clerk, declares intention to improve portions of Bartlett St., between Brookdale Ave. and School St., grading conc. curbs and gutters; paving with oil macadam. 1911 Act. Protests Oct. 5. W. W. Harmon, city eng.

SANTA BARBARA, Cal.—Council declares intention to improve Sutton Ave. between San Pascual and San Andreas Sts. by grading, constructing curbs, combined conc. curbs and gutters; 1911 Act.

Intention declared to improve Valerio St. between Garden and Castillo Sts. by changing grade, paving with 6-in. cem. conc., constructing combined curb and gutters, conc. gutters, driveways, 6-in. vit. pipe main sewers; 1911 Act.

BURBANK, Cal. Until 7:30 p. m., Oct. 3, bids will be rec. by city trustees to pave Cypress Ave., bet. San Fernando Blvd. and Sunset Canyon Dr., with Willite paving 20 ft. wide; 1911 Act.

SANTA BARBARA, Cal.—Residents of La Mesa plan to lay their own water system and will be reimbursed for it by free water during the term of the bonded indebtedness.

MARTINEZ, Contra Costa Co., Cal.—E. E. Grow, 318 14th St., Richmond, at \$13,440 awarded contract by supervisors to pave 1/2-mile strip of Franklin Canyon highway at Hercules.

Mrs. E. E. O'Brien, Martinez, at \$4,593 awarded contract to grade and rock 3 miles of road between Clayton and Marsh Creek highway.

SOUTH PASADENA, Cal.—Until 5 p. m., Oct. 9, bids will be rec. by city trustees for improving Monterey road, involv. 101,400 sq. ft. macad., 11,000 sq. ft. conc. gutter, 365 ft. 16-in. storm drain, and 250 ft. sewer laterals; R. V. Orbinson, city mgr.

SAN FRANCISCO—C. B. Eaton, 407 11th St., at \$70,772 awarded cont. by Board of Public Works to imp. N. 1. sc. pipe, \$1350; necessary fittings and valves, \$180; concreting section under railroad tracks, \$275; grading and back filling, \$200; expense going under railroad, \$1200; contingencies, \$200; total, \$5500.

6-in. sewer extensions in West Park, \$980; 6-in. W. L. pipe replacements in West Park, \$250; total, \$1430.

Sewerage disposal plant consisting of Imhoff tank and necessary apparatus with sufficient capacity to handle the sewage for a population of 5000, together with the necessary filter beds, \$50,000; 5500 ft. 18-in. wood stave pipe line leading to the barge canal and laid in the ground to a depth of 3 ft., \$12,250; right of way for above line, \$500; total, \$62,750.

One 10-hp. 4-stroke 14-in. deep well turbine driven by 60 h. p. vertical 2200 volt 3 phase 60 cycle induction motor delivering 750 gallons per min. against 200 foot head with 30 ft. suction and automatic control, installed in similar structure to No. 1 turbine, cost installed, \$3820.

Municipal swimming pool: Tank 60x100 ft. varying in depth from 2 1/2 ft. to 8 ft. with 4 tier of locker and dressing compartments at each end installed for \$10,000 or a similar layout, entirely enclosed with the addition of shower baths, suit racks and heating equipment to cost \$15,500.

Architects—Engineers— City and County Officials

How about bids wanted?

Are you satisfied with the bids you received on that last job?

Did you have competition—and plenty of it?
If not—why not?

Without charge the BUILDING & ENGINEERING NEWS will place your job before the construction interests of the Pacific Coast. That means competition and—competition means the lowest possible bid.

If you want competition send particulars of your job to BUILDING & ENGINEERING NEWS—also a set of plans and specifications.

Reach the *Independent Bidder* through the columns
of BUILDING & ENGINEERING NEWS

The combined news services of BUILDING & ENGINEERING NEWS have a circulation of

2754

—reaching the Engineer, Contractor and Material Dealer.

Can you reach one quarter the amount of interested people through any other news service published in this section? We think not—in fact, we know you cannot.

If you want *competition*—if you want *independent* contractors to figure your job—if you want the *lowest possible bid*—send particulars of your project to

Building & Engineering News

OFFICIAL PROPOSALS

(Continued from Page 16)

BIDS WANTED FOR STATE HIGHWAY IMPROVEMENT

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock P. M. on October 2, 1922, which time they will be publicly opened and read, for construction in accordance with the specifications thereto for the Division Highway as follows: Amador County, between Ione and Jackson (111-Ama-34-B), about ten and seven-tenths (10.7) miles in length, to be surfaced with gravel. Merced County, between Atwater and Livingston (Vf-Mer-4-C and D), about nine-tenths (0.9) mile in length, to be surfaced with asphalt concrete.

Plans may be seen and forms of proposal, bonds, contracts and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.

Plans will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, and full directions as to bidding, quantities of work to be done, etc.

The Department of Public Works, acting by and through the California Highway Commission, reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the State.
NEWELL D. DARLINGTON,
CHARLES A. WHITMORE,
GEO. C. MANSFIELD,
California Highway Commission.
AUSTIN B. ELLIOTT,
State Highway Engineer.
R. A. MURRAY, Secretary.
Dated Sept. 11, 1922.

BIDS WANTED FOR SCHOOL

NOTICE TO CONTRACTORS

(One-story Frame and Stucco Six-room and Auditorium School) Estimated Cost, \$49,000)

Notice is hereby given that sealed proposals are invited and will be opened by the Board of Trustees of the Saratoga School District of Santa Clara County, California, at 2:30 P. M. on the 30th day of September, 1922, at the present school building of said school district, in the county of Santa Clara, California, for the erection and completion of a school building for the above named district, in accordance with the plans and specifications made for the same by Wyckoff & White, the authorized architects employed by the Board. Proposals will be received on a general contract, including everything

shown and specified with the exception of plumbing and steam heating, with alternate propositions. Bids will also be received separately on plumbing and steam heating.

Plans and specifications can be seen at the office of the Architects, Wyckoff & White, Growers Bank Building, San Jose, Calif.

A deposit of Twenty (\$20.00) Dollars cash will be required on plans loaned out, and a guarantee of good faith. All proposals to be made out on blank forms, furnished by the architects, and must be accompanied by a check for not less than five per centum (5%) of the amount of the bid, made payable to S. P. Patterson, Clerk of the Board, and certified to by some responsible banking house. The check is to be forfeited in the event that the successful bidder, after having been awarded the contract, fails within ten (10) days to sign the contract and furnish good and sufficient bonds satisfactory to the Trustees, and as required by law.

Bids will be received up to and including September 30, 1922, at 2:30 P. M., and must be addressed to S. P. Patterson, Clerk of the Board of School Trustees, of Saratoga School District, Saratoga, Calif.

The Board reserves the right to reject any and all bids.
By order of the Board of Trustees,
dated Sept. 4, 1922.

BENJAMIN V. BAZATA,
Trustee.

HARRY SMITH,
Trustee.
SHELDON P. PATTERSON,
Clerk of the Board of Trustees.

NOTICE TO CONTRACTORS

(Cole School Alterations)

Office of the Secretary of the Board of Education of the City of Oakland, 2149 Broadway, Oakland, California, the Board of Education of the City of Oakland, City Hall, Oakland, California, until the 2nd day of October, 1922, at 3:30 P. M., at which time said bids will be opened, or the remodeling of the Cole School Building of the Oakland School District, located on Union and Eleventh Streets, Oakland, California.

Bids will be received for General Work, including Carpenter Work, Sheet Metal Work, Roofing, Painting, Mastering, Plumbing and Electrical Work.

Plans and specifications for said work are on file at the office of the Architect for the Board of Education, 2149 Broadway, Oakland, California.

On a deposit of Twenty-five (\$25) Dollars said plans and specifications may be had by any prospective bidder. These plans and specifications may be retained for seven (7) days.

If the plans and specifications are not returned to the Architect within the time above specified, or are returned in a mutilated or damaged condition, the deposit will be forfeited and will be immediately used for the purchase of a new set of blue prints and specifications.

Bids must be made on proposals obtained at the office of the Architect, and be signed by the bidder, accompanied by a certified check, certified to by some responsible bank or banker, and made payable to J. W. Edgemond, Secretary of the Board of Education. The Board reserves the right to reject any and all bids or to accept the bid deemed for the best interest of the State. Bids must be made on proposals obtained at the office of the Architect, and be signed by the bidder, accompanied by a certified check, certified to by some responsible bank or banker, and made payable to J. W. Edgemond, Secretary of the Board of Education. The Board reserves the right to reject any and all bids or to accept the bid deemed for the best interest of the State. Bids must be made on proposals obtained at the office of the Architect, and be signed by the bidder, accompanied by a certified check, certified to by some responsible bank or banker, and made payable to J. W. Edgemond, Secretary of the Board of Education. The Board reserves the right to reject any and all bids or to accept the bid deemed for the best interest of the State.

J. W. EDMOND,
Secretary of the Board of Education of Oakland, California.

IT STANDS ON THE SOLID

The Keystone can be equipped with three different, readily interchangeable buckets. Skimmer, Ditcher and Clamshell, for varied uses. With each one it has all the efficiency of highly specialized design. A catalog and booklet "Keystone Shovel Jobs," on request

THE Keystone Ditcher has more sense than to get on a rickety bridge or on a platform while travelling over a hole. The danger of a cave-in is too great, and the consequences of such a tumble are too serious to take any such chances.

There have been too many sad cases where something slid or slipped or broke and much good machinery got mixed up in the bottom of the trench.

So the canny Keystone stays out on the hard ground, digs in front and backs away from the excavation as completed. In this operation it combines the instinctive wisdom and caution of the elephant with the movement of the crawl-fish.

And the contractor saves quite a bit on cribbing which may not be necessary at all.

CONTRACT PURCHASE OF COURT-HOUSE FURNITURE IS QUESTIONED

The legality of the proposed purchase on contract of furniture, furnishings and fixtures for the new Tehama County Court House in Red Bluff is questioned by the Attorney General's office at Sacramento. In a letter to District Attorney M. J. Cheatham, Deputy Attorney General Frank English expressed doubt on this point. The letter came in response to an inquiry from Cheatham, at the direction of the Board of Supervisors.

Under the proposed arrangement for the purchase of Court House furniture, it would be procured immediately, but the payments would be extended over a period of two years. Ten per cent would be paid on installation of the furniture and fixtures, 45 per cent at the end of the first year and 45 per cent at the end of two years. The title to the property would remain in the name of the successful bidder.

CHICAGO-LOS ANGELES BUILDING COMPARED

The Financial Chronicle of New York City prints a table comparing the valuation of building in Los Angeles and Chicago for 13 years. This shows that in 1909 the valuation of building for which permits were issued in Chicago was almost 7 times greater than that of Los Angeles. In 1921 Chicago's building was a little less than one and a half times that of Los Angeles. This table is as follows:

	Los Angeles	Chicago
1921	\$82,761,386	\$125,904,510
1920	60,023,600	76,173,150
1919	28,253,619	104,198,850
1918	8,678,862	35,121,150
1917	16,932,082	64,188,750
1916	15,935,045	12,835,156
1915	11,883,662	69,291,480
1914	17,361,925	33,651,610
1913	31,641,921	89,521,970
1912	31,367,995	88,198,500
1911	23,004,185	105,269,709
1910	21,684,100	96,932,700
1909	13,260,703	90,559,580

INTERSTATE PRACTICE LAW PROPOSED BY ENGINEERS

An arrangement between states which would permit an engineer registered in one state to practice in other states would be broached at a meeting of the council of state boards of engineering examiners to be held in Chicago October 2.

"A tentative plan will be submitted at the meeting," says C. S. Hammett of Jacksonville, Florida, president of the council, "whereby the several state boards can make the state laws operative for reciprocal registration without changing them."

The states represented in the council comprise Arizona, Colorado, Florida, Idaho, Illinois, Indiana, Iowa, Louisiana, Michigan, Minnesota, New Jersey, New York, North Carolina, Oregon, Pennsylvania, South Dakota, South Carolina, Tennessee, Virginia, West Virginia and Wyoming.

With the announcement of the meeting comes a statement from the Chicago office of the American Association of Engineers that the committee on the classification of engineering positions has issued its first report. The committee, headed by A. F. McDaniel, educational specialist in the United States war department, is preparing an occupational index of engineering positions in the United States. Its program, according to the statement, includes the sending of questionnaires to at least 50 practicing engineers in each position to be studied and criticism by members of the profession of preliminary specifications for publication.

SHORTAGE OF DRAFTSMEN REPORTED BY STATE HIGHWAY COMMISSION

A scarcity of draftsmen in Sacramento and other parts of Superior California is reported by Division Engineers of the State Highway Commission. Thomas A. Bedford, engineer in charge of the Division Office in Dunsmuir, announces he is experiencing much difficulty in securing a sufficient number of draftsmen to keep up with important office work.

The Division Office force at present is short from eight to ten draftsmen. Calls on the Civil Service Commission are bringing little result, and it has been found impossible to secure the necessary help elsewhere.

George R. Winslow, Sacramento Division Engineer, also reports a shortage of draftsmen, stating that he is in need of about eight more men at present.

Day laborers for road work in the Dunsmuir district are also scarce. On a number of occasions Bedford said he had to send to Sacramento for laborers; and then experienced trouble in securing the number of men called for.

Laborers are being paid from \$4 to \$5 per day, while the pay of draftsmen ranges from \$150 to \$225 per month according to the grade.

EXTENT OF THE CONSTRUCTION INDUSTRY

Very few men of affairs in this country appreciate the magnitude of the construction industry. Statistics on any industry of such wide ramifications may easily appear misleading. It is significant to note, however, that the 1922

building program of the nation will probably involve the expenditure of at least seven hundred million dollars. The construction of buildings in cities and towns which issue building permits will exceed twice that figure for the first six months of 1922. Farmers are the largest consumers of cement in the country, so some idea of their construction expenditures may be had. Combining these figures with the money spent on municipal and railroad improvements we arrived at totals that really are a astonishing.

With these totals in mind, it may be surprising to find so few really large concerns directly or indirectly engaged in the construction business. The steel and cement mills are notable exceptions. There are practically no manufacturers of other raw or finished construction materials, and none of construction machinery, comparable to any one of a long list in the automotive, farm implement, railroad car and locomotive or electric industries.

All this is due to certain limiting conditions that have existed in the industry. We are likely to see various combinations worked out which will permit advantage to be taken of the conditions which have made for the success of large units in other industries of less magnitude. Such consolidations will offer large opportunities for improved products, lower prices and better service to the consumer. This is the outlook for the immediate future.—Stream Shovel and Bridge.

CAR SHORTAGE DELAYS LUMBER SHIPMENTS

Declaring that "the transportation outlook is ominous," the National Lumber Manufacturers' Association announces that scarcity of cars and slowness of forwarding those which were loaded had cut lumber shipments in the week ending September 16 to "only 82 per cent of the production."

Shipments that week were only 17,000,000 feet greater than in the corresponding week of 1921, although production was 73,000,000 feet greater, the statement declared adding:

"The transportation congestion seems to have developed to critical proportions somewhat more suddenly in the South than elsewhere, and the Southern Lumber Association states that it is making heroic effort to secure more cars from the car service officials."

Southern pine shipments declined last week 3,500,000 feet, in the face of a production increase of 7,000,000 over the preceding week and with a larger volume of orders.

The West Coast Lumbermen's Association was barely able to keep shipments up to the level of the preceding week in the face of increased orders and production.

While the transportation outlook is ominous some satisfaction is derived from the fact that production is gaining on accumulated orders for the time being, thus making for a stable lumber market.

For the first time this year orders during a week have been less than for the corresponding week of 1921, the reported decrease being almost 28,000,000 feet.

Of the other hand production was 73,246,171 feet greater and shipments 28,164,577. However, the compared week of 1921 was one of abnormally large orders for that year, being 25 per cent more than the cut.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

A brief review of business conditions in the Twelfth Federal Reserve District as reported by John Perrin, chairman, shows a marked activity in industry, which, in this district is largely concerned with the primary handling of raw materials, continued during August and the first part of September. Demand has increased for both skilled and unskilled labor, particularly farm workers, experienced copper miners and skilled building trades artisans, a shortage of one or more of these classes of workmen having developed in a few sections. The lumber industry is 50% more active than it was a year ago and both domestic and foreign markets are buying in large quantities. Production of logs on September 1st was estimated to be 75% of normal compared with 40% on August 1st. Increased output of all the principal metals produced in this district, gold, silver, copper, lead and zinc is shown by figures for July which are the latest available. Further evidence of increased activity in lumbering and mining is contained in the reports of the principal electric power companies of the district. In July, 1932, electric power companies of the Pacific Northwest increased their sales to the lumber industry 20 per cent over July, 1921, and in the districts as a whole, sales to the mining industry were 18.7 per cent greater in July, 1932, than in July, 1921. The number of building permits issued during August was greater than in any month since records were first assembled in 1915 and the value of projected construction has been exceeded only twice; in April and June of this year.

Some months ago the Public Utilities Commission of Ohio ordered railways in that state to make a 25 per cent reduction in freight rates on materials used in road building. The railways protested and carried the case to the Ohio Supreme Court. That tribunal has now upheld the order issued by the Public Utilities Commission and it is understood that the railways will appeal either to the U. S. Supreme Court or the Interstate Commerce Commission. The decision of the Ohio court, however, means that present freight rates on road building materials will probably continue during the present building season and that there will not be during that period any substantial increase. Thus the conflict between the rail and road continues, in one phase or another, though not always openly admitted. With motor freighting companies using truckage built and maintained by the public while the railroads must provide and maintain their own roadbed, there is reasonable ground for railway complaint. The balancing of the two transportation forces to a point where each will serve as an aid to the other will in due time become an accomplished fact, but not until highway surfaces are brought up to the same standard of improvement as the vehicles now in use. Taxing vehicle operation to overcome incessant repairs on weak roads is false economy. With adequate road investment, there will be no complaint on the part of vehicle interests to paying their just share in highway construction and upkeep.

That the Portland cement industry has capacity sufficient to take care of a very marked increase in construction activity is evidenced by United States Geological Survey production figures for August and preceding months this year, just issued. Notwithstanding the inability of some companies to secure coal, which is a very important item in the cement manufacturing process (200 pounds of coal being required for manufacture of each 376-pound barrel of Portland cement) August was the best production month on record—11,664,000 barrels being produced. This was the fourth successive month in which production has exceeded total production since the active construction season opened. Production has exceeded 11,000,000 barrels, and that figure had never heretofore been exceeded. Total production for the year to date is 132,000,000 barrels, or 1 has been approximately 55,000,000 barrels, or at the rate of 132,000,000 barrels per year. Shipments for the year to date on record totaled slightly under 100,000,000 barrels. With shipments to August 20, this year, in excess of 76,000,000 barrels it is quite probable that shipments during 1932 will be in excess of 100,000,000, notwithstanding the fact that many companies are just getting back to normal production after operating at reduced capacity or not at all during the later weeks of the coal shortage.

More than 26,000 strikes have disturbed industrial America during the past decade, it is estimated by Industrial Digest, New York. More than 60 per cent of all the strikes of the past ten years have taken place in the States that lie north of the Ohio and east of the Mississippi; about 10 per cent of them in territory to the south of the Ohio and east of the Mississippi; and the rest in the West.

Among the cities New York heads the list, with 2196 for six years, or an average of 366 a year. Chicago follows New York, but the total for the six years is only 619, or an average of about 104 a year. In Philadelphia the total for this period was 409; Boston, 407; Cleveland, 287; St. Louis, 286; Newark, 212; Baltimore, 201; Cincinnati, 173; San Francisco, 170; Providence, 165; Detroit, 171; Seattle, 163; Pittsburgh, 159; Rochester, 155; and New Orleans, 142.

The largest number of strikes called during this period affected the building trades, more than 2700 having been called by the building trades unions. The metal trades union accounted for more than 2600; the clothing industry for more than 2000; the miners for about 1400; the textile unions for 1250; steam and electric transportation for more than 1200; and strikes called by paper manufacturing, tobacco, furniture, iron and steel workers and lumber unions were in all instances less than 500 and more than 100.

A warning to go slow on residential building in Chicago has been given by the Citizens Committee to Enforce the Landis Award in Chicago, after a study of local conditions and general conditions in the industry at this time. Construction costs of the type of building have increased from 15 to 20 per cent, according to contractors who operate under the Landis award. The committee states that the owner will save from \$750 to \$2000 if he holds off building for another six months or a year. The original shortage of single family houses in Chicago was placed at 5000. New permits show provision for living quarters for 12,533 for the year, but this includes a great number of new apartments.

(Continued on Page 7)

ALONG THE LINE

The Associated Pipe Line Co. will construct a 31,500,000 gallon crude oil reservoir at Tracy to be used for reserve purposes.

C. L. Hill is succeeded by Ben F. Dupuy as City Engineer of Glendale, Calif. Hill resigned to enter private practice. Dupuy has been city engineer at Fullerton, prior to which he was city engineer for Long Beach.

The Modesto City Planning Commission in a report to the City Council recommends a height limit of 85 ft. for buildings erected in the city limits. Recommendation is also made for residence, business and industrial zones.

Madera county supervisors will call election in November to vote bonds of \$150,000 to finance construction of a new county hospital. No architect has been selected as yet to prepare the necessary plans.

Arthur H. Dimock, former city engineer of Seattle, Wn., has opened a suite of offices in the Central Building, that city, and will engage in municipal, hydraulic, hydro-electric, water works and sanitary engineering.

A. A. Parton, Mechanical Engineer, and Los Angeles District Engineer for the Luitwieler Pump Co., died in that city September 16. Parton engaged in contracting for water works construction before assuming the management of the Luitwieler plant.

O. G. Bowen, structural engineer, has opened an office at 1301 Van Nuys Bldg., Los Angeles, and will engage in the practice of structural engineering, both steel and reinforced concrete. Bowen was formerly structural engineer in the offices of Architects Morgan, Wells & Morgan.

The Southwestern Portland Cement Co. plans to erect a cement plant near Phoenix, Ariz., to cost about \$1,250,000, according to O. J. Binford, secretary and general manager. The plant will have sufficient capacity to care for the entire Arizona field and will employ between 125 and 200 men.

The City Council of Chandler, Ariz., desires a report and estimate of cost of installing a complete sewer, water and lighting system, the total cost of which is not to exceed \$150,000. Engineering firms interested are requested to make a personal visit to Chandler as soon as possible. Communications should be addressed to City Clerk at Chandler.

Albert Givan, City Engineer of Sacramento, has been authorized by the City Council to make a trip to Mississippi river points to study wharf construction. The trip is to be made to determine the practicability of more modern wharves and to incorporate some of the most feasible ideas into plans for the wharves to be constructed by the Sacramento City Commissioners under the recent \$250,000 bond issue.

Palo Alto's Street Paving Program

Before going into the details of the municipal paving operations at Palo Alto it seems desirable to give a brief sketch of the street improvement procedure which finally lead to the installation of the municipal plant.

In May, 1916, the city received bids on some 1,300,000 square feet of 5-inch concrete pavement. The lowest regular bidder proposed to do the work at the reasonable figure of 10.65 cents per square foot for grading and paving and an award of contract was made to this bidder. It appears however that there was an irregular bid received which was slightly lower, and the contractor who submitted the proposal objected strenuously to the decision of the Council in awarding the work to the lowest regular bidder. The matter was taken into the courts and fought out on various points for over a year and a half. The courts sustained the city in all points but by the time the decision was rendered the conflict in Europe was on and prices for labor and materials had risen to such a point that it was impossible for a contractor to proceed so the work was abandoned.

In 1918, bids were received on this work but were rejected as being too high. If award had been made at this time the work would have cost the property owners some \$125,000 more than it would under the 1916 bid. This was a sore point with the city officials and they were thoroughly disgusted with the method employed by contractors to interfere with each other's bids.

The last bidding was in March, 1921, when the city advertised to lay 875,549 square feet of asphaltic and hydraulic concrete pavements. The bids received for this work were carefully reviewed by the Board of Public Works and the City Council but were finally rejected as too high and the City Engineer was ordered to report on the installation of a paving plant and to suggest a method by which the work might be financed and carried on.

Hydraulic Cement Concrete Adopted
Hydraulic cement concrete was adopted as the type of pavement to be laid because it was believed to be somewhat superior to the asphaltic types and also less costly to maintain. Moreover the asphalt paving plant is more costly to construct than a concrete mixing plant which fact further favored the selection of the concrete type of pavement.

The plan adopted for carrying on the work was by private contract between the Board of Public Works and the property owners. The front foot method of assessment was used and payment for the work was to be made in advance of the actual paving. A city the size of Palo Alto is unable to finance street work on a large scale so the payment in advance plan seemed to be the only practical solution of the problem. The district plan of assessment cannot be used successfully under this system of financing but probably will be adopted later in certain instances when the cash reserve of the city is larger than at present and can be drawn on temporarily until payments come in.

The type of paving plant adopted was what is known as the central mixing plant, consisting primarily of a rock and sand bunker, a material measuring hopper and a stationary concrete mixer. Combined with this was an electrically driven derrick and clam shell bucket for unloading material from the cars directly into the bunker com-

(By J. E. Byxbee, Jr.)
Paper Read Before the Convention of the League of California Municipalities Held at Stanford University

partments, and a cement platform and shed conveniently placed so that the labor of handling cement from the freight cars to the mixer was reduced to a minimum. This plant meets all our expectations for convenience, accurate proportioning of ingredients, and economy of operation, and for our work is far superior to the central proportioning plant or other plant layouts commonly used for concrete pavement construction.

Electrical drive relieves us of power troubles; also the plant is at all times available for turning out concrete for other municipal purposes and is used quite extensively in this way.

We used Professor D. A. Abrams table for 3000 lbs. concrete in proportioning the mixture and follow closely his recommendations regarding the water content. Each batch turned out by the mixer contains 18 cubic feet of placed concrete and consists of four sacks of cement, 0.34 cubic yards of sand, 0.51 cubic yards of rock and approximately 17 gallons of water. The sand used is known as the 1/4-inch size and the rock varies from one inch to two and one-half inches. Concrete is mixed for at least one and one-half minutes.

The concrete is dumped directly into one-ton Ford trucks equipped with gravity dump bodies of capacity to take the full 18 cubic foot batch from the mixer. These trucks are operating very satisfactorily. They are reliable and speedy and deliver the concrete from the plant to the road for approximately 23 cents per ton, which is a very low haulage cost. The distance from the plant to the work during the past year has averaged over one mile.

Laid in Two Strips

The concrete is laid in two strips in order to effect better control in finishing. By this method a strike board extending from the center of the road to the curb may be used where such a means of tamping would be impractical if an attempt were made to finish the street surface for the whole width in one operation. We have tried both methods and find that it is possible to get smoother and better concrete surface by laying the pavement in two strips.

The thickness of the pavements for the residence streets now varies from 4 1/2 inches to 5 inches. The concrete as delivered by the trucks is first spread by hand then tamped with a heavy strike board shaped to give the surface the required crown. After this operation the surface is rolled with a light hand roller, then finished with a longitudinal float.

The hand rolling is very beneficial in that it eliminates hair cracks by removing the surplus surface moisture. The longitudinal float was adopted because it was found to make a smoother riding surface than any other finishing tool. This float consists of a flat board 8 inches wide by 12 feet long provided with handles at each end at convenient height for two men to operate from bridges spanning the pavement. The float is moved backward and forward in from 6 to 12 inch strokes in a longitudinal direction and at the same time is shifted slightly transverse so that the whole surface from center to curb

is floated. The operation irons out the irregularities left by the strikeboard and roller and leaves the surface true and smooth.

No expansion joints are provided. The natural cracks which form are poured with E grade asphalt or Roadmate. The main objection to this treatment is that it disguises the appearance of the pavement, due to the irregular black lines following the cracks. A cement colored filler would eliminate this unsightliness and it is hoped that something of this nature may be developed.

The pavements are cured by the tamping method for ten days, then allowed to dry out slowly for ten days more before traffic is allowed on them. Water for sprinkling and curing is furnished from hydrants through 1 1/2-inch pipes temporarily laid along the line of work.

Revenue Figures Given

The revenue and expenditure account of the municipal paving plant for the first year's operation are as follows:

REVENUE	
Paving Plant	
Paving costs	\$117,775.83
Material sold city depts.	1,731.72
Sale of dirt, cement, etc.	786.88
Sundry paving	1,385.33
Sundries	2,446.24
	\$123,728.00
DEBITS	
Grading	
Labor and team hire	\$11,101.35
Fuel, supplies & repairs.	2,562.68
Rock for base	1,300.00
Total	\$15,364.03
Curb	
Concrete curbing & sidewalk construction - street intersections	4,451.04
Concrete Pavement (preparing mixture)	
Labor unloading cars, mix concrete & hauling to job.	7,742.12
Power, fuel, repairs, etc.	3,810.03
Sand	10,575.89
Broken stone	13,318.87
Cement	44,906.03
Total	\$80,352.94
Concrete Pavement (spreading, finishing and curing)	
Labor	7,799.12
Supplies and expense	1,191.95
Total	\$8,991.07
Wearing Surface	
Labor	264.25
Supplies and expense	87.58
Rock screenings	514.79
Asphaltic road oil	795.57
Total	\$1,662.19
Office and Accounting	
Salaries and wages	3,869.10
Supplies	32.35
Supplies and expense	1,298.27
Rents	120.00
Testing materials	333.30
	\$5,583.02
Fixed Charges	
Interest and depreciation on plant equipment (est.)	4,300.00
TOTAL DEBIT	\$120,704.29
Net Profit	\$3,021.71
received for this work on March 14, 1921, the cost for the paving done by the city during the year would have been \$184,521.89, as follows:	
Grading, 6,229.62 sq. ft. at 50c.	4,672.22
Gutters, 11,970 sq. ft. at 32c.	3,830.40
Asph. pavement, 153,000 sq. ft. at 22c.	33,660.22
Cone pavement, 434,865 sq. ft. at 27c.	117,413.55
Grading, 12,527 cu. yds. at \$1.25	16,158.75
Total	\$175,738.14
Incidental expenses 5%	8,786.75
Total cost	\$184,521.89

Actual cost to property owners for the work as done by Municipal paving plant:
 Curbing, 6,229.63 ft. at 65c. \$ 4,049.26
 Pavements, 599,836 sq. ft. at 18c. 107,970.48
 (Includes grading & paving) 109,170.15
 Incidental expenses 1,000 0.00

Total \$113,219.41
 Saving to property owners, \$ 71,302.48

For the municipal paving plant to make such a large saving, a good contract work in its first year's run, and at the same time to operate without loss, is quite remarkable and extremely gratifying to those interested in this project.

Following is a summary of the cost of labor and material:

Cement \$3.21 to \$3.56 per bbl. f. o. b. Palo Alto, less 5 cts per bbl. for cash. Credit for empty sacks 10 cts. to 15 cts. each.

Crushed gravel \$1.50 to \$1.60 per ton f. o. b. Palo Alto.

Sand and gravel weigh approximately 2800 lbs per cu. yd.

Common labor \$1.00 per day of 8 hrs. Cement workers \$4.50 to \$6 per day. Form setters \$4.50 to \$5.50 per day. Ford one-ton truck drivers \$5 a day.

CEMENT ASSOCIATION ISSUES HOME BUILDING BOOK

"Concrete Houses," a new book on the use of concrete in home construction issued by the Portland Cement Association, Chicago, has been added to the collection of instructive publications on this important subject.

This book contains twenty-five designs and plans of small homes, bungalows and two story, and contains practical information which will be of assistance to those engaged in concrete construction and others who are planning a home or contemplating the use of cement in making permanent, economical and fireproof improvements about their home.

The book will be sent postpaid for 50 cents in stamps, check or money order, by the Portland Cement Association, 785 Market Street, San Francisco.

SACRAMENTO WILL COMPLETE LAST UNIT OF FILTRATION PLANT

The Sacramento city commissioners have announced City Engineer Albert Givan to construct the syphon system of intake for the filtration plant. City Engineer Givan estimates the work can be done for \$120,000, whereas bids received on the work were approximately \$40,000 more than the estimate. The syphon system is a substitute for the original plan that provided a tunnel which would carry the water by gravity from the intake to the filtration plant proper. The tunnel work was stopped on January 1st last by order of City Manager Seavey when he claimed the Coast Construction Company was failing to keep within the \$135,000 estimate for the work. At the time the work was halted \$160,000 had been expended.

GAS PRODUCER MADE FROM CONCRETE

A reinforced concrete gas generator, a new development, has been announced in Italy and is now being used on a large scale for the production of gas in that and other countries in Europe. The body of the apparatus is bell-shaped and is made from reinforced concrete. The base is concrete as well and the producer is set into a shallow vessel, filled with water, which makes a water seal. The apparatus is explosion-proof, and works very efficiently. It is claimed that the initial cost of the apparatus is over 50 per cent less than that of the all-metallic producer. Similarly, the maintenance cost as very moderate and much less than with other types of gas generators.

"EFFICIENCY" MOVEMENT ROOMS PAINT TRADE

Manufacturers are becoming careful of the eyesight of their workers, and therefore many of them are having the interiors of their factories repainted in light colors, says The Industrial Digest, in a review of connections in the paint trade.

"A steady demand for paint is likely to result from the movement in industry toward efficiency," says the magazine. "The campaign conducted by the National Eyesight Council has resulted in impressing the need for eye protection upon manufacturers. They have become convinced that not only for humanitarian reasons but for their own profit, it is necessary to surround workers with the best light obtainable. White or light colored walls are becoming the rule in a great majority of factories today. Then, too, manufacturers are discovering that it pays to make repairs."

"The building boom, with the large percentage of residence building, has created an enormous demand for paint. And the need for refurbishing the rolling stock of the railroads has created another market which is likely to be active for some time to come."

"The increased interest in civic improvement is another powerful ally of the paint manufacturer. Throughout the country cities and towns are conducting 'clean-up' and improvement campaigns that are certain to result in a greatly increased demand for paint."

SUMMARY OF ACCEPTED BID PRICES FOR JULY

Accepted bid prices on Federal aid roads averaged for the whole United States for the month of July are given in a monthly table issued by the Bureau of Public Roads. The prices are as follows:

Common excavation 35 cents per cubic yard, unclassified excavation 63 cents per cubic yard and rock excavation \$1.25 per cubic yard.

The following prices per cubic yard are for surfacing material in place on the road: Gravel, \$1.65; sand and clay \$1.32 and crushed stone, \$2.72.

Surfacing per square yard in place on the road cost as follows: Gravel, 50 cents; bituminous macadam, \$1.63; bituminous concrete, \$2.40; plain cement concrete, \$2.09; brick, \$3.40.

Reinforcing bars 4½ cents per pound and structural steel 8 cents per pound, both in place.

There is considerable variation in the cost of the various items in the different States due to various reasons. The complete table listing the items by States may be obtained upon request from the Bureau of Public Roads.

GROWING COLORED WOOD

A method of coloring the wood of growing trees has been devised by a German engineer, who has been able to color the tree any shade while it is still growing. Various aniline dyes are used, which do not poison the tree or affect its growth in any way. The entire tree from the very ends of its roots to the top-most branch and leaf, can be colored any desirable shade within 48 hours after the solution of the dye-stuff is injected into the roots. About 50 grams of the dye are used to 200 liters of water. The sap of the tree carries the coloring matter throughout its structure. This new development opens up many possibilities of securing novel and startling affects in the novelty business, and it also makes possible the perfect imitation of certain natural woods. It is reported that certain Dutch and American interests are giving this process serious attention.

IRRIGATION MEN TO CONVENE AT MODESTO

At Modesto on October 6 and 7 there will be a meeting of the Irrigation Districts' Association of California, at which, among other important business, the association will decide upon the attitude it will take towards two measures on the November ballot, namely, the Water and Power Act, and the measure providing for placing the control of irrigation districts in the hands of the railroad commission. The latter measure includes irrigation districts along with other public and semi-public organizations.

The Irrigation Districts' Association of California includes some eighty districts of the state. The officers are S. A. Hultman of Turlock, president; Chas. F. Lambert, of Willows, vice president; W. D. Wagner, of Merced, secretary-treasurer. The executive committee includes these three and in addition C. E. Steininger, of Escalon, A. L. Cowell of Stockton, J. Stuart Ross of El Centro and F. F. Atkinson of Sacramento.

A SAD REALITY

(Reprint, By Request)

Said the Architect to the Builder,
 With a large and mournful sigh,
 "I'd like to give this job to you.
 But, Holy Gee, you're high."

"Oh, never mind," the Builder said,
 "I'll take it anyway;
 I'll just knock off ten thousand bucks
 And make the SUCKERS pay."

The SUBS came flocking 'round the job
 And pruned knives left fly.
 But all the Builder said to them
 Was "Holy Gee, you're high."

He took their hide, he picked their bones

And scamp'd each carcass dry.
 They gave the money, brains and skill
 And he got all the pie.

E. T. Thustein, Secretary of the General Contractors of San Francisco, in an effort to add to the gaiety of the "dull" season adds the following verse to the above:

"But when the pie was opened
 'Twas found just filled with crow.
 And the Builders ate the filling
 While the Owner kept the dough."

ARCHITECTS' CERTIFICATES GRANTED

At the meeting of the State Board of Architecture held on September 26th the following were granted certificates to practice architecture in this state:
 W. F. C. Gilliam, 1228 Paloma Ave. Burlingame.

Martin J. Rist, 955 Clayton St., San Francisco.

Vincent W. Jorgensen, 406 Balboa Bldg. San Francisco.

William Mooser Jr., Nevada Bank Bldg., San Francisco.

Melton V. Mowbray Jr., 4236 Foothill Blvd., Oakland.

Mr. W. E. Phillips, 1073 Monadnock Bldg., who was granted a temporary certificate to practice architecture.

COLLAR OIL BURNER OPENS OAKLAND BRANCH

The Collar Oil Burner Company has opened a salesroom and assembling plant at 226 Webster street, Oakland, and will turn out a new type of burner suitable for hot air furnaces, steam heating plants, etc. The Collar system is a wide departure from any other kind of oil burning system on the market, according to Harry Telford, assistant manager of the company, who declares it is unlike any other steam atomizing system. It uses no steam from the boiler to atomize the oil. Unlike air atomizing systems, it requires no electric motors, air compressors or mechanical devices. The Collar system burns any grade of fuel oil.

SAN FRANCISCO SUPERVISORS PASS AMENDMENTS TO BUILDING LAWS

The Supervisors have passed to print an amendment to the San Francisco Building Laws to be known as Section 107-A, and which reads as follows: "Whenever in this Ordinance, which is known as 'The Building Law' of the City and County of San Francisco, metal lath is required, there may be used in lieu thereof plaster board composed of pure gypsum, wood and Manila fiber, or of other similar materials, but not less than seventy-five per cent (75%) of such composition shall be used of non-inflammable material excepting that in Class A and B buildings the use of plaster board is prohibited in all elevator shafts and in the walls and ceilings surrounding shafts of non-inflammable materials in such buildings.

Such plaster board shall be not less than three-eighths inch ($\frac{3}{8}$ in.) in thickness, and shall be so constructed as to form a mechanical key or bond between the plaster board and the finish plaster. Such mechanical key or bond shall be equally distributed and shall compose at least twenty per cent (20%) of the surface of the plaster board.

On wood joists, furring strips, studding or other wood supports the plaster board shall be securely fastened by means of nails of such length that the said nails extend at least three-quarter inch ($\frac{3}{4}$ in.) into the joists, furring strips, studding or other supports. Such nails shall be spaced or driven not more than 6 in. ($\frac{1}{2}$ in.) apart in one direction and 18 in. ($1\frac{1}{2}$ in.) apart in the other direction. Where the furring strips, studs or other supports are of metal, the plaster board shall be secured by fasteners with galvanized iron wire of not less than No. 11 gauge or with metal clips or nails, spaced the same as in this section provided for nails. All wire nails used for fastening plaster board shall be at least No. 11 gauge with a flat head not less than three-eighths inch ($\frac{3}{8}$ in.) in diameter.

All such plaster board shall have applied thereon at least two (2) coats of hardwall plaster.

A plaster board not less than one-quarter (1/4) in. in thickness, and otherwise conforming to the provisions of this Ordinance may be used, providing, however, the board is of sufficient strength so as to be handled in lengths up to twelve (12) feet.

All such plaster boards shall have applied thereon at least two (2) coats of hardwall plaster.

Section 2. This Ordinance shall take effect immediately.

An amendment has also been passed to print to be known as Sec. 120-A, which reads as follows:

Steel joist floor and roof construction in Class "B" and "C" buildings. Former steel joist floor and roof construction shall be permitted anywhere in the city for dwellings, office buildings, apartment houses, tenement houses, hotels, hospitals requiring not more than four (4) per cent live load per square foot of superficial surface, when supported on a steel frame complying with the requirements of Sections 48, 49 and 50 of the "Building Law" of the City and County of San Francisco, and fire-proofed according to the provisions of Sections 104 and 105 of the building law.

Steel frame tie beams used in this construction shall have a depth at least one-twenty-fourth (1/24) of their span, and shall be no lighter than $\frac{1}{8}$ in. $\frac{1}{4}$ in. section. They shall be riveted to the columns with at least four (4) $\frac{3}{4}$ in. rivets.

Metal joists shall meet the requirements specified for timber joists in Section 48 of the building law and their maximum spacing shall not exceed twenty-four (24) inches center to center. Tension bridging shall be spaced at not more than six (6) foot intervals measured along the joists.

Ribbed metal lath shall be secured to the tops of the joists. This lath shall be not lighter than twenty-four (24) gauge and shall have the minimum sectional areas specified in Section 113-B of the building law for slab reinforcement. This lath shall constitute the reinforcing for the concrete slab.

The lath shall be covered with a concrete slab at least two (2) inches thick for all roofs, and for the floors of dwellings, apartment houses, tenements and hotels. Floor slabs of office buildings, hospitals and other buildings shall have two and one-half (2 $\frac{1}{2}$) inches minimum thickness. The under surface of the joists shall be fire-proofed with a layer of twenty-four (24) gauge metal lath, plastered with a seven-eighths ($\frac{7}{8}$) inch thickness of cement plaster and this fire-proofing shall be so securely fastened to or suspended from the joists.

Formed steel joist floor construction shall be limited to eight stories above the sidewalk.

This construction may also be built upon Class "C" frames as specified in Part IX of the building law.

Section 2. This Ordinance shall take effect immediately.

OTIS ELEVATOR COMPANY PLANS REORGANIZATION

Plans of Otis Elevator Company Directors embracing a re-capitalization will probably be ready for submission to the stockholders within two months, according to word from New York.

President F. C. Furlow, who is in Italy superintending organization of the Italian subsidiary and his return has been delayed. As soon as he returns it is expected that plan will go forward.

Another 50 per cent stock dividend is probable, to be followed by a split-up of the \$100 par value common shares into four of \$25 par value.

Total capitalization of Otis is \$11,227,800 common and \$6,700,000 preferred, with no funded debt. Declaration of a 50 per cent stock dividend would bring common outstanding to \$21,341,700.

Capitalization, common and preferred stocks, now stands at \$20,727,800. Otis has over \$11,000,000 working capital of which only a small part is inventories. Plant account is carried at \$9,646,000 and investment in other companies \$3,600,000. Good will, patent and office equipment are carried at \$1,000,000. It is to bring capitalization more in line with earning power and assets that the 2nd stock dividend of 50 per cent is contemplated.

Company has about \$7,200,000 in cash or its equivalent. This is more than ample for requirements.

July business was the best so far this year with indications that August will be even better. Continuation of building operations on a large scale seems to assure a busy last half of the year.

Earnings in first half of 1922 available for dividends amounted to \$1,185,522, equal to \$7 a share on the common. Otis should be able this year to do better than \$16 a share on the junior issue or more than twice dividend requirements.

Operations have already been started in Italy. Formation of the Italian company and plant will require practically no investments as government has given orders and guarantees for amount which should exceed initial expenditure. Italian subsidiary forms another link in the chain of foreign plants. Otis is already operating in England, France, Germany, Belgium and Canada.

NEW COURTHOUSE PROPOSED FOR STOCKTON

The San Joaquin County supervisors proposed to call an election in November to decide whether the courthouse site and building shall be sold and new courthouse erected on another site. A second proposition will provide to determine whether the property shall be retained and additions made to the present building, the improvements to cost approximately \$750,000.

The Observer.

(Continued from Page 4)

Building activities in Pacific Coast cities for August, 1922, follow (for comparison the figures for 1921 in the same cities are given):

	Aug. 1922	Aug. 1921
Alameda	119,009	31,197
Berkeley	556,300	248,614
Fresno	107,398	383,572
Long Beach	865,588	889,164
Los Angeles	11,523,891	7,015,861
Oakland	1,651,129	1,852,693
Pasadena	923,358	566,531
Sacramento	867,016	348,788
San Diego	1,145,415	112,109
San Francisco	6,214,082	1,216,437
San Jose	188,076	39,975
Stockton	285,109	114,010
Portland, Ore.	1,241,280	1,186,982
Everett, Wn.	69,206	50,931
Seattle, Wn.	1,200,719	1,340,430
Tacoma, Wn.	259,647	318,245

Coast Rock and Gravel Co. has filed complaint with the Railroad Commission against the Southern Pacific Co. and the Sacramento Northern Railroad alleging that the rate of \$1.20 a ton charged for the transportation of crushed rock sand and gravel from Fair Oaks to Sankey during the period September 13 to October 5, 1921, was excessive. Complainant states that the Southern Pacific in connection with the Western Pacific maintained a rate for this service of 80 cents a ton. The latter rate is declared to be reasonable and reparation for the difference between the two rates is asked.

Federal Power Commission has advised the California Fish & Game Commission that no action will be taken in the application of the Electro Metals Company for permit to construct two large dams at the forks of the Salmon River a tributary of the Klamath River, until water rights have been granted by the California State Water Commission. The Fish & Game Commission is opposed to the granting of the permit.

According to advices from Santa Clara, Cal., Geo. S. Bandy, lumber man, secured a deal with the Seaton for the purchase of the Seaton timber on the back ranch for \$50,000 from which they expect to cut 5,000,000 feet of first grade redwood lumber. The ranch is about seven miles up the coast in the laguna district.

Speculators of San Francisco businessmen have purchased the old Fredericksburg Brewery in San Jose and will remodel the structure for a cold storage and ice making plant. Main building will be enlarged and other structures will be fitted up for packing plants, dry kilns and creamery quarters.

The Red River Lumber Co. has secured options for the purchase of 260 acres of land lying northeast of Susanville and comprising a portion of the Milwood tract and lands adjoining the tract on the north. A new mill will be erected.

Department of Commerce figures out a decrease of 38.8% in the Arizona-New Mexico lumber cut for 1921 as compared with the preceding year. In 1921 25 Arizona mills cut 35,138,000 ft. and 66 New Mexico mills cut 34,526,000 ft. Sharp is attributed to falling off in general business conditions.

Jelly-Rite Co. has leased property in Santa Clara, 217 by 455 feet, on which it proposed to erect a plant, the first unit of which will cost \$10,000.

Building News Section

APARTMENT HOUSES

Figures to be Taken in a Few Days.

APARTMENTS Cost, \$15,000
SAN FRANCISCO. Mission District.
 Three-story frame store and apartment building (2 3-room and 2 2-room apts.)
 Owner—Withheld.
 Architect—Arthur G. Scholz, Phelan Bldg., San Francisco.

Sketches Being Prepared.
APARTMENTS Cost, \$40,000
SAN FRANCISCO. Western Addition.
 Three-story frame and plaster apartment house (12 2-room and 3 3-room apts.)
 Owner—Withheld.
 Architect—Arthur G. Scholz, Phelan Bldg., San Francisco.

Plans Completed.
APARTMENTS Cost, \$125,000
LOS ANGELES. Los Angeles Co., Cal.
 Olive St. bet. 2nd and 3rd Sts.
 Four-story brick apartment house, 45x 145 (53 2 and 3-room apts.)
 Owner—Dr. E. D. Edmunds.
 Architect—Allen & Hillier, 614 Union Bank Bldg., Los Angeles.

Contract Awarded.
APARTMENTS Cost, \$16,000
OAKLAND. Alameda Co., Cal. Piedmont by-the-lake, Lot 107.
 Two-story and basement frame 16-room apartment house.
 Owner—Pauline and Zina Shainoff.
 Architect—Schirmer-Dugbee & Co., Thayer Bldg., Oakland.
 Contractor—Chas. W. Short, 574 Rosal Ave., Oakland.

To Be Done by Day's Work.
APARTMENTS Cost, \$20,000
SAN FRANCISCO. S E Greenwich and Polk Streets.
 Three-story and basement frame (12) apartments.
 Owner—Axel A. Johnson, 632 Belvedere St., San Francisco.

Plans Being Prepared (Segregated Figures to be Taken About Oct. 15th).
APARTMENTS Cost, \$45,000
SAN FRANCISCO. Filbert St. near Larkin, 44x137-6.
 Two and three-story frame and stucco apartment house (12 4-room and 3 3-room apts.) Garage in basement for 8 machines with turn-table.
 Owner—Withheld.
 Architect—O. R. Thayer, 110 Sutter St., San Francisco.

Low Bidder.
APARTMENTS Cost, \$64,400
SAN FRANCISCO. SE Stockton and Pine Streets.
 Four-story and basement reinforced concrete apartment house.
 Owner—S. P. Meyer, 2525 California St., San Francisco.
 Architect—Herman Barth, Phelan Bldg., San Francisco.
 Low Bidder—John Spargo, 240 Montgomery St., San Francisco.

Contract Awarded.
APARTMENTS Cost, \$12,000
OAKLAND. N W Clifton and College Avenue.
 Two-story 16-room frame apartments.
 Owner—A. Peterson, 5215 Broadway, Oakland.
 Contractor—Jones & Sleep, 5642 College

Plans Ready for Figures Thursday.
APARTMENTS Cost, \$50,000
SAN FRANCISCO. S E 15th and Dolores
 Three-story and basement frame apartments (12 2-room apts.)
 Owner—Withheld.
 Architect—Albert Schroeffer, Nevada Bank Bldg., S. F.
 Figures will be taken for a general contract with separate bids for plumbing, electrical work and painting.

Contract Awarded.
APARTMENTS Cost, \$12,000
SAN FRANCISCO. S Henry 180 E Noe.
 Two-story and basement frame (4) apts.
 Owner—M. Christensen.
 Contractor—C. M. Lee, 21 Steuart St.

Contract Awarded.
APT. HOUSE Cost, \$36,650
SAN FRANCISCO E Taylor 27-8 S Bdwy
 Three-story frame apartment house.
 Owner—Emma S. Sawtelle.
 Architect and Contractor—Kincanon &

Preliminary Plans Being Prepared.
APT. HOUSE Cost, \$70,000
LOS ANGELES. L. A. Co., Cal. Wilshire Blvd. & Shatto Place.
 Ten-story class A co-operative apartment house.
 Owner—E. A. Wayt, 511 Loew State Bldg., Los Angeles.
 Architect and Engineer—Edw. C. and Ellis W. Taylor, 713 W 8th St., L. A.

Contract Awarded.
APARTMENTS Cost, \$16,212
SAN FRANCISCO. S W Chestnut & Franklin.
 Three-story frame apartments.
 Owner—Chas. H. & Maria Porta.
 Architect—Albert F. Porta, 522 Washington St.
 Contractor—John Harder, 870 39th Ave.

BAKERSFIELD. Kern Co., Cal.—Architect Eugene K. Martin, Arlington Bldg., Bakersfield, at \$67,000, has awarded a contract to Geo. I. Harris, Bakersfield, to construct the McGiel apartments at 19th and E streets, Bakersfield.

FRESNO, Fresno Co., Cal.—Archts. Alfred W. Rea and Chas. E. Garstang, 905 Trust & Savings Bldg., Los Angeles, are completing plans for a mausoleum to be erected at Fresno for Community Mausoleum Co., of Fresno. E. M. Wheat-

WESTERN UNION TELEGRAM
San Francisco, Calif., Sept. 23, 1922.

Mr. and Mrs. J. A. Reynolds,
Capitola-by-Sea, Calif.
On behalf of the Builders of California, we congratulate you on your Fifty-sixth Wedding Anniversary and we hope you will enjoy many more together. It is so refreshing to see two wonderful persons like you enjoying each other's companionship for over half a century.

Very truly and charge,
Pratt Building Material Co.
518 Hearst Bldg., S. F.
NOTE—Clarence Sand Pratt published the following letter a few days ago, but believes it is worth repeating.
Capitola-by-the-Sea, Calif., September 5th, 1922.

Dear Mr. Pratt:
Today Mr. Sparling came to our house and gave each of us \$5.00, he said we were the oldest couple, married the longest in Capitola. It surprised us as we just gave in our names for fun not thinking that we were the longest married couple in Capitola.
Mr. Reynolds is 82 the 10th of this month and I will be 77 the 25th of next January. We were married Sept. 23, 1866, both came from Wisconsin, he in 1872 and I in 1864. We met in Stockton in September 1861.
We both thank you for your kind donation and we will always remember your kindness. Hope you will come back to our lovely little town some time again in the future.

Sincerely,
MR. & MRS. J. A. REYNOLDS.

FOR FIFTY-SIX years.

MR. AND Mrs. Reynolds have lived together.

AND MUST think.

MOST OF us.

WERE NOT even born.

WHEN THEY were married.

AND CLARENCE Sand Pratt, President OF THE Pratt Building Material Co.

DOUGLAS 100—"easy to remember."

WAS GLAD.

TO SEND a telegram last Saturday.

TO THE Reynolds

CONGRATULATING THEM.

ON BEHALF of the Builders.

AND ON September 10th.

WHICH WAS Mr. Reynolds' birthday.

CLARENCE SAND Pratt, sand producer.

SENT A special delivery letter.

WISHING HIM many happy returns.

OF THE day.

WE ALL know.

THEY ENJOYED.

BOTH THE special delivery letter.

AND THE telegram.

IT IS a lot of fun.

TO MAKE some one happy.

YOU KNOW.

IF YOU never give.

YOU NEVER receive.

THEY GIVING out happiness.

BY THOUGHTFUL deeds.

AND SEE the reward.

COME BACK to you tenfold.

"I THANK you."

Fifty-six years ago in Stockton Mr. Reynolds, then a young man of 27, married Mrs. Reynolds, who was a blushing bride of 21. They have traversed a great many miles in the path of life since 1866 and Clarence Sand Pratt, producer of clean, sharp sand for all purposes, hopes they may enjoy each other for many more years.

land, Whittier, general contractor. Reinforced concrete constr., 133x37 ft. 310 cypths, stucco and cast stone exte., marble and tile work, bronze grilles, art glass, etc.

SAN FRANCISCO, Cal.—The Filipino residents of San Francisco and the bay district have purchased a 40-room house on Sutter St. bet. Geugh and Franklin Sts., which will be remodeled into a club.

Rev. H. V. Smith, O. P., is directing the movement for a Filipino center, being actively backed in the work by Archbishop Hanna.

Tennis courts will be installed on the grounds, and there will be social halls, a dance hall, and other club conveniences.

Dr. H. F. Van Trump is general chairman of the executive committee. Christoval Regidor, Filipino commissioner, is the vice chairman. Pedro Tupas will be president of the club; Dr. Marquez, second vice president; Valeros, corresponding secretary; Edward McGlynn Gaffney, secretary-treasurer, and Rev. H. V. Smith, spiritual director.

OAKLAND, Cal.—Until Oct. 5, 12 m., bids will be rec. by E. K. Sturkis, city clerk, for fur lubricating oils for remainder of fiscal year ending June 30, 1923. Bond of \$500 required of successful bidder. Spec. may be had from city clerk.

RED BLUFF, Tehama Co., Cal.—The Board of Supervisors has rejected all bids, save two, for furniture, furnishings and fixtures in the new County house in Red Bluff. This action came after District Attorney M. J. Cheatham had received a letter from the attorney general's office at Sacramento in which the legality was questioned of the proposed purchase of courthouse furniture on contract, under the terms of which the payments would have been extended over a period of two years.

As reported on Sept. 30, the contracts awarded were for the floor covering to W. C. Flickert & Son, of Red Bluff, at \$2713 and for lighting fixtures to Boyd Elec. Co., of San Francisco, at \$3300.

In view of the attorney general's opinion that to buy furnishings on contract would be illegal, and the inability of the county to pay cash for the material at present, the supervisors plan to move the various county offices into the new court house and use the furniture, furnishings and some of the fixtures now in the old court house.

DINUBA, Tulare Co., Cal.—J. H. Graham & Son, Dinuba, at \$12,200 awarded new city hall with exception of brick work, the contract for this portion being awarded to Hoch and Hoffmeyer, of Dinuba, at \$3555. Complete list of bids follows:

Patterson and Green, Dinuba, (1) includes general contract with exception of brick work, \$12,633; (2) brick work only, no bid.

Spaith and Payne, Dinuba, (1) \$13,490 (2) \$4335.

S. N. Chase, Dinuba, bidding 1 and 2 combined, \$15,955.

Graham & Son, Dinuba, (1) \$12,200; bidding 1 and 2 combined, \$16,300.

N. H. Eifert, Dinuba, (2) \$4300.

Hoch and Hoffmeyer, Dinuba (2) \$3555.

Johnson, Kingsburg, (1) \$12,420; (2) \$3500.

Friend and Kimzey, architectural designers, 154 West Tulare St., Dinuba, prepared plans for the structure.

Official Proposals

NOTICE TO CONTRACTORS

(Kern County Branch Library)

Notice is hereby given that the Clerk of the Board of Supervisors, County of Kern, Bakersfield, Calif., will receive sealed bids up to 10 A. M. of October 16, 1922, for the erection and completion of a one-story brick and frame branch library building at McFarland, Kern County, Calif., in accordance with plans and specifications for same on file with said clerk and open for the inspection of bidders.

Copies of the above plans and specifications may be had at the office of Charles H. Biggar, Architect, 405-406 Bank of Italy Bldg., Bakersfield, and the work will be done under his supervision.

Each bid must be accompanied by a certified check for at least ten per cent of the amount bid, said check to be made payable to the Clerk of the Board of Supervisors, and same will be held as evidence of good faith on the part of the successful bidder, that he will enter into a contract satisfactory to the Board of Supervisors and in addition thereto will furnish good and sufficient bonds in the amount of seventy-five per cent of the contract price.

The Board reserves the right to reject any or all bids and to waive any informality in any bid received.

By order of the Board of Supervisors, Sept. 18, 1922.

F. E. SMITH, County Clerk and ex-Officio Clerk of the Board of Supervisors.

NOTICE TO CONTRACTORS

(Theodore Roosevelt High School)

Office of the Secretary of the Board of Education of the City of Oakland.

Sealed bids will be received by the Board of Education of the City of Oakland, City Hall Oakland, California, until the 9th day of October, 1922, at 4:30 p. m., at which time said bids will be opened, for the erection and completion of a new building for the Theodore Roosevelt Junior High School, located on Oakland School District, and Oakland High School District, located on the two blocks extending from 19th Avenue to 20th Avenue, and from East 18th Street to East 20th Street, Oakland, California.

Separate bids will be received for:

1. General Work, including excavation and grading, concrete, carpenter work, miscellaneous, ornamental and structural iron work, sheet metal work, built-up roofing work, elevator work, and all similar work for interior equipment.
2. Brickwork and terra cotta.
3. Magnesite work.

Plans and specifications for said work are on file at the office of the Architect for the Board of Education, 2149 Broadway, Oakland, California.

Copies of the Twenty-five (\$25) Dollars said plans and specifications may be had by any prospective bidder for one of the branches of the work above stated. These plans and specifications may be retained as follows:

1. General work, 14 days.
2. Brickwork and terra cotta, 7 days.
3. Magnesite work, 3 days.

If the plans and specifications are not returned to the Architect within the time above specified, or are returned in damaged or damaged condition, the deposit will be forfeited and will be immediately used for the purchase of a new set of blue prints and specifications.

Bids must be made on proposals obtained at the office of the Architect, and be signed by the bidder, accompanied by a certified check, certified by some responsible bank or banker, and made payable to J. W. Edgemond, Secretary of the Board of Education, to be retained by the said School districts as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

enter into the contract after the award, or to give bonds required for the faithful performance of the contract, or any bond required by law. The amount of said check shall not exceed Five Thousand (\$5000) Dollars, but for all bids of less than Fifty Thousand (\$50,000) Dollars, said check shall be for at least ten (10%) per cent of the amount of the bid. Each bid shall be accompanied by an affidavit executed on a form that can be obtained from the Architect.

Bids will be opened by the Board of said Districts on the 9th day of October, 1922, at 4:30 o'clock p. m., in the Board Room, 211 Second Floor of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

J. W. EDMOND, Secretary of the Board of Education of Oakland, California.

NOTICE TO DEALERS IN BEST TRACTORS

Notice is hereby given that sealed proposals or bids will be received by the Board of Supervisors of Santa Clara County, California, in their rooms in the Court House, in the city of San Jose, up to 11 o'clock a. m. of Monday, October 16, 1922, for one or more new sixty HP Cruiser type, Best track layer, tractors, three speeds forward, one reverse truck roller, track links and pins, to be drop forged heat treated drawbars, front and rear, provision for st. plates on tracks if desired, full set operating tools, tractor to be delivered at San Jose, in first-class operating condition, with manufacturer's full guarantee and all bids.

Each bid must be accompanied by a certified check in the sum of 5 per cent of amount bid, drawn upon some reliable bank in favor of Henry A. Pfister, County Clerk.

The Board reserves the right to reject any and all bids.

All bids must be addressed to John Roll, Chairman of the Board of Supervisors of Santa Clara County, and endorsed "Bids for 60 HP tractor."

By order of the Board of Supervisors of Santa Clara County.

Attest: HENRY A. PFISTER, Clerk.

Theo. W. Clark, Clerk

NOTICE TO CONTRACTORS

(Dormitory and Hospital Additions,
Estimated Cost \$65,000)

Office of the Clerk of the Board of Supervisors, Alameda County, California.

Sealed bids will be received by the Clerk of the Board of Supervisors at Alameda County, at his office, until Monday, October 23, 1922, at 10 o'clock a. m. (the day when said bids will be opened and the contract awarded) for the construction of a two-story frame dormitory and also for alterations and additions to certain existing buildings at the County Hospital, near San Leandro, Alameda County, California.

Complete plans and specifications for work on file in the office of the County Clerk in the Hall of Records Building in Oakland, where copies may be obtained by depositing twenty-five dollars. Contracts will be restricted as to the length of time these plans may be retained to ten days. Contractors failing to return said plans and specifications within said time limit will forfeit their deposit.

Each bid must be accompanied by a check for at least ten per cent of the amount of the bid or proposal, to be paid to by some responsible bank, and payable to Geo. E. Gross, Clerk of the Board, to be forfeited to the County of Alameda as agreed and liquidated damages should the party or parties to whom the contract shall be awarded fail to enter into the contract after it award or to give the bond required

by the Board for the faithful performance of the contract.

The Board reserves the right to reject any or all bids.
(SEAL) GEO. E. GROSS,
Clerk of the Board of Supervisors of the County of Alameda.
Dated: September 25, 1922.

NOTICE TO CONTRACTORS

(Dwelling House, Water Supply and
Sewage Disposal System)

The Yuba Development Company will receive bids at its office, 1213 Hobart Building, San Francisco, California, on or before 10:30 a. m., October 5th, 1922, for the construction of three (3) four-room and one (1) five-room bungalow houses, together with the necessary water supply and sewage disposal system, all complete in every detail for its Bullards Park Project near Bullards Bar on the North Yuba River, about forty (40) miles northeast of Marysville, California.

Plans and specifications may be obtained from the Company's Engineer, Mr. Geo. D. Ray, at the site of the work, or at the Company's offices in San Francisco.

Surety Bonds will be required in amount of seventy-five per cent (75%) of the Contract price. The work must be completed within sixty (60) days from date of contract.

Only responsible Contractors are invited to bid for the work, and the Company reserves the right to reject any or all bids or any part of another as it may choose.

**NOTICE INVITING SEALED PROPOSALS
FOR THE CONSTRUCTION
OF A HIGH SCHOOL BUILDING AT
MONTEREY**

Notice is hereby given by the Board of Trustees of the Monterey Union High School District, at Monterey, California, that sealed bids will be received by said Board for the erection and construction of a new High School Building at Monterey, in said District, in accordance with the plans and specification adopted by said Board of Trustees on the 13th day of September, 1922 and now on file in the office of the Clerk of said Board of Trustees.

Plans and specifications may be obtained from the Clerk of the Board or from the Architects, Norman R. Coulter at 46 Kearny Street, San Francisco, Cal. or Marshall A. Deane, 162 Pacific Avenue, Pacific Grove, Cal. A deposit of Ten Dollars (\$10) will be required for each set of plans.

All bids will be opened by the said Board of Trustees on the 7th day of October, 1922, at 1:30 o'clock p. m., at the Monterey Union High School building, Monterey, California, and all bids must be delivered to Mr. James McIntosh, Clerk of said Board, before that hour, enclosed in sealed envelope, and

marked on the outside, Bids for construction of High School Building at Monterey.

All bids must be accompanied by a certified check, cash or a certificate of deposit equal to Ten (10 per cent of the amount bid; checks or certificates of deposit to be made payable to the Board of Trustees and to be returned to the party or parties whose bid or bids are not accepted, and to the party whose bid is accepted, upon his entering into a Contract with the said School District and giving such bonds as may be required by Law or by said Board.

The Board of Trustees reserves the right to reject any and all bids.

JAMES MCINTOSH
Clerk of the Board of Trustees of the Monterey Union High School District, Monterey, California.

NOTICE TO CONTRACTORS

(Library Building Covering)

The Library Board of the City of Palo Alto, Santa Clara County, California, will receive sealed proposals until 7:30 o'clock p. m., October 5, 1922, at the present Library building, corner of Hamilton Avenue and Bryant Street, Palo Alto, California, at which time and place said bids will be opened and read in public for furnishing the required labor and materials for covering the main floor of the present and new building with linoleum or cork carpet in accordance with plans and specifications therefor by Birge M. Clark, architect.

Cashier's or certified check for bidder's bid for amount not less than five per cent of amount of bid shall accompany each proposal, drawn payable to the order of Willis C. Thoits, president of the Library Board of the City of Palo Alto, as guarantee that the bidder will, if requested, within five days after receiving notice of the acceptance of bid enter into a contract with said Library Board in accordance therewith and furnish the required bond. Said check or bond to be forfeited to the Library Board should the bidder fail to execute contract and bonds as above mentioned.

Plans and specifications for all of the above work may be seen at the office of Birge M. Clark, architect, 600 Embarcadero Road, Palo Alto, California, or may be obtained upon the deposit of \$10, which deposit will be refunded to the bidder when plans and specifications are returned in good condition.

The said Library Board reserves the right to reject any and all bids and waive any informality in any bid received.

By order of the Library Board of the City of Palo Alto.

By WILLIS C. THOITS, President.

IT STANDS ON THE SOLID

The Keystone can be equipped with three different, readily interchangeable buckets. Skimmer, Ditcher and Clamshell, for varied uses. With each one it has all the efficiency of highly specialized design. A catalog, and booklet "Keystone Shovel Jobs," on request.

THE Keystone Ditcher has more sense than to get on a rickety bridge or on a platform while travelling over a hole. The danger of a cave-in is too great, and the consequences of such a tumble are too serious to take any such chances.

There have been too many sad cases where something slid or slipped or broke and much good machinery got mixed up in the bottom of the trench.

So the canny Keystone stays out on the hard ground, digs in front and backs away from the excavation as completed. In this operation it combines the instinctive wisdom and caution of the elephant with the movement of the craw-fish.

And the contractor saves quite a bit on cribbing which may not be necessary at all.

Congress of March 3, 1879.

CITY PLANNING EXHIBIT WILL BE FEATURE OF OAKLAND HEALTH AND SAFETY EXPOSITION

Preparations are being made for the forthcoming city planning exhibit in connection with the International Health and Safety Exposition to be held in the Municipal Auditorium, Oakland, Calif., from November 17 to the 26th. Exhibits are being sent in from all parts of the United States including one-man exhibits of a number of city planning engineers and consultants and drawings and models of work contemplated by various cities.

There will be one day on the program of speakers devoted to the subject of city planning and a number of nationally known authorities are being notified to participate. Assurance has been received that Edw. H. Bennett, of Chicago, will be in attendance.

The committee in charge of the exhibit consists of Howard Gilkey, City Landscape Engineer, of Oakland, as chairman, assisted by Edw. H. Bennett, architect, Chicago; Stephen Child, City Planner, Boston; Hugh Y. Davis, architect, Stockton; Jno. J. Donovan, architect, Oakland; Wm. B. Fayville, president, A. I. A. architect, San Francisco; H. A. Lafler, Industrial Expert, Oakland; Prof. Eugen Neuhaus, art department, University of California, and John Nolan, landscape architect, Cambridge, Mass.

It is also understood there will be a gathering together of architects and city planning experts to be held in conjunction with the exposition, plans of which will be announced later.

Jamestown Metal Desk Co., 17 Beacon Bldg., Oakland, manufacturing a high grade line of hollow metal doors and trim has been appointed Coast representative for the Pomeroy product hollow metal, fire retardant windows and sash. The company, which was recently awarded the contract for metal desk equipment for the Anglo-London National Bank, solicits the opportunity for estimating on these several important fireproofing accessories.

FIGHT FOR OPEN SHOP BRINGS REFORMS

Reforms within the body of the labor movement can only be brought about by pressure from the outside, notably by the open shop agitation, according to Noel Sargent, manager of the open shop department of the National Association of Manufacturers. As an example of this, Sargent cites the recent announcement of the American Federation of Labor that it has taken a determined stand against jurisdictional strikes, which are aimed not against employers, but against rival labor unions who quarrel over their exclusive rights to do certain kinds of work.

Sargent declares these strikes have been causing enormous losses to both the workers and the employers and great inconvenience to the public. Reviewing the history of jurisdictional strikes during the past twenty years, Sargent predicted the failure of attempts by unions to eliminate such strikes because of their purely selfish nature. He added that the adoption of open shop conditions was the only way by which this could be brought about.

"We optimistically anticipate," his statement continues, "that public opposition of other union policies and methods will result in still more 'announcements' by the Federation that reforms are to be accomplished. But, judged by the past, such 'announcements' will be forgotten and more promises made in the future instead of fulfillment of past promises. During the past twenty years jurisdiction disputes have not lessened.

"The open shop movement has been so widely and spontaneously supported by manufacturers and enthusiastically indorsed by the public that the closed shop forces represented by the American Federation of Labor are desperately endeavoring to find some way of making the public believe that an internal 'whitewash' has been administered.

"The American Federation of Labor is now admitting its own decay—twenty years ago when Mr. Gompers predicted the harm that would be done to unions by jurisdictional strikes only one important town in this country enjoyed open shop building conditions; today over twenty-five important American cities have more than 75 per cent of their building done on an open shop basis. This last 'annual decision' of the American Federation of Labor given out for public consumption, is a significant administration of the vast spread of open shop sentiment in our country."

ELECTRICAL INDUSTRY SHOWS GREAT GAINS

Having expanded within the last several decades until it is the forefront of America's great trade activities, the electrical industry reports for 1921 that a total of 7,638,409 homes in the United States are now wired for electricity. This is somewhat more than a third of the total number of homes in the entire nation, estimated at 21,145,100.

The number of homes wired for electricity at the end of 1920 was 6,219,160, showing a gain for the year of 1921 of 1,345,149 houses. The number of residence customers increased by 1,001,700, amounting at the end of 1921 to 8,467,600.

The growth since 1915 is reflected in the following statement of total residence customers and the gain for the years given: 1915, customers, 4,066,290; gain, 571,000; 1917, customers, 5,241,000; gain, 614,000; 1919, customers, 6,517,600; gain, 772,800; 1921, customers, 8,467,600; gain, 1,001,700.

Leaders in the electrical trade predict that by 1923 there will be 10,677,600 residence customers, and by 1925, 12,215,600. These predictions indicate the convictions of those in close touch with the great industry relative to a general revival of good business. All branches of the trade are reported to be working well together.

LABOR WINNING FIGHT AGAINST OPEN SHOP, LABOR LEADER SAYS

Union labor, particularly the building trades, is slowly but surely winning its fight in this state in the open shop war, F. C. MacDonald, president of the California Building Trades Council, told delegates at a meeting of Fresno Council in that city Oct. 2.

MacDonald, who was accompanied by three other labor officials, all of whom addressed the meeting, asserted that victory was in sight for the union builders at San Jose, while conditions were gradually improving in San Francisco and Bakersfield.

He praised the employers and workers of Fresno and Sacramento for the harmonious settlement of their differences, and declared that what is known as the "Fresno plan" would form the basis for the terms on which industrial peace would reign.

Other speakers before the council were Joseph Tut, chairman of the state conference of painters, with offices in San Francisco; Victor E. Rudin, of Seattle, special organizer for the Painters, Decorators and Paper Hangers of America, and Mr. Stinging, a union official of Chicago.

EFFECT OF INUNDATED SAND ON CONCRETE

The U. S. Bureau of Standards has started an investigation to determine the feasibility of measuring sand for concrete in an inundated condition. With small additions of moisture to sand, the sand swells, that is, the volume occupied by a given quantity of sand increases, and this increase sometimes reaches an amount as large as 33 per cent of the original volume. Conversely, the quantity of sand in a measure of given size varies greatly with the amount of moisture in the sand. This fact makes it difficult to insure the same proportion between sand and cement in successive batches of concrete because the percentage of moisture in sand varies greatly from time to time. Preliminary investigations have indicated that if the vessel in which the sand is measured contains sufficient water to submerge the sand, the same quantity of sand can be placed in the vessel regardless of the quantity of moisture originally obtained. The investigation is to determine whether the measurement of sand inundated will effect uniformity in the proportioning of sand to cement and consequently uniformity in the strength of the concrete. An affirmative answer to this question would mean the solution of one of the most troublesome problems in the concrete industry.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

A full and complete report of the findings of the committee appointed by the San Francisco Chapter of the American Association of Engineers to study the various aspects of the proposed California Water and Power Act has been endorsed by the Chapter and by its sanction made available to anyone interested in the Act. The report represents over a half year of careful study by a committee of technical experts. The personnel of the committee consisted of J. J. Rosedale, chairman, construction engineer; Charles H. Lee, consulting engineer, former executive member California State Water Commission; Donald M. Baker, hydraulic engineer, George Mattis, consulting engineer, former city engineer of Oakland; and E. E. Carpenter, consulting engineer, who has had a broad experience in hydro-electric design, both in California and British Columbia. Financially feasible Water Power sites, comparison of the proposed California Water and Power Act with the Power Act of Ontario, Canada, private ownership versus public ownership, financial aspects of the California Water and Power Act and the workability of the Act, are the various phases and subjects of study as presented. The findings of this committee of engineers is not the work of theorists but comes from the sound, unbiased minds of men having no connection with parties proposing or opposing the Act, of practical judgment, and who have dealt for years with water and power problems in California. Every water or consumer of water and power should rely with safety upon the judgment of a technical organization sponsoring a report in opposition to such a drastic measure.

Eighty-eight new industrial buildings, costing \$2,265,700 were erected in San Francisco during the nine months ended September 30, thereby establishing a new record, according to figures announced by C. A. Day, director of the industrial department of the Department of Public Works. In the list of industrial buildings, only factories and warehouses are included. In addition to the new structures, figures from the office of the city building inspector show \$225,167 was expended for alterations, improvements and additions. This brings the total expended for industrial building construction up to \$2,490,867. Day estimates that \$24,000,000 worth of construction of all classes is now under way in San Francisco. This includes commercial, residential and industrial structures. September building permits, as announced from the office of the city building inspector, totaled 661, calling for an expenditure of \$2,951,858. This was an increase of thirty over September, 1921, when the 631 permits called for an outlay of \$2,100,000.

Says the Seattle Journal of Commerce: Building trades apprentices are being encouraged by older tradesmen to enter other lines of endeavor. The older and more experienced men tell the apprentices that construction work is too lightly paid, that the periods of activity are followed by periods of unemployment and that despite good wages while working, at the end of the year, when all is figured, the street laborer makes better money. Building tradesmen do not want the younger men to experience the disappointments they have. It cannot be disputed that the unions have tried to limit the number of apprentices entered by contractors. The situation from all angles is not satisfactory and building costs, because of inefficient system, have been unreasonably high. Steady employment at a lower wage would be better for the tradesmen, the contractors and the building public.

"A motor tourist can forget a rainy day, but he never will forgive a rough road". In the opinion of W. M. Kinney, general manager of the Portland Cement Association of Chicago, who is spending a few days in California on a business trip, California's road is a long way toward a long way. Kinney stated that practically every person he came in contact with who had visited California, had something good to say about the highway system. "More and more the motorist is coming to realize that his car is entirely dependent upon four small points of contact with the road," said Kinney. "Each wheel has only a few square inches in direct contact with the pavement. The safety of the car and its occupants depend on those four small points of contact, and naturally the motorist wants the sort of pavement that will give him most security. It is interesting to observe how the use of Portland cement concrete for street pavements has increased in California, as well as in other states, during recent years. The marked success of concrete for highways outside of the city has turned the attention of city officials to its possibilities for streets. California has at the present time more than six and one-half million square yards of concrete streets completed or in course of construction. This is equivalent to 263 miles of street, 40 feet wide. Of course, it is a matter of common knowledge that California is one of the leading states in the mileage of concrete highways. Well over 3000 miles of this type have been completed by the state and the various counties, on account of the increasing loads carried by motor trucks. Engineers are finding it necessary to build thicker and stronger pavements. This tendency is well exemplified in the new designs which are being so generally adopted for concrete pavements at present in California." Kinney stated that the coal strike seriously interfered with cement manufacture in some parts of the country, and that difficulty is being experienced in securing enough cars to haul the material and the aggregates needed for making concrete. "In spite of these difficulties, cement production in July and August broke all records," said Mr. Kinney. "The cement plants of the United States have produced at the rate of 132 million barrels per year for the past five months, and the demand in any one year has never exceeded 100 million barrels, so that while there may be a temporary shortage at times in certain sections of the country plenty of cement capacity is available to take care of the big increase in construction activity expected."

Critics in all parts of the country agree that the restriction of immigration is responsible for the present labor shortage in every line of industry, says Industrial Digest. The resumption of industrial activity has come at a time when farm labor is at its period of greatest employment and when large numbers of foreign-born workers have migrated to their homelands. The shortage in skilled labor is particularly acute and this is attributed to the failure of the apprenticeship system and a lack of proper training. The United States Secretary of Labor reports that unemployment has been reduced from 5,500,000 idle and 1,500,000 on part time which represents normal conditions in the United States. Of the 45 leading cities in the United States, 39 report an increase in employment and 25 a decrease during August, 1922.

(Continued on Page 7)

ALONG THE LINE

B. F. Jakobsen has established himself as a consulting hydraulic and electrical engineer with office at 321 Rowell Bldg., Fresno, and will act in a consulting and supervisory capacity, including the preparation of designs, specifications, reports and estimates for irrigation projects, power developments, dams, structures, sub-stations, transmission lines, pumping plants, city water works, industrial power development and electrification. For the past three years he has been designing engineer in charge for the San Joaquin Light & Power Corporation in connection with the Kereskoff and Kern River power development. For fifteen years he was an engineer connected with the United States Reclamation Service on the Salt River irrigation project (Roosevelt Dam), Arizona, and the Elephant Butte irrigation project, New Mexico, and with the power developments and electrifications of the Cerro de Pasco Mining Co., Peru, South America and the Homestake Mining Co., South Dakota.

Capt. Thos. Harold Messer, C. E. U. S. A., retired, has resumed private practice as consulting engineer with executive offices in the Mills Building, San Francisco. Captain Messer comes from New York with eighteen years of technical training and practical experience in building construction problems, architectural and landscape development, city and country planning and civic betterment.

The Gill Battery Co., capitalized at \$1,000,000, has been organized to manufacture and distribute the Gill battery in Pacific Coast territory. The company will erect a modern plant in Oakland for the manufacture of the product. It is expected the plant will be ready for operation early in 1923.

T. E. Stanton, assistant State Highway Engineer, has been selected to map out the proposed joint highway to be built by Sutter and Sacramento counties from a point near Nicolaus to the end of the present Natomas Boulevard, in Sacramento county.

Governor Emmet D. Boyle, of Nevada, announces that the mining engineering firm of Hendrie and Boyle, of which he is a member, will be consulting engineers for a company which will take over and operate the Berry and other mines in Six-Mile canyon near Virginia City. The governor will not take up his new duties until his term of office has expired.

Hubbard Machine Co. announces the opening of new offices and works at 963 Polson street, San Francisco. Facilities are provided for engineering of all classes of machinery and plant installation.

Portland, Ore., City Commission proposes to place on November ballot a measure providing for the issuance of \$500,000 in bonds to finance high pressure water system for fire protection.

Agricultural Engineering in Land Settlement

(By Max E. Cook)

Mem. A.S.A.E. Farmstead Engineer, California Land Settlement Work

Agricultural engineering constitutes the largest and most important part of the California land settlement work. In connection with the land settlement project at Delhi, for example, the work of the farmstead eng. dept. bears out this fact in a great variety of ways. The activities of this department embrace not only planning, designing, quantity surveying, obtaining competitive bids, letting construction of all classes of farm, town, and administrative buildings, but include also making individual farmstead layouts for all settlers, determining location and arrangement of buildings, lanes, corrals, poultry runs, domestic wells, orchards, vegetable gardens, etc. Individual settlers are given unlimited consultation in acquainting them with health recommendations relative to sewage disposal, protection of domestic water supply, insurance rates and hazards, requirements of good practice in plumbing, electric wiring, paint formulas, concrete mixing, chimney construction, carpentry, etc. All buildings are appraised and values set as basis for loans, and all buildings rented are scheduled by this department.

Active interest and support are given to community development, services being extended to school boards and settlers cooperative associations. This includes designing and supervising the construction of the community hall which was recently completed at Delhi.

The farmstead engineering department is maintained in recognition of the value of planned development. Through this department the settlers' time has been conserved and better buildings have been built at less cost than would have been possible had each farmer been obliged to make repeated trips to town for materials and assistance.

It has been demonstrated beyond question that when buildings are properly designed, planned, and built to meet individual requirements, contentment and success are more liable to follow than in cases where no organized effort is at work.

Loans made by the state are more securely protected and appraisals of building improvements are more accurately made with costs and building data amassed by this department as a basis.

In cases where a settler is more or less of a mechanic, and is in a good position to do his own building, he is advised to do so. In all other cases the contract system has proven most satisfactory. In either case a complete set of plans is furnished.

Under the contract system a set of specifications is drawn, and after the plans and specifications have been approved by the settler, the work is advertised for bids in the open market in accordance with regulation practice. Sealed bids are received and opened at a predetermined hour in the settler's presence. If accepted, and on receipt of authorization with accompanying deposit by the settler, a contract is entered into between the state and contractor, and work proceeds under the supervision of the farmstead engineer acting as agent of settler until completion and acceptance. The contractor's accounts are audited and the full responsibility is removed from the settler until he accepts the work as complete and satisfactory to him. This service is a complete architectural professional

service. The contractor is responsible for accident to his workmen or the public, for loss by fire, and is under bond for faithful performance of the contract.

Where a settler is able to do his own building work, a quantity survey of the materials required is made, and competitive bids taken on these materials in the same way that bids are taken on labor and material contracts. The settler is furnished a copy of the material list to serve as a guide, the list giving instructions for the cutting and placing of various items thereon.

Wherever it has been possible to purchase building materials in carload or large quantities by grouping orders this has been done to give the settler the benefit of the state's purchasing power.

By a careful system of checking contractors accounts, and by requiring detailed statements from settlers before loans are made, labor and material are given positive protection, saving them collection costs and making their business through the state very desirable. This is an important factor in keeping down costs.

Our well established contract system with its uniform and well known methods of procedure has earned the confidence of local contractors and has created a wide and keen competition.

The first building contract was awarded March 4, 1920. Today there are four hundred and fifty-four buildings on the settlement, they having been erected at the rate of a building 1.5 working days. Three hundred and thirty-nine are farm buildings on one hundred and thirty-two farms at a cost of \$177,749.00 including domestic wells, or \$1346.00 average per farm. There are eighty-six buildings on fifty-one farm laborers blocks at a cost of \$51,788, including domestic wells, or an average of \$1116 per farm laborers block. There are twenty-six administration buildings representing a cost of approximately \$85,000. The Wilson Community Hall cost \$10,000. The total value of all the buildings on the settlement, including domestic wells, amounts to \$325,000. Over \$170,000 of this amount was spent under contract; \$81,000 was produced by settlers labor from plans furnished by us; \$72,000 has been spent following settlers plans, but with construction supervised by this department. Ten per cent is a conservative estimate of the cost saved by this department in letting the work under contract. Still greater saving is effected through the intelligent planning of buildings, and by the utilization of the most suitable materials and of standard sizes that avoid waste.

Where special plans have to be prepared a charge of three per cent of the value of the work is made by the land settlement division. Where stock plans are usable the charge is two per cent, which has made this department self-supporting considering its contribution to general administration. It has also produced administration buildings at a cost of three per cent of their cost.

As in the case of all other buildings, the determination of the amount to be expended and the type of each dwelling to be erected is based on a personal in-

terview with the individual settler and a thorough knowledge of his requirements. There are three distinct ways of commencing the dwelling program, requiring earnest consideration. A dwelling may be designed with only the ultimate needs in mind, and more or less without regard to cost, being so planned that it may be built in units within reach of available cash.

The shell or skeleton of the dwelling may be built with a view to completing it in installments during the winter months and at odd times or as capital permits, or a temporary dwelling of a type suitable for converting to some utility use may prove most satisfactory. The latter type is the cheapest for all the material within it peculiar to a dwelling may be salvaged for later use in a permanent structure, leaving a higher type of utility building than perhaps could have been afforded otherwise. The complete unit costs the most for a corresponding amount of space for the reason that it is built with permanency in view.

Personal characteristics of the occupants play an important part in determining which path to follow. The temporary dwelling must not become permanent, the shell is not satisfactory unless completed and new units should follow with increases in the family expansion.

The type of poultry house adopted at Delhi as a standard is the University of California recommendation with a shingle roof and other minor exceptions. There is on the settlement today poultry housing capacity for 30,000 laying hens, if built end for end the housing would be a mile long. Over 23,000 of the total capacity is in the standard house at a cost of \$22,120 or 95 cents per hen. Remaining poultry houses are of various designs at a cost of \$7862 or \$118 per hen.

The California type of barn with central hay storage and vangs at either side is the most economical type and lends itself very well to erection on the unit system. Ears are located with relation to other buildings so that grade dairies are possible. The small barns are designed so that it is possible at a later date to convert into general purpose buildings such as more suitable to an orchard or vineyard development. Plans are under way for the erection of the first silo which will be of the farm bureau woodhoop type.

There are eighty-four 1 1/2 and 2-inch hydraulic wells and sixty-two 7-inch cased wells on the settlement. The 7-inch cased well is recommended for domestic supply and the average depth of such wells on the settlement is sixty-six feet with fifty-five feet of casing at an average cost of \$198. The water stands in the wells at depths varying in the settlement from fourteen to twenty-five feet, with a limited levy of a greater depth, and an average of approximately eighteen feet.

Loans to settlers on buildings are based on itemized statements of cost and bills and receipts produced by the settler, checked against current cost, and backed by personal inspection and appraisal.

There has been \$95,000 loaned on buildings and wells, over \$70,000 of which has been certified on one hundred and seventy-one separate certifications of inspection and analysis, the remainder on forty-nine separate improvement and construction contracts.

SACRAMENTO BUILDING ACTIVITIES SLACKEN DURING SEPTEMBER

September was a slow building month compared to other months of the year, a report of City Building Inspector Ben H. Covell, of Sacramento, shows. The total value of September building is \$328,560, compared to \$867,046 for August. New buildings in September of last year totaled \$918,121, the large amount being due principally to several new school buildings on which construction was started that month. New dwelling houses represent the bulk of last month's business, 56 one-story structures being started at a cost of \$177,911. Three new flat buildings represented a total value of \$30,500 and repairs to 93 dwellings and 20 business buildings aggregated \$65,169. Forty-two private garages were erected at a cost of \$6305. To date this year new buildings in Sacramento exceeds by more than \$300,000 the value of new buildings erected in Sacramento during a like period of last year. According to Covell's report the total value of new building to date for which permits have been issued by his office is \$6,776,783 against \$3,465,497 for the first nine months of 1921.

EARLY FORMATION OF KINGS RIVER WATER DISTRICT SEEN

Application for the formation of the Kings River Water Storage District to irrigate more than 1,000,000 acres of land at a cost of \$30,000,000, has been filed with the State Department of Public Works. A dam will be constructed at Pine Flat in the Sierra Nevada mountains, to store 500,000 acre feet of water and a power plant will be erected to furnish 30,000 kilowatts to the pumping plants, which will add 400,000 additional acre feet, according to the plans of the district organizers. The engineers in charge of the project say the formation of the storage district will double the irrigation efficiency of the Kings river through the conservation of waters now running to waste. It is planned to embrace fifteen separate irrigation and reclamation district in the new Kings river district. Most of those to be included are in Fresno, Kings and Tulare counties. A board of engineers has been investigating the project. The board is composed of J. B. Lippincott, Los Angeles; A. D. Schindler, San Francisco, and W. H. Shafer, Fresno.

FRESNO BUILDING THIS YEAR EXCEEDS SIX MILLION

In the first nine months of this year nearly six and a quarter million dollars have been invested in building construction in Fresno, according to figures compiled by the Department of Public Works. The total for the year, including the month of September, is \$6,122,174, of which \$5,695,191 is represented by new construction and \$426,983 in alterations and repairs. For the month just past the total was \$129,569 for 165 permits for new buildings and \$61,561 for 88 permits covering alterations and repairs, or a grand total of \$491,130. This grand total represents a 100 per cent increase over the same month of last year and a jump of more than 50 thousand dollars over the preceding month. In September, 1921, permits for \$153,275 in new construction were issued, while the total for August was \$383,575.

J. D. Canoles, formerly with the sales force of the California Pottery Company, has severed his connection with that firm and accepted a similar position with N. Clark and Sons, manufacturers of face brick and all type of clay products.

Brumfield Electric Sign Company Starts Construction of Modern Plant

Construction of a new plant for the Brumfield Electric Sign Company, now located at 18 Seventh Street, has been started in the south side of Folsom street just east of Sixth by R. J. H. Forbes, contractor, Monadnock Building. The structure will be of frame and concrete construction. The frame portion will cover a ground area of 25 by 80 feet and the concrete section 75 by 85 feet. The building when completed will represent an expenditure of approximately \$15,000 exclusive of equipment.

Increased business, enlarged territory and the entry of the company into the theatrical stage lighting equipment business forced the firm to seek larger quarters, according to Edward Brumfield, general manager of the company.

In addition to filling local orders for marques and electric signs the Brum-

field Company is completing a large order for a firm in Honolulu and another in Arizona. Recent San Francisco installations include the Mutual Drug Company at Fourth and Market streets, the branch store of Granat Brothers, jewelers, in Geary street, and a number of installations for the Wakelee Drug Company in various sections of the city. Special orders were filled by the company for electric sign installations at the Pine Tree Theatre, Klamath Falls, Oregon, and the Unique Theatre at Santa Cruz.

The new plant of the Brumfield Co. will have every facility for the manufacture and repair of all classes of electrical stage lighting equipment in addition to marques and electric signs. An appropriate slogan adopted by the Brumfield Company is: "When a better sign is made—Brumfield will make it."

Eccles and Smith Company Reorganizes

Undoubtedly the most interesting and the most important of the recent reorganizations in the machinery field is that which has been effected in the firm of Eccles and Smith.

This house was established in 1900 and has always enjoyed a very high reputation for straightforward business methods and for promptness in the correct shipment of orders. Negotiations quietly begun some time ago with the idea of associating in the business some of the best known machinery men on the Pacific Coast. These negotiations have been completed and we are now able to announce that Eccles and Smith Company is composed of the following men, all of whom are well known throughout the machinery world: Philip Rowe, Chris Eccles, R. W. Baxter, W. E. Ringwood and Frank T. Sweeney.

A short resume of the careers of these men will make apparent the strength of the combination and its ability to render useful service in the Pacific Coast machinery trade. In bringing to them the products of the leading manufacturers of the country.

Philip Rowe has been connected with the Hallidie Machinery Company of Seattle, Washington, for twenty years, completing this time as its president and major owner.

Chris Eccles, as one of the founders of the Eccles & Smith Company, has been the moving spirit, in recent years at least, in the progressive policies of that concern.

R. W. Baxter is a thorough railroad man and traffic expert and is known as such from the Atlantic to the Pacific. Starting with the Union Pacific as a messenger boy, he became consecutively telegraph operator, train dispatcher, train master and superintendent, after a period as superintendent with various other roads he became general superintendent of rail and water lines with the Pacific Division of the Union Pacific. In 1912, Mr. Baxter took charge of the Alaska Steamship Company, the Copper River and North Western Railroad and other properties for the Morgan-Guggenheim syndicate. Mr. Baxter's wide railroad acquaintance and his thorough knowledge of railroad methods will be a valuable asset to the new Eccles & Smith Company.

W. E. Ringwood is perhaps as well known to the Pacific Coast machinery his sixteen years of service in the Har-

ron, Rickard & McCone Company have given him a specialized expert knowledge of metal working machinery requirements that will be of immense assistance in the new association.

trade as any man now in the business.

Frank T. Sweeney has for sixteen years been prominently identified with Eccles & Smith Company.

The character, standing and experience of these men is a guarantee insuring the continuance of the same policies that have made the Eccles & Smith Company so popular with the machinery users of the Pacific Coast, and is also a promise that these policies will be carried out in a more progressive spirit.

The location both in San Francisco and Los Angeles remains unchanged. Complete stocks will be carried in both buildings, including very full lines of all classes of metal working machinery, shop accessories and supplies, and in addition a thoroughly representative stock of railroad and railway supplies.

These stocks of tools and supplies have been carefully selected by experts from the product of firms having an international reputation in their respective lines, and along with this known quality Eccles and Smith are prepared to give a very high class of service. At the same time the financial ability of this firm enables purchase in large quantity, thereby giving customers the benefit of a fair price.

Eccles & Smith represent the following firms and carry a complete stock of their materials: Heald Machine Co., cylinder grinding machines; R. K. Le Blond Co., cutter grinders, lathes, milling machines; Sidney Machine Tool Co., lathes; Gould and Eberhardt, shapers, automatic gear cutting machines; Landis Machine Co., pipe threading and cutting machines; Fellows Gear Shaper Co., "high duty" gear shapers; Seneca Falls Mfg. Co., "Star" lathes; Badger Tool Co., grinding machinery; Becker Milling Machine Co., milling machines; Fosdick Tool Co., sensitive upright and radial drills; Giddings and Lewis, horizontal boring machines; International Machine Co., "Libby" lathes; Yoder Co., sheet metal machinery; Buffalo Forge Co., forges, blowers, drills, punchers and shears.

Western Machinery World extends congratulations to the new organization and best wishes for a useful and highly prosperous career.

SUMMARY OF OAKLAND BUILDING PERMITS FOR THE MONTH OF SEPTEMBER, 1922

Classification of Buildings	No. of Permits	Cost
1-story dwellings.....	276	\$ 775,875

Total.....	868	\$1,788,439

UNIVERSITY OF ILLINOIS ISSUES BULLETIN ON REHEATING OF COMPRESSED AIR

For many years compressed air has been employed as a medium for the transmission of power. The ease and economy with which compressed air can be transmitted for comparatively long distances through pipe lines, and the variety of air motors and tools now available have led to the extensive use of compressed air in mining, quarrying, and tunneling, in various shop processes, and in the development of power.

In the smaller air motors, air-driven tools, and devices operated by compressed air that are run intermittently the air is not as a rule used expansively, economy of operation being sacrificed for simplicity and minimum initial cost of equipment. When motors are operated continuously for considerable periods of time, economy of operation becomes a factor, and it is essential that the air be expanded in the motor. The temperature of the air as it reaches the motor would normally be little if any above atmospheric; consequently, in accordance with well known principles, after expansion it would be so low as to cause operating difficulties resulting both from the freezing of the moisture in the air and the consequent accumulation of ice in the exhaust pipe, and from the interference with cylinder lubrication and resultant loss of mechanical efficiency.

These difficulties may be overcome by heating the air before its delivery to the motor to an initial temperature such that the exhaust temperature will be above the freezing point of water, this heating process being commonly designated as "reheating." Reheating not only reduces operating difficulties but also affords a means of increasing the total output of power per pound of air by the expenditure of a small amount of heat energy.

An investigation leading to the publication of a bulletin was undertaken by the Engineering Experiment Station, University of Illinois, was to determine the ideal thermodynamic efficiencies resulting from the heat expended in the reheating process, the efficiency and internal combustion reheaters, and the performance of an engine operated with air used expansively, with steam alone, and with a mixture of air and steam, the steam being injected into the air pipe as a means of reheating the air. Copies of the Bulletin (No. 130) will be sent on request to Engineering Experiment Station, Urbana, Illinois.

SEPTEMBER BUILDING SUMMARY

Building activities in San Francisco for the month of September, 1922, as compiled by Chief Inspector of Buildings John P. Horgan, of the Board of Public Works, total \$2,951,858. During the month 661 permits were issued for private building operations. For the same period in 1921 the totals were 63 permits representing construction totaling \$2,100,163. Following is a segregated report as compiled by Chief Inspector Horgan:

Class	Number	Est. Cost
"B".....	3	\$ 750,000
"C".....	18	660,900
Frames.....	210	1,128,583
Alterations.....	430	112,375
TOTAL.....	661	\$2,951,858

The Observer.

(Continued from Page 4)

Because the Union joint school district, lying partly in Riverside and partly in San Bernardino counties, had been annexed to the Riverside High School District, legal experts have declared the \$175,000 bonds recently voted by the district are invalid, and the bond buyers have refused to accept them. Lloyd C. Kelley, District Attorney of Riverside County, says the only procedure now is to test the validity of Sec. 1734-B, California political code, passed in 1921, providing that "every elementary school district must be annexed to the nearest high school district." It was under this section the Union joint school district was annexed and the bond experts held the supervisors of Riverside county had no authority to annex territory outside the county.

U. S. Civil Service Commission will receive applications until December 25 for examination for "structural steel work draftsman." Two vacancies exist at naval operating base, Pearl Harbor, Hawaii, one at \$7.20 per diem and the other \$7.60 per diem, each with an additional allowance of 96 cents per diem while employed at the station. A vacancy in the Public Works Department, Naval Station, St. Thomas, Virgin Islands, also exists at \$6.80 per diem. Applicants should apply for Form 1312, which may be had from either the Commission at Seattle, Wn., and San Francisco, California.

Alfred B. Davis, retired lumber merchant, formerly of California, died in Philadelphia Sept. 25. Davis formerly resided in San Francisco and was president of the Foresta Land Company, which has large timber holdings in the vicinity of the Yosemite Valley. He was also president of the Panama Products Company, a concern which is developing a tract of land in the canal zone.

R. R. Morehead, Spokane, Wn., has contract to erect \$450,000 ice manufacturing and cold storage warehouse at Chelan, Wn., for Great Northern Railroad.

Federal Power Commission has granted permit to California-Oregon Power Co., covering project on Klamath River near northern border of California which is planned to produce 120,000 horsepower, also to the Little Rock Power and Water Co., to proceed with the development of Little Rock creek in Southern California to produce 2300 horsepower. The commission also issued permits covering an extension project by the Sawtooth Power Co., on the Kruzeamapa river and one by the Willow Creek Mines on the Cranice creek, both in Alaska.

C. M. Levey, of the Western Pacific Railroad, denies rumors that his company, the new owners of the Sacramento-Northern Railroad, contemplates an extension of the latter road to the foothill section in Yuba county, thereby feeding an acreage estimated at approximately 200,000 acres. According to the rumor the branch would extend from Marysville to Marygold and Hammon, accommodating the big gold dredging industry of those places, thence to Brown's Valley, Stone House, Lancaster, Wyandotte and Oroville.

Funds for immediate prosecution of the projects authorized in the rivers and harbors law just passed by Congress are not available and probably will not be available until next March. A regular appropriation bill will have to be passed covering all of the projects. There is \$100,000 available for the maintenance of work in Oakland harbor heretofore authorized. All the money authorized for San Francisco has been expended with the exception of a small amount for inspection purposes.

During the month of September 117 building permits were issued in Stockton for work costing \$148,936. For the same period in 1921 the totals were 105 permits for improvements costing \$129,145. For the first nine months of this year the total building in Stockton is far greater than for any previous nine months in the local history. To date permits total \$2,617,527, as compared with the previous total of \$2,665,533 for 1920.

September building activities in Berkeley not only exceeded September, 1921, activities by \$158,771 but established a new September record of \$471,400. This brings the total cost of building in Berkeley since the first of the year to \$4,602,448.

Directors of Modesto Irrigation District vote to defer construction of transmission line from Don Pedro dam site until bonds for entire distributing system are voted. The line will cost approximately \$300,000.

More than a million and a quarter dollars have been expended in building in Palo Alto for the nine months ending September 30. September permits totaled \$122,239, an increase of \$21,383 over the totals for August.

Alameda building activities for September totaled eight new buildings costing \$34,000. Forty alteration permits were issued during the month.

W. L. Stoddart, of New York, has been chosen by the Tacoma, Wash., hotel committee to design the \$1,000,000 hotel building for that city.

A. R. Hancock, formerly of Willows, Cal., has opened quarters at 608 Montgomery street, Oroville, and will engage in the electrical business.

Alpha Hardware and Supply Co., Hussey Bldg., Nevada City, Calif., suffered \$8500 fire loss.

APARTMENT HOUSES

Contract Awarded.
APARTMENTS Cost—
SACRAMENTO, Sacramento Co., Cal.,
 215 "G" St.
 Two-story frame apartment house (4
 4-room apartments).
 Owner—Carl Vinning.
 Architect—Frederick S. Harrison, Peo-
 ples Bank Bldg., Sacramento.
 Contractor—A. W. Norris, Peoples
 Bank Bldg., Sacramento.

Permit Applied For—To Be Done By
 Day's Work.
APARTMENTS Cost, \$40,000
SAN FRANCISCO, W Hyde 96 S Sutter
 Six-story and basement Class C con-
 crete apartment house (23 apts.).
 Owner—Louis Blum, 180 Jessie St., San
 Francisco.
 Architect—C. O. Clausen, Hearst Bldg.,
 San Francisco.

To Be Done By Day's Work.
APARTMENTS Cost, \$25,000
SACRAMENTO, Sacramento Co., Cal.,
 No. 3014 G St.
 Two-story frame, brick veneer and
 stucco apartment house (8 3-room
 apartments).
 Owner—A. W. Norris, Peoples Bank
 Bldg., Sacramento.
 Architect—Frederick S. Harrison,
 Peoples Bank Bldg., Sacramento.

Contract Awarded.
APARTMENTS Cost, \$35,000
SAN FRANCISCO, E Van Ness Avenue
 106 N Union Street.
 Three-story and basement frame (12)
 apartments.
 Owner—W. C. Gould, Baker St., San
 Francisco.
 Architect—None.
 Contractor—J. Front, 515 Magellan
 Ave., San Francisco.

Plans Being Prepared.
APARTMENTS Cost, \$—
LOS ANGELES, Los Angeles Co., Cal.,
 Grattan St. near Ninth.
 Four-story brick apartment house (3)
 2 and 3-room apts.).
 Owner—F. Cappellans.
 Architect—R. H. Spurgeon, Grosse
 Bldg., Los Angeles.

Segregated Figures Being Taken.
APARTMENTS Cost, \$30,000
STOCKTON, San Joaquin Co., Cal., N.
 San Joaquin and Poplar Sts.
 Two-story brick apartments (8 4-room
 apts.).
 Owner—F. L. Balkwill.
 Architect—Glenn Allen, 37 S-Aurora
 St., Stockton.

Preliminary Sketches Prepared.
APARTMENTS Cost, \$650,000
LOS ANGELES, Los Angeles Co., Cal.
 Wilshire Blvd.
 Ten-story reinforced concrete Class A
 apartments.
 Owner—Withheld.
 Architect—Heiman, 57 Post St., San
 Francisco.

To Be Done By Day's Work.
APARTMENTS Cost, \$60,000
SAN FRANCISCO, Stockton St. nr Bush
 Six-story and basement reinforced con-
 crete (29) apartments.
 Owner—E. V. Lavey, 180 Jessie St.

Contract Awarded.
APARTMENTS Cost, \$11,000
SAN FRANCISCO, 17th Ave. near C.H.
 Fornia St.
 Two-story and basement frame (4)
 Apartments.
 Owner—Cornelius Morse.
 Architect—Klaus Adler, 493 22nd Ave.

Owners Taking Figures.
APARTMENTS Cost, \$25,000
SAN FRANCISCO, S Pine 62-6 W
 Powell.
 Three-story and basement (12) apts.

Owner—Frank La Torres and F. A.
 Brockhage, 185 Stevenson St.
 Architect—E. H. Denke, 1317 Hyde St.,
 S. F.

Segregated Figures to Be Taken in a
 Week.
APARTMENTS Cost, \$100,000
SAN FRANCISCO, S. Geary between
 Jones and Geary.
 Five-story rein. conc. apt. house (41
 2-room apartments)
 Owner—Dr. Matilda A. Peeley, 1945
 Sutter.
 Architect—E. H. Denke, 1317 Hyde St.,

Contract Awarded.
APARTMENTS Cost, \$18,000
OAKLAND, N Wayne 300 W Stowe.
 Two-story 19-room apartments.
 Owner—E. M. Blake, 538 24th St. Okd.
 Contractor—L. N. Blake, 538 24th St.,

Contract Awarded.
APARTMENTS Cost, \$12,200
BERKELEY, Alameda Co., Cal., S Web-
 ster St, 120 E College Ave.
 Two-story frame apartment house (16
 rooms) and 3 garages.
 Owner—John Olsson.
 Contractor—Harry C. Knight, 388 12th

Contract Awarded.
APARTMENTS Cost, \$13,000
ALBANY, Alameda Co., Cal., No.
 2729-41 Fulton Street.
 Two-story frame (12-room) apartment
 house
 Owner—Mrs. Bessie Cecil, 2735 Fulton
 St., Berkeley.
 Architect—None.
 Contractor—W. H. Storm, 2800 Fulton
 St., Berkeley.

Contract Awarded.
APARTMENTS Cost, \$13,000
OAKLAND, Alameda Co., Cal., N E 62nd
 St. and Telegraph Ave.
 Two-story 16-room frame apartments.
 Owner—Nellis Harward, 1534 Franklin
 St., Oakland.
 Contractor—California Builders Co.,
 1544 Franklin St., Oakland.

Contract Awarded.
APARTMENTS Cost, \$40,000
SAN FRANCISCO, N E Octavia & Val-
 lejo Sts.
 Three-story and basement frame (12)
 apartments.
 Owner—Alfred J. Harwood.
 Architect—G. A. Applegarth, Claus
 Spreckels Bldg.
 Contractor—Walters & Grove, Monad-
 nock Bldg.

Plans Being Prepared—Figures to Be
 Taken in a Week.
APARTMENTS Cost, \$25,000
SOUTH SAN FRANCISCO, S M Co.
 Two-story reinforced concrete apart-
 ment house (6 3-room apts.).
 Owner—Withheld.
 Architect—Ernest Norberg, 407 Occi-
 dental Ave., Burlingame & Balboa
 Bldg., San Francisco.

Plans Being Figured.
APARTMENTS Cost, \$10,000
BURLINGAME, S. M. Co., Cal.
 Frame and plaster bungalow court (4
 3-room apartments).
 Owner—M. Beltrae.
 Architect—Ernest Norberg, 407 Occi-
 dental Ave. & Balboa Bldg.
 Figures are being taken for a gen-
 eral contract.

Plans Being Figured.
APARTMENTS Cost, \$20,000
SAN FRANCISCO, Geary St. bet. 23rd
 and 24th Aves.
 Three-story frame and stucco store and
 apartment house (6 2-room and 1
 3-room apts.)
 Owner—L. H. Gruss.
 Architect—H. C. Baumann, 251 Kearny
 St., San Francisco.

Plans Being Prepared.
APARTMENTS ETC. Cost, \$40,000
SAN FRANCISCO, Hyde St. near
 O'Farrell Street.

Two-story and basement Class B rein-
 forced concrete printing plant and
 apartments house.
 Owner—Louis R. Lurie.
 Architect—C'Brien Bros., 240 Mont-
 gomery St., San Francisco.

Contract Awarded.
APARTMENTS Cost, \$65,650
SAN FRANCISCO, SE Stockton and
 Pine Streets.
 Four-story and basement reinforced
 concrete apartment house.
 Owner—S. T. Meyer, 2026 California
 St., San Francisco.
 Architect—Heiman Barth, Phelan
 Bldg., San Francisco.
 Contractor—John Spargo, 240 Mont-
 gomery St., San Francisco.
 The steam heating and hot water
 storage apparatus has been awarded to
 Alfy Schmidt Co., Inc., 198 O'Connell St.,
 at \$1963.

Segregated Figures Being Taken.
STOCKTON, San Joaquin Co., Cal., N
SAN FRANCISCO, N Sutter bet. Mason
 and Taylor Sts.
 Three-story and basement reinforced
 concrete, stucco apartments and
 store building, 51x137-6 (17 studio
 suites and 3 stores).
 Owner—Goodfriend & Jackson.
 Architects—Frederick W. Quandt, Mo-
 nadnock Bldg., San Francisco.
 Figures are being taken as follows:
 concrete work, carpentry and general
 work, heating, plumbing, electrical
 work, tiling, painting, plastering and
 grading.

SEATTLE, Wash.—Architects Emil
 Huehner, Railway Exchange Bldg.
 Seattle, completing plans for 5-story
 and basement, with sub-basement, re-
 inforced concrete apartment house to
 be erected for Williams & Co., repre-
 senting the owners. The building will
 contain 53 2-room suites with living
 room 15x12 ft., kitchenette and bath
 and four 3-room apartments. Will be
 erected at 7th Ave. and Olive St., and
 will cover area of 120x60 ft.

BANKS

Contract Awarded.
BANK FIXTURES Cost, \$7,500
SACRAMENTO, Cal.
 Mahogany bank fixtures for Class A
 bank building.
 Owner—Bank of Italy.
 Architect—Geo. C. Sellen, Mitau Bldg.,
 Sacramento.
 Contractor—The Fink & Schindler Co.,
 236 15th St., San Francisco.

Contract Awarded on a Percentage
 Basis.
SALT LAKE CITY, Utah, Main and
 Second South Sts.
 Twenty-story Class A bank and office
 building.
 Owner—Continental Bank and Bank of
 Republic, Consolidated.
 Architect—George W. Kelham, Sharon
 Bldg., San Francisco.
 Engineer—H. J. Brunner, Sharon Bldg.,
 San Francisco.
 Contractor—P. J. Walker Co., Monad-
 nock Bldg., San Francisco.
 Construction is to be started October
 2nd, and sub-figures will be taken in
 about a month.

Contract Awarded
PANAMA, Panama, Panama Co., Cal.
LONG BEACH, Los Angeles Co., Cal.
 SE Fourth and Pine Sts.
 Three-story Class A bank building.
 (Steel, brick and concrete with
 terra cotta and granite facings).
 Owner—First National Bank of Long
 Beach.
 Architect—John and Donald B. Parkin-
 son, Title Ins. Bldg., Los Angeles.
 Contractor—Lange & Bergstrom, Wash-
 ington Bldg., Los Angeles.

Plans to be Prepared.
BANK BLDG. Cost, \$100,000
FRIFFYVALE, Alameda Co., Cal. Fruit-
 vale Ave. and E-14th St.
 Modern bank building 100x100.
 Owner—Central National Bank, Joseph
 E. Carlsson, President
 Architect—Not Selected.

Plans Being Prepared.
BANK BLDG. Cost, \$40,000
OAKLAND, Alameda Co., Cal. Tele-
 graph Ave. and 41th St.
 One-story reinforced concrete bank
 building.
 Owner—Bank of Italy.
 Architect—H. A. Minton, Monadnock
 Bldg., San Francisco.
 Plans will be ready for figures in
 about three weeks.

BONDS

SUNNYVALE, Santa Clara Co., Cal.—
 Bonds of \$5,000 voted to finance sewer
 extensions.

MIAMI, Ariz.—Miami school board
 will hold \$235,000 school bond election
 in October. R & E

SANTA ROSA, Sonoma Co., Cal.—City
 Council will call election to vote bonds
 of \$50,000 for establishment of street
 paving plant. L. L. Mills, city engineer.

UKIAH, Mendocino Co., Cal.—Until
 Oct. 10, a m. bids will be rec. by
 Hale Frather, county clerk, to const.
 Sec. of Spy Rock road, involy. 275
 cu. yds. unclass. excav., incl. clearing
 right of way; 3500 ft. b. m. lumber for
 culverts. Cert. check 10% required.

MODESTO, Stanislaus Co., Cal.—Dir-
 ectors of Modesto Irrigation District
 will call election to vote bonds of
 \$1,000,000 to finance light and power
 system for district. Percy Jones, ch. eng.

GRIDLEY, Butte Co., Cal.—Election
 will be held in Reclamation District No.
 533 to vote bonds of \$866,000 to finance
 work in the district.

SAN MATEO, San Mateo Co., Cal.—
 Until Oct. 9, bids will be rec. by E. W.
 Foster, city clerk, for purchase of \$80,-
 000 bond issue to purchase and improve
 park lands.

PORTLAND, Ore.—City contemplates
 bond election in November to vote
 \$500,000 to install high pressure water
 system for fire protection. Fred Rand-
 lett, ch. eng. for water bureau and
 O. Laurgaard, city eng.

LOOMIS, Placer Co., Cal.—Bonds of
 \$49,000 voted in Loomis School District
 to finance construction of new school
 building.

WENATCHEE, Wn.—Bonds of \$32,-
 600 voted in Wenatchee Heights Irriga-
 tion District to finance completion
 of works.

JEFFERSON, Ore.—City Council con-
 templates calling bond elections to vote
 \$150,000 for street paving and water
 system improvements.

FRESNO, Fresno Co., Cal.—Election
 will be called in the immediate future
 to vote bonds of \$2,000,000 to finance
 construction of two new junior high
 schools and six elementary buildings.
 J. V. Cooper is city superintendent of
 schools.

STEVENSON, Merced Co., Cal.—Election
 held to vote bonds of \$40,000 to
 finance construction of new school
 failed to carry.

RICHMOND, Contra Costa Co., Cal.—
 Election will be held November 28 to
 vote bonds of \$150,000 for playgrounds;
 \$50,000 for natatorium; \$100,000 for
 municipal hospital and \$50,000 for
 public hall and gymnasium.

MENLO PARK, San Mateo Co., Cal.—
 Menlo Park Sanitary District sells \$10,-
 000 bond issue to finance sewer im-
 provements.

TULARE, Tulare Co., Cal.—Election
 will be held December 12 to vote bonds
 of \$100,000 to finance construction of
 new school building.

MONTEBELLO, Los Angeles Co., Cal.—
 Bonds in the sum of \$300,000 for
 creating new school bldgs. at Monte-
 bello, were voted at the general elec-
 tion Sept. 30. Jeffery & Schaefer, 1106
 Kerekhoff Bldg., will be the archts.

MADERA, Madera Co., Cal.—Nov. 7
 is date set by supervisors to vote bonds
 of \$150,000 to finance construction of
 new county hospital.

MERCED, Merced Co., Cal.—Until
 Oct. 10, bids will be rec. by Merced
 Irrigation District for purchase of
 \$1,800,000 worth of bonds to finance im-
 provements. W. D. Wagner, secy., and
 R. C. Starr, ch. eng., for district.

SAN FRANCISCO.—Supervisors an-
 thorize opening of Buchanan street;
 est. cost, \$34,250. M. M. O'Shaughnessy,
 city engineer.

YUBA CITY, Sutter Co., Cal.—Move-
 ment has started for establishing
 of a high school in territory east
 of Feather River and south of Bear
 River.

CHURCHES

Plans Submitted in Competition.
CHURCH Cost, \$75,000
STOCKTON, San Joaquin Co., Cal.
 Center and Flora Sts.
 Concrete church building.
 Owner—1st church of Christ Scientist.
 Architect—Not Selected.

Sub-contract Awarded.
CHURCH & SCHOOL Cost—
SAN FRANCISCO, N Filbert East of
 Powell.
 Three-story and basement rein. conc.
 Owner—St. Peter's & St. Paul's Roman
 Catholic Church.

Architect—C. Fantoni, 550 Montgomery
St., San Francisco.
Electric work to Crown Electric Co, 153
Eddy St., \$9000.
Plumbing to Fred Snock Co, 596 Clay
St., \$6495.
Heating to Scott Co, 243 Minna St.
\$5480.

Plans Being Prepared.
CHURCH Cost, \$100,000
ALHAMBRA, L. A. Co., Main St. near
 the Arroyo.
 Parsonage, parish house, garage and
 church buildings.
 Owner—First Methodist Church, Rev.
 Mr. Hughes, Pastor.
 Architect—Scott Quintin, Alhambra.

Plans Being Prepared.
CHURCH Cost, \$100,000
PORTLAND, Oregon.
 Brick or concrete church building.
 Owner—Christian Church, Portland,
 Oregon.
 Architect—Robt. Orr, Coropation Bldg.,
 Los Angeles.

Contract Awarded.
PASADENA, Ings. Cost, \$31,561
SAN MATEO, S. M. Co., Cal. Baldwin
 Ave. and El Camino Real.
 One-story parish house.
 Owner—St. Matthew's Church, S. M.
 Archt.—Howard & White, Lick
 Bldg., San Francisco.
 Contractor—Seadley & Wiseman, San
 Mateo.

Plans Being Figured.
CHURCH BLDGS. Cost, \$5,
OAKLAND, Alameda Co., Cal. Lake-
 shere and Prospect Aves.
 1st st. of church buildings, parochial
 school and convent; three-story
 and basement reinforced concrete
 construction.
 Owner—Church of Our Lady of
 Lourdes (Father Keveny, Pastor).
 Architect—Geo. E. M. McCrea, 369 Pine
 St., San Francisco.
 Engineer—Pierre Zucco & Co., 166
 Geary St., San Francisco.

Plans Being Refigured.
CONVENT Cost, \$100,000
ALHAMBRA, L. A. Co., Cal.
 Two-story brick and frame convent
 with tile roof.
 Owner—Carmelite Sisters.
 Architect—John C. Austin, 1125 Baker-
 Dr. Delier E. Lee, Los Angeles.
 The contract for this building was
 previously awarded to General Con-
 struction Co. of Glendale.

Sub-figures Being Taken.
FUNERAL DIRECTORY Cost, \$25,000
SAN FRANCISCO, N Golden Gate Ave.
 137-6 W Fillmore.
 Two-story frame funeral directory.
 Owner—Peter Magendie, 1335 Golden
 Gate Ave.
 Architect—C. O. Clausen, Hearst Bldg.

FRESNO, Fresno Co., Cal.—Of the
 \$100,000 required to build a new syna-
 gogue for Temple Beth Israel, \$42,000
 has been secured, according to mem-
 bers of the finance committee com-
 posed of Harry Coffe; S. B. Goodman,
 Saul Samuel and J. H. Mittenhal. Leon
 Rosenberg is chairman of the commit-
 tee.

PHOENIX, Ariz.—J. A. R. Irvine and
 T. L. Edens, members of the Board of
 Church Trustees, have been awarded
 gen. contr. for completing the bldg. of
 the Central Methodist church, started a
 year ago. Funds were exhausted and
 work was stopped. Recently ways have
 been found to finance the completion
 of the \$125,000, 2-story classic style
 bldg. The found. was put in by T. B.
 Stewart Constr. Co. of Phoenix. Rev.
 Cecil M. Aker is pastor.

FACTORIES & WAREHOUSES

Contractors to Take Sub-Figures
Shortly.
FACTORY Cost, \$250,000
OAKLAND, Alameda Co., Cal. W Har-
 leon St., from 8th to 9th Sts.
 Three-story steel frame reinforced
 concrete factory building (terra
 cotta facing).
 Owner—Hestern Electric Code, Inc.
 Architect—Reed & Corlett, Oakland
 Bank of Savings Bldg., Oakland.
 Contractor—F. J. Walker Co., Monad-

Contract Awarded.
FACTORY Cost, \$29,950
SAN FRANCISCO, SE Harrison bet.
 Seventh and Langton Sts.
 Three-story Class C factory.
 Owner—James Madison.
 Lessee—Pacific Motor Co.
 Architect—Nathaniel Blaisdell, 255
 California St., San Francisco.
 Contractor—Alfred H. Vogt, 185 Stev-
 enson St., San Francisco.

Plans to be Prepared.
FACTORY BLDG. Cost, \$250,000
OAKLAND, Alameda Co., Cal.

Owner—M. Koster, 1096 Clay St.
Architect—Theo. Lenzen, Humboldt Bank Bldg.
Contractor—H. T. Ludwig, 636 Jessie.

Ye Building Gossip or Pratt's Concrete Mix

NOTE.—The following was written by Mr. E. Rodgers, the assistant manager of the Building Material exhibit. He is surely very complimentary about Clarence Sand Pratt's near comedy.

THE BUILDING MATERIAL EXHIBIT
W. L. Hughson, President, E. Rodgers, Asst. Mgr. and Treasurer
77 O'Farrell Street

San Francisco, Sept. 27, 1922.

BILL HUGHSON'S family of Exhibitors have learned.

FROM YOU.
HOW BEST
TO START their daily grind.
IF YOU sell.
JUST ONE grain of Pratteo Sand.
FOR EVERY smile.
YOU GIVE our happy family.
YOU MUST be richer.
THAN HENRY Ford.
AT LEAST you deserve to be.
YOU HAVE raised advertising.
FROM ITS prosaic money-grubbing level.
TO THE very highest pinnacle.
OF LITERARY art.
AND WE who have.
FOR SEVEN blessed years.
BEEN STRIVING.
TO GIVE our lovely city.
THE WORLD'S best Building Material Exhibit.
WE THANK you.

IF YOU could only hear.
THE BUILDING Material Exhibitors.
CHORTLING THEIR daily cachinnation.
OVER YOUR Building Gossip column.
YOU WOULD always
START YOUR daily work.
BY COMING early.
IN THE mornings.
TO SEVENTY-SEVEN O'Farrell Street.
AND INHALE the invigorating merri ment.
RADIATED BY your amused readers.
KING COLE Lansing smiles quietly.
WHILE HUNTLEY - Hyphen - Hoy chuckles.
AND LEO Rodgers fairly roars.
LIKE A lion.
IN ITS native jungle.
BELIEVE US.

LADIES REST ROOM
→

This photograph made by Walter Scott, official photographer for "Ye Building Gossip or Pratt's Concrete Mix," shows Clarence Innocent Pratt, seller of clean, sharp sand, looking at the "exhibits" at the big show room at 77 O'Farrell St. Mrs. B. A. Blackbird doesn't understand that poor innocent Clarence Sand Pratt did not see the sign "Ladies' dressing room," but thought he was in one of the exhibits, many of which are decorated with pretty girls.

Contract awarded.
FLATS Cost, \$11,900
SAN FRANCISCO, S W Market and
Douglas Sts.
Two-story frame (4) apartment flats.
Owner—Schradt & Estate Co.

STOCKTON, San Joaquin Co., Cal.—
 Supervisors contemplate calling a spec-
 tation in November to decide whether the
 court house site and building shall be
 sold and a new court house erected on
 another site. A second proposition
 will provide to determine whether the
 property shall be retained and additions
 made to the present building. The
 improvements to cost approximately
 \$750,000.

Official Proposals

BIDS WANTED FOR ASSEMBLY HALL

NOTICE TO CONTRACTORS (Rosedale School District)

Bids will be received by R. T. Waters at Rosedale up to the hour of 2 P. M., of the 17th day of October, 1922, for the furnishing of all material and completing the assembly hall, which is partly built. All work and materials will be in accordance with the specification of the new Rosedale school and as directed by J. M. Saffell, architect. Bids will be put in separately as indicated in the notice. Bid No. 1 for plastering the exterior of the building as specified and plaster the entire building at stage, including both sides of partition separating stage from assembly hall.

No. 2, separate bid for plastering assembly hall.

No. 3, roofing building.

No. 4, building brick chimney, 2 1/2 bricks square.

No. 5, bid for painting building.

No. 6, bid for finishing the carpenter work and doing all tin work; all floors to be thoroughly cleaned up.

No. 7, for changing floor in assembly hall to hard maple, 3/4-inch thick.

Those putting in bids will look the work over before making out bid. Each bid must be accompanied by a cashier's check for 10 per cent of the amount of bid, made payable to E. T. Waters, Clerk of Board of Trustees, Rosedale School District, as a guarantee that the successful bidder will give a bond of 50 per cent of amount of bid and enter into a contract with the Trustees in 5 days to do said work.

The right is reserved to reject any or all bids.

Bids addressed to R. T. Waters at Rosedale and marked Bid on Assembly Hall.

R. T. WATERS, Clerk.
PETER HEIMFORTH,
A. L. RENFRO,
Board of Trustees.

NOTICE TO CONTRACTORS

(Current Creek Road)

Sealed proposals for constructing the above-named National Forest Project located within the County of Nevada, will be received by the District Engineer, Bureau of Public Roads, U. S. Department of Agriculture, at 881 Mills Building, San Francisco, California, until 2 o'clock p. m., on the 31st day of October, 1922, at which time and place they will be publicly opened and read. The right is reserved to reject any and all bids, and none will be considered except those from contractors ascertained to be experienced and responsible. The project is located about 40 miles southwest of Reno and the length to be constructed is approximately 14.6 miles. The principal items of work are approximately as follows:

- Clearing and grubbing, 44.5 acres.
- Excavation, rock, 3000 cu. yds.
- Excavation, common, 45,000 cu. yds.
- Cement rubble masonry, 260 cu. yds.
- Class "B" concrete (alternate for cement rubble masonry), 260 cu. yds.
- Corrugated metal pipe, 2500 lin. ft.
- Trestle bridge material in place, including br. iron, 5.4 M. B. M.
- Furrow ditch, 10,000 lin. ft.

The work embraced in this contract shall be started within fifteen days after notice so to start has been given by the contractor by the District Engineer, which notice will not be given until weather conditions render it practicable to prosecute the work to advantage in the Spring of 1923, and shall be completed within 100 working days after said notice has been given.

The contract form and maps, plans, specifications and estimate of quantities may be examined by responsible contractors at the following addresses:

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS, which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate, 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

881 Mills Building, San Francisco, California.

District Engineer, Bureau of Public Roads, 406 Col. Hudson Bldg., Ogden.

At Engineer's Camp, Currant, Nye County, Nevada.

Nevada State Highway Commission, Carson City, Nevada.

Care of Forest Supervisor, Ely, Nevada.

The Bureau of Public Roads will furnish corrugated metal pipe for pipe culverts. The Bureau also has available for loan to contractors on a rental basis, equipment as listed in the proposal sheets. Bidder will state in his bid the amount of government equipment that he will use during construction and the minimum rental period thereof. The estimated rentals will be deducted from the total of the construction items and award will be made on bid to best advantage to the Government.

Plans and specifications will be furnished contractors who contemplate bidding upon deposit of a certified check for \$10,000 payable to the Secretary of Agriculture of the United States. Check will be held, pending return of plans and specifications.

All proposals must be made on forms furnished by the District Engineer, Bureau of Public Roads, and in accordance with the instructions forming a part of the Specifications above referred to.

C. H. SWEETSER,
District Engineer.

NOTICE TO CONTRACTORS FOR THE INSTALLATION OF ELECTRIC CLOCK, PROGRAM BELL AND FIRE ALARM SYSTEM FOR THE JEFFERSON SCHOOL, BERKELEY CALIFORNIA

The Board of Education of the City of Berkeley and of Berkeley School District in the County of Alameda, State of California, invites and the undersigned will receive at his office, 2133 Allston Way, Berkeley, California, up to the hour of 4 o'clock p. m., October 17, 1922, sealed proposals for furnishing the necessary materials, tools and labor for the wiring and installation of an electric clock, program bell and fire alarm system for the Jefferson School addition, situated on Sacramento and Rose Streets, in accordance with plans and specifications on file in the office of the said Board of Education, 2133 Allston Way, Berkeley, California.

QUANTITY SURVEYOR

and Valuation Engineer
Buildings and Engineering Works

ARTHUR PRIDDLE

693 Mission Street, at Third St.

San Francisco, Cal.

Telephone Douglas 8-4-9-3

Copies of said plans and specifications may be obtained from the office of Wm. C. Hays, architect, 1325 First National Bank Bldg., San Francisco, California, upon depositing the sum of \$10 and must be returned within five days or the said deposit may be forfeited and turned into the treasury of the Board of Education.

Bids must be upon blank forms according to the form of proposal on last page of specifications.

The successful bidder will be required to furnish a surety bond acceptable to the Board of Education in a sum not less than twenty-five per cent (25%) of the contract price, guaranteeing the faithful performance of the contract; also a bond in a sum not less than fifty per cent (50%) of the contract price, guaranteeing the payment of all claims for labor employed or materials used in the installation of electric clock, program bell and fire alarm system for the Jefferson School Addition, as provided by an Act of the Legislature of the State of California entitled, "An Act to Secure the Payment of Claims of Material-men, Mechanics or Laborers Employed by Contractors Upon State, Municipal or other Public Work, approved March 27, 1897," and must carry adequate insurance or give bonds indemnifying the Board of Education against liability for compensation provided by "Workmen's Compensation Insurance and Safety Act, approved May 26, 1912," satisfactory to said Board of Education.

All bids must be accompanied by a cash deposit or a certified check on a responsible bank and payable to the Board of Education for an amount equal to ten per cent (10%) of the amount of the bid.

If the bidder to whom the contract is awarded shall for five (5) days after such award fail or neglect to enter into a contract and file the required bonds for the faithful performance of the contract and the furnishing of materials and labor, the cash deposit or certified check of said bidder may be declared forfeited to the Board of Education and shall be collected and paid into the General Fund of said Board of Education.

Bids will be opened by the said Board of Education on Tuesday, October 17, 1922 at or after the hour of 4:15 o'clock p. m. in the Board of Education rooms, 2133 Allston Way, Berkeley, California.

The Board of Education reserves the right to reject any and all bids or any part of any bid.

By order of the Board of Education of the City of Berkeley, County of Alameda, State of California.

CLYDE BLANCHARD,
Secretary of said Board of Education

NOTICE TO CONTRACTORS

(Dewey School Subway)

Office of the Secretary of the Board of Education of the City of Oakland, California. Sealed bids will be received by the Board of Education of the City of Oakland, City Hall, Oakland, California, until the 16th day of October, 1922, at 2:00 p. m., at which time and place they will be opened, for the erection and completion of a subway under the Western Pacific Railroad Company's Right of Way at the Dewey School, of the Oakland School District, located at 37th Avenue and East 12th Street, Oakland, California.

Plans and specifications for said work are on file at the office of the Secretary of the Board of Education and at the offices of the Chief of Construction, Chabot Hall, 11th and Jefferson Streets, Oakland, California.

On a deposit of Ten (10) Dollars complete sets of said plans and specifications may be had by any prospective bidder. These may be retained for a period of six days by the Contractor, if these plans and specifications are not returned within said period, or if

they be mutilated, the said deposit may be retained by said School District as agreed and liquidated damages for said detention and mutilation.

Bids must be made on proposals obtained at the office of the Chief of Construction, and be signed by the bidder, accompanied by a certified check for at least ten (10) per cent of the amount of the bid or proposal, certified to by some responsible bank or banker, and made payable to John W. Edgemond, Secretary of the Board of Education, to be retained by the said School District as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract, or any bond required by law.

NO BID WILL BE ENTAINED BY THE BOARD OF EDUCATION UNLESS ACCOMPANIED BY THE WRITTEN PERMISSION OF THE WESTERN PACIFIC RAILROAD COMPANY TO ENTER ON THEIR RIGHT OF WAY FOR THE CONSTRUCTION OF THE SUBWAY.

Bids will be opened by the Board of said District on the 16th day of October 1922, at 4:30 o'clock p. m. in the Board Room, second floor of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any of all items of such bids.

JOHN W. EDMOND,

Secretary of the Board of Education of Oakland, California.

NOTICE TO CONTRACTORS

(Live Oak School Addition. Estimated Cost, \$10,000)

Notice is hereby given that sealed bids will be received and opened by the Board of Trustees of the Live Oak School District, Santa Cruz, California, at ten o'clock A. M., on October the 14th, 1922, for the erection and completion of alterations and additions to the Live Oak School Building in said district according to plans and specifications prepared by Charles F. Masten and Lester W. Hurd, architects. Bids will be received for the labor, material and mechanical work in said district to be used and employed in the erection and completion of the said alterations and additions to said building.

Plans and specifications may be seen at the office of the said architects at 168 Sutter St., San Francisco, California, or at the office of the Clerk of the Board of Trustees at No. 31 Walnut Avenue in the City of Santa Cruz, California.

All bids must be accompanied by certified check for sum not less than ten (10) per cent of the amount of said bid, made payable to A. M. Foster, Clerk of the Board of Trustees of the Live Oak School District. Each bid must be enclosed in a sealed envelope and addressed to said Clerk at No. 31 Walnut Ave., Santa Cruz, California. The Board reserves the right to reject any and all bids. Bids must be delivered to the undersigned clerk of said Board of Trustees at his said office on or before the time for the opening of said bids.

A. M. FOSTER,
Clerk of the Board of Trustees of the Live Oak School District.

BIDS WANTED FOR GUVERNMENT HIGHWAY

NOTICE TO CONTRACTORS

Sealed proposals for constructing or improving the Patricks Creek-Adams Station (Grants Pass-Crescent City) Nat'l Forest Road project located within the Siskiyou National Forest, State of California, County of Del Norte, will be received by the District Engineer, Bureau of Public Roads, U. S. Department of Agriculture, at 316 New P. O. Bldg., Portland, Oregon, until 10 o'clock a. m., on the 10th day of Oct., 1922, at which time and place they will be publicly opened and read. The right is reserved to reject any and all bids, and none will be considered except those from contractors ascertained to be experienced and responsible.

The length of project to be constructed or improved is approximately 12.8

miles, and the principal items of work are approximately as follows:

Clearing, 80 acres.
Grubbing, 267 acres.
Excavation unclassified, 380,000 cubic yards.
Culverts, 4480 lin. ft.
Class "A" concrete, 160 cu. yds.
Reinforced steel, 12,800 lbs.
Stations grader work, 93.5.
Cement rubble masonry, 380 cu. yds.

Hand placed embankment, 1500 cu. yards.

The Government has available for loan to contractors on a rental basis, equipment such as trucks, concrete mixers, etc. Contractor may arrange with District Engineer for the equipment that may be used in doing the construction. The rentals will be deducted monthly from the total of the construction payments.

The work embraced in this contract shall be completed within 220 weather working days (page 4), following the execution of the contract by the Secretary of Agriculture.

Plans, specifications and the maps, plans, specifications, and estimates of quantities may be examined by responsible contractors at Room 316 Post-office Bldg., Portland, Oregon, Bureau of Public Roads, San Francisco, California, and at the Office of the Forest Supervisor, Grants Pass, Oregon.

Plans and specifications may be furnished to contractors who contemplate bidding, upon deposit of certified check for \$10.00 payable to the Secretary of Agriculture of the United States. Check will be held pending return of plans and specifications.

All proposals must be made on forms, and in accordance with instructions, and the part of the specifications above referred to, and must be accompanied by a proposal guaranty in an amount at least equal to five (5) per cent of the total amount of the proposal.

C. H. PURCELL,
District Engineer.

NOTICE TO CONTRACTORS

(Livermore School Lighting Fixtures)

Office of the Clerk of the Board of Trustees, Livermore School District, Livermore, Alameda County, California.

Sealed bids will be received by the Clerk of the Board of Trustees of the Livermore School District, Livermore, Alameda County, California at his office at the south west corner of 6th & 1 Streets, Livermore until Tuesday October 17, 1922, at two o'clock p. m. (the day when said bids will be opened and the award made) for the furnishing and erecting lighting fixtures required for the new school building now under construction in said District.

Plans and specifications for this work are on file in the office of the Clerk of the Board of Trustees, also at the office of the Architect, Henry H. Meyers, 1201 Kohl Building, San Francisco, where copies may be obtained.

Each bid must be accompanied by a check for at least 10 per cent of the amount of the bid proposal certified to by some responsible bank and made payable to Rube Hunter, Clerk of the Board of Trustees of the Livermore School District, to be forfeited to the said School District as agreed and liquidated damages should the party or parties to whom the contract shall be awarded fail to enter into the contract after the award to give surety bonds may be required by the Board for the faithful performance of the contract.

The Board reserves the right to reject any or all bids.

(SEAL) RUBE HUNTER,
Clerk of the Board of Trustees, Livermore, California,
Dated September 29, 1922.

BIDS WANTED FOR ADDITIONS TO TWO SCHOOLS

NOTICE TO CONTRACTORS

Notice is hereby given that sealed bids will be received by the Board of Education of the Sacramento City School District for the complete erection of additions to two school buildings in accordance with plans and specifications on file in the office of the Secretary of the Board of Education of the Sacramento City School District, Room 300, City Hall, Sacramento, California, and also in the office of Dean & Dean, Architects, third floor of City

Library, 9th and I Streets, Sacramento, California.

The said additions to school buildings will be erected on property owned by the School District, at 53rd and J Streets, and at 16th and 17th and N Streets, situated in the City of Sacramento, State of California.

On a deposit of \$10.00 with the Board of Education, at the Architects, complete sets of plans and specifications may be had by any prospective bidder, and retained for a period of 15 days. The deposit will be returned to the bidder on the return of the plans and specifications.

Bids must be made on proposals obtained at the office of the Architects, and be signed by the bidder, accompanied by a certified check for at least 10 per cent of the amount of the proposal, certified to by some responsible bank or banker, and made payable to the Secretary of the Board of Education of the Sacramento City School District, said check to be forfeited to and retained by the School District, should the party of parties to whom the contract should be awarded fail to enter into the contract after the award, or to give bonds as required. Bids must be plainly marked on the exterior "Proposals for Additions to El Dorado and Jefferson School Buildings."

All bids must be filed with the Secretary of the Board of Education of the Sacramento City School District, Room 300, City Hall, Sacramento, California, not later than 7:30 o'clock P. M. Monday, October 16th, 1922.

The Board of Education of the Sacramento City School District reserves the right to reject any and all bids.

BOARD OF EDUCATION,
SACRAMENTO CITY SCHOOL DIST.,
Chas. C. Hughes, Secretary.

All proposals or bids must be in writing, must show the total amount submitted and must be accompanied by a certified check for ten per cent of the amount bid, payable to the City of Santa Cruz.

The Council of said city reserves the right to reject any and all bids.

S. A. EVANS,
City Clerk.

Dated October 4, 1922.

BIDS WANTED FOR ADDITIONS TO SCHOOL

NOTICE TO CONTRACTORS

(Eight-room and Auditorium Brick and Concrete Addition. Estimated Cost, \$120,000)

Notice is hereby given that sealed bids will be received by the Board of Education of the Sacramento City School District for the complete erection of an addition to a school building in accordance with plans and specifications on file in the office of the Secretary of the Board of Education of the Sacramento City School District, Room 300 City Hall, Sacramento, California, and also in the office of Dean & Dean, Architects, third floor of City Library, 9th and I Streets, Sacramento, California.

The said school building is to be erected on the property owned by the School District, at 24th and 25th, N and

O Streets, situated in the City of Sacramento, State of California.

On or before 1st of 22.00 with the Board of Education, or the Architects, complete sets of plans and specifications may be had by any prospective bidder and retained for a period of 15 days. The deposit will be returned to the bidder on the return of the plans and specifications in good condition.

Bids must be made on proposals obtained at the office of the Architects, and be signed by the bidder, accompanied by a certified check for at least 10% of the amount of the bid or proposal, certified to by some responsible person or banker, and made payable to the Secretary of the Board of Education of the Sacramento City School District, said check to be forfeited to and retained by the School District should the party or parties to whom the contract shall be awarded fail to enter into the contract after the award, or to give bonds as required. Bids must be plainly marked on the exterior "Tropical for Addition to Fremont School Building."

All bids must be filed with the Sacramento City School District, Room 309, City Hall, Sacramento, California, not later than 7:30 o'clock P. M., Monday, October 16th, 1922.

The Board of Education of the Sacramento City School District reserves the right to reject any and all bids.

BOARD OF EDUCATION,
SACRAMENTO CITY SCHOOL DISTRICT,
Chas. C. Hughes, Secretary

CALL FOR BIDS FOR FURNISHING TWO PUMPS, TWO ELECTRIC MOTORS AND MOTOR CONTROL EQUIPMENT FOR MERCED IRRIGATION DISTRICT.

Public notice is hereby given that sealed proposals for furnishing two pumps direct connected to two electric motors with motor control equipment for Booster Plant No. 1 of the Lake Yosemite-Le grand canal of Merced Irrigation District will be received by the Board of Directors of said district in the City of Merced, State of California, at 11 o'clock P. M., on Friday, October 13, 1922, at which time and place all bids so received will be opened in public by said Board. Thereafter said Board will let said work to the lowest responsible bidder, but said Board reserves the right to reject any or all bids.

Said machinery and equipment shall be furnished by a factory. Said pumps shall each be so designed as to be able to discharge successfully and continuously 20 cubic feet of water per second against a total head of 24 feet. Said motors shall each have a rating of 440 volts, 60 cycles and 3 phase, said pumps, motors and equipment are more particularly described in the plans and specifications hereof, which may be seen at the office of said Board. Any prospective bidder may obtain a copy of said plans and specifications upon payment of \$5 therefor.

Any bidder to whom the contract for furnishing said machinery may be let must furnish a bond as provided by law in the sum of at least 25 per cent of the contract price additional for the faithful performance of the contract, including the guarantees therein to be made by the contractor.

Each bid must be accompanied with cash or a cashier's or certified check or bond for an amount equal to at least 5 per cent of the total amount of the bid, as a guaranty that, if the bid is accepted, the bidder will, within 20 days after its acceptance, enter into a contract with the district in the form attached to said specifications and furnish the bond aforesaid.

All proposals must be on forms which will be furnished by the district at the office of said Board and must be in sealed envelopes addressed to the Board of Directors of Merced Irrigation District.

Dated at Merced, California, September 25, 1922.

By order of said Board of Directors of said District.

W. D. WAGNER, Secretary.

NOTICE TO BIDDERS

(County Hospital Heating System)

Office of the Clerk of the Board of Supervisors of Contra Costa County, State of California.

NOTICE IS HEREBY GIVEN that sealed bids will be received by the Clerk of the Board of Supervisors of Contra Costa County, State of California, at his office until 11 o'clock a. m., on Monday, October 23rd, 1922, for the alterations and additions to the heating system for Contra Costa County Hospital, on Hospital grounds in the town of Martinez, Contra Costa County, State of California.

Plans and specifications for the work are on file in the office of the Clerk of this Board and the office of Hunter & Hudson, Engineers, 711 Rialto Building, San Francisco, California, to which bidders are hereby referred.

Bids shall be marked "Bids for Alterations and Additions to the Heating System in County Hospital."

All bids must be accompanied by a certified check on some solvent bank or a cash deposit in a sum equal to ten per cent of amount bid on whole contract, conditioned that if the contract is awarded to the party submitting the accepted bid, he will enter into a contract or contracts and furnish such bonds as may be required by said Board, within five days after the notice of award or failing so to do, the amount of such check or cash deposit shall be forfeited as liquidated damages for such failure.

All checks to be made payable to the order of the Clerk of the Board of Supervisors of Contra Costa County, State of California.

Said Board reserves the right to reject any and all bids and to waive any informality in any bid received.

A deposit of \$20 will be required for the furnishing of a set of plans and specifications, said amount to be returned to the party on return of the plans and specifications in good order. By order of the Board of Supervisors of Contra Costa County, State of California.

Dated, Martinez, California, October 2nd, 1922.

J. H. WELLS,
Clerk of the Board of Supervisors of Contra Costa County, State of California.

NOTICE TO CONTRACTORS

(Library Building Covering)

The Library Board of the City of Palo Alto, Santa Clara County, California, will receive sealed proposals until 7:30 o'clock p. m., October 5, 1922, at the present Library building, corner of Hamilton Avenue and Bryant Street, Palo Alto, California, at which time and place said bids will be opened and read in public for furnishing the required labor and materials for covering the main floor of the present and new building with linoleum or composition in accordance with plans and specifications therefor by Birge M. Clark, architect.

Cashier's or certified check for bidder's bid for amount not less than five per cent of amount of bid shall accompany each proposal, drawn payable to the order of Willis C. Thoits, president of the Library Board of the City of Palo Alto, as guarantee that the bidder will, if requested, within five days after receiving notice of the acceptance of bid enter into a contract with said Library Board in accordance therewith and furnish the required bond. Said check or bond to be forfeited to the Library Board should the bidder fail to execute contract and bonds as above mentioned.

Plans and specifications for all of the above work may be seen at the office of Birge M. Clark, architect, 600 Embarcadero Road, Palo Alto, California, or may be obtained upon the deposit of \$10, which deposit will be refunded to the bidder when plans and specifications are returned in good condition.

The said Library Board reserves the right to reject any and all bids and waive any informality in any bid received.

By order of the Library Board of the City of Palo Alto.

By WILLIS C. THOITS, President.
September 19, 1922.

Kittitas and Selah in Yakima and Kittitas counties. K. L. Goulter & Co., Ilwaco, Wn., at \$324,135 awarded cont. to clear grade, drain and surface with gravel or crushed rock 12.21 miles of North Fork Klickitat bet. Underwood and Lyle in Klickitat county.

STOCKTON, San Joaquin Co., Cal.—Until Nov. 8, bids will be rec. by Eugene Graham, county clerk, to improve Locust Ave., in Rd. Imp. Dist. No. 4. F. E. Quail, county sury.

EUREKA, Humboldt Co., Cal.—Until Oct. 17, 5 p. m., bids will be rec. by A. Walter Kildale, city clerk, for 10,000 cu. yds. more or less, screened gravel. Harry H. Hannah, city engineer.

APPLICATIONS FILED WITH STATE WATER COMMISSION

SACRAMENTO.—Among recent applications filed with the State Department of Engineering, Division of Water Rights, H. A. Klugef, chief of the Division, are the following:

Application No. 3019 (Trinity Co.) W. D. Duke, care of F. H. Tibbets, Alaska Commercial Bldg., San Francisco, Cal., for 300 cu. ft. per second and 40,000 acre ft. per annum from Trinity River, for irrigation of 20,000 acres in Siskiyou Co.

Application No. 3020 (Trinity Co.) W. D. Duke, care of F. H. Tibbets, Alaska Commercial Bldg., San Francisco, Cal., for 300 cu. ft. per sec. and 40,000 acre ft. per annum from Trinity River, for power purposes. Proposes to develop 34,000 theoretical horsepower.

Application No. 3021 (Sacramento and Eldorado Counties), Joseph W. Gross, trustee for Consumes Irrigation Dist., Sacramento, Cal., for 100 cu. ft. per sec. and 20,000 acre ft. per annum from Consumes River, for irrigation of 5500 acres of cotton land along Consumes River bet. Bridge House and McConnell. Main Ditch 22 miles long. Est. cost, \$1,000,000.

Application No. 3025 (Alpine Co.), W. F. Dressler, H. W. Settlemeyer and F. Nedderric, care of Platt and Sanford, Attyrs., Carson City, Nevada, at \$1100,000, for 100 cu. ft. per annum from Hoback Lake, for irrigation of 1160 acres. Est. cost, \$25,000.

Application No. 3026 (Yuba County), Roy H. Elliott, 1213 Hobart Bldg., San Francisco, Cal., for 10,000 acre ft. per annum from North Yuba River, for power purposes. Proposes to develop 19,886 T. H. P. Dam to be 181 ft. high. Est. cost, \$1,500,000.

Application No. 3027 (Amador and Butte Counties), O. Scribner, 323 Holbrook Bldg., San Francisco, Cal., for 215 cu. ft. per sec. and 50,000 acre ft. per annum from Middle Fork and South Fork of South Fork of Cosummes River, for irrigation of 25,000 acres. Est. cost, \$600,000.

Application No. 3028 (Calaveras Co.), O. Scribner, 323 Holbrook Bldg., San Francisco, Cal., for 550 cu. ft. per sec. and 99,500 acre ft. per annum from Middle Fork of Mokelumne and North Fork Calaveras. Est. cost, \$1,000,000.

Application No. 3031 (Shasta Co.) W. L. Samson, Corning, Cal., for 2000 cu. ft. per sec. and 20,000 acre ft. per annum from Clear Creek, for power purposes. Proposes to develop 60,000 T. H.

Application No. 3037 (Lassen Co.), Wm. R. Nevins, trustee for proposed Irrig. Dist., Doyle, Cal., for 60,000 acre ft. per annum from Long Valley Creek, for irrigation of 15,000 acres.

Application No. 3040 (Butte County), Table Mt. and Thermalito Irrigation Districts, care of R. M. Gray, resident engr., Oroville, Cal., for 12,000 acre ft. per annum from Concor Creek or East Branch, for power purposes. Proposes to develop 4613 T. H. P. Est. cost, \$300,000.

Application No. 3051 (Los Angeles County), Malibu Lake Club, care of George I. Lamy, 2645 W 12th St., Los Angeles, Cal., for 25 cu. ft. per second and 1000 acre ft. per annum from Malibu River, for lake for fish, game and flood control and domestic supply in clubhouse and grounds. Proposes 45 foot dam. Est. cost, \$25,000.

Application No. 3060 (Shasta Co.) W. L. Samson, Corning, Cal., for 2000 cu. ft. per sec. and 200,000 acre ft. per annum from Clear Creek, to be diverted in NE 1/4 of SE 1/4 Sec. 31, T. 3 N., R. 5 E., W. 1/4 31st, for irrigation of 200,000 ac. 50 ft. masonry dam. Est. cost, \$200,000.

Permits Granted
Among recent permits granted by the Division of Water Rights, State Department of Engineering, are the following:

Permit No. 1110, (Sutter County). Issued to Sutter Mutual Water Company, for 240 cu. ft. per sec. from Sacramento River, for irrigation of 160 acres.

Permit No. 1111, (Sutter County). Sutter Mutual Water Company, Grafton, Cal., for 6.00 cu. ft. per sec. from Sacramento River, for irrigation of 480 acres.

Permit No. 1112, (Sutter County). Sutter Mutual Water Company, Grafton, Cal., for 5.5 cu. ft. per sec. from Sacramento River for irrigation of 440 acres.

Permit No. 1113 (Sutter County). Sutter Mutual Water Co., Grafton, Cal., for 2.5 cu. ft. per sec. from Sacramento River, for irrigation of 200 acres.

Permit No. 1114 (Siskiyou Co., Butte Valley Irrig. Dist., Macdoel, for 100 cu. ft. per sec. and 10,000 acre ft. per annum from Butte Creek and 150 cu. ft. per sec. and 10,000 acre ft. per annum from Adelphi Creek. Irrigation 31,627.5 acres inside and adjacent to Butte Valley Irrigation Dist.

Permit No. 1115 (Siskiyou Co.), Butte Valley Irrigation Dist., Macdoel, Cal., for 100 cu. ft. per sec. and 5000 acre ft. per annum from Bear Creek for irrigation of 51,627.5 acres within and adjacent to Butte Valley Irrigation Dist.

Permit No. 1116, (Siskiyou Co.) Butte Valley Irrigation Dist., Macdoel, Cal., for 10,000 acre ft. per annum from Butte Lake, for irrigation of 31,627.5 acres inside and adjacent to Butte Valley Irrigation Dist.

Permit No. 1117, Application No. 1769 (Sutter County). Sutter Mutual Water Co., Grafton, Cal., for 10 cu. ft. per sec. from Sacramento River, for irrigation of 200 acres.

OFFICIAL PROPOSALS

(Continued from Page 17)

NOTICE TO CONTRACTORS

(McKinley School Addition)

Notice is hereby given that the Board of Education, Bakersfield City School District, City Hall, Bakersfield, Calif., will receive sealed bids, up to 7 p. m., of October 26th, 1922, for the erection and completion of a two-room brick and frame addition to the McKinley School Building, Bakersfield, Calif., in accordance with plans and specifications for same on file with the Clerk of said Board and open for the inspection of bidders. Copies of said plans and specifications may be had at the office of Charles H. Biggar, architect, Bank of Italy Bldg., Bakersfield, and the work will be done under his supervision. Each bid must be accompanied by a certified check for at least ten per cent of the amount bid, said check to be made payable to the Clerk of the Board

of Education, Bakersfield City School District, and will be forfeited should the successful bidder fail to enter into contract for the erection and completion of the building, satisfactory to the said Board of Education, and in addition thereto, furnish satisfactory bond in the amount of seventy-five per cent of the contract price. The Board reserves the right to reject any or all bids or to waive any informality in any bid received. Alternate bid for the construction of one room only, is also desired.

By order of the Board of Education, Bakersfield City School District, September 23, 1922.

HARRIET R. PEACOCK,

President.

E. R. LONG, Clerk.

NOTICE TO CONTRACTORS

(Kern County Branch Library)

Notice is hereby given that the Clerk of the Board of Supervisors, County of Kern, Bakersfield, Calif., will receive sealed bids up to 10 A. M. of October 16, 1922, for the erection and completion of a one-story brick and frame branch library building at Marland, Kern County, Calif., in accordance with plans and specifications for same on file with said clerk and open for the inspection of bidders.

Copies of the above plans and specifications may be had at the office of Charles H. Biggar, Architect, 405-406 Bank of Italy Bldg., Bakersfield, and the work will be done under his supervision.

Each bid must be accompanied by a certified check for at least ten per cent of the amount bid, said check to be made payable to the Clerk of the Board of Supervisors, and same will be held as evidence of good faith on the part of the successful bidder, that he will enter into a contract satisfactory to the Board of Supervisors and in addition thereto will furnish good and sufficient bonds in the amount of seventy-five per cent of the contract price.

The Board reserves the right to reject any or all bids and to waive any informality in any bid received.

By order of the Board of Supervisors, Sept. 18, 1922.

F. E. SMITH,

County Clerk and ex-Officio Clerk of the Board of Supervisors.

NOTICE TO DEALERS IN BEST

TRACTORS

Notice is hereby given that sealed proposals or bids will be received by the Board of Supervisors of Santa Clara County, California, in their rooms in the Court House, in the city of San Jose, up to 11 o'clock a. m. of Monday, October 18, 1922, for one or more new sixty HP Cruiser type, Best track layer, tractors, three speeds forward, one reverse truck roller, track links and pins, to be drop forged heat treated drawbars, front and rear; provision for at plates on tracks if desired, full set operating tools, tractor to be delivered at San Jose, in first-class operating condition, with manufacturer's full guarantee.

Each bid must be accompanied by a certified check in the sum of ten per cent of amount bid, drawn upon some reliable bank in favor of Henry A. Pfister, County Clerk.

The Board reserves the right to reject any and all bids.

All bids must be addressed to John Roll, Chairman of the Board of Supervisors of Santa Clara County, and endorsed "Bids for 60 HP Cruiser Tractors."

By order of the Board of Supervisors of Santa Clara County.

Attest: HENRY A. PFISTER,

County Clerk and ex-Officio Clerk

By Eugene M. Don, Deputy Clerk.

BIDS WANTED FOR REMODELING

BARRACKS

NOTICE TO CONTRACTORS

Sealed proposals, indorsed "Proposals for Remodeling Building, Mare Island, Calif., Specification No. 4601," will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 11 o'clock a. m., Oct. 11, 1922, and the opening of said bids opened for remodeling Barracks Building, No. 53, at the Marine Reservation, Navy Yard, Mare Island, Cal. The work includes rearrangement of partitions,

removing brick walls, repairing walls, ceilings and floors, and new electric lighting, heating, and plumbing fixtures, and their connections to the existing systems, together with other incidental work. Drawings and specifications No. 4601 may be obtained on application to the Bureau or to the Commandant, Navy, Mare Island, Calif. Deposit of a check or postal money order for \$10 payable to the Chief of the Bureau of Yards and Docks, is required as security for the safe return of the drawings and specifications. E. E. Kenh, Acting Chief Bureau, August 17, 1922.

BUSINESS OPPORTUNITIES

Further information regarding these opportunities may be had from Foreign and Domestic Trade Bureau of San Francisco Chamber of Commerce, Merchants' Exchange Bldg., by referring to index number:

D-24—Mexico City, Mexico. Large firm is interested in buying hardware, dyes, varnishes and cutlery.

D-25—Guaymas, Sonora. Large firm desires contract with a San Francisco Importing and exporting house. This firm is at present especially interested in buying lead in bars and ingots. **D-24—Cincinnati, O.** Manufacturers of high grade thermometers, hydrometers and scientific instruments for industrial purposes desires distributor San Francisco.

D-26—Philadelphia, Pa. Manufacturer of patent automatic tank vent valves designed for use on the vent pipes of all kinds of oil tanks, desires distributor San Francisco.

D-28—San Francisco, Calif. San Francisco local firm has available open storage space in large fenced-in yard close to waterfront. Belt railway spur facilities. Wagon scale on premises. Low storage rates.

Landowners included in Butte-Sutter By-Pass Assessment No. 6, levied by the State Reclamation Board to pay the cost of the Sutter by-pass and other reclamation work, voted practically unanimously to bond the district located in seven counties of the Sacramento Valley to meet the assessment, which aggregates slightly more than \$8,000,000.

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACT OF CONGRESS OF OCTOBER 3, 1917

Of Building & Engineering News, published weekly at San Francisco, Calif., for October 1st, 1922.

State of California, City and County of San Francisco, ss.

Before me, a Notary Public, in and for the City and County aforesaid, personally appeared Eleanor F. Larsen, Administratrix of the Estate of L. A. Larsen, deceased, who having been duly sworn, according to law, depose and says that she, et al. are the owners of the Building & Engineering News, published at San Francisco, 560 Mission street, San Francisco, Cal.

Editor, Mrs. L. A. Larsen, 560 Mission street, San Francisco, Cal.

Managing Editor, J. P. Farrell, 560 Mission Street, San Francisco, Calif.

Business manager, Mrs. L. A. Larsen, 560 Mission street, San Francisco, Cal.

Owner, L. A. Larsen Estate.

That the known bondholders, mortgagees and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages or securities are None.

That the average number of copies of each issue of this publication sold or distributed, through the mails or otherwise, to paid subscribers during the six months preceding the date shown above is 650.

ELEANOR F. LARSEN, Administratrix of the Estate of L. A. Larsen, deceased.

Sworn to and subscribed before me this twenty-ninth day of September, 1922.

CHALMER MUNDAY,

Notary Public in and for the City and County of San Francisco, State of California. (My commission expires Oct. 18, 1925.)

A "Pittsburg" Automatic Gas Water Heater installed in the Home indicates high quality throughout.

Recommended and specified by all of the leading architects, plumbers and builders.

MUNY HYDRO-ELECTRIC PLANT AT TACOMA PAYS BIG

After experience with municipal ownership and operation of its hydro-electric plant since 1893, Tacoma, Wash., is well satisfied and is considering an investment of \$12,000,000 in additional generating plants and equipment.

Tacoma has approximately 23,688 families. Of this number 1781 families use electricity for cooking in addition to lighting and 2229 are using electric current for heating, in addition to other uses.

The rates in Tacoma for this service are 5.5 cents per kilowatt for lighting, 1 cent for cooking and 1/2 cent for heating. This latter rate is declared one of the cheapest in the country. The city of Tacoma has an absolute monopoly within the city proper, but in the outlying residence districts where a private company supplies service the rates are 8 cents for light, 3 cents for cooking and 1 cent per kilowatt for heating.

Tacoma's original investment in its electric plant was \$1,750,000, which also included the water system in operation at that time. About \$2,600,000 has been spent in addition since that time in additions, and another investment of \$12,000,000 is contemplated as soon as water rights can be cleared up.

During the period of its operation the income from the plant has paid all operating costs, retired the bonds and has built up a surplus of \$2,536,341.37 which has been invested largely in extensions of the plant, which otherwise would have required bond issues for financing.

It is declared in Tacoma that a home is not considered modern unless it is provided with full electrical equipment for lighting, heating and cooking. Especially has this been true since the recent coal strikes.

TYPES OF ROADS VARY WITH CONDITIONS

Various types of Federal-aid roads are built in different sections of the country. According to the Bureau of Public Roads of the United States Department of Agriculture, this variation is due largely to availability of materials, volume of traffic, and climatic conditions.

The 18,299 miles of Federal-aid road completed on July 31 has been distributed among the eight major types of construction as follows: Graded and drained, 2528 miles; sand-clay, 2222 miles; gravel, 7013 miles; water-bound macadam, 456 miles; bituminous macadam, 654 miles; bituminous concrete, 699 miles; concrete, 3350 miles; and brick, 287 miles.

In the group of states composed of Delaware, Maryland, Virginia, West Virginia, North Carolina, South Carolina, Georgia and Florida, the 2,842.9 miles completed has been distributed as follows: Graded and drained, 173.5; sand-clay, 1592.5; gravel, 270.4; water-aid, 1.5; building campaign is bound macadam 3.4; bituminous macadam, 204.3; bituminous concrete, 107.0 concrete, 387.3; and brick, 24.5. Bridges completed total 15.9 miles in length.

The total mileage completed in each state is as follows: Delaware, 34.1; Maryland, 171.1; Virginia, 350.6; West Virginia, 170.6; North Carolina, 827.3; South Carolina, 445.6; Georgia, 819.4; and Florida, 48.7. In addition the mileage under construction or completed and final payment not made is as follows: Delaware, 19.0; Maryland, 29.7; Virginia, 201.5; West Virginia, 156.0; North Carolina, 126.4; South Carolina, 423.5; Georgia, 366.5; and Florida, 142.8.

RECLAMATION SERVICE SAYS DAY LABOR PLAN IS JUSTIFIED

As a result of some investigation into the matter of reclamation work being done by day labor, and the relations of the Reclamation Service toward the contracting fraternity, representatives of the Service are inclined toward doing their work by contract, but they stated that a considerable portion of the Reclamation Service work could not be satisfactorily contracted on account of the uncertainty of funds available making it impossible for them to give a definite time for payment. They explained that Congress authorizes the expenditures but does not make a definite appropriation, and while the books show that for a given year extensive work is authorized, they never know very far ahead what money will be available to spend. The funds are obtained from the sale of certain bonds, from royalties, and occasionally from an appropriation. They also stated that some of the work was hazardous and contingencies were impossible to foresee, and it was therefore impossible to contract for the work.

W. A. Kraner, San Francisco contractor, has filed suit for \$50,000 against the Happy Valley Irrigation District of Olinda, Shasta County. Kraner says he entered into a contract with the directors of the district for extension and improvement of the irrigation system. He says the contract was rescinded by consent, but the agreement to pay him for his work was not carried out.

TO START CONSTRUCTION OF OAKLAND PIER

With the arrival of caps and stringers for the pier to be used in constructing the new municipal pier at the foot of Market street, Harbor Engineer Ralph Beebe expects to start immediately a force of men at work driving the piles. All of the material for the big job has been ordered.

Eighteen months will be necessary to complete the project, Beebe estimates, because of delays in availability of the money appropriation of \$225,000.

One pier planned by Beebe on the western waterfront will provide more berthing space than the entire total now available to shippers. The pier is to be 6000 feet in length, paralleling the Key Route mole, and will have a fairway of 1000 feet.

Purchase of the lands necessary and construction of the pier are estimated to cost \$600,000. In addition to this a belt line is proposed to connect the Southern Pacific and Santa Fe systems and other docking facilities.

WOODEN GAS PIPE OUTLASTS IRON BANDS

The common impression is that iron is more durable than wood, but the fact is that under certain conditions wood often outlasts iron, says the National Lumber Manufacturer's Association Information Bureau.

In reconstructing the gas system at Canandaigua, N. Y., which was installed seventy years ago, it was necessary to take up 1800 feet of wooden trunk line pipe. The engineers were amazed to discover that there had been no leakage from it.

Although it had been lying submerged in water, it appeared to be as sound as when laid. The inside of the pipe was as intact as the outside.

Nevertheless, an iron band which made a joint was so badly rusted that it had to be removed. Not only was this ancient pipe intact, but chips from the borings showed that there had been no seepage of gas, the wood fibre not even being impregnated with gas odor.

SAN JOSE BUILDING ACTIVITIES ACTIVE, REPORT SHOWS

That San Jose is rapidly forging ahead in its building campaign is shown in the report of City Building Inspector M. C. Woodruff for the nine months of this year as compared to the same period of 1921, which are as follows:

	Amount 1921	Amount 1922
January	\$ 98,772	\$ 75,363
February	114,265	121,570
March	105,423	129,149
April	133,620	141,370
May	46,254	166,640
June	62,255	215,150
July	59,912	168,755
August	39,735	187,335
September	78,120	127,880
Total	\$758,457	\$1,522,225

These figures show that the nine months of this year have a total of more than twice that of the same period of 1921. It is expected that by the close of the year the total will prove to be the greatest of any year since figures have been compiled. The full year of 1920 was the previous big year in building, when the total was \$1,799,516, or only about \$250,000 more than the value of the past nine months.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

A survey of the building industry which has just been completed by the Copper and Brass Research Association, places the total expenditures in this country during 1922 for all classes of building at \$5,000,000,000. Approximately one-third of this amount will be expended for dwelling construction. Industrial buildings follow with a total of \$653,000,000 after which come office buildings with \$645,000,000, hotels \$640, 000,000, and schools \$610,000,000. Public buildings, hospitals and churches follow in the order named. The details of the \$5,000,000,000 expenditure for different types of buildings are as follows: Apartment houses \$550,000,000, churches \$205,000,000, dwellings, \$680,000,000, hospitals \$230,000,000, Hotels \$640,000,000, industrial buildings \$655,000,000, office buildings \$645,000,000, public buildings \$260,000,000, public garages \$125,000,000, schools \$610,000,000. In conclusion, the survey says: "Activity in the building industry has served greatly to assist in hastening the return of normal business conditions throughout the United States; for \$5,000,000,000 translated into as much materials and labor, betokens a wide range of industrial activity. It is therefore reassuring to note that only a start has been made toward catching up on the accumulated building deficit, and that with increased construction of heavier types of building, even though there may be a somewhat smaller amount of residence construction, we may reasonably expect, during the next three years at least, considerable more than the normal pre-war building activity."

A petition for a writ of mandate to compel W. F. McClure, State Engineer, and A. E. Fletcher, State Director of Public Works, to estimate the amount of probable cost of organizing the Kings River Water Storage District, in compliance with the California Water Storage District Act of June 3, 1921, has been filed in the State Supreme Court. H. F. Tarpey, E. K. Reed, E. E. Griffen, W. W. Sheehan, A. G. Wishon, L. A. Nares, J. O. McIntire and H. A. McKenzie are named as petitioners. Engineers McClure and Fletcher and three more are named as respondents. The area of the proposed district is in excess of 1,000,000 acres of land having a value of approximately \$200,000,000. Plans for improvements within the proposed district involve the construction of works estimated at \$26,000,000 and the building of dams, storage of large amounts of water, approximately 600,000 acre feet, in a reservoir to be constructed upon the King river in a location known as "Pine Flat Reservoir." the petition requests that the water storage district be immediately formed and functioned. McClure and Fletcher are asked to act upon and approve the undertaking conditions. Hearing on the petition has been set for November 14, at Sacramento.

Supervisors John Heiken, of Sutter County, and Supervisor John Russi, of Sacramento county, have selected James K. O'Brien, of Yuba County, as a third member of a committee to organize a joint highway district in their respective counties through which the Natomas Boulevard in Sacramento county and the Sutter County highway may be made a connecting link between the two counties. O'Brien, who was chosen chairman of the committee, will confer with the State Highway Commission to ascertain the mode of procedure in the premises. The proposed highway district will contribute one-third toward the construction of the road, Sacramento and Sutter Counties will pay one-third and the balance will be met by the State.

The W. J. Bettingen Lumber Co., with a capital stock of \$500,000, has been incorporated and will maintain main offices at Pasadena, California. Commander H. Van Keuren, U. S. N., has arrived from New York to assume the duties of Admiral John J. Beuret, U. S. N., formerly attached to the Mare Island Navy Yard. Admiral Beuret formerly construction officer at the Mare Island yard, received his rank of Rear Admiral a short time ago and has been made head of the Bureau of Construction and Repair with headquarters at Washington, D. C.

Chief Engineer Muhlolland of the Los Angeles bureau of water works and supply announces that construction work has started at Fairmont reservoir to increase the height of the earth dam from 81 to 96 ft. This will increase the storage capacity from 5900 acre ft. to 7600 acre ft.; the estimated cost is \$100,000.

Cement shortage threatens to hold up all municipal improvements at Seattle, Wash. Unless immediate relief arrives all private building operations will cease, contractors report.

The Dillon Point Development Co., a corporation, will file application with the Contra Costa County Supervisors for permission to build a toll bridge over Carquinez Straits from Dillon Point, Solano county, to the nearest feasible point on the Contra Costa county side. The proposed structure will be approximately 3000 feet in length and 30 feet wide. Alf. R. Kelly is president of the company and W. T. Duffy, secretary.

Max E. Cook, Farmstead Engineer, Delhi Land Colony, announces the advertising of the last unit of the Delhi Colony for settlement. Applications will be received from November 1 to 30, inclusive. This unit contains 2700 acres and includes the Ballico townsite on the Santa Fe which will be developed in the same manner as the Delhi townsite. Approximately \$500,000 worth of building will be undertaken in this unit.

Attorney General Webb rules that injuries sustained by children on defective playground apparatus on school grounds, makes the trustees of the school liable for damages. A. G. Wetmore, Superintendent of Schools in Stanislaus County, has sent out a circular letter advising the various school districts in his county to remove all playground apparatus, in view of the decision.

Tank Vent Valve Co., 1330 Pine St., Philadelphia, Pa., desires to secure firm or individual to introduce on the Pacific Coast the Krafft patent automatic tank vent valve, for use on oil tanks, ships, tank cars, locomotives and storage reservoirs.

Construction of a \$100,000 addition to its plant in Fresno has been started by the People's Ice Company. With the addition the plant will have a daily capacity of 18,000 tons.

(Continued on Page 7)

ALONG THE LINE

R. M. Morton, who was chief engineer for the Sacramento County Highway Commission when it was created, and who supervised the construction of the major portion of the system built under the \$1,750,000 bond issue, was a recent visitor to Sacramento. Morton resigned on January 1, 1920, when practically all of the work was completed, to accept a similar position in San Diego county, where a highway bond issue of \$2,300,000 had been voted. That work has just been completed. During the period of two years and eight months Morton supervised the construction of sixty-eight miles of paved highway and twenty miles of graded highway.

Robert A. Allen has been commissioned state engineer of Nevada, by Governor Emmet D. Boyle. The official will also serve as ex-officio member of the Public Service Commission. The appointment was made to fill the vacancy caused by the resignation of Colonel James G. Scruggan, Democratic nominee for governor. Allen has served as deputy state engineer for three and one-half years.

Application has been made to the Interstate Commerce Commission by the Staley System of Electrical Railroads for permit to build 950 miles of line in Colorado, New Mexico and Arizona with 225 miles of branch lines. The projected road is to start at the Mexican border in Pima county, Ariz., and run northward through the San Juan basin.

Albert Givan, Sacramento city engineer, has left for Mississippi River points, to inspect dock and wharf facilities with a view to incorporating the latest ideas in wharf construction for the city of Sacramento which has voted a bond issue of \$200,000 for municipal wharf improvements.

Articles of incorporation of the Panama Pottery Company of Sacramento, formed for the purpose of manufacturing clay products have been filed with Secretary of State. The company has a capital stock of \$100,000 and the directors are Victor Avelon, Andrew Anderson and Gustaf Johanson, all of Sacramento.

Willis Polk, San Francisco architect, has been named chairman of the Planning Commission of the Three Cities Chamber of Commerce, San Mateo county, which will draft a comprehensive scheme for the development of San Mateo, Burlingame and Hillsborough as an industrial and residential section.

T. L. Butler has taken over the business of the Pacific Gravel Co., 451 Skotwell street, San Francisco, and will handle a complete stock of sand, gravel, crushed rock, cement, roofing gravel and concrete mixture.

Architect Paul V. Tuttle, 565 Light-house avenue, Pacific Grove, announces the opening of an Oakland office in Room 25, 357 Twelfth St.

An Efficient Concrete Plant Layout

Saving of 36 Per Cent on Equipment Cost Shown

(By Richard P. Wallis, in The Constructor for October)

The success or failure of a construction operation depends in no small manner upon the layout and equipment of its concreting plant. By the concreting plant is meant the mechanical equipment for receiving, storing, mixing and depositing the materials that constitute the concrete frame of the building.

The objects sought in providing these devices as a substitute for human labor in the carrying on of these operations are to increase the speed and to reduce the unit cost of preparing and placing this concrete. These requirements constitute the criterion by which the performance of the plant is judged.

As practically each building operation is unique in its character, so may we expect to find separate and distinct problems to solve in meeting individual job requirements. There are, however, 2 fundamental principles that are common to all efficient plant layouts. In the first place, the continuity of supply must be guaranteed against interruption so as not to jeopardize the successful placing of the concrete; furthermore, the force of gravity should be employed wherever possible to convey material from one location to another.

Factors Influencing Equipment Selection

The special factors that influence the selection of equipment are as follows: 1st, the nature of the material to be handled; 2nd, the source of supply and method of transportation; 3rd, local physical conditions; and, 4th, the initial cost and probable salvage value of such equipment.

The equipment decided upon must be well adapted to the purpose for which it is intended. Cement in bulk requires one type of conveyance, while in sacks it must be handled by other means.

The source of supply and method of transportation exercises a considerable influence in the choice of this equipment. If the aggregates are obtained from local sand and gravel banks, special washing and screening apparatus will be required as well as excavating equipment. If brought to the site by water, rail or truck, unloading devices must be provided that will function in a satisfactory manner in each case.

The arrangement of the buildings, their height, the quantity and distribution of the concrete to be placed, and the amount of available storage space must be considered before deciding on any particular layout. Existing rail or dock facilities must be investigated as well as the topographical features of the site. The plant layout must be shaped to profit by any special physical condition that may exist at the start of operation.

The initial cost and probable salvage value of equipment should be considered before determining on the final layout. Equipment may be selected that will expedite the work of manufacturing concrete yet, owing to its prohibitive cost, increase the unit costs to such a point as to wholly nullify its usefulness in that respect. The salvage value of equipment of this character is variable and depends upon the original cost of the equipment and on the care received by it during the operation.

Don't Overequip

Over-equipping a plant is as unfortunate in its consequences as is failure

to provide sufficient equipment to fully utilize the existing advantage. Additional plant should be installed only when it is clear that such addition will satisfy the criterion of speed and cost.

The final layout should be determined upon only after a careful consideration of all these factors. The plant should be well balanced throughout—that is, all parts should be selected so as to function in an efficient manner without loss of time or materials. A basic principle of engineering construction is to make no one part better or stronger than the rest. This same principle applies to the selection and arrangement of concrete plant equipment.

A Model Plant Layout

The plant layout in the new building now under construction by the Lundorff-Bicknell Co. for the Ward Baking Co., at 46th Street and Perkins Ave., Cleveland, contains numerous interesting features and admirably illustrates the application of many of the above principles to a typical plant layout.

The building itself covers an area of 260 feet by 315 feet and varies in height from 20 to 60 feet. The floors of this building are of reinforced concrete, designed as flat slabs averaging 7 inches in thickness and carried on heavy concrete columns. Altogether, including floor, columns, foundation, etc., there are approximately 10,000 cubic yards of concrete in the finished structure.

The building is located in a built up district of the city and occupies approximately 70 per cent of the entire lot. This limitation of available storage space necessitated a careful preliminary study of the possibilities offered by the use of mechanical equipment in the efficient handling and placing of this concrete.

Fortunately there existed at the start of operation an 18 foot wood trestle along the entire east side of the property carrying a single track spur from the main line of the C. & P. Division of the Pennsylvania Railway. The entire plant was planned and erected with especial reference to the use of this track in the delivery of materials.

Sand, slag, stone and sacked cement are brought to the job in carload lots. The bottom-dump cars are spotted on the trestle over the respective bins and sheds and their contents unloaded by gravity. The aggregates are dumped through the hoppers to their respective bins, while the cement is dropped directly down through chutes to their various sheds below.

Power for shifting these cars locally by means of a cable and nigger head located at one end of the trestle is obtained from the same 75 h. p. McMyler boiler that operates mixer, hoist and pumps.

Storage

There are two sand bins, each with a capacity of 150 cubic yards and two slag bins of similar capacity. It was found necessary to build twin bins for both sand and slag owing to lack of sufficient height beneath the trestle for a single bin with a storage capacity adequate for a day's continuous pouring. This arrangement was made possible by the use of two power-driven Jeffrey belt conveyers that elevate the material from the outer bin in each case to that adjacent to the charging

hopper. These conveyers are operated by 5 h. p. electric motors and have a lifting capacity of approximately one cubic yard per minute.

There are 7 cement sheds with an average capacity of 950 sacks (one car load) each. Sheds No. 1 to No. 6 inclusive are for daily use, while shed No. 7 is held as a reserve in case the unexpected happens and the supply of cement is interrupted. Carload lots of cement are not used until after the receipt of the seven-day test has been received. Until then a sign bearing on one side the words "Do not use" is placed on the door of the shed containing that particular carload. Upon approval this is reversed to read "O. K." and the cement is ready for use.

Mixing

The material from the inner bins is admitted directly to the charging hopper of the mixer, which is located in a pit directly between and below these bins, through steel cut-off gates operated by hand. This charging hopper is divided into two portions by a vertical partition so that the proper amount of sand and slag for each batch is easily determined by filling each portion to the proper level. The cement is brought to the charging hopper from the various sheds by Mathews gravity roller conveyors. Wood pallets with a capacity of 3 sacks each (enough for one batch) are provided for this purpose. The empty sacks are shaken, counted and tied in bundles of 50 each and are stored near the cement sheds for ultimate return to the mill.

Water is supplied from city mains and is measured by means of a tilting barrel conveniently located on the mixing platform. The flow of water is controlled by means of a quick acting valve located at the barrel. The charging hopper when filled with the proper charge of material for the batch, discharges into a 3-yard Smith tilting mixer, operated by a Orr and Sombrower 10 h. p. vertical engine geared direct to the mixer and supplied with steam from the main boiler, where it is properly mixed.

Distribution

The batch is discharged into the hoist bucket and elevated in the main tower "A" a distance of approximately 150 feet to a receiving hopper. A 10-inch by 10-inch single-drum McMyler mine hoist is used for hoisting the concrete. This main tower has a second receiving hopper located part way to the top which, as the work progresses, may be raised by means of a winch located at the tower base. This hopper discharges into a floor hopper through a 100-foot section of Lakewood trussed steel chute jointed in the center and supported from the tower by steel cables, which is used to deposit concrete to the area immediately adjacent to the mixer. The concrete from the top hopper is spouted to a second receiving hopper in tower "B," some 155 feet distant, by means of a line chute with a fall of 4 inches to the foot, supported by block and tackle from a steel cable strung between the two towers. It is then distributed to the various locations by means of an adjustable section of chute 100 feet long, jointed in the center and supported by cables from the top of tower "B." Lakewood chutes are used throughout in this equipment; these are semi-circular in section and have a ra-

dus of 7½ inches. Swivel joints and splash hoods are provided where necessary to insure the flexibility of the operation and to prevent loss of materials.

The towers are of wood, 9 feet square and are built of 6-inch by 6-inch posts 2-inch by 10-inch l-diggers and 2-inch by 8-inch cross braces, all securely spiked together in 7-foot bents and well guyed.

Daily Plant Capacity 350 Cubic Yards
As the specifications state that all concrete must be placed by hand, floor hoppers supported on platforms are provided at the end of each chute for loading the concrete into buggies. The layout calls for a maximum distance of 150 feet that concrete must be hauled.

This plant is designed with the idea of mixing and placing a maximum of 350 yards of concrete per eight-hour day. To supply the necessary amount of materials for this quantity of concrete there are required about 195 cubic yards of sand and 300 cubic yards of slag. This is the approximate capacity of the combined bins, so it is necessary to restock the bins at least once a day during the interval of continuous pouring. The cement sheds have a total capacity sufficient for from four to five days' continuous run at maximum capacity. The railroad company makes two switches a day, which is sufficient to keep the bins well stocked at all times.

Provision is made for preheating the sand and slag during freezing weather by means of steam coils inserted in the bins and supplied by the same boiler that furnishes steam to the hoisting engine and mixer.

Costs

It is estimated that through the use of this plant equipment the cost of stocking sand and slag has been reduced to approximately 3 cents and 1 cent per cubic yard, respectively, and that cement is handled for approximately 7 cents per barrel. Handling, mixing and placing costs for this concrete is in the neighborhood of 90 cents per cubic yard. This cost is somewhat higher than it would be were it possible to spout the concrete directly into the forms.

Five laborers are used to operate this plant back of the mixer, one tending the water, one each at the sand and slag shut off gates, and two handling the cement. Two engineers are required, one at the mixer and one on the hoist. There is also one laborer in the pit to keep it clean, while another is stationed in each tower during pouring to regulate the flow of concrete through the hoppers and chutes.

The use of this equipment does away with an additional force of 15 laborers behind the mixers, who would otherwise be engaged in handling the concrete materials. This means a saving of \$90 a day for an equivalent of 40 days' continuous pouring, or a total of \$3600. As the total cost of the equipment exclusive of possible salvage is in the neighborhood of \$10,000, this saving alone represents 36 per cent of the equipment cost. This saving is equivalent to 36 cents a cubic yard of concrete. The cost of this equipment per cubic yard of concrete is approximately \$1.00.

LOS ANGELES BUILDING FOR SEPTEMBER EXCEEDS TEN MILLION

Los Angeles building total for September, 1922, was \$10,267,894 as compared with \$11,523,891 for August and \$8,303,665 for September, 1921. Ordinary building operations made up the bulk of the total. Class A, B and C construction amounted to only \$3,165,039 and this included only two buildings over four stories in height, one of these being five in the other eight stories. Fifty-nine class C buildings, or to

State Engineer Warns Irrigation District Against Competing With P. G. & E. Co.

The letter reads: "It is the judgment of the commission that a mistake is being made in planning for any general distribution of power in competition with public service corporations."

Plans for distribution of Don Pedro power by the Modesto Irrigation District were given a definite setback when a letter was received by directors of the district from W. F. McClure, state engineer, saying that the state bonding commission frowned upon the proposal.

The district had applied to the commission for permission to issue bonds to \$1,000,000 for the purpose of buying the distribution lines of the Pacific Gas and Electric Co. in the district, which it had been planned to condemn.

Attorneys are at a variance in their interpretation of the part of the letter quoted. Some declare that it puts a definite end to all plans to distribute power until after the result of the condemnation suit of the Turlock district against the Pacific Gas and Electric Co. is determined. Others declare that this letter does not represent the final decision of the commission but is merely a forewarning of what may be expected by the Turlock district.

The Turlock district has announced plans to sell power outside the district to all corners in competition with the Pacific Gas and Electric Co. and has been vigorously seeking to get clients,

but thus far without any definite success. The Modesto district has been contenting itself for the present with plans to distribute within the district, and thus would not compete with the Pacific Gas and Electric in so broad a way. Both districts will get their power from the same source—Don Pedro dam.

Another part of the letter reads:

"This note, however, is to suggest the wisdom of the Modesto Irrigation District making an arrangement whereby no independent power line need be constructed from the dam to the Modesto territory, but that in event Turlock succeeds in securing the use of the present transmission lines of the Pacific Gas & Electric Co., you save the people of your district the cost of an independent line by connecting with the Turlock main distribution line by means of Pacific Gas & Electric lines."

This is taken as a warning that the two districts should unite in building their trunk line to the Don Pedro. When the Turlock board recently insisted upon having two-thirds of the power in determining affairs of the power line, the Modesto board withdrew with the announcement that it would build its own line from the dam. In building the dam the two districts had equal "say," although the Turlock district has twice as much land involved and pays twice as much towards the cost of the dam. It will also get twice as much power from the plant.

four stories, aggregated in value, \$1,392,171.

Including September, five of the nine months of the present year have produced a building total in excess of ten millions. February had the smallest total with a little over seven and a half millions. For the year to date the building total is \$89,313,053, an increase of \$34,189,687 over the corresponding period of 1921 of \$34,189,687. Los Angeles' total for 1922 has already passed the total for the entire year 1921, which was \$82,761,386. With three months to go indications now point to a total for 1922 around \$115,000,000.

Housing operations kept up remarkably strong during September, being exceeded only by those for August. These were represented by 1636 permits for dwellings, apartment houses and flats with an estimated valuation of \$6,185,745, or 38.3 per cent of the total number of permits and 60.2 per cent of the total valuation for the entire month. Accommodation for 2462 families are provided by housing operations started during September.

ENGINEERING COST OF IOWA HIGHWAYS

The percentage of engineering cost on the primary road system of Iowa in 1921 totaled 5.62, according to the Service Bulletin of the Iowa Highway Commission. This included cost of surveys, making of plans, location and inspection of materials, supervision of construction work and all overhead expenses including an allotted proportion of the expense of the highway commission. Percentage of engineering costs on the township system on the part of both the highway commission and the county engineers was 5.05. Of this percentage, expenditures covering cost of all engineering work done by the county engineers and their assistants was 4.22 of the total amount expended on this system. The percentage of engineering cost due to the maintenance of the state highway commission was .83.

WYOMING PRE-CAST CONCRETE PAVEMENT A SUCCESS

The pre-cast concrete pavement constructed in 1920 on the Casper-Salt Creek project of the State Highway Department of Wyoming, has proved a complete success, according to a statement by Mr. Z. E. Severson, state highway engineer, in the August issue of The Constructor. He states that the pavement has been under traffic about 18 months and still is in perfect condition, with no appreciable settlement at any of the joints, and no change in alignment. The Bureau of Public Roads recently completed a very careful examination of this work and their report is favorable in every way. The Wyoming State Highway Department has recently completed design for five additional miles of pavement of this type on this same project. The design embodies the results of experience on the 2800 feet of highway built in 1920.

BIDDING PRICES ON FEDERAL AID ROAD

Accepted bid prices on Federal aid roads averaged for the whole United States for the month of July are as follows: Common excavation, 35 cents per cubic yard; unclassified excavation 63 cents per cubic yard; and rock excavation, \$1.29 per cubic yard. The following prices per cubic yard are for surfacing material in place on the road: Gravel, \$1.65; sand clay, \$1.43; and crusher stone, \$2.72. Surfacing per sq. yd. in place other than road is as follows: Gravel, 50 cents; bituminous macadam, \$1.64; bituminous concrete \$2.40; plain cement concrete, \$2.09; brick, \$3.40. Reinforcing bars, 4½ cents per pound, and structural steel, 8 cents per pound, both in place.

San Francisco, at an election Nov. 21, will decide the question of issuing bonds of \$12,000,000 to finance construction of new schools and additions to standing structures and \$2,000,000 to construct new fireproof buildings at the Relief Home.

HIGHWAY CONFERENCE CALLED— METHODS OF TRAINING HIGH- WAY ENGINEER FOR MAXIMUM SERVICE TO BE STUDIED

The Highway Education Board, composed of government officials and executives from industry interested in the education of the highway engineer, have sent out a call for a national conference of leading educators, state highway officials, highway engineers, motor car producers and others, to be at Washington, D. C., October 26 to 28. Conference headquarters will be the New Willard Hotel.

The prime purpose of the conference, as set forth by Dr. John J. Tigert, U. S. Commissioner of Education, chairman of the Board, is to discuss methods of educating the highway engineer in order that he may render maximum service to the state and nation in the construction of suitable and durable roads at minimum expense. This, it is believed, can be accomplished only through campaign of education. Government and state officials are now planning a system of Federal aid highways covering the entire United States and including 180,000 miles of the most important roads in the country. The need for trained engineers to build this mileage is urgent, and it is the purpose of the conference to discuss all phases of the highway engineer's education with a view to aiding schools of engineering in providing the most useful courses of training possible.

The highway engineer of today is virtually a new product of the rapid growth of motor transport and the resultant necessity of suitable highways. Road building in the U. S. is progressing, and projected for the immediate future, at a rate never before approached in any period of the world's history. Problems arising in this work cannot be met by following precedents, as there are no precedents to follow. It is the purpose of the Highway Education Board to effect, through the conference, a clearing house of ideas to aid the country's educational institutions in giving highway engineering students the latest developments in the new science.

The program of the three-day conference is now being made up. Invitations have been extended to many prominent in their respective fields to address the conference. A partial list of speakers and those expected to participate actively includes the following: Thomas H. MacDonald, chief of the Bureau of Public Roads, U. S. Department of Agriculture; A. J. Brosseau, president Mack Brothers Motor Car Co.; T. R. Agg, professor of highway engineering, Iowa State College of Agriculture and the Mechanic Arts; Arthur Blanchard, professor of highway engineering and highway transport, University of Michigan; C. J. Tilden, professor of engineering Mechanics, Yale University; Lewis W. McIntyre, assistant professor of civil engineering, University of Pittsburgh; George M. Graham, vice president, Chandler Motor Company; H. S. Firestone, president Firestone Tire and Rubber Company; Roy D. Chapin, president Hudson Motor Car Company and vice president of the National Automobile Chamber of Commerce; Dr. W. K. Hatt, director advisory board on highway research, National Research Council; Alvan Macauley, president Packard Motor Car Company; Dr. Charles S. Howe, president Case School of Applied Science; A. R. Hirst, Wisconsin state highway engineer; Charles J. Bennett, state highway commissioner of Connecticut; Dr. F. L. Bishop, dean of the School of Engineering, University of Pittsburgh.

N. Y. PUBLISHERS ISSUE BOOK ON CONCRETE FLOORS AND SIDE- WALKS

The Norman W. Henley Publishing Co., 6 W. 45th St., New York, announce the completion and distribution of a book on "Concrete Floors and Sidewalks," by A. A. Houghton, price \$75. The publication explains the molding of concrete floors and sidewalk units, with plain and ornamental surfaces, also the construction of plain and reinforced monolithic floors and sidewalks. Complete instructions are given for all classes of work, with illustrations of the easily constructed molds for diamond, hexagonal and octagonal floor tile.

The Observer.

(Continued from Page 1)

Fred H. Fowler has resigned from the U. S. Forest Service to open an office as consulting engineer in the Humboldt Bank Bldg., San Francisco. Fowler has been in the Forest Service twelve years and since 1913 has been district engineer for California and southwestern Nevada with additional duties as representative of the Federal Power Commission covering extensive western territory.

The 1900 Washer Co., Inc., manufacturing the Cataract Electric Clothes Washer, has opened a wholesale salesroom and service station at 71 New Montgomery street, San Francisco, with W. Lee Holmes, Western Sales Manager, in charge. The home office and factory is located in Binghamton, N. Y.

"Fully 80 per cent of the industry of San Francisco is conducted on the American Plan," Robert Newton Lynch, vice-president and manager of the San Francisco Chamber of Commerce, told members of the Commonwealth Club at a recent luncheon in the Palace Hotel.

The Pacific Lumber Company is about to operate its logging department electrically at Freshwater, Calif. It is also protecting smaller and second growth and planning reforestation.

Some union plasterers are better paid than some bank presidents, according to Herman Potter, president of the Illinois Manufacturers' Association. One contractor, he says, pays his plasterers \$2 an hour, a bonus of \$10 a day to keep them, or a total wage of \$26 a day.

Building permits issued in Vallejo for September totaled \$15,183 as compared with \$63,094 for the month of August. Total for year to date is \$629,512.

Fresno Board of Education will call election to vote bonds of \$2,000,000 to finance construction of a general high school, two junior high schools and six elementary school buildings.

Los Angeles county civil service commission announces an open competitive examination to be held Oct. 10 for architectural draftsman, salary \$160 to \$175 per month; also an examination to be held Oct. 11 for structural draftsman, salary \$180 to 190 per month. Application blanks may be obtained at room 1907, Hall of Records.

William J. Scott, Coplar Ave., Stockton, has been awarded a contract for the construction of a one-story concrete store building for E. L. Black, 417 E-Welch St., Stockton. It is to be erected on E-Welch street in Stockton. Contract price, \$43,189.

In addressing a meeting an architect said that it is only as architects plan well that contractors can build well. This same architect said that the contracting element has shown a disposition to laxness in its allegiance to the architect, and has, in many cases, allowed itself to be overawed by organized labor, by combings of material interests, and by other considerations directly affecting the cost of building.

The Stamp Electric Hoist Co. has established an office and works at 1509 Seventeenth street, San Francisco. The line manufactured by the company includes electric hoists, monorail hoists, small electric cranes and hand power cranes. Officers of the company are: C. E. Stamp, president; C. S. Somers, vice-president and engineer; F. F. Suman, sales manager and engineer and Wm. T. Burney, secretary and treasurer.

Peter McGill McLean, 78 years old, founder of the Gladding, McLean Co., manufacturers of clay products, died at the Fairmount Hotel, San Francisco, October 6. He was the father of Atholi McLean, former president of the San Francisco Chamber of Commerce and active in the business of the Gladding McLean Company.

The Sacramento County Highway Commission, created when the \$1,750,000 road bond issue was voted in 1916, will pass out of existence within the next few days. All construction has been completed and it only remains for the commissioners to pass in their resignations.

Edgar S. Slack, sales manager for the manufacturing department of San Quentin Prison, has extended an invitation to the Tehama County supervisors to inspect furniture made in that institution with a view to purchasing prison made materials for installation in the new courthouse at Red Bluff. It is estimated the supervisors can save \$10,000 by purchasing prison made furniture.

C. L. Lamping, vice president of the Northwestern National Bank, Portland, Ore., has resigned to become affiliated with the Jayne-Severance Lumber Co., which has headquarters in the Gasco building, Portland, and an eastern office in New York. Before being elected vice president of the Northwestern National Bank, Lamping was manager of the Portland branch of the Federal Reserve Bank.

The Los Angeles Lumber Products Steamship Company, an auxiliary of the Los Angeles Lumber Products Company, has incorporated with a capital stock of \$500,000.

Livingston, Alameda County, has been selected by the Panama Soap Co. as the site for its new plant. The plant will be erected near the Western Pacific Railroad.

The Parks Ballbearing Woodworking Machinery Co., of Cincinnati, has established an office at 500 First Avenue South, Seattle, with John Harrup in charge.

H. H. Winner Co., bank architects and engineers, announce the removal of their offices from the Cunard Bldg. to the Sharon Bldg., San Francisco.

O. M. Kellogg, manager of the E. K. Wood Lumber Company's mill at Bonanza, Wash., has retired and will make his home in Southern California.

Three-story Class A hospital, 100x46.
Owner—Merrill Corp., 800 Ferguson Bldg., Los Angeles.

NOTE—The San Francisco Chronicle of Tuesday, October 10th, 1922, published the telegram: Clarence Sand Pratt sent to Eddie Special Writer Boyden, the greatest indoor pen swinger in the world. Here are Eddie's exact words: "I received an urgent telegram this morning from Clarence F. Pratt, better known as 'Sandy' Pratt, the guy who has a lot of sand. Here is the wire: 'Please invite the bankers to Pratto, which is two miles from the Hotel Del Monte, where we have a bank of sand, and show them one bank that needs no deposit. Also bring to the attention of the 'dollar demons' that I am the sole and only 'teller' of Pratt's Sharp Sand, and, furthermore, say that I have the sand to compete with them all.' My only comment is that 'Sand' Pratt knew darn well that he would get his name in The Chronicle when he sent that telegram."

CLARENCE SAND Pratt, President.

OF THE Pratt Building Material Co.

DOUGLAS 360—"easy to remember."

THOUGHT HIS stuff was good.

AND HIS wife often said.

IT WAS wonderful.

BUT LITTLE did Clarence dream.

THAT EDDIE Chronicle Boyden.

WOULD PUBLISH the telegram.

WORD FOR word.

QUOTATION MARKS and all.

EDDIE'S WIFE told Clarence.

THAT SHE had a wonderful husband.

WHO COULD out-write.

OR OUT-EAT any human being.

ON THIS earth.

OR THE planet, Mars.

BUT CLARENCE Sand Pratt.

PRODUCER OF clean, sharp sand.

FOR PLASTERING, sand blasting, etc.

NEVER COULD believe.

THAT EDDIE was so bright.

THAT HE could detect any merit.

IN SANDY Pratt's near-comedy.

AND FOR this free advertising.

CLARENCE SAND Pratt never suspected.

THAT HE would.

PUT IT over.

SAYS TO Eddie Somewriter Boyden.

OF THE San Francisco Chronicle.

"I THANK you"

Mr. Amber Sand, President of the Bank of Sand, at Pratto, Monterey County, two miles from Hotel Del Monte, and his "teller" (telephone operator), Miss B. A. Dollar.

Architect—John J. Franenfelder, 1116 Story Bldg., Los Angeles.

Official Proposals

BIDS WANTED FOR AUDITORIUM

NOTICE TO CONTRACTORS

Office of the Secretary of the Board of Education of the City of Oakland. Sealed bids will be received by the Board of Education of the City of Oakland, City Hall, Oakland, California, until the 6th day of November, 1922, at 4:30 o'clock P. M., at which time said bids will be opened, for the erection and completion of a new building for the Mosswood School, of the Oakland School District and Oakland High School District, located at 48th and Webster Streets, Oakland, California.

Separate bids will be received for:
1. GENERAL WORK, including excavation and Grading, Concrete work, Brick and Terra Cotta, Carpenter work, Miscellaneous, Ornamental and Structural Iron work, Sheet Metal work, and Built-up Roofs.
2. LATHING AND PLASTERING.
3. PAINTING.
4. PLUMBING.
5. HEATING AND VENTILATING.
6. ELECTRICAL WORK.

Plans and specifications for said work are on file at the office of the Architect for the Board of Education, 2149 Broadway, Oakland, California. On a deposit of Twenty-five (\$25) Dollars, said plans and specifications may be had by any prospective bidder for one of the branches of the work above listed. These plans and specifications may be retained as follows:

1. General work, ten (10) days.
2. Lathing and Plastering, five (5) days.
3. Painting, five (5) days.
4. Plumbing work, seven (7) days.
5. Heating and Ventilating, seven (7) days.
6. Electric work, seven (7) days.

If the plans and specifications are not returned to the Architect within the time above specified, or are returned in a mutilated or damaged condition, the deposit will be forfeited and will be immediately used for the purchase of a new set of blue prints and specifications.

Bids must be made on proposals obtained at the office of the Architect, and be signed by the bidder, accompanied by a certified check, certified by some responsible bank or banker, and made payable to J. W. Edgemond, Secretary of the Board of Education, to be retained by the said School District, as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract, or any bond required by law. The amount of said check shall not exceed Five Thousand (\$5,000) Dollars, but for all bids of less than Fifty Thousand (\$50,000) Dollars, said check shall be for at least ten (10%) per cent of the amount of the bid. Each bid shall be accompanied by an affidavit executed on a form that can be obtained from the Architect.

Bids will be opened by the Board of said District, on the 6th day of November, 1922, 4:30 o'clock P. M., in the Board Room, 211 Second Floor of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

J. W. EDMOND,
Secretary of the Board of Education
of Oakland, California.

NOTICE TO CONTRACTORS

(Grass Valley Gymnasium)

Pursuant to an order made this 2nd day of October, 1922, Notice is Hereby Given by the Board of Trustees of the Grass Valley High School District County of Nevada, State of California, that bids will be received by said Board for the erection of certain work, as specified below for Gymnasium Building for High School at Grass Valley,

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

County of Nevada, State of California.

Plans and Specifications may be obtained from William Mosser and Florence G. Simpson, Associated Architects, Nevada Bank Building, San Francisco, California.

A deposit of Twenty Dollars (\$20) will be required for each set of plans and specifications.

Sealed bids will be received for General work.

All bids will be opened by the said Board of Trustees on the 20th day of October, 1922, at 8 o'clock P. M., at the Public Library Building, at Grass Valley.

All bids must be submitted on forms prepared by and which will be furnished on request by the Architects.

All bids must be sent or handed to the Clerk of said Board of Trustees on or before said hour and day and enclosed in sealed envelopes and marked on outside, "Bids for Gymnasium work for High School at Grass Valley, California."

All bids must be accompanied by cash, a bidder's bond, certified check, or a certificate of deposit, equal to ten per cent (10%) of the amount of bid and made payable to the President of the High School Board of Trustees, and to be returned to the party or parties whose bid or bids are not accepted, and to the party whose bid is accepted, upon his entering into a contract with the said Board as representing the High School District, and giving such bonds as may be required by law and the said Board of Trustees.

The Board of Trustees reserves the right to reject any and all bids, or any or all items of such bids, and to waive any informality in any bid received.

A. B. CHAMPION,
Clerk of the Board of Trustees of the Grass Valley High School District, County of Nevada, State of California.

BIDS WANTED FOR CANALS, PUMPING EQUIPMENT AND DITCH LINING

TRACY, San Joaquin Co., Cal.—Until Nov. 3, 11 a. m., bids will be rec. by Lynn O. Stark, sec'y, Naglee-Burk Irrigation District, 41 W. 6th St., for the following improvements:

Certified check of \$1000 payable to President of District required.

Under Contract No. 3 (1) furnishing labor and materials required to construct 3.2 miles of drainage laterals and 2600 ft. of main drainage canal construction; (2) furnishing materials for construction and installation of 18 in. of 18-in. rein. conc. pipe; (3) furnishing labor and materials to construct rein. conc. superstructure for installation of necessary pumping machinery and drainage equipment; (4) \$500 "extra work," including general unknown amount of work directly involved in the project say cost plus percentage. Certified check of \$1000 required payable to President of District.

Under Contract No. 4 (1) for furnishing and installation of following equipment: 1 12-in. double suction vertical centrifugal pump with bronze impeller, removable bronze rings, necessary suction inlet cones, pump shaft, shaft tubing and coupling for direct connected motor and companion flange on pump discharge nozzle to connect with 12-in. flanged check valve. 1 12-in. by 18-in. curved taper approx. 9-in. long of number 10 double riveted and dipped steel, one end flanged and other end hubbed to fit 18-in. rein. conc. pipe, 1 automatic lubricating attachment for pump, 1 30-n. p. 60 cycle 3 phase motor, 150 revolutions per min., 40 degree motor with remote control and automatic starting compensator with overload and underload relays, 1 float switch 3 1/2 k. w. 2200 volt of 44 volt transformers with necessary oil and hangers. The pump to be designed to deliver 4500 gals. per minute against 20 ft. head and of a guaranteed efficiency of at least 80 per cent to be tested after installation, also all necessary lighting fixtures, switches and cut-outs; (2) \$200 "extra work," including in general, an unknown amount of work directly involved in the project say cost plus percentage. Certified check \$300 payable to President of District required with each bid.

Plans and specifications for said work are on file in the office of the Secretary of District at Tracy.

NOTICE TO CONTRACTORS

Millbrae School District

Sealed bids will be received by the Clerk of the Millbrae School District, at his office in the Lomita Park School, San Mateo County, California, until the 25th day of October, 1922, at eight o'clock p. m. of said day, the day when said bids will be opened, for the moving of two School Buildings, replumbing same, necessary carpenter work, plumbing and drainage and other necessary repairs. These buildings are now owned and are proposed to be located at Lomita Park, San Mateo County, California, and are known as the Lomita Park School, and are bounded by Santa Helena Avenue, San Juan Avenue, San Antonio Avenue and Samselmo Avenue.

Plans and specifications for said work are on file in the office of the Clerk of the Board, and the office of Alfred Kuhn & Thomas Edwards, Associated Architects, 833 Market Street, San Francisco, California.

On deposit of five (\$5.00) dollars, complete sets of plans and specifications may be had by any prospective bidder.

These plans and specifications may be retained for a period of ten (10) days by the Contractors, but not later than the time set for opening the bids. If these plans and specifications are not returned within the said period, or if they be mutilated, the said deposit may be retained by the said School District as agreed and liquidated damages for said detention and mutilation. Bids must be received by said Board, obtained at the office of the Clerk of the Board, and be signed by the bidder, accompanied by a certified check for

at least ten per cent of the amount of the bid or proposal, certified to by some responsible bank or bankers of the state of California, and made payable to the Clerk of the Board, to be retained by said School District as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract, or any bond required by law.

Bids will be opened by the Board of said School District on the 25th day of October, 1922, at eight o'clock p. m., in the Loma Park School, San Mateo County, California.

The Board reserves the right to reject any or all bids.

PETER GOUZERNES,
Clerk of the Milbrae School District,
San Mateo County State of California.

First publication in the San Mateo Times October 3, 1922.

MERCED UNION HIGH SCHOOL

NOTICE TO CONTRACTORS

(Gymnasium Building)

THE BOARD OF TRUSTEES of the Merced Union High School District, Merced, California, will receive sealed proposals up until 8 o'clock p. m., Oct. 23rd, 1922, at the office of the Clerk in the High School building, Merced, California, at which time and place said bids will be opened and read in public, for furnishing the required labor and materials for, and erecting and completing the proposed new High School Gymnasium in accordance with the plans and specifications prepared therefor by W. E. Bedesen, Engineer, Shaffer Bldg., Merced, and Willson J. Wythe, Architect, 513 Central Bank Bldg., Stockton, associated. Bids will be received separately for the different parts of the work as follows:

- Contract No. 1.—For the excavating, concrete, masonry and all carpentry work.
- Contract No. 2.—For sheet metal work.
- Contract No. 3.—For the roofing, etc.
- Contract No. 4.—For composition roofing and composition shingles.
- Contract No. 5.—For plastering.
- Contract No. 6.—For painting.
- Contract No. 7.—For electric work.
- Contract No. 8.—For plumbing, sewerage, etc.

Cashier's or certified check or bidder's bond for an amount not less than five per cent of amount of bid shall accompany each proposal, drawn payable to the order of C. D. Martin, Clerk of the Board, as a guarantee that the bidder will within five days after being notified of the acceptance of his bid, enter into a contract with said High School Board in accordance with the same, and shall furnish the surety bonds, or other approved bonds, as required by the specifications.

Said check or bond to be forfeited to the said Union High School District should the bidder fail to execute contract and furnish bonds as above mentioned.

All bids to be made out on forms furnished by the Engineer.

Plans and specifications for all the above work may be seen at the office of the Engineer or at the office of the Architect, where they may be secured for bidding.

A deposit of Fifteen Dollars (\$15) will be required from all contractors receiving plans. Said deposit will be refunded to bidders when plans and specifications are returned in good condition within 5 days after the bids are opened.

The said High School Board reserves the right to reject any and all bids, and to waive any informality in any bid received.

By order of the Board of Trustees
Merced Union High School District,
Merced, Calif.

October 3, 1922.

By C. D. MARTIN, clerk

NOTICE TO CONTRACTORS

(Current Creek Road)

Sealed proposals for constructing the above-named National Forest Project located within the Nevada County, Nevada, will be received by the District Engineer, Bureau of Public Roads, U. S. Department of Agriculture, at 881 Mills Building, San Francisco, California, until 2 o'clock p. m., on the 31st day of October, 1922, at which time and place they will be publicly opened and read. The right is reserved to reject any and all bids, and none will be considered except those from contractors ascertained to be experienced and responsible. The project is located about 40 miles southwest of Ely and the length to be constructed is approximately 14.6 miles. The principal items of work are approximately as follows:

- Clearing and grubbing, 44.5 acres.
- Excavation, rock, 3000 cu. yds.
- Excavation, common, 45,000 cu. yds.
- Cement rubble masonry, 260 cu. yds.
- Concrete (alternate for cement rubble masonry), 260 cu. yds.
- Corrugated metal pipe, 2500 lin. ft.
- Trestle bridge material in place, including labor, iron, 2.4 M. M.
- Furrow ditch, 10,000 lin. ft.

The work embraced in this contract shall be started within fifteen days after the notice to start has been given by the contractor by the District Engineer, which notice will not be given until weather conditions render it practicable to prosecute the work to advantage. The work must be completed within 100 weather working days after said notice has been given.

The contract form and maps, plans, specifications and estimate of quantities may be examined by responsible contractors at the following addresses: 881 Mills Building, San Francisco, California.

District Engineer, Bureau of Public Roads, 406 Col. Hudson Bldg., Ogden, Utah.

At Engineer's Camp, Currant, Nye County, Nevada.

Nevada State Highway Commission, Carson City, Nevada.

Care of Forest Supervisor, Ely, Nevada.

The Bureau of Public Roads will furnish the corrugated metal pipe for pipe culverts. The Bureau also has available for loan to contractors on a rental basis, equipment as listed in the proposal sheets. Bidders will state in his bid the amount of government equipment that he will use during construction and the minimum rental period thereof. The estimated rental value deducted from the total of the construction items and award will be made on bid to best advantage to the Government.

Plans and specifications will be furnished contractors who contemplate bidding upon deposit of a certified check for \$10.00 payable to the Secretary of Agriculture of the United States. Check will be held pending return of plans and specifications.

All proposals must be made on forms furnished by the District Engineer, Bureau of Public Roads, and the instructions forming a part of the Specifications above referred to.

C. H. SWEETSER,
District Engineer.

BIDS WANTED FOR STATE HIGHWAY IMPROVEMENT

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock p. m., on November 3, 1922, at which time they will be publicly opened and read, for construction in accordance with the specifications therefor to which special reference is made, portions of State Highway No. 16, Tulare County, through Tipton (VI-Tul-4-D), about five-tenths (.5) mile in length, to be surfaced with asphalt concrete.

Plans may be seen and forms of proposal, bonds, contracts and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineer, Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineer's offices are located at Williams, Durand, Los Angeles, San Francisco, San Luis Obispo, Fresno and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal for full directions as to bidding, quantities of work to be done, etc.

The Department of Public Works, acting by and through the California Highway Commission, reserves the right to reject any and all bids or to accept the one deemed for the best interest of the State.

NEWELL D. DARLINGTON,
CHARLES A. WHITMORE,
GEO. C. MANSFIELD,
California Highway Commission
AUSTIN B. FLETCHER,
State Highway Engineer.
R. A. MURRAY, Secretary.
Issued October 9, 1922.

NOTICE TO CONTRACTORS

(McKinley School Addition)

Notice is hereby given that the Board of Education, Bakersfield City School District, City Hall, Bakersfield, California, will receive sealed proposals up to 7 p. m., of October 26th, 1922, for the erection and completion of a two-room brick and frame addition to the McKinley School Building, Bakersfield, California, in accordance with plans and specifications for same on file with the Clerk of said Board and open for the inspection of bidders. Copies of said plans and specifications may be had at the office of Charles H. Biggar, architect, Bank of Italy Bldg., Bakersfield, and the work will be done under his supervision. Each bid must be accompanied by a certified check for at least ten per cent of the amount bid, said check to be made payable to the Clerk of the Board of Education, Bakersfield City School District, and which be forfeited should the successful bidder fail to enter into contract for the erection and completion of the building, satisfactory to the said Board of Education. In addition thereto, bidders must furnish satisfactory bond in the amount of seventy-five per cent of the contract price. The Board reserves the right to reject any and all bids or to waive any informality in any bid received. Alternate bid for the construction of one room only, is also desired.

By order of the Board of Education, Bakersfield City School District, September 23, 1922.

HARRIET R. PEACOCK,
President

E. R. LONG, Clerk.

NOTICE TO CONTRACTORS

(Dormitory and Hospital Additions, Estimated Cost \$65,000)

Office of the Clerk of the Board of Supervisors, Alameda County, California.

Sealed bids will be received by the Clerk of the Board of Supervisors of Alameda County, at his office, until Monday, October 23, 1922, at 10 o'clock a. m. the day when said bids will be opened and the contract awarded for the construction of a two-story frame dormitory and also for alterations and additions to certain existing buildings in the County Hospital, near San Leandro, Alameda County, California.

Complete plans and specifications for work on file in the office of the Clerk in the Hall of the County Building in Oakland, where copies may be obtained by depositing twenty-five dollars. Contracts will be restricted as to the length of time bidders may be retained to ten days. Contractors failing to return said plans and specifications within said time limit will forfeit their deposit.

Each bid must be accompanied by a check for at least ten per cent of the amount of the bid or proposal, certified to by some responsible bank, and made payable to Geo. E. Gross, Clerk of the Board, or to be forfeited to the County of Alameda as agreed and liquidated damages should the party or parties to whom the contract shall be awarded fail to enter into the contract after the award or to give the bond required by the Board for the faithful performance of the contract.

The Board reserves the right to reject any and all bids.

GEO. E. GROSS,
Clerk of the Board of Supervisors of the County of Alameda
Dated: September 25, 1922.

Engineering News Section

BRIDGES, DAMS & HARBOR WORK

MERCED, Merced Co., Cal.—Until Oct. 23 bids will be rec. by supervisors to const. 3 bridges: one over Duck Slough on Merced-Chowchilla road; another on British Colony road, 2 miles west of Merced and another at point near Irwin. G. E. Winton, county surv.

REDWOOD CITY, San Mateo Co., Cal.—Bids will be rec. until Oct. 30, 1922, at 10 a. m., by the county clerk of San Mateo county for the construction of a levee on west side of Bay Shore highway between Union Oil Station and South San Francisco, to prevent storm waters overflowing highway; estimated cost, \$5000. Geo. A. Kneese is county surveyor. All bids received for the work on Oct. 2 were rejected.

CALISTOGA, Napa Co., Cal.—Bordwell and Zimmerman, Calistoga, at \$360 awarded cont. by trustees to const. conc foundations and abutments under north and center piers of Lincoln Ave. bridge.

IRRIGATION PROJECTS

SAN DIEGO, Cal.—City Council is conferring with Hydraulic Engr. H. N. Savage regarding flash gates for Barrett and Lower Otay reservoirs. The engr. states that 5,000,000 gals. of water will be saved this winter by the use of the gates.

PARADISE, Butte Co., Cal.—Pacific Tank and Pipe Co., 318 Market St., San Francisco, at \$15,140 awarded contr. by Paradise Irrigation District to replace 18,160 ft. of main canal with pipe line (hauling and distributing not included). Other bids: Coules and Johns, Stockton, \$63,990; Sacramento Pipe Works, Sacramento, \$57,452; W. C. Johnson for Western Pipe and Steel Co., San Francisco, \$59,957.10 with alternative bid on copper bearing steel, \$61,342.49; Redwood Mfg. Co., \$56,060.60 (hauling and distributing not included); Wilkins Draying Co., Sacramento, hauling and distributing \$19 a ton of steel pipe only. The district will haul and distribute pipe. L. M. Edwards is superintendent of district.

LINCOLN, Placer Co., Cal.—Funds are being raised for preliminary expenses in connection with the formation of the proposed Roseville Irrigation District. District will comprise about 45,000 acres, 30% of them being in Sacramento county. It is planned to obtain water from the Folsom dam of the Pacific Gas & Electric Company and from the Western States Gas and Electric Company at Placerville. Extensive ditching will have to be done to bring the water to the land to be irrigated, which lies between Whitney's Station and Lincoln.

LIGHTING SYSTEMS

BERKELEY, Alameda Co., Cal.—City Council, E. H. Hann, clerk, declares intention to install 150 inc. electroliers, transformers and tops, complete with underground conduits in University Ave. bet. Grove and Second Sts., and San Pablo Ave. bet. Fourth and Fifth city limits, 1911 Act. Protests Oct. 27. C. L. Huggins, city eng.

PLYTHE, Cal.—Work upon which bids will be opened about Nov. 1, 1922, by the Palo Verde Joint Levee Dist. of Riverside and Imperial counties, includes const. of shoofly levee, about 380,000 cu. yds., 15 acres clearing for shoofly levee; channel for river straightening approximately 247,200 cu. yds. and 126 acres of clearing. There will be additional work in channel straightening of approximately 300,000 cu. yds. and 200 acres of clearing to be contracted as soon as plans are complete. The Palo Verde Drainage Dist. will ask for bids within a month for excavation of ten miles of trunk drain. Plans and spec. can be seen or obtained from the levee and drainage dist., office Elythe, Cal.; H. C. Neuffer, chief engineer.

LOS ANGELES, Cal.—C. W. Sparks, 457 S. Lake St., submitted low bid to Board of Public Works at \$9781 to install ornamental lights complete in Berkshire Ave., bet. Kendall Ave. and Huntington Dr., north, and in portions of other streets. Other bids were: H. H. Walker, \$10,279; Newberry Elec. Co., \$10,878; So. Cal. Elec. Co., \$11,111; Paulson Constr. Co., \$12,731.

Paulson Constr. Co. submitted low bid to install ornamental lights complete in Grand Ave., bet. Ninth and Pico Sts. Other bids were: H. H. Walker, \$11,638; Newberry Elec. Co., \$11,111; C. W. Sparks, \$11,964.25; So. Cal. Elec. Co., \$12,100.

MODESTO, Stanislaus Co., Cal.—City Council, L. A. Love, clerk, declares intention to install Type No. 700 A. Little (conc.) electroliers in Poplar Ave., bet. Needham and Stoddard Sts. 1911 Act. Protests Oct. 25. Geo. H. Freitas, city eng.

MACHINERY

PORTLAND, Ore.—City Council will shortly ask bids to construct municipal incinerator and public works. A bid will be asked. Proposal No. 1 calls for a 100-ton unit in the present incinerator plant. This unit will probably be adopted. The proposal No. 2 calls for the erection of a 100-ton unit at a location other than the present incinerator plant; proposal No. 3 calls for the erection of a 200-ton unit in the present incinerator plant and proposal No. 4 is for a 200-ton unit at another location. The present incinerator has a capacity of 150 tons a day.

HANFORD, Kings Co., Cal.—Until Oct. 21, 2 p. m. bids will be rec. by W. J. Webber, clerk, Hanford Grammar School District for fur. one "parazonal" bar and three traveling rings. Spec. may be had from clerk.

Concern in Sydney is in the market for power plant machinery for telegraph and telephone purposes, high tension, hydro-electric, and other machinery for generation and distribution of electrical power, turbo generators for central electric power station use, high and low tension transformers and switchgear, motors and generators from fractional to 2000 horsepower, electric elevators, electric domestic apparatus, radiators, hot plates, kettles, storage batteries, alarm systems, ventilating plants for factories and buildings, electrical measuring instruments, refrigerators and refrigeration machinery, farm lighting plants, X-ray machines, electro-medical and dental equipment, radio valves, high speed telegraph systems. Communicate with Domestic Trade Dept., San Francisco Chamber of Commerce.

REEDLEY, Fresno Co., Cal.—Elby Machinery Co., 25 Main St., San Francisco at \$655 awarded cont. by Reedley Joint Union High School Dist. to fur. & install 1 Oliver No. 166-B hand planer in manual training department and to Harmon Rickard and McCone, 139 Townsend St., San Francisco, at \$10 for a guard for a Fay and McGee No. 330 circular saw. Marion Deneen is clerk of the district.

LONG BEACH, Cal.—City Council will ask bidders to submit plans and spec. for incinerator to be built in the extreme western section of the city, in the vicinity of Caspar. A bond fund of \$125,000 is available for the work.

LOS ANGELES, Cal.—Until 9 a. m., Oct. 11, bids will be rec. by City Planning Agent Thomas Oughton, 202 n. city hall annex, for five portable furnaces and five iron hand rollers. Spec. No. 530. Cert. chk. or bond, 10%, and affidavit of non-collusion.

PASADENA, Cal.—Bids received by city for gasoline and steam shovels were rejected and new bids will be asked.

LOS ANGELES, Cal.—Until 3 p. m., Oct. 21, bids will be rec. by Public Service Comm., 207 S. Broadway, for two centrifugal booster pump units and motors. Spec. No. 626.

Separate bids, same date for three only centrifugal pumps and motors Spec. No. 627. Jas. P. Vroman, secy

VALLEJO, Solano Co., Cal.—Until Oct. 17, 12 m., bids will be rec. by Alf E. Edgcombe, city clerk, for fur. and del. one 2-ton motor truck. Cert. chk. 10% payable to city required. Spec. may be had from clerk. T. D. Kilkenny, city engineer.

CHICO, Butte Co., Cal.—Recommendation made to Chico Union High School Board to install gas incinerator in new high school. No action taken.

LOS ANGELES, Cal.—Until 10 a. m., Oct. 20, bids will be rec. by Harbor Comm., 312 Byrne Bldg., for cast iron pipe. Spec. No. 425. Guy W. Wade, secretary.

SANTA BARBARA, Cal.—U. S. Cast Iron Pipe & Foundry Co. awarded contract at about \$50,000 for furnishing water pipe to city.

SACRAMENTO, Cal.—Until Oct. 23, 5 p. m., bids will be rec. by Chas. C. Hughes, secy Board of Education, 301 City Hall, for fur. one 1-ton motor truck equipped with self-starter.

REEDLEY, Fresno Co., Cal.—City Trustees contemplate installation of automatic fire alarm system.

RAILROADS

SANTA BARBARA CO., Cal.—Pacific Southwestern R. Railway Co. applies to State Railroad Commission to reissue and sell the capital stock of the company at par. The company, which is capitalized at \$100,000, will build a standard gauge line bet. Lompoc and White Hills in Santa Barbara county, a distance of 4 miles.

WASHINGTON, D. C.—Application filed with Interstate Commerce Commission by Staley System of Electrical Railroads to build 950 miles of line in Colorado, New Mexico and Arizona with 225 miles of branch lines. Projected road will start at Mexican border in Pima county, Ariz., and run northward through the San Juan basin.

SEWERS, STREET WORK, ROADS & WATER SYSTEMS

YUMA, Ariz.—New bids will be called for at once to const. 42 miles of highway bet. Wellton and Maricopa county line, according to Norman B. Conway, Yuma county highway commission engineer. This contract was awarded to Raymond Toohy at \$161,000, and he refused to sign contract or furnish bond. Thomas Maddock, Phoenix, state eng.

MERCED, Merced Co., Cal.—Until Oct. 23, 2 p. m., bids will be rec. by P. J. Thornton, county clerk, to improve roads in Rd. Imp. Dist. No. 3. Work includes widening of Adams Ave. and check 10% payable to Chairman Board of Supps. required. Plans on file in office of A. E. Cowell, engineer, Merced.

SANTA ANA, Cal.—Until 11 a. m., October 24, new bids will be received by county clerk J. M. Backs to const. concrete pavement on the San Juan Hot Springs Rd., 5th Dist., about \$880 per lineal foot of 16 ft. width at \$23.05 received October 3, rejected.

FRESNO, Fresno Co., Cal.—Thompson Bros., Divisadero and H streets, awarded contract by council to improve Mono street, between Van Ness and P street, grading, \$.0525; 3 1/2-in. asph. concrete base with 1 1/2-in. Warrantite-Bit. pavement, \$.2185; concrete curb, \$.65; concrete gutters, \$.33.

Thompson Bros. awarded contract to improve alley in Block 103, between Kern and Inyo streets, grading, \$.08; 8-in. concrete pavement, \$2.54 square feet.

Wilson St., between Verdugo Rd. and Broadway, involv. 210 ft. grading at \$1.25 ft.; 1350 ft. curb at 50c ft.; 555 sq. ft. walk paving, 18c ft.; laying 1000 ft. 6-in. and 53 ft. 4-in. C. water pipe, \$2.00; 73,225 sq. ft. 3-in. oiled macadam at 10c ft. E. L. Ferry bid \$15,807.

TRACY, San Joaquin Co., Cal.—Until Oct. 26, 8:30 p. m., bids will be rec. by Geo. L. Freichs, city clerk, to imp. portions of North D. 8th and East 6th Sts., by grading, const. comb. conc. curbs and gutters; paving with 3 1/2-in. asph. conc. base with 1 1/2-in. Topeka topping, cuttings, water and sewer connections, sewer extensions and 1911 Act and Bond Act 1915. W. D. Harrington, city engineer.

SANTA ANA, Cal.—Wells & Bressler, 3 California Bank Bldg., Santa Ana, awarded contract by supervisors at \$9639.13 to pave approx. 4000 lin. ft. highway on Tustin Ave., bet. 4th and 7th Sts. Cr. walk furnishes curb valued at \$4448. Other bids were B. R. Ford, \$10,750; T. W. Oglesby, \$11,418.85; Charles Frisbie, \$12,591.

MARYSVILLE, Yuba Co., Cal.—Supervisors reject bids to grade and gravel Woodruff school house road. D. C. Hogue, Marysville, bid \$812 and Spencer D. Miller, Manteca, \$842. Work postponed until Spring. Leslie E. Crook, co. surveyor.

PHOENIX, Ariz.—S. B. Shumway has been awarded contract at \$68,687.11 to const. 15 miles federal standard road bet. Gila Bend and Picher. State furnishes cem., reinf. steel for bridge structures, and corr. iron pipe.

FRESNO, Fresno Co., Cal.—Until Nov. 6, 2 p. m., bids will be rec. by supervisors, D. M. Barnwell, clerk, to const. strip of highway from Camden to Larnear, 2 1/2 miles of asph. conc. pavement and the balance of oil macadam. Funds provided from special highway fund raised by direct tax levy.

Separate bids, same date, to const. 20 ft. wide pavement on Ventura Ave. from city limits to Fair Grounds. Chris. P. Jensen, Cory Bldg., county surv.

OAKLAND, Cal.—Until Oct. 19, 12 m., bids will be rec. by E. K. Sturgis, city clerk, to imp. portions of Bartlett St., by grading, const. conc. curbs and gutters, paving with oil macadam. 1911 Act. W. W. Harmon, city eng.

SAN ANSELMO, Marin Co., Cal.—Contract awarded to Harmon and Hayes, Pacific Bldg., San Francisco, at \$137,600 to const. main outfall sewer for Sanitary District No. 1 Marin County has been sub-let to Healey, Moore and McNear, 2030 High St. Oakland, C. C. Kennedy, Call Bldg., San Francisco, eng.

CALIFORNIA—Until Nov. 6, 2 p. m., bids will be rec. by State Highway Commission, Forum Bldg., Sacramento, to surface with asph. conc. 0.5 mile in Tulare county through Tipone. B. Fletcher, state highway eng. See call for bids under official proposal section in this issue.

Architects—Engineers— City and County Officials

How about bids wanted?

Are you satisfied with the bids you received on that last job?

Did you have competition—and plenty of it?
If not—why not?

Without charge the BUILDING & ENGINEERING NEWS will place your job before the construction interests of the Pacific Coast. That means competition and—competition means the lowest possible bid.

If you want competition send particulars of your job to BUILDING & ENGINEERING NEWS—also a set of plans and specifications.

Reach the *Independent Bidder* through the columns

NEW METHOD FOR DETERMINING TOTAL NITROGEN IN STEEL

Preliminary tests by the U. S. Bureau of Standards of a new method for determining both combined and uncombined nitrogen in iron and steel confirm the belief that the method will determine and make more certain the extent of uncombined nitrogen in steel, namely, nitrogen which is not determined by the Allen method. The new method depends on the absorption in calcium vapor of all the gases evolved from the steel sample when fused in vacuo. The nitrogen is fixed as calcium nitride which is then readily determined by solution in acid and distillation with sodium hydroxide.

A "Pittsburg" Automatic Gas Water Heater installed in the Home indicates high quality throughout.

Recommended and specified by all of the leading architects, plumbers and builders.

SAN JOSE BUILDERS OPPOSED TO STATE HOUSING MEASURE

Architects and builders of San Jose are opposed to the Burnett amendment, which appears on the November ballot as No. 5. The stand was taken after hearing Edward Glass, Director of the State Housing Commission, discuss the measure. Characterizing the measure as "unscientific and vicious," Glass declared that its adoption "would be a retrograde movement in housing reform. He stated that the commission was against it because it does not lessen fire hazards, as its proponents are claiming, but increases them and, in addition, lowers the sanitary standards now established.

The speaker stated that the proposed amendment contains all of the bad features of present legislation and adds more bad features. He declared that it would permit the building of tenements in the rear of other buildings and that the fire exit provisions constitute a great fire hazard. He said that it increased the height of wooden tenement buildings and reduces by one-half the light courts and also reduces sanitary provisions.

STATUS OF FEDERAL AID ROADS

Over one thousand mile per month has been the rate of growth of completed Federal aid roads during the present working season, states the Bureau of Public Roads. The mileage completed on August 31, totaled 19,393 of which 6,491 miles have been added since the beginning of the year. On the same date there was under construction 14,670 miles. Federal aid roads in all stages from approved projects to completed roads now total 41,405 miles or 3 per cent of the system of highways being outlined by State and federal engineers to serve the whole country and which will consist of approximately 180,000 miles,

A study of the fluctuation in the cost of building and a comparison between present costs and those of pre-war days has been made by Secretary L. S. Patterson, of the Sacramento Master Builders' Association. Figures used in the study were taken from compilations made by the Associated General Contractors of America and are given out as an explanation of the reason why building costs today are greater than they were in 1913.

Patterson reaches the conclusion that the extreme prices of war years have passed but a general return to pre-war levels cannot be expected at this time.

Increase 1914 to 1919

Discussing the subject, Patterson says:

Figures showing the fluctuation in building costs during the period from 1913 to 1922 indicate practically no variation from early 1913 to the latter part of 1914. From that time until June, 1919, a steady increase occurred aggregating about 50 per cent over 1913. From June, 1919 until April, 1920, an exceptionally rapid increase occurred totaling 100 per cent over the previous year and 150 per cent over 1913.

From the peak in April, 1920, the cost of building has declined steadily until in April, 1922, it reached a point about 65 per cent higher than in 1913. Since April of this year prices have again increased until now they are 72 per cent of the 1913 level.

Material Prices

Comparing the cost of materials with the cost of building, the rise and fall in prices shows a marked similarity to the rise and fall in the cost of building with, however, the difference that material prices during the peak in 1920 increased to 200 per cent over the 1913 level. Material prices have since declined until they are on the average at the same level as the cost of building or about 72 per cent over 1913.

Labor—the other great cost that goes with material as making up the chief items of expense in building—shows a steadier but at the same time a lesser increase and decrease. Starting with 1913, labor costs gradually increased with few fluctuations until the middle of 1919 when they took a sharp upturn, reaching their peak in January, 1921. At this time they were 95 per cent over the 1913 level. At the same time, as noted above, material was 200 per cent higher and the total cost of building was 150 per cent higher.

Decrease Since January, 1921

From January, 1921, labor prices have decreased to 80 per cent over 1913. This decrease has, however, been far less sharp than the decrease of material from 200 per cent to 72 per cent and the cost of building from 150 per cent to 72 per cent.

The data used in securing the percentages on labor costs were secured from eight of the largest cities in the country and cover wages paid in eleven of the most important building trades. Material costs were secured on over forty different building materials from more than fifty cities reporting to the Department of Commerce.

Other Lines Similar

It is evident from the above figures that neither house construction nor

any other type of building can be carried on today as cheaply as in 1913 or 1914. This condition, however, is not confined to the building industry alone. Figures covering the wholesale prices on all commodities show increases and decreases that are very similar in extent and with respect to date of fluctuation to the increases and decreases noted above in the cost of building.

There were over 400 commodities used in figuring the percentages made up on the data on a general commodity index. These figures show a steady increase in all commodities from 1913 to 1920 with a slightly sharper upturn in 1917 which continued steadily until May, 1920. At that time all commodities were slightly less than 150 per cent higher than in 1913. From May, 1920, a decrease took place that continued until January, 1922. From that date until now prices have been increasing until they are at a level—that is, 55 per cent over the 1913 figure.

General Figures Lower

The comparison of all commodities with the cost of building shows that the cost of building reached a higher peak, and that commodities on the average have since reached a lower level, but in making up the data on all commodities figures were included on zinc, tin, copper and rubber that, for special reasons, are selling now at a lower figure than in 1913. This explains why the percentage on all commodities is lower today than is the percentage on building costs.

All of the figures quoted indicate an increase in prices during the past few months. This increase does not mean that prices are going back to the 1920 level. It probably does not mean that they are going much higher than they are now, but it is a strong argument that prices have settled down to a relatively permanent new price level.

Fluctuation to Be Expected.

In other words, for some years to come, prices will probably fluctuate in accordance with the ebb and flow of general business prosperity above and below some average point located at just about the present level.

It is possible that twenty years from now the general average may again reach the 1913 level, but if past history is an indication, building costs will not go down in the same ratio as they have in the past because the cost of lumber has been steadily increasing for years and will continue to increase because of the progressive destruction of the national forests.

1913 Double 1850 Level.

To those who think that building costs eventually will go back to the pre-war level, attention is called to the fact that the 1913 level was just twice as high as the level in 1850. Following the Civil War prices did not go back to the old level and they cannot be expected to act differently today.

Looking at the subject of building costs from all angles the only logical conclusion is that can be drawn is that the extreme price changes of the war period are passed; that if prices in general again reach their pre-war level it will only be after many years; that wages probably never will go down to their pre-war level and that the total cost of building, likewise, is permanently higher than it was before the war.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

With regard to the building situation throughout the United States, S. W. Strauss & Co. says: "Although the current season has been by far the most important one in the annals of the building and construction industries, there is no indication that the intensive pressure for some buildings throughout the country has spent its force. There is, of course, some slowing up at this time due to weather conditions, car shortage and freight embargoes, but fundamentally there is still a large demand for buildings, including industrial and commercial types as well as apartment houses. It should be borne in mind that the tremendous amount of building so far this year, amounting to more than \$2,000,000,000, has been accomplished in the face of many serious obstacles. The labor situation has been far from stabilized, general business has not entirely recovered normal momentum and conditions abroad have not improved generally. Therefore, there will be a demand for more buildings to take care of the inferior requirements of business, in addition to the shortage which was created by two seasons of comparative inactivity. It is to be remembered also that standards of living are constantly improving in this country. People are demanding better living accommodations and conveniences. Yesterday's luxury is today's necessity. This means the constant replacing of old structures for new ones to represent the last word in conveniences and comfort."

Any hopes lumbermen may have entertained for an active market during the fall months appear to have been blasted by transportation developments of the last fortnight, says the "Southern Lumberman," for the week ending Oct. 7. With impaired equipment the railroads are called upon to handle a volume of traffic beyond their capacity and one that approaches the record level, with the result that preference must be given commodities classed as essential. As lumber is without the pale of this classification it feels the full force of the situation. Recent reports from the principal lumber producing regions reveal a startling decline in the movement. Unfortunately, this falling off in shipments does not tell the story, for in addition to an acute shortage of cars, lumbermen have to deal with exasperatingly slow deliveries. The car shortage is reflected in the consumption of lumber, for the inability of users to obtain other materials equally as essential has adversely affected operations. In the meantime, when the thoroughly active market appears out of this more optimistic prospects are that the lumber business will remain up to the possibilities of available transportation facilities.

The Long Beach City Council will ask bidders to submit plans for incinerator for which bonus of \$125,000 have been voted.

With only nine months of the year thus far elapsed and building operations within \$1,000,000 of the record-breaking total of 1921, it is now assured that all previous high marks for construction will be broken in Honolulu this year.

Increased orders, shipments and production in the lumber industry last week as a result of settlements in the rail and coal strikes and the release of restrictions on the use of cars for lumber transportation, are reported by the National Lumber Manufacturers' Association. It is estimated by the association that the lumber industry is producing 98 per cent of its normal capacity and that shipments are 88 per cent and orders 83 per cent of normal production.

In the administration of the state housing laws, as carried on by the state Commission of Immigration and Housing, there is need of men to inspect hotels, apartments and other kinds of houses and to advise local officials and others regarding the correction of improper housing conditions. Men who have had experience of this nature or who are familiar with public health should communicate at once with the State Civil Service Commission, Forum Building, Sacramento, if they are interested in work of this character for the state.

The California Lumbermen's Association will meet in San Francisco October 28. The Whitcomb Hotel will be headquarters.

U. S. Civil Service Commission, Post-office Bldg., San Francisco, will receive applications until Nov. 21 for the vacancy exists under the Navy Department for duty at Naval Station, Pearl Harbor, Hawaii, at \$7.20 per diem. Apply for Form 1312, stating title of examination desired.

Oakland has two new corporations, capitalized at \$500,000 and \$250,000 respectively. Articles of incorporation have been filed for the Construction Finance Company of Oakland and for the Home Loan Security Company, J. R. Ball of Manteca, Carl I. Warnerke of Chester, H. Miller, H. C. Miller and Cedric W. Peterson of Oakland are directors of the first-named organization. M. A. Anderson, A. F. Tychsen, Olaf Anderson, Charles F. Ghelo and W. N. Gabriel will be directors of the second.

A. H. Lund, executive manager of the Oroville plant of the Hutchinson Lumber company, has returned from the East with the information that the company has increased its capital stock from \$5,000,000 to \$4,000,000. This increase of a million dollars Lund explained, was made to finance certain improvements and provide an additional working capital.

No public utility can arbitrarily discontinue its service or withdraw property voluntarily dedicated to a public use, according to a decision by the California state railroad commission ordering the San Diego Electric Railway to restore its service on Adams Ave. in San Diego. As the result of a dispute with the city authorities over paving, the company tore up about three-quarters of a mile of single track on this street. The company has agreed to rebuild the line with a double track and will be relieved by the city of paying its right-of-way.

John Sullivan, of Oakland, a pioneer in the lumber industry in California, position of Inspector of Construction, died at Groveland, Tuolumne county, October 14. Sullivan was well known in Fresno and Trinity County lumber camps and had recently been with the city of San Francisco at their mill at there.

E. G. Hammer, vice president of the Whitman County Iron Co., in a letter to Theron A. Noble, president of the Everett, Wash., Chamber of Commerce,

asks what encouragement his company would receive should it consider Everett as a site for its proposed new blast furnaces. The Whitman County Iron Company controls between 10,000,000 and 15,000,000 tons of hematite iron. This ore has shown a 60.75 per cent metallic content, whereas the Birmingham, Ala., fields show a 35 per cent metallic content and the Lake Superior fields, 50 per cent. Mr. Hammer writes that the company must establish a blast furnace in a city having facilities for water-home commerce. The company proposes to erect 50-ton blast furnace which would in time give way to one of greater size. Market exists on the Pacific Coast for pig iron and steel, writes Mr. Hammer, who says 3,000,000 tons are used annually on the coast.

Lumber rates to coast ports to the south from Puget Sound, Grays Harbor and the Columbia river have taken another advance of 25 cents per thousand feet to San Francisco. The rate to San Francisco now stands at \$75 as against \$6 the first part of the week. While the rate advance to San Pedro and San Diego has not been announced it will come the first part of the week.

CALIFORNIA WALL BED IS FEATURE OF INDUSTRIES EXHIBITION

Visitors to the California Industries Exhibition at the Municipal Auditorium are displaying keen interest in the exhibit of the California Wall Bed Co.

In collaboration with the leading architects in this section, the California Wall Bed Co. has worked out a system of concealment to the point where one may walk up to the side of the wall, touch a small ornamental fixture and a portion of the wall swings open as if by magic, displaying the bed ready to lower for a comfortable nights rest.

In a room already crowded with doors and windows, architects and builders have been confronted with the problem of placing an additional opening for a wall bed. The California secret installation solves that problem and at the same time conforms to the most modern ideas in wall decoration. It is simple in construction and takes but a depth of 22 inches closet space in a room.

The modern wall bed is but the perfection of an old idea brought up to date. Several folding beds have been found in the old Egyptian tombs, showing that in olden days kings and queens had wall beds developed at great expense for their use.

Today the modern California secret installation enables the humblest and the highest to avail themselves of the luxury of owning a bed, perfectly concealed during the day.

In addition to maintaining a permanent exhibit at 714 Market Street, San Francisco, the California Wall Bed Co. also maintains quarters at 165 Thirtieth St., Oakland.

"DAYLIGHT" BOOKLET

The Skybryte Co., Bangor Bldg., Cleveland, Ohio, has issued an illustrated booklet on natural light which is of value to architects, engineers and plant executives. Copies will be furnished free of charge on request.

STATE NEEDS SKILLED WORKERS FOR BUILDING PROGRAM

To keep pace with the great building program inaugurated by the State, and to be prosecuted during the coming Winter, it will be necessary to secure a large number of skilled tradesmen for all classes of work. This is announced by the State Civil Service Commission.

These tradesmen include bricklayers, carpenters, cement finishers, painters, plasterers, plumbers and inside workmen, of the helper, journeyman and foreman grades, all of whom will be employed in building construction.

In addition, there will be demand for skilled workers in other lines of construction, including blacksmiths, roofers, tinsmiths and mechanics, truck drivers, mechanics, machinists, general and automobile mechanics, of both the journeyman and foreman grades.

The work is permanent for the most part, and the wages are on the standard basis in accord with the prevailing wage of the locality in which the employment exists.

Selection of appointees will be made from lists now being made up by the State Civil Service Commission. All applications or inquiries should be addressed immediately to the Commission's office, Forum Building, Sacramento.

UNITED ENGINE AND MACHINE CO. ORGANIZED TO BUILD AT FRESNO

Plans for the purchase of a site and the erection of a large manufacturing plant, representing a total investment of more than \$200,000, are announced in Fresno by D. Sulprizio and G. J. Dolan, incorporators of the United Engine and Machine Company. Both men are in business in Fresno. Sulprizio is head of the Sulprizio Machine Works, 507 Broadway, and Dolan is owner of the Fresno Pattern Works, at 2137 Cherry Avenue.

The articles of incorporation authorize the issue of \$250,000 in stock, of which \$100,000 will be issued immediately. The concern already has assets of \$90,000, represented by the business of the two organizers. It is stated.

With the proceeds from the stock sale, the United Engine and Machine Company will buy a factory site, erect buildings, and proceed with the manufacture of heavy castings, valves and piston rings as a specialty. The firm will contract machine work and will install equipment of a type that will handle the biggest jobs that originate in the San Joaquin Valley, said Sulprizio.

Building plans provide for four structures. A machine shop will be built, 100 x 150 feet; a foundry and molding shop, 100x150 feet; pattern shop, 75x100 feet, and forge, 75x50 feet.

BUSINESS OPPORTUNITIES

Further information regarding these opportunities may be had from Foreign & Domestic Trade Department, San Francisco Chamber of Commerce, by referring to Index Number.

6349—Wellington, New Zealand. Importers desire a large stock and literature concerning leather goods, household goods, hardware, etc.

6355—Italy. Manufacturers of marine motors want connections in this territory.

6357—Italy. Agent in Milan desires connections with importers of artistically painted ceramics.

6358—Panama. Party desires catalogues of rice machinery and agricultural machinery used for rice cultivation.

6359—Los Angeles, Cal. Firm wants connections with San Francisco importers of German merchandise such as cutlery, thermos bottles, tableware, etc.

Building Throughout Nation Greater In Open Shop Cities

"The amount of building per capita in this country is 45 per cent greater in towns where construction is open shop than in cities where closed shop building conditions are all-powerful," declares Noel Sargent, Manager of the Open Shop Department of the National Association of Manufacturers. Mr. Sargent presents an analysis of building permits for the first six months of the present year in 45 American cities, with a combined population of 15,467,550, in support of his statement. In the 16 cities where 75 per cent or more of the building was on a closed shop basis, under which only those holding union membership cards can work, the building permits per capita were \$29.

The figures presented by Mr. Sargent reveal that in nine cities where build-

ing is from 25 per cent to 75 per cent open shop the per capita building permits were \$37 per capita, or 28 per cent greater than in the towns where less than one-fourth of the construction was open shop. In only one of these nine cities was less than half of the building performed under open shop conditions.

Averages from twenty cities in which building was more than 75 per cent open shop, or open to employment of both union and non-union workmen, show per capita building permits of \$42, or 15 per cent greater than in the cities where the same amount of building was done under closed shop conditions.

The complete tables presented by Mr. Sargent follow:

Where 75 Per Cent of Building Was Closed Shop

Town	Population	Building Permits 6 months	Permits per Capita
Houston	138,276	\$7,544,323	\$55

Omaha	243,164	4,010,603	16
Toledo	7,828,184	\$329,267,101	\$42

Commenting on the above tables, Mr. Sargent declared that open shop building conditions "mean that more is being done to relieve the housing shortage and to lower rents. A study of governmental figures for 1921 revealed that rents increased one-half of one cent during the year when shop, as compared with an average increase of fifteen per cent, thirty times as great, in those cities where building remained closed shop. The closed shop system is the real profiteer in the present rent and house-building situation.

"Of twenty open shop towns only three had per capita permits lower than the average in all the sixteen towns where building was closed shop the

first half of 1922. And five of the open shop towns had greater per capita permits than the highest closed shop averages based on permits from these forty-five towns present a fair picture of the results of open and closed shop conditions in the building industry of the entire United States, since 35 of the cities are included in the 50 largest towns of the country.

"The growth of open shop building in the last twenty years has been remarkable, and has thrown a scare into the closed shop union leaders. Twenty years ago only one town in our list of 15 cities had a preponderance of its construction erected open shop; twenty-five of these cities today have over one-half of their building construction

done on that basis. In Boston the contractors signed an agreement in July to prevent non-union building workers from obtaining jobs; this surrender of principle and allegiance to the union dictators is, however, an exception, and in most of the cities listed above the amount of open shop construction is steadily increasing.

"New York City was not included in the closed shop group since all authorities agree," says Mr. Sargent, "that building permits in New York City are on a highly inflated and artificial plane as a result of special tax-exemption laws. Consequently," asserts Mr. Sargent, "it would be grossly unfair to include New York City in our closed shop group. The sixteen cities so included have a combined population of 5,144,530 and to include New York City, with a population half a million greater, would give us an average which would not at all fairly represent the result of closed shop building conditions when the country as a whole is considered. And as a matter of fact, in at least four cities where building is predominantly open shop building permits per capita are higher than in New York City, despite the latter's tax exemption laws. Chicago is not placed in any of the groups, since the situation there as a result of the Landis award makes a definite classification almost impossible."

SAN FRANCISCO CAPITALISTS WILL CONSTRUCT \$2,500,000 SMELTER

San Francisco capitalists are planning to erect a \$2,500,000 smelter near Contact, Nevada, according to Phillip Thomas, manager of the Three In One Mining Company at Elko. Thomas states the plant is to be erected at Madeline, a siding on the projected Idaho Central railroad, fifteen miles south of Contact. The location is declared to insure freedom from trouble with agricultural interests over smelter fumes.

It is said the smelter will be a rival of the Nevada Consolidated plant at McGill and that construction will start as soon as plans have been approved and preliminary arrangements completed. Thomas is credited with stating that ample capital has been provided and that a vast tonnage of commercial ore is blocked out in several copper properties in the Contact district.

New Railroad Financed

Reports received in Elko are to the effect that the proposed Idaho Central railroad, extending from Rogerson, Idaho, to Wells, Nevada, via Contact, has been financed by Conrad Wolfe and associates of Oakland, Cal. Chief Engineer Hansen stated while in Wells that he expected to see trains running on the Idaho Central before the end of next summer, and handling heavy shipments of ore from Contact.

MITCHELL-JACKSON OPERATING AT SAN MATEO

The Mitchell-Jackson Co. has been organized at San Mateo and will engage in the business of architecture and construction. Mr. Mitchell was formerly connected with A. Horn Building Co., in the capacity of Superintendent of construction and Mr. Jackson as Chief Architectural Designer of the same company. Offices are maintained in the Daytona Bldg., 170 Second Ave., San Mateo.

The U. S. Molybdenum Metals Co., Ltd., recently organized, has leased the yards of the Standifer Shipbuilding Co. at Vancouver, Wn., and will erect a huge smelter and refinery where will be treated the ores from the company's mining properties in the Spirit Lake district about 30 miles northeast of Vancouver.

Big Road Building Program Ahead

Fifteen to twenty years of building good roads lie ahead of the United States. Under the program which the country has adopted there will be built, during that time, 180,000 miles of improved highways which will constitute the Federal-aid highway system and an equal or greater mileage of State and local roads. When the great job is done, the transportation facilities of the country will far exceed those of any other nation, past or present. In the Roman The highways of the ancient Romans, whose fame has come down through the centuries, will pale by comparison.

Details of this vast road-building program are to be placed before the Highway Education Board at its conference in Washington October 26 to 28, inclusive, by State Highway Engineers and officials of the Bureau of Public Roads, United States Department of Agriculture, to whom has been entrusted the work of planning and supervising the construction of Federal aid highways. The plan will be presented to enable the Board to proceed authoritatively with its work of devising aids for schools and colleges to which road-builders of the country are turning for competent highway engineers. Officials of the bureau place the aggregate cost of the Federal-aid program alone at about \$3,000,000,000, spread over the twenty-year period. They base this estimate on an average cost of \$17,000 per mile. The average cost, in turn, takes into consideration all classes of improved roadways from the cheapest to the most expensive types. Approximately one-third of the proposed system, or 60,000 miles of improved highways already are either built or building.

The program is a new one. Up to comparatively recent years, road-build-

ing in the United States had been conducted without special regard to a national system. Highways had been constructed without special regard to a national system. Highways had been constructed where needed without considering whether they would link up in the most effective manner with the whole network of roads to be spread over the Nation. Engineers had sought more to meet immediate and local demands than the broader requirements of the states and nation.

The present Federal-aid road-building program, officials of the bureau state, will contemplate the construction of only such roads as fit into the national program and contribute to the national system. At the same time the roads will be so selected as to serve the most important local requirements. With marked modifications the system adopted in building the railways of the country will be borne in mind in the construction of the country's new highways. There will be main lines of highway communication between centers and thousands of miles of feeder roads, reaching back into the more sparsely settled regions and into the rich agricultural sections, to tap areas whose population and products will flow over the new system.

New roads will be planned and built—thousands of miles of them—where they will fit in most advantageously with the entire program. The bureau is continuing its research work into most efficient methods of road-building, including character and wearing power of materials, resisting qualities of varying sub-soils, etc., and has amassed a considerable store of valuable information all of which will be available for the highway engineer of tomorrow, whom the Board is seeking to have educated in practical and modern methods.

BUREAU OF PUBLIC ROADS MAKING CONCRETE BRIDGE TEST

A reinforced concrete skew arch bridge one fourth the size of a full size bridge has been built by the Bureau of Public Roads and is being tested to destruction to gain information which will prevent the destruction of this type.

There are many locations where it is necessary to carry a highway diagonally across a stream, the engineers explain. Under such conditions it is customary to build what is known as a skew bridge and when that bridge is an arch, the arch is known as a skew arch, the abutments or supports not being at right angles with the roadway. When the abutments are at right angles to the axis of the arch the structure is known as a right arch. Engineers can design right arches very economically but there is a great difference of opinion with regard to the economical design of the so-called skew arch.

The principal difference of opinion among engineers is with regard to the manner in which the load is transmitted to the abutments. In the right arch the load on the abutments is the same for each foot of length but on the skew arch this probably is not the case, and the important question to be settled is the distribution of the load from one end of the abutments to the other.

It was with this object in view that a series of tests have been started on skew arches by the U. S. Bureau of Public Roads. At the present time the Bureau has under way at its Arlington Experiment Station a test on a skew arch designed to be one-quarter the size of an actual structure. The arch being tested is 7 feet in span, 4½ feet in width from face to face and 4 feet in

height above the base of the abutments. The crown or midpoint is 2 inches in thickness and the barrel of the arch is reinforced with 4-inch bars bent very carefully into correct shape.

The arch is being tested with a uniform load and this loading is being accomplished in a rather unique manner, as follows: spiral springs, each capable of carrying a load of 1500 pounds, are placed at uniform intervals on top of the arch and each spring supports a 2-inch pipe, which in turn bears against a solid overhead structure. By adjusting the lengths of these pipes the springs are deflected and the amount of load applied to the arch may be controlled by the amount the springs are compressed. In this way, it is possible to obtain fine adjustments in the amount of load applied without the necessity of niling heavy weights. As the load is increased on the arch, it deflects and the concrete and steel are deformed or strained, and the engineer wants to know how these strains are distributed.

For the measurement of strains in the concrete a device known as a strain gage is being used. With this device it is possible to detect strains with an accuracy of .0002 of an inch, by carefully measuring the strains throughout the arch it is possible to determine the manner in which the stress is distributed and it is believed that through a series of such tests enough information will be obtained to enable the engineer to formulate rules for the economical design of skew arches.

In addition to determining the strains in the arch, the observations include measurements of deflection of the arch under load as well as a measurement of the stress in the tie rods between the abutments.

180,000 MILES WILL CONSTITUTE FEDERAL AID ROAD SYSTEM

Fifteen to twenty years of building good roads lie ahead of the United States. Under the program which the country has adopted there will be built during that time, 180,000 miles of improved highways which will constitute the Federal-aid highway system and an equal or greater mileage of State and local roads. When the great job is done the transportation facilities of the country will far exceed those of any other nation, past or present, in the world. The highways of the ancient Romans, whose fame has come down through the centuries, will pale by comparison.

Details of this vast road-building program are to be placed before the Highway Education Board at its conference in Washington, Oct. 26 to 28 inclusive, by State Highway Engineers and officials of the Bureau of Public Roads, to whom has been entrusted the work of planning and supervising the construction of Federal-aid highways. The plan will be presented to enable the Board to proceed authoritatively with its work of devising aids for schools and colleges to which road builders of the country are turning for competent highway engineers.

Officials of the Bureau place the aggregate cost of the Federal-aid program at about \$3,000,000,000, spread over the twenty-year period. They base this estimate on an average cost of \$15,000 a mile. The average cost, in turn, takes into consideration all classes of improved roadways from the cheapest to the most expensive types, approximately one-third of the proposed system, or 60,000 miles of improved highways, already are either built or building.

The program is a new one. Up to comparatively recent years, road-building in the U. S. had been conducted without special regard to a national system. Highways had been constructed where needed without considering whether they would link up in the most effective manner with the whole network of roads to be spread over the nation. Engineers had sought more to meet immediate and local demands than the broader requirements of the States and nation.

The present Federal-aid road-building program, officials of the bureau state, will contemplate the construction of only such roads as fit into the national program and contribute to the national system. At the same time, the roads will be so selected as to serve the most important local requirements. With marked modifications, the system adopted in building the railways of the country will be borne in mind in the construction of the country's new highways. There will be main lines of highway communication between centers and thousands of miles of feeder roads, reaching back into the more sparsely settled regions and into the rich agricultural sections, to tap areas whose population and products will flow over the new system.

New roads will be planned and built—thousands of miles of them—where they fit in most advantageously with the entire program. The bureau is continuing its research work into most efficient methods of road building, including the character of wearing surfaces of varying sub-soils, etc. and has amassed a considerable store of valuable information all of which will be available for the highway engineer of tomorrow, whom the Board is seeking to have educated in practical and modern methods.

Enlargement of Orland Irrigation Project Proposed

The construction of a reservoir-lake distal back of the Brownell or Julian Rocks and the forming of a new unit to the Orland irrigation project of 25,000 to 30,000 acres, has been declared to be a major project of the work of the Orland Chamber of Commerce. This was decided upon at a meeting of the directors.

The proposed addition would consist of from 25,000 to 30,000 acres of land southwest and south of the present Orland project. The irrigated lands would probably extend to within two miles of the town of Artes and water would irrigate all that vast area of land to the west of the highway between Greenwood and Artes as well as much of the land to the east of the highway.

The new project would come under the same reclamation act under which the present project is operated. The

payments of the construction would extend over twenty years without interest.

The construction of the dam at Julian or Brownwell Rocks would be an engineering feat of the first magnitude on account of the width and height necessary to impound approximately 125,000 acre-feet of storage water. The lands would be irrigated entirely by storage water.

While no detailed report has been given out as to the cost of the construction work, it is estimated that it would be approximately \$3,000,000. This would bring the construction cost on the new lands somewhere in the neighborhood of \$100 per acre, according to the total acreage. Actual construction would cover a number of years and water would not be available, it is estimated, for the new project for another five years.

Chicago Citizens' Committee Sets Forth Its Platform and Working Principles

Work of the Citizens' Committee to Enforce the Landis Award in reducing the "labor hazard"—a factor which in its way was as great a danger to good housing in Chicago as the carelessly tossed match, the forgotten heap of oily waste, and other preventable features of the city's annual tribute to the fire king—is graphically set forth in the committee's new handbook, issued recently.

The handbook lists 1286 contractors of all types and classes, 417 architects, and nearly 100 engineers who are backing the campaign to bring to a Chicago's construction under the Landis award. Twenty-eight Chicago offices of insurance companies are also backing the Committee's work.

The booklet also lists the wage scale effective in the building trades until May 31, 1923, under the terms laid down by former Federal Judge Landis in his now famous decision. The thirteen trades where the unions have refused to come under the award are marked with an asterisk, and these trades are operated on an open-shop basis by the committee.

Committee's Platform

The Committee's platform is set forth briefly as follows:

"The Citizens' Committee is now incorporated as a permanent organization and has adopted the following policy:

"1. Those employers who continue their operations under the terms and conditions of the Landis Award will be encouraged and, when necessary, protected in their operations.

"2. Those unions which accept the terms and conditions of the Landis Award, both in spirit and in fact, will be supported.

"3. The sale and use of material going into building operations shall be free from arbitrary restrictions.

"4. Contractors who refuse to operate under the Landis Award deserve neither the encouragement nor the support of the public.

"5. In those trades where the unions do not accept the terms and conditions of the Landis Award, work shall continue by workmen who are willing to work, regardless of their union affiliations. These men will be protected and these trades will be permanently established on the basis of the open shop."

Working Principles Outlined

Next follows the "Principles Established by the Landis Award" which the committee and its backers have pledged themselves to uphold. These are:

"1. Peaceful adjustment of disputes by arbitration.

"2. No stoppage of work, either individually or collectively, under penalties prescribed.

"3. In the case of scarcity of help, non-union men may work with union men until such time as union men may be obtained.

"4. Any journeyman may use in his work the tools of any other trade.

"5. Small tasks of 30 minutes' duration in any one day belonging to any trade may be performed by any other trade at the discretion of the employer.

"6. Overtime work during 2½ hours beyond the regular working day shall be compensated at 1½ times the regular wage.

"7. Overtime work beyond this and Saturday afternoon, Sunday and holidays shall be paid for at double the regular rate.

"8. Shift work shall be paid at the regular rate.

"9. Benefits of these agreements shall apply to those not members of associations by joining the association.

"10. There shall be no restriction of output.

"11. There shall be no restriction as to the use of machinery, methods, or appliances.

"12. There shall be no restriction against any raw material or manufactured material except prison made.

"13. Employers may employ or discharge whomsoever of the union they please and employees may work for whomsoever they see fit.

"14. The foreman is to be exclusively the agent of the owner.

"15. Nothing shall prohibit an employer, or one member of the firm from working on his own job."

FORMER SAN JOSE CITY ENGINEER HAS \$1,000,000 PAVING PROJECT

The San Jose Mercury-Herald, under date of Oct. 18, says:

Friends of G. W. Hunt, former city engineer of San Jose, will be interested to learn that he is now in charge of a paving project involving an expenditure of from one to two million of dollars, at Monterrey, Mexico.

Mr. Hunt is chief engineer and assistant manager of the James F. Martin Company of Tampico, to which concern a contract has been awarded for paving all the streets of Monterrey. The work is expected to last from 12 to 18 months, so that Mr. Hunt is making his residence at Monterrey for the first six months the work is in progress.

Conditions in Monterrey differ from those which Mr. Hunt found in San Jose, as the streets vary greatly in width, ranging all the way from less than six meters to more than 50 meters. The total area to be paved is estimated to be about 370 square meters.

APARTMENT HOUSES

Plans Being Figured.
APT. HOUSES
BERKELEY, Alameda Co., Cal., Northbrae.
 One-story addition to present 1-story store bldg. for 4 apartments.
 Owner—Withheld.
 Architect—W. H. Ratcliff, Jr., 1st Natl. Bank Bldg., Berkeley.

Contract Awarded.
APT. BLDG. Cost, \$23,000
OAKLAND, S E 41st and Grove Sts.
 Two-story frame store and apt bldg.
 Owner—M. & M. Kavanaugh 4012 Grove St., Oakland.
 Architect—East Bay Planners, 306 14th St., Oakland.
 Contractor—H. P. Nelson, 1947 Blake St., Berkeley.

Plans Completed.
APT. HOUSES Cost, \$35,000 ea.
SAN FRANCISCO, W Larkin 45 & 91 S Union.
 Two 3-story and basement frame apt. houses (20 apts. each).
 Owner—L. J. Neal, 364 Page St.
 Architect—E. H. Denke, 1317 Hyde St.

Contracts Awarded.
APT. HOUSES Cost, \$30,000
SAN FRANCISCO, N E Dolores and 15th Streets.
 Three-story and basement frame (12) apartments.
 Owner—George P. Maloney, care architect.
 Architect—Albert Schroeffer, Nevada Bank Building.
General Contract to G. Peterson, Monadnock Bldg., \$30,900.
Painting to Cramer Bros., 1941 15th St., 1745.
Electric work to Dewey Elec. Co., 285 4th St., \$1100.

Plans Being Prepared.
APT. HOUSES Cost, \$20,000
SAN JOSE, Santa Clara Co., Market between San Fernando & Park Ave.
 Two-story reinforced concrete apts.
 Owner—J. W. McKernon
 Architect—Wolfe & Higgins, Auzerais Bldg., San Jose.

Plans Being Figured.
APT. HOUSE Cost, \$20,000
SAN JOSE, Santa Clara Co., E Santa Clara between 14th and 15th Sts.
 Two-story frame apartment house (8 apts. and 4 garages).
 Owner—John Taylor.
 Architect—Wolfe & Higgins, Auzerais Bldg., San Jose.

Contract Awarded.
APT. HOUSES Cost, \$24,000
OAKLAND, Alameda Co., N 10th St. 100 W Fallon.
 Three-story frame 24-room apt. house.
 Owner—Beth Dean, 1120 E-28th St., Oakland.
 Contractor—H. C. Knight, 388 12th St., Oakland.

To Be Done By Day's Work.
APT. HOUSE Cost, \$60,000
OAKLAND, W Jackson St. 350 N 14th.
 Three-story 51-room brick apt. house.
 Owner—Coit Inv. Co., 306 14th St., Okd.

Contract Awarded.
APT. HOUSES Cost, \$13,000
OAKLAND, W Clark 110 S 40th St.
 Two-story 16-room frame apartments.
 Owner—Arthur Elliott.
 Contractor—California Builders, 1571 Franklin, Oakland.

To Be Done By Day's Work.
APT. HOUSES Cost, \$19,000
SAN FRANCISCO, NE Mission and Geneva Ave.
 Two-story frame store and apartments.
 Owner—A. M. Samuelson, 290 Ralph St., San Francisco.

Completing Working Drawings—Ready For Figures in About Three Weeks.
APT. HOUSE Cost, \$200,000
SAN FRANCISCO, NW Jackson and Laguna Streets.
 Nine-story reinforced concrete apartment house (9 8-room apartments) and basement and garage.
 Owner—Joseph E. Levin, San Francisco, and S. Levin, New York.
 Architect—C. A. Meussdorffer, Humboldt Bank Bldg., S. F.

Plans Being Prepared.
APT. HOUSE Cost, \$150,000
SAN FRANCISCO, N W Sacramento & Mason Streets.
 Nine-story, basement and sub-basement reinforced concrete and steel apt. house, 25 4-to-8-room apts.
 Owner—Crosswings Community Apts. (a corporation) Ernest K. Little, president.
 Architect—H. H. Guttersen, 278 Post St.
 There will be a large garage built on an L lot with children's play grounds on the roof.

To Be Done By Day's Work.
STORES & APTS. Cost, \$25,000
SAN FRANCISCO, N E Divisadero and Hayes.
 Two-story and basement frame stores and (10) apartments.
 Owner—Einar C. Peterson, 4075 17th St., San Francisco.

SALEM, Ore.—Warren Armington, of Denver, Colo., has purchased site and will erect a 4-story reinforced concrete, 72-apartment building, 100x110 ft. Est. cost, \$210,000. Salem interests will invest \$65,000 in the structure.

MARTINEZ, Contra Costa Co., Cal.—Frank Martiens, of Martinez, has just purchased the corner of Warren and Pine streets in Martinez and contemplates building an apartment house the early part of next year.

BANKS

Plans Being Figured.
APT. BLDG. Cost, \$14th
OAKLAND, Alameda Co., Cal., E-14th St. and Fruitvale Ave.
 One- or two-story bank bldg. (type of construction not decided).
 Owner—Central National Bank, Oakland.
 Architect—Wm. Knowles, Hearst Bldg., S. F. and Central Bank Bldg., Okd.

Contract Awarded.
BANK BLDG. Cost, \$50,000
OAKLAND, Alameda Co., Cal., Grove to Alleen.
 One-story concrete and brick bank bldg.
 Owner—Oakland Bank of Savgs.
 Architect—Reed & Corlett, Oakland Bank of Savgs. Bldg., Oakland.
 Contractor—S. Kulchar & Co., 8th Ave. and E-10th St., Oakland.

Contract Awarded.
BANK BLDG. Cost, \$50,000
OAKLAND, Alameda Co., Cal., College Ave. and Ocean View Drive.
 One-story concrete and brick bank bldg.
 Owner—Oakland Bank of Savings.
 Architect—Reed & Corlett, Oakland Bank of Savgs. Bldg., Oakland.
 Contractor—J. J. Walker Co., Monadnock Bldg., San Francisco.

Plans Ready for Figures Oct. 25.
BANK BLDG. Cost, \$20,000
PENNGROVE, Sonoma Co., Cal.
 Two-story reinforced concrete bank building.
 Owner—Withheld.
 Architect—Chas. E. Perry, Jr., P. O. Box 636 Vallejo.

BONDS

INGLEWOOD, Cal.—A bond issue of \$22,000 has been authorized by voters for street improvements.

MERCED, Merced Co., Cal.—Bonds of \$1,800,000 of Merced Irrigation District, to finance improvements in district, sold for premium of \$52,588.

OROVILLE, Butte Co., Cal.—Nov. 9 is date set to vote bonds of \$2,000,000 to finance improvements in Oroville-Wyandotte Irrigation District comprising 24,200 acres.

LAKEPORT, Lake Co., Cal.—Election will be called in Clear Lake Union High School District to vote bonds of \$30,000 to finance construction of gymnasium building.

YUBA CITY, Sutter Co., Cal.—Election will be held Nov. 6 in Yuba City Union High School District to vote bonds of \$250,000 to finance purchase of site and erection of new high school. Trustees of district are: C. K. Schnabel, H. C. McMahon, E. L. Davis, Arthur Coats, V. W. Cooley.

SUSANVILLE, Lassen Co., Cal.—Election will be held Oct. 24 to vote bonds of \$41,000 to finance construction of new city hall, purchase of fire engine and installation of fire alarm system.

SUSANVILLE, Lassen Co., Cal.—The County Supervisors place on November 7 ballot the proposition of voting bonds of \$39,000 to finance erection of Veterans' Memorial Building.

STOCKTON, San Joaquin Co., Cal.—Until November 6 bids will be received by the Supervisors for the purchase of \$25,000 bond issue of Shady Grove School District, proceeds to finance construction of new school building.

SAN JOSE, Santa Clara Co., Cal.—Supervisors sell \$197,000 bond issue of Mountain View High School District for premium of \$14,877; proceeds will finance construction of a group of fireproof high school buildings, plans for which are being prepared by Architect W. H. Weeks, 369 Pine St., San Francisco.

EUREKA, Humboldt Co., Cal.—Election will be held Nov. 1 in Oakdale School District to vote bonds of \$25,000 to finance school improvements. Trustees of district are: W. L. Smith, G. Svendsen and Mrs. Inis Hill.

REDONDO BEACH, Cal.—City trustees adopt resolution to purchase a portion of the Hotel Redondo grounds for a public park or other purposes. The land will cost \$100,000, and improvements and assembly hall, \$25,000. A bond election will be called.

PACIFIC BEACH, Cal.—City Council petitioned to call bond election to vote \$50,000 for the construction of a pleasure pier. Proposed structure would be 1200 ft. long, 18 ft. wide, located at the foot of Garnet street. Construction will be of creosoted timber.

MARTINEZ, Contra Costa Co., Cal.—Supervisors sell \$15,000 bond issue of Oakdale School District for school improvements, \$327; proceeds will finance school improvements. Jas. T. Narbett, 910 MacDonald Ave., Richmond is the architect.

CHURCHES

Commissioned To Prepare Plans.
CHURCH OF THE HOLY TRINITY. Cost, \$100,000.
STOCKTON, San Joaquin Co., Cal. Center and Flora Sts.
Concrete church building.
Owner—1st Church of Christ Scientist, Architect—Glenn Allen, 37 S Aurora St., Stockton.

Low Bidders.
ST. MATEO CHURCH. Cost—
SAN MATEO, San Mateo Co., Cal.
Frame Sunday school department and social hall portion of church.
Owner—San Mateo Congregational Ch. Architect—Jas. W. Plachek, 2014 Shattuck Ave., Berkeley.
Low Bidder—Leadley & Wiseman, 207 2nd St., San Mateo.

Completing Plans.
CHURCH OF THE HOLY TRINITY. Cost, \$150,000.
HOLLYWOOD, Los Angeles Co., Cal. NE Corner of Los and Carlos Ave.
Two-story and basement brick church, 88x127.
Owner—First Presbyterian Church. Architect—M. Patterson, O. T. Johnson Bldg., Los Angeles.

Figures to be Taken in a Week.
CHURCH OF THE HOLY TRINITY. Cost, \$185,000.
LOS ANGELES, Los Angeles Co., Cal. Adams and Figueroa Sts.
Reinforced concrete, terra cotta and stucco church with tile roof.
Owner—St. John's Episcopal Church. Architect—Pierpont & Walter S. Davis, 817 Santei St., Los Angeles.

Plans Being Figured.
CHURCH OF THE HOLY TRINITY. Cost, \$—
SOUTH PASADENA, Los Angeles Co., Cal. NE Fremont Ave. and Oak St.
One-story concrete church, 90x130.
Owner—1st Church of Christ Scientists Architects & Engineers—The Postle Co., Van Nuys Bldg., Los Angeles.

Contract Awarded.
CHURCH OF THE HOLY TRINITY. Cost, \$15,177.
HAYWARD, Alameda Co., Cor. 2nd and D Sts. (All Saints Church).
All work except slate roof for finishing church.
Owner—Roman Catholic Archbishop of San Francisco.
Architect—Wm. Klinkert, 392 Park Ave. San Jose.
Contractor—E. Nommensen, 19 S-5th St. San Jose.

LOVELOCK, Nev.—Rev. P. H. Willis, pastor of the Methodist Episcopal Ch. of Lovelockville, Nevada, will be transferred to the church in Lovelock where he will campaign for funds to erect a \$12,000 church building, to replace the structure destroyed by fire.

FACTORIES & WAREHOUSES

To Be Done By Day's Work.
MEAT PACKING PLANT. Cost, \$10,000.
SAN FRANCISCO, N W Folsom and Langton Sts.
Two-story reinforced concrete manufacturing building.
Owner—J. H. Hjul, 1342 Mission St. Engineer—Owner.

Contract Awarded.
WAREHOUSE. Cost, \$43,492.
SAN FRANCISCO, Townsend St.
Two-story reinforced concrete warehouse, 86x250 (Sprinkler system & elevator).
Owner—Sims Bros., 150 Townsend St., San Francisco.
Architect—H. C. Bauman, 251 Kearny St., San Francisco.
Contractor—Barrett & Hulp, 918 Harrison St.

Plans Being Prepared.
WAREHOUSE. Cost, \$85,000.
SAN BERNARDINO, San Bernardino Co., Cal.
Class "A" Brick and concrete warehouse.
Owner—Southern Terminal Warehouse & Storage Co., 804 Wright-Callender Bldg., L. A.
Architect—F. M. Cummings, 430 Chapman Bldg., L. A.

Plans Being Figured.
WAREHOUSE. Cost—
SAN FRANCISCO, Clementina bet. 5th and 6th.
One-story reinforced concrete warehouse (wood trusses).
Owner—Bothin Estate.
Architect—Arthur S. Bugbee, 26 Montgomery St.

To Be Done By Day's Work.
FACTORY. Cost, \$11,500.
OAKLAND, S E 19th Ave. & Dennison St.
One-story dry kiln and 1-story factory.
Owner—R. H. Cooley Mfg. Co., 953 33rd St., Oakland.

Plans Completed.
LOFT BLDG. Cost, \$100,000.
LOS ANGELES, Los Angeles Co., Cal. NE San Julian and Pico Sts.
Four-story Class A loft building.
Owner—C. H. Minton and A. W. Ellington.
Architect—L. A. Smith, 3rd St. and Webster Ave., Los Angeles.
Contractor—Earl B. Newcomb, Panhagen Bldg., Los Angeles.

Contract Awarded.
FACTORY BLDG. Cost, Approximately \$200,000.
OAKLAND, Alameda Co., Cal. Garfield Hillside and 72nd Streets.
Two-story brick, concrete and steel structure building, 80x84 ft.
Owner—Chevrolet Automobile Co.
Architect—Albert Kahn, Detroit Mich.
Contractor—Dinwiddie Constr. Co., Crocker Bldg., San Francisco.

Plans Being Prepared.
WAREHOUSE. Cost, \$7000.
SAN JOSE, Santa Clara Co., Cor. Hard St. bet. Santa Clara and San Fernando.
One-story brick warehouse.
Owner—Costa Bros.
Architect—Wolfe & Heggins, Auerhaus Bldg., San Jose.

Contract Awarded.
MIXING PLANT. Cost, \$15,000.
OAKLAND, Alameda Co., end of McCadam St., 600 E Broedy.
Mixing plant.
Owner—Oakland Paving Co.
Contractor—California Constr. Co., 58 2nd St., San Francisco.

ALHAMBRA, L. A. Co., Cal.—Southern California Edison Co. is having plans prepared by its engineering department for a group of warehouses and shop buildings to be erected at Alhambra. The bldg. will include a main warehouse, 200x600 ft., warehouse, 100x100 ft., two warehouses, 100 by 100 ft., and a shop bldg., 170x270 ft. **GOVERNMENT WORK AND
SUPPLIES**

WASHINGTON, D. C.—Bids will be called for shortly by the Bureau of Yards and Docks in Washington, D. C., for a refrigerating and ice making plant to be erected in the hospital at the Naval Operating Base, Pearl Harbor, T. H. under Specification No. 4735. Plans and spec. may be obtained from the Commandant at the Mare Island Navy Yard on a deposit of \$10. A copy of the Notice to Contractors appears in this issue.

PALO ALTO, Santa Clara Co., Cal.—Bids will be rec until Oct. 30, 1922 at 12 o'clock by the U. S. Superintendent of Construction, Palo Alto, for fur and install window and door grilles for the U. S. Veterans Hospital at Palo Alto. Plans may be obtained from the Superintendent's office. A copy of the official proposal appears in this issue.

LIVERMORE, Alameda Co., Cal.—Bids on a trestle across the Arroyo del Valle at the U. S. Veterans Bureau hospital site and for 22,500 cubic yards of gravel were opened on Oct. 11 by Architect Matthew O'Brien, of San Francisco and sent to Washington for approval.

Bids were received from the following contractors: Chas. M. Bruce & Son, Pleasanton; Jas. Walsh, San Francisco; and Daniel O'Day, of San Francisco. C. M. Bruce submitted the lowest bid for the trestle at \$10,250 and Walsh for constructing a rock crusher and handling all the rock, sand and gravel in connection with the construction of all the buildings at \$37,000.

WASHINGTON, D. C.—Until Nov. 2, 10:30 a. m., bids will be received by Panama Canal Commission for fur and del. under circular No. 1499: Steel, rivets, bolts, nails, automobiles, section cars, moving machines, canoes, tiller rope, brass sheets and tubing, copper tubing, boiler tubes, pig tin, valves, storage batteries, glass, tires and tubes, packing, bathroom mats, celluloid paint brushes, galvanized buckets, silver-plated knives, quicklime, and alumina sulphate.

WASHINGTON, D. C.—Bids are being received by Bureau of Supplies and Accounts, Navy Department, for fur and del. materials to Navy Yards; date for opening bids as noted at end of each paragraph:

Schedule 212, for Mare Island, 100,000 feet aircraft cable, Nov. 7.

Schedule 213, for Mare Island, 4500 deck swabs, Nov. 7.

Schedule 217, for eastern and western yards, 12,800 feet cotton fire hose, 4800 feet engine and wash deck hose and 2,700 feet rubber garden hose, Nov. 7.

Schedule 218, for Mare Island, 5000 feet white oak, Nov. 7.

Schedule 220, for Mare Island, 6000 gallons mixing varnish, Nov. 7.

Schedule 221, for eastern and western yards, 188 reams emery cloth, Nov. 7.

WASHINGTON, D. C.—R. E. McKee, 1918 Texas St., El Paso, Texas, at \$141,150 awarded contract by Supervising Architect, Treasury Department, to construct six officers' quarters, 16 cottages for high class employees and 2 Mexican quarters, at Port Bayard, New Mexico. Time for completion of contract, 15 months.

VALLEJO, Solano Co., Cal.—Word has been received at the Mare Island Navy Yard that \$400,000 will be available early in 1923 to finance construction of an addition to the present hospital buildings.

SAN FRANCISCO, Cal.—A site in the vicinity of the Ferry Post Office located on The Embarcadero opposite Mission St. is being sought by the Post Office Department for a building to contain 100,000 sq. ft. to be used as an extension to the Ferry Post Office. Mr. Harry B. Hall, Postal Office Inspector, 7th & Mission St., will have charge of selecting the site and making arrangements with the owner of the property for the erection of a fireproof building to be leased to the government.

SAN FRANCISCO.—Until Oct. 20, 10 a. m., bids will be rec. by Quartermaster Supply Officer, Fort Mason, under circular No. 23-145 for fur and del.

8 red cedar poles, 7 to be 25 ft. long with 6-in. top and 1 to be 30 ft. long, 7 in. top; office supplies; filing cabinets; time clock stamps; office safe; paints and paint brushes; hammers; drills; hammer and mop handles, etc.

WASHINGTON, D. C.—The following bids were received at the Bureau of Yards and Docks, Navy Department, Washington, October 11, spec. 4601, for remodeling barracks No. 53 at the navy yard, Mare Island:

Item 1, entire work, complete; 2, add for using white oak flooring in the living quarters.
Schultz Constr. Co., 46 Kearny St.

NEWS ITEM—KENTON (O.), Oct. 1.—Because of the lack of city parks, young couples have improvised their trysting places in Grove cemetery here and every night "spooks" must go as dashing young Romeos lead their sweethearts into the graveyard.

Officials of the cemetery association are trying to break up the practice.

THIS IS a national epidemic.

AND HAS been in existence.

FOR A long time.

FOR CLARENCE Sand Pratt, President.

OF THE Pratt Building Material Co.

DOUGLAS 307—"easy to remember."

CAN REMEMBER.

WHEN HE was a small boy.

DOWN IN Tulare City.

THAT THE road.

TO THE cemetery.

WAS A popular place.

FOR SPOONING couples.

TO PARK.

ON A balmy night.

IN THE dark of the moon.

LOVERS DO not care.

FOR MOONLIGHT nights.

AND IN the Tulare cemetery.

SITTING ON the edge.

OF A tombstone.

YOU COULD find two hearts.

BEATING AS one.

AND THE Sexton, Mr. Jackson.

OF THE Tulare cemetery.

WAS A colored gentleman.

AND NOT friendly.

WITH GRAVEYARD ghosts.

SO MR. George Washington Jackson.

NEVER PATROLLED the Tulare cemetery.

IN THE night season.

SO MISS T. Loved.

AND U. R. Spoonspooner.

WERE NEVER disturbed.

WHILE SITTING on the head.

OF SOME departed friend.

SO CLARENCE Sand Pratt.

PRODUCER of clean, sharp sand.

FOR EVERY purpose.

BELIEVES THAT graveyards.

AND SPOONING couples.

WILL ALWAYS be associated.

"I THANK you."

Here is one little girl, who never spooned inside a graveyard fence. Not that Miss I. C. U. R. Black was opposed to this popular indoor sport, but because Miss Black would get nervous when graveyard ghosts walked on her feet and slapped her on her back. Clarence Sand Pratt's suggestion to a colored couple, who want to spoon in a cemetery, is to take a sack of Pratt's sharp, clean sand along and if Mr. Ghost comes near throw some sharp sand in his eyes.

The site for the structure has not been determined.

MODESTO, Stanislaus Co., Cal.—T. K. Beard, 912 11th St., Modesto, has received notification from D. M. Morris, postmaster of Modesto, to proceed with the construction of a building at 12th and I Sts., to be leased to the Government for post office quarters. A brick or concrete building will be erected at a cost of \$25,000. Will have a frontage of 60 ft. on I St., and 100 ft. in 12th St.

SAN JOSE, Santa Clara Co., Cal.—Until November 6, 11 A. M., bids will be received by Henry A. Pfister, County Clerk, to paint county court house including roof, fire wall, dome and flagpole. Certified check for 10% payable to Clerk required with each bid. Specifications obtainable from the office of the Clerk.

SAN JOSE, Santa Clara Co., Cal.—Until Nov. 6, 11 A. M., bids will be received by Henry A. Pfister, County Clerk, for furnishing and installing metallic equipment in the offices of the Tax Collector, Assessor, County Clerk and Justice Courts. Certified check for 10% payable to Clerk required with each bid. Specifications obtainable from the Clerk at San Jose.

MARYSVILLE, Yuba Co., Cal.—Yuba-Sutter Post, American Legion, backs movement to erect \$150,000 memorial building in E St., fronting Ellis Lake. Supervisors have levied direct tax providing for \$70,000 a year for such a building. Preliminary plans for the building have been made.

FULERTON, Orange Co., Cal.—Architects J. C. Austin of Los Angeles, and W. H. Austin, Long Beach, have submitted final plans for new city hall for approval by city council. The building will be two stories and basement with stucco and art stone columns and trim on exterior. Brick and concrete walls, structural steel, reinforced concrete walls, structural steel, reinforced concrete roof; skylights, hardwood interior trim, tile and cement floors. There will be a main lobby and rotunda with balcony. Cost, \$140,000.

TIA JUANA, Mexico.—According to James Wood Coffroth, president of the Tia Juana Jockey Club, a \$1,000,000 racing plant will be established at that city. Grounds will be broken Nov. 30. The course will be 1½ miles in length, and will be modeled after the famous course at Saratoga. The grandstand and clubhouse will be of steel and concrete construction, with complete electric lighting system, 1000 additional stalls, making 2000 in all. Lewis H. Falk is local publicity director. Mr. Coffroth is at present in New York.

SACRAMENTO, Cal.—Board of Education has purchased 2½ acre site on which to erect the proposed Riverside school for which \$40,000 is available. Dean & Dean, City Library Bldg., Sacramento, are the School Architects, and will probably prepare the plans.

HANFORD, Kings Co., Cal.—Until Nov. 1 8 p. m. bids will be rec. by G. W. Armistead, clerk, Hanford Joint Union High School District for fur. and oth. opera. chrs. See call for bids under official proposal section in this issue.

TULARE, Tulare Co., Cal.—Board of education plans a bond issue for an intermediate school building, six additional classrooms, for Roosevelt school, 2 additional class rooms for Wilson school, and additions to heating plants in 2 elementary schools. The issue will be for \$100,000. The election will be held this fall. Archts. are requested to submit tentative plans. Tucker-Pulver Co., San Francisco, was awarded cont. for furnishing school desks.

ALHAMBRA, Los Angeles Co., Cal.—Archts. Hunt & Burns, 701 Laughlin Bldg., Los Angeles, are completing plans for the new auditorium and academic bldg. to be erected at Alhambra high school. It will be 2-story, brick constr. and will cost about \$350,000.

MONTEREY, Monterey Co., Cal.—The following bids were received on Oct. 17 by the Board of Trustees of the Monterey Union High School District for the construction of a one-story reinforced concrete high school building.
 Norman R. Coulter, architect; Marshall A. Dean, supervising architect.

General Bids
 West Coast Constr. Co. (bid 1) \$34,797; bid 2 \$25,892; bid 3 \$60,659.
 Appleton & Davis, 1, \$39,177; 2, \$23,315; 3, \$62,000.
 Schitz Constr. Co., 1, \$37,250; 2, \$26,500; 3, \$62,700.
 Fred McCreary, 3, \$63,246.
 Hannah Bros., 1, \$37,462.50; 2, \$25,785.50; 3, \$63,248.
 Dorsett-Ruhl Co., 3, \$64,798.
 James L. McLaughlin, 1, \$35,500; 2, \$26,500; 3, \$65,000.
 Collman & Speidel, 3, \$68,221.
Sub-Bids:

Sub-Bids
 Appleton & Davis (Gen) Bid 4 (electric), \$1130; bid 5 (plumbing), \$3974; bid 6 (heating), \$37,350.
 Hannah Bros. (Gen) 4, \$2132; 5, \$3606; 6, \$3500; alternate, \$2800.
 Fred McCreary (Gen) 4, \$1780; 5, \$3973.20.
 West Coast Constr. Co. (Gen) 4, \$2480; 5, \$4750.

Schultz Constr. Co. (Gen) 4, \$15650; 5, \$3790.
 Dorsett-Ruhl Co. (Gen) 4, \$2290; 5, \$3859; 6, \$4692.
 J. C. Price (Sub) 5, \$4200; 6, \$3812.40; alternate, \$6402.80.
 Pierce & Towle (Sub) 5, \$3973.20; 6, \$3798; alternate, \$5567.
 Almonty Elec. Shop (Sub) 4, \$1050.
 Light & Heat Shop (Sub) 4, \$1129.
 Gilley-Schmid (Sub) 6, \$4541; alternate, \$6990.
 W. H. Picard (Sub) 6, \$3739; alternate, \$5889.

The low bids are marked *, as will be noted. The low bid given by General Contractor on the Plumbing will not stand as they stipulated they would not take any sub-bids without the General Bid.

All bids have been taken under advisement until Wednesday, October 18, at 3 o'clock, when a Board Meeting will be held.

The Architects and the Board wish to thank the Contractors for the trouble they have been put to in figuring the work and regret they could not all have been successful bidders.

EXETER, Tulare Co., Cal.—Bids were opened by the Board of Trustees of the Exeter Union High School District on Oct. 11 for the constr. of three reinforced, high school buildings. W. H. Weeks, 381 Pine St., S. F., is the architect. Contracts were awarded as follows: General contract to Campbell Constr. Co., 3525 "J" St., Sacramento, on Proposition No. 2; plumbing to Latourrette-Fical Co., of Sacramento, at \$6750; painting to R. Zelinsky, 180 Jessie St., S. F., at \$417; heating to R. Zelinsky, S. F. Co. The locker bids were rejected and will be purchased later by the Board.

Bids were called for electrical work to be opened on Nov. 10.

Official Proposals

NOTICE TO BIDDERS

Turlock Irrigation District and Modesto Irrigation District, Stanislaus and Merced Counties, California, Joint Storage Works, Spillway Gates, Don Pedro Dam.

Sealed proposals will be received at the office of the Turlock Irrigation District at Turlock, California, until 3 o'clock p. m., November 3, 1922, for the manufacture and delivery of the Spillway Gates of the Don Pedro Dam in Tuolumne County, California, involving the furnishing, fabricating and delivery of about 225 tons, principally of riveted steel plates and structural shapes, but including steel castings, iron castings, small sluice gates and hoists, welded steel pipe, large cast iron pipe fittings and pipe railings.

Detailed plans and specifications will be furnished upon application accompanied by a deposit of \$100 to be returned to the successful bidder and to all others upon the return by them of the plans and specifications in good condition.

The contract will be let to the lowest responsible bidder, but the Board reserves the right to reject any or all bids. Early delivery is important and the guaranteed time of shipment will be considered in the awarding of the contract.

Bidders may submit bids upon any or all schedules, but no proposal will be considered for any part of a schedule.

Each proposal must be accompanied by a certified check for 5 per cent of the amount of the bid, payable to the Treasurer of the Turlock Irrigation District for the benefit of said districts as a guarantee that the bidder will, if successful, execute a satisfactory contract and furnish a bond in the sum of not less than 25 per cent of the amount of his bid for the faithful performance of the work in accordance with the plans and specifications, said bond to be subject to the approval of said Boards.

The proposal must be marked, "Proposal for Spillway Gates" and addressed, "Turlock Irrigation District and Modesto Irrigation District, Turlock, California."

Done in pursuance of orders of the Boards of Directors of the Turlock Irrigation District and the Modesto Irrigation District, this 10th day of October, 1922.

ANNA SORENSON,
Secretary of the Turlock Irrigation District.

C. S. ABBOTT,
Secretary of the Modesto Irrigation District.

BIDS WANTED FOR WINDOW AND DOOR GRILLES

NOTICE TO CONTRACTORS

TREASURY DEPARTMENT. Supervising Architect's Office, Washington, D. C., Oct. 7, 1922.

SEALED PROPOSALS will be opened in this office at 3 p. m., and in the office of the Superintendent of Construction, Palo Alto, Calif., at 12 m., Oct. 30, 1922, for furnishing and installing window and door grilles for the United States Veterans Hospital at Palo Alto, Calif. Drawings and specifications may be obtained from the Superintendent of Construction at Palo Alto, Calif., or in this office in the discretion of the Supervising Architect, Jas. A. Wetmore, Acting Supervising Architect.

TO CALL BIDS FOR REFRIGERATING PLANT, ETC.

NOTICE TO CONTRACTORS

SEALED PROPOSALS, indorsed "Proposals for refrigerating and ice-making plant, Naval Operating Base (Hospital), Pearl Harbor, T. H., Specification No. 4735 will be received at the Bureau of

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

Yards and Docks Washington, D. C. in the near future. The work consists of refrigerating and ice-making equipment, using as refrigerant any satisfactory substance except ammonia, and consisting of two-motor-driven compressors, condenser, liquid receiver, two motor-driven brine pumps, a motor-driven circulating water pump, a combination freezing and brine-cooling tank with expansion coils, a water pre-cooler tank with coils, a pressure filter, brine agitator, water agitating system by compressed air, automatic can filler, hand-operated crane, automatic can dump and ice chute, ice cans, oil and scale traps, piping and other accessories; also brine piping for existing cold storage rooms and cook's hobs and the construction of an ice-storage room in the Subsistence Building. The capacity shall be 3000 pounds per 24 hours. Drawings and specification No. 4735 may be obtained on application to the Bureau of Yards and Docks, Navy Department, Washington, D. C., Commandant, Navy Yard, Mare Island, California, or to the Commandant, Naval Operating Base, Pearl Harbor, T. H. Deposit of a check for postal money or order for \$10.00 payable to the Chief of Bureau of Yards and Docks is required as security for the safe return of the drawings and specification within five days after the award of contract.

NOTICE TO CONTRACTORS

(Sequoia Union High School District—3 1-story reinforced concrete structures; estimate \$300,000)

Notice is hereby given that sealed proposals will be received by the Secretary of the Board of Trustees of the Sequoia Union High School District, Redwood City, San Mateo County, California, until Saturday, the 18th day of November, 1922, up to and until the hour of 1 o'clock of said day when the said bids will be opened at the office of said clerk, in the office of the Sequoia Union High School, Redwood City, California, for the erection and completion of the new Sequoia Union High School buildings on the property lately acquired by the said district located in Redwood City, California, according to plans and specifications prepared for the same by Werner and Coffey, architects, San Francisco, California.

Separate bids will be received for:

- The general work.
- The plumbing work.
- The heating and ventilating work.
- The electrical work.
- The plastering work.
- The blackboards in place.

Notes: Contractors may submit bids including any or all of the segregated portions of the work.

A copy of plans and specifications of said work are on file at the office of the principal of the Sequoia Union High School, Redwood City, Calif., and at the office of the Architects, Werner & Coffey, 312 Humboldt Bank Bldg., San Francisco, California.

On a deposit of \$25.00 complete plans and specifications may be had by any prospective bidder and said deposit money will be returned if said plans and specifications are returned in good order and a bona fide bid is submitted.

Bids must be made on forms obtained at the office of the Architects and be signed by the bidder, accompanied by a certified check for at least 10 per cent of the amount of the bid or proposal certified to by responsible bank or banker and made payable to D. E. O'KEEFE, secretary of the Board of Trustees of the Sequoia Union High School District, to be retained by said school district as agreed and liquidated damages should the party or parties to whom the contract or contracts be awarded fail to enter into the contract after award or to give bonds required for the faithful performance of the contract or any bond required by law.

The Board reserves the right to reject any or all bids, or any or all items of such bids.

P. BEHRENS, President
D. E. O'KEEFE, Secretary
Board of Trustees Union High School District, Redwood City, California.

BIDS WANTED FOR ELECTRICAL & PLUMBING WORK

ATTENTION CONTRACTORS BIDS WANTED

The Board of Trustees of the Selma Union High School District hereby invite sealed bids for the furnishing of labor and materials and the erection and completion of a Masonry Science Hall, according to plans and specifications of the District's architect, Norman P. Marsh.

Bids for the several sections of the work will be called for as follows:

Electric Contract.

BIDS WANTED FOR HIGHWAY IMPROVEMENT

NOTICE TO CONTRACTORS

Sealed proposals will be received by the undersigned on November 8, 1922, for constructing portions of the State Highway System as follows:

(1) Bids received until, and opened at 1:30 p. m., for grading, construction of culverts and placing gravel surface, in Humboldt County, between the south county line and Winnemucca.

(2) Bids received until, and opened at 2:30 p. m., for grading, construction of culverts and placing gravel surface, in Lyon and Churchill Counties, between 2.8 miles East of Fernley and Hazen.

(3) Bids received until, and opened at 2:30 p. m., for placing gravel surface in Churchill County, between 12 miles East of Salt Wells and Sand Springs.

Plans may be examined and form of Proposal, Contract and Specifications secured at the office of the undersigned; may also be examined at the County Clerk's office in Winnemucca for Humboldt Co. work in Yerington and Fallon for Lyon and Churchill County work. May also be examined at the Division Engineer's office in Las Vegas, Elko or Reno, and District Office of Bureau of Public Roads, Mills Building, San Francisco, California. Cash deposit of Fifteen dollars (\$15.00) with the undersigned required for copy of plans which will be refunded on their return in good condition. Bids must be on Proposal form of Highway Dept. and must be accompanied by a certified check in the amount of 5% of the bid.

Each bidder must accompany his bid with a certificate from a Surety Company, duly authorized to do business in this State, stating that such Surety Company will provide said bidder with a bond in such sum as is required and in accordance with the provisions of said Specifications, conditioned for the faithful performance of the provisions of the Contract and Specifications.

Right is reserved to reject any or all bids.

GEO. W. BORDEN,
State Highway Engineer,
Carson City, Nevada.

NOTICE TO BIDDERS

(Opera Chairs)

At the regular meeting of the Board of Trustees, Hanford Joint Union High School district, held Monday evening, October 9, 1922, at the regular place of meeting, motion was made and carried that the Clerk of the Board advertise for bids to furnish opera chairs to complete seating the lower tower and for the required number to fully equip the gallery of the new Hanford Union High School as follows:

145 or more Opera Chairs with backs constructed with seven ply birch veneer, 3/4 inch thick; seats five ply birch veneer, 2-16 inches thick. Chairs mounted on metal standards and must conform with those now in the auditorium of the high school.

200 or more opera chairs for gallery. Any good opera chair may be submitted for consideration.

Prices on the above include installation. A certified check for 10 per cent of the amount of the bid must accompany the same.

The board reserves the right to reject any or all bids. All bids must be delivered to G. W. Armstead, clerk of the board, at his office in the Southern Pacific Freight Station, Hanford, Calif., or delivered in person at the office in the high school building on or before 8:00 p. m., Wednesday, November 1, 1922 at which time bids will be opened.

G. W. ARMSTEAD,
Clerk of the Board of Trustees.

BIDS WANTED FOR ADDITION TO SAN JOSE POST OFFICE

NOTICE TO CONTRACTORS

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C., Oct. 13, 1922.

SEALED PROPOSALS will be received at this office until 3 p. m., Nov. 7, 1922, and then opened for an extension to the building and driveway, at the United States Post Office at San Jose, Calif., in accordance with the specification and drawings mentioned therein. Copies of which may be had at this or at the office of the Custodian, in the discretion of the Supervising Architect, Jas. A. WETMORE, Acting Supervising Architect.
